## 3-SPEED BAND SAWS

Metal-cutting band saws Nos. 6Y002 and 6Y942 have three speed ranges: 80, 150, and 200 SFPM for cutting steel, cast-iron, and nonferrous metals. For tool and die makers and machine shops and machinists. No. 6Y002 is 15"; No. 6Y942 is 18".

All steel unibody construction. Precision ground cast-iron table tilts 45° and has miter gauge slot. Can be used for contour, bevel, straight, or resaw cutting. Rack and pinion adjusts upper blade guides to workpiece height. Built-in 4" exhaust port on wood-cutting saw, and chip chute on metal cutting saws. All saws feature rip fence, miter gauge, and wheel cleaning brush. No assembly necessary other than motor and worktable.

Motors not included. Order 3/4 HP, 1725 RPM, 56 NEMA frame rigid mount motor No. 6K639 for 15" band saw No. 6Y002 and order 1 HP, 1740 RPM, 143T NEMA frame rigid weld mount motor No. 6K827 for 18" band saw No. 6Y942.

## VARIABLE-SPEED BAND SAWS

**Metal-cutting Band Saws Nos. 2AC27 and 4TK02** offer precision cutting for tool and die makers, machine shops, and production work.

**Speed infinitely variable** from 80 - 350 FPM for No. 2AC27 and 82 - 384 for No. 4TK02 for cutting ferrous and nonferrous metals.

**No. 4TK02 includes** front mounted blade welder and grinder.

**Selection guide helps determine blade type** and speed for most metals. Industrial rated heavy-duty speed reducer; heavy gauge steel construction; cast-iron pulleys and table; rubberized cast-iron wheels; upper and lower carbon carbide blade guides.

**Features: push-button magnetic switch** with safety "Off" button, tilting worktable for angle cuts, built-in chip chute, eye bolt for moving, and flange mounting brackets for securing to the floor. Includes cleaning brush and chip blower. No. 2AC27 for 230V use, No. 4TK02 for 110/230V use.

**Motor not included with No. 2AC27**; order 1 HP, 1725 RPM, 56H NEMA frame, rigid weld mount motor No. 5K921.

**No. 4TK02 includes** 1 HP, 1725 RPM, 110/230V motor, prewired for 110V. Bandsaw comes completely assembled.

# WOOD-CUTTING BAND SAWS

## DAYTON 14" BAND SAW—WOOD CUTTING

No. 4TJ91

For contour cutting, straight cutting or resawing. Comes with saw stand, blade, blade guard, arbor, exhaust port, motor pulleys, drive belts and aluminum wheels. Table tilts 45° for bevel cutting. Upper and lower guides adjust independently to micrometer accuracy.

Cuts at 2000 and 2600 SFPM. Table is grooved for miter gauge and machined for rip fence. Direct reading blade tension scale.

Comes with 3/4 HP motor and stand. Includes basic machine; open steel stand with 3/4 HP, 115V, 60 Hz, 1725 RPM, single phase, capacitor start motor; 8 ft. cord and 115V grounding type plug; remote control On-Off toggle switch and cord connected to motor; chip chute; wheel, blade and belt guards; arbor and motor pulleys; V-belt; blade guides; and wood cutting blade.

***New* No. 4TJ91.** 14" Wood Cutting Band Saw. Shpg. wt. 159.0 lbs. List $675.00. Each.....**$415.00▲**

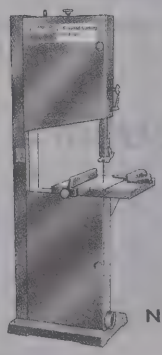
## 2-SPEED BAND SAWS



**Wood-cutting Band Saws Nos. 2AC28 and 2AC29** have two speed ranges: 3000 SFPM for cutting soft woods and other light material; 2000 SFPM for hardwoods and plastics. For cabinet makers, pattern makers, and carpenters. For 115V use. No. 2AC28 is 15"; No. 2AC29 is 18".

All steel unibody construction. Precision ground cast-iron table tilts 45° and has miter gauge slot. Can be used for contour, bevel, straight, or resaw cutting. Rack and pinion adjusts upper blade guides to workpiece height. Built-in 4" exhaust port on wood-cutting saws, and chip chute on metal cutting saws.

**All saws feature** rip fence, miter gauge, and wheel cleaning brush. No assembly necessary other than motor and worktable.

# 5 x 8" METAL-CUTTING BAND SAW, SUPPORT STAND AND BENCH MODEL COLD SAW

## 5 x 8" METAL-CUTTING BAND SAW

**Cuts metal, plastic, or wood in horizontal cutting position.** Gear reduction drive assembly is sealed in an oil bath to ensure continual lubrication for drive train assembly, which consists of a steel heat treated worm gear driving a bronze mating gear. Blade guide assembly consists of two ball bearings mounted on an eccentric shaft and a ball bearing rear guide. Outboard and rear guides adjust to maintain proper blade alignment. Equipped with a hydraulic feed which is assisted by an adjustable counter balancing spring resulting in longer blade life and more accurate cuts.

**Solid cast-iron construction of both head and bed** minimizes deflection, increases accuracy, and provides overall durability. Other features include blade tension and tracking control. OSHA specified blade guard, automatic shutoff, adjustable workstop and 45° swivel vise.

**Available in both wet and dry models.** The wet cutting band saw gives the most efficient operation and provides faster chip removal. Submersible centrifugal coolant pump operates in a one gallon tank; the pump is driven by a fan cooled thermally protected, 115V, 60 Hz single phase motor. A steel coolant trough runs the full length of the base to minimize oversplash. Powered by 1/2 HP, 1725 RPM, 115V, 60 Hz capacitor start motor.

**Shipped complete** with motor, blade, belt, 3-step pulleys, and 3-conductor cord set. Hose, shut-off valve, and spray nozzle are included. Stand and coolant components are shipped unassembled. Coolant not included, order synthetic metal-working coolant No. 4F745. Replacement blades are 5'8" long, 1/2" wide and 0.025" thick. (Sold below).

# 6 X 10" METAL-CUTTING BAND SAW AND ARBOR PRESSES

## 6 x 10" METAL-CUTTING BAND SAW

Wilton 4-speed horizontal cutoff band saw for machine, maintenance and fabricating shops. Unit has cast design to provide reliable performance. Also offers the versatility of a vertical cutting feature.

**Adjustable blade guides** give full blade support. Adjustable roller bearings mounted on eccentric shafts provide proper alignment to deliver clean, accurate cuts.

**Hydraulic feed system** can be adjusted according to material and hardness, providing a smooth clean cut.

**Oil bath drive train** provides constant lubrication to internal moving parts. Gear reduction assembly uses a steel, heat-treated worm, driving a bronze worm gear to provide smooth, quiet operation.

**Other features include** blade tension and tracking control, OSHA specified blade guard, automatic shutoff, adjustable workstop, and 45° swivel vise.

**Rapid acting 45° vise** delivers quick and secure clamping of the workpiece. Adjusts easily for miter cutting.

**Saw can be operated** in both horizontal and vertical position. Vertical table is standard with each machine.

**Shipped complete** with 3/4 HP, 1725 RPM, 115/230V, 60 Hz single phase motor. Wired at factory for 115V operation. Also includes blade, belt, 4-step pulleys, and 3-conductor cord set. Stand and coolant components are shipped unassembled. Coolant not included, order synthetic metal-working coolant No. 4F745.

## SYNTHETIC METALWORKING COOLANT

- **For machining operations such as drilling, turning, milling, grinding and tapping requiring friction reducing coolants**
- **2.5 gallon container**
- **Viscosity (SUS@100°F): 2031**
- **Flash Point: 305°F**
- **Pour Point: 20°F**
- **Mobil brand**

Mobil®

Non-toxic, bioresistant synthetic based soluble oil which, when added to water forms an effective metalworking coolant. Use with a wide range of ferrous and non-ferrous alloys. Optimal 5% concentration, with water, emulsifies spontaneously. Has good resistance to foaming and provides effective protection against rust. Does not contain halogens, sulfur, chlorine, biocides, phenols or nitrites. Proprietary formula requires less monitoring due to 250 day batch life and high resistance to bacterial growth. **NOTE: Add coolant to water. Do not add water to coolant.**

**No. 4F745.** (Mobilmet® Aqua Rho). Shpg. wt. 21.0 lbs. List $123.84. Each.....$104.95

# 7" x 12" METAL-CUTTING BAND SAW AND SUPPORT STAND

## 7" x 12" METAL-CUTTING BAND SAW

**Wilton heavy-duty 7 x 12" horizontal band saw** is built to deliver fast, accurate cutting on all types of materials.

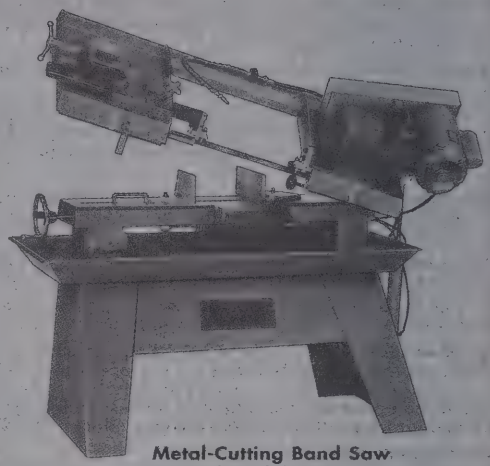
**Heavy-duty, rigid steel construction** of head and base provides full blade support and eliminates vibration and deflection.

**Precision blade guides provide full roller support** and ensure proper blade alignment. Each assembly combines two cam follower side bearings with hardened races and a ball bearing rear guide. Outside cam follower bearing is mounted on an adjustable eccentric shaft. Upper blade guide is secured to a rigid adjustable precision slide maintaining full blade support whether fully extended or retracted.

**Gear power train utilizes a hardened steel worm shaft** supported at each end with tapered roller bearings driving a precision bronze worm gear in an oil bath. Delivers consistent speed to the blade resulting in longer blade life.

**Feed system combines a variable rate hydraulic feed** which is assisted by an adjustable counter balancing spring. This system delivers a smooth consistent feed rate resulting in longer blade life and greater accuracy. All controls are conveniently located for easy accessibility.

**Rapid-acting vise** with conventional tightening. Stationary jaw is secured with three bolts even when miter cutting at 45°.



**Coolant system** consists of a large three gallon reservoir with a submersible thermally protected centrifugal pump. Designed for easy access for simple maintenance. Each machine is also equipped with an adjustable wire brush and rubber wiper to aid in removal of chips from blade. Coolant not included, order synthetic metalworking coolant No. 4F745, see page 2777.

**Shipped complete** with 3/4 HP, 1725 RPM, 115/230V, 60 Hz, single phase motor, blade, coolant system, belt, and four step pulleys. Machine shipped assembled. Wilton brand (3575T).

**No. 3Z518.** Wilton brand (3575T) Shpg. wt. 551.0 lbs. List $2965.00.
Each .....$2600.00▲

# 10" x 16" WET METAL-CUTTING BAND SAW

WILTON CORPORATION

Replacement Parts Available 1-800-323-0620

- Superior structural integrity
- 6 Point ball bearing and carbide blade guides
- Precision blade tension adjustment
- 3 Jaw rapid-acting vise
- Recirculating coolant system
- Hydraulic feed control
- Variable speed drive
- Swivel control panel

FREE DELIVERY on orders of $900 or more!
See Freight Policy

No. 4KM95

**Performance and innovation** are key with this ruggedly built horizontal general purpose wet band saw. This machine delivers accurate, fast cutting on a regular basis and is ideal for cutting ferrous and non-ferrous materials, solids, tubing and sectionals.

**Equipped with an exclusive swivel control panel** which allows the operator to use the machine from the front or back of the saw. Other exclusive features include the 6 contact point blade guide assemblies with coolant fed through the guides. These adjustable guides utilize cam follower bearing and carbide pads with each guide having 6 contact points with the blade for greater accuracy and longer blade life. Plus a rapid acting 3 jaw vise for simple, fast, accurate set up for both straight and miter cuts.

**Heavy-duty 1.5 HP, 1750 RPM motor,** coupled with a heavy-duty transmission of hardened and ground gears operating in an oil bath transmits smooth positive power to the blade. A variable speed drive system allows the operator to fine tune the blade performance. Machine also comes standard with coolant system, hydraulic feed system and deluxe work stop.

**No. 4KM95.** 10 x 16" Wet Metal Cutting Horizontal Band Saw with 1.5 HP, 1 phase, 115/220V motor with magnetic controls and 110V at switch. Wilton brand (7020). Shpg. wt. 725.0 lbs. Each.....$4995.00▲

# SELECTING A PARTS WASHER

**Parts washers are designed to clean parts in industrial plants, factories, automotive and truck repair stations, machine shops, print shops, and other maintenance facilities.**

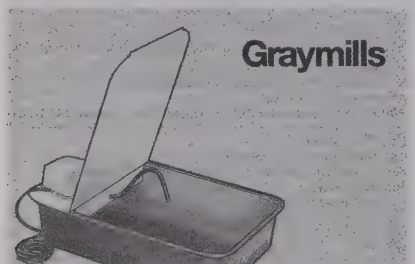
**Consider the size and weight of the parts or batch of parts to be cleaned.** Choose a parts washer with a tank size to accommodate the part or parts.

If you are cleaning a large volume of parts, automatic parts washers reduce labor time and cost. Manual parts washers are ideally suited for lower volumes.

**Decide if the parts need to be presoaked to remove soils.** Tough oils, grease and hard to remove soil may need presoaking. Most parts washers provide effective presoaking capabilities.

**Choose the type of cleaning compound you require.**

Organic soils like oils, grease, and soft carbons are effectively removed with Super Agitene cleaning solvent No. 2W352. Use Super Agitene in solvent recirculating parts washers only.



Inorganic soils such as epoxies, paints, processing compounds and corrosion are effectively removed with water-based Aquatene solutions No. 5W274 or 5A343. Aquatene must be used in heated parts washers.

## SOLVENT RECIRCULATING PARTS WASHERS

**Well suited for removing organic soils such as oils, grease and soft carbons.** In most models, parts are placed on removable, sloped metal work shelf above the solvent. (In some Handi-Kleen parts washers, parts may be placed at the bottom of the tank.) The pump circulates fluid from the tank through a flexible hose and nozzle, allowing the parts to be sprayed and cleaned. Parts can be soaked under the work shelf or at the bottom of the tank. Drain allows easy cleaning. Exclusive, Factory Mutual approved, automatic fusible link fire cover. In the event of a fire, the fusible link melts at 165°F, automatically closing the cover. Pump has no bearings in liquid, or seals to leak. Use Graymills Super Agitene solvent No. 2W352 (see page 1523). **Do not use chlorinated or flammable solutions.**

## HEATED WATER-BASE DETERGENT PARTS WASHERS

**Well-suited for removing inorganic and organic soils such as paints, epoxies, and processing compounds.** Heated parts washers heat Aquatene water-based cleaning solutions for effective soil removal. Aquatene meets EPA standards and is biodegradable. For proper, easy disposal of Aquatene solution, use detergent neutralizing powder and oil absorbant pads. Check with your local and state authorities for their specific regulations for disposal. Aquatene solutions, neutralizing powder and pads are sold on page 1525.

# SOLVENT RECIRCULATING PARTS WASHERS

## BENCH TOP PARTS WASHER/SOAK TANK

Compact unit combines industrial-grade construction and safety with bench top convenience. Includes Factory Mutual approved fusible link fire cover. In event of fire, fusible link melts at 165°F automatically closing cover.

**A solvent-resistant thermoplastic centrifugal pump** recirculates solvent through a hose to assist parts cleaning. Tank capacity is 2-5 gallons. Pump will operate with as little as 2 gallons of solvent in the tank. Powered by 115 volt, 60 Hz, single phase motor. 6 ft., 3-wire cord and plug.

**Steel tank.** Three clips hold cover securely to tank yet remove easily for maintenance. Dimensions: 23½L x 15½W x 6"D. Soaking depth 3¾". Graymills brand (EC-A).

**Use with Super Agitene cleaner No. 2W352** (not included; see page 1523). Do not use with chlorinated or flammable liquids.

**No. 4Z949.** Shpg. wt. 18.0 lbs. List $147.00. Each ..... $134.95

# DRUM-MOUNTED PARTS WASHER

- **5-10 or 10-20 gallon drum models**
- **100W work light**
- **Flexible metal flush hose adjusts to any position**
- **Factory Mutual approved**
- **Patented retractable pump speeds fluid changeovers and prevents pump damage**
- **Operates on standard 115V, On/Off switch, 6 ft., 3-wire cord and plug**

**Units plug into 115V outlet** and require minimal maintenance. No. 3Z901 operates with a minimum of 5 gal. of solvent, 10 gal. max.; No. 3Z986 operates with a minimum of 10 gal. of solvent, 20 gal. max. Parts are placed in durable 16 gauge metal tank.

**Use with Super Agitene cleaner** No. 2W352 (not included; see page 1523). Unit cannot be used with chlorinated or flammable liquids.

# SOLVENT RECIRCULATING PARTS WASHERS AND ACCESSORIES

## WASHER/SOAK TANKS

- Flexible metal hose adjusts to any position
- Include approved fusible link fire cover. In event of fire, fusible link melts at 165°F automatically closing cover
- Work shelves support parts above fluid level; remove easily for access to soak tank
- Solvent is continuously filtered through easily removed sludge collectors or filter baskets
- Rugged steel tanks have bottom drains for easy cleanout
- 115V, 60 Hz, single phase motor with 6 ft., 3-wire cord and plug
- Factory Mutual approved

**8½-15 Gallon Recirculating Washer No. 3Z746.** Comes with one-piece work tray that provides work area over tank. 6" soaking depth below shelf.

**15-42 Gallon Air Agitated Washer No. 3Z814.** Air agitation assists in loosening caked-on dirt, grease, and grime. Removable grated work shelf keeps parts off tank bottom, exposing all sides to cleaning action. Hanging parts basket is included for storage of brushes and small parts. Two removable sludge trays for easy clean up. Requires air flow of 2 SCFM at 50 PSI. 10" soaking depth. Use with Super Agitene Cleaner No. 2W352 (sold separately below). **Do not use with chlorinated or flammable liquids.**

## CLEAN-O-MATIC WASHER/SOAK TANK

- 16½" soaking depth
- Flexible metal flush hose adjusts to any position
- Auxiliary neoprene flush hose with pistol grip nozzle provides up to 18 GPM adjustable spray
- 3-way selector valve permits using pump, metal flush hose, or pistol-grip nozzle simultaneously or singly as desired
- Solvent flow-through on both hoses is continuously filtered through washable 40-mesh screen filter
- Includes Factory Mutual approved fusible link fire cover. In event of fire, fusible link melts at 165°F, automatically closing cover
- Removable sludge trays and bottom drain for easy tank cleanout
- Recessed On-Off switch and indicator lamp
- Graymills brand

Ruggedly constructed for years of trouble-free cleaning service, 50-85 gallon recirculating washer has bi-level work shelves which permit parts to be positioned both above and below the cleaning solution. Hydro-jet pump circulates 40 GPM of cleaning fluid through a manifold to loosen dirt and grime as parts soak. 115V, 60 Hz, single phase 1/3 HP motor with 6-ft., 3-wire cord and plug. Overall dimensions: 41⅜L x 29⅜W x 34"H (64"H with cover raised). Graymills brand.

## Graymills ACCESSORIES FOR SOLVENT RECIRCULATING PARTS WASHERS

### SUPER AGITENE CLEANING SOLVENT

**A clear green parts cleaning solvent** with a mild fresh odor for use in Graymills parts washers. Cleans fast, Lanolin formulation reduces chances of skin irritation and chapping. Cleaner is stable and will not corrode metals. Flash point is 110°F. Five gallon container. Graymills brand (Super Agitene).

**No. 2W352.** ❶ ❸ Shpg. wt. 35.0 lbs. List $45.00. Each.....$44.50

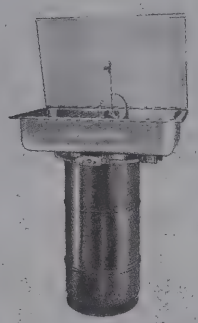
### PARTS CLEANING BRUSH

**Designed for tough parts cleaning.** Won't ball up, flare out, or get flabby. Made of 2½" crimped nylon bristles with tapered wood handle. Graymills brand (Type 3B).

**No. 1A190.** Shpg. wt. 0.2 lbs. List $5.43. Each.....$5.24

### FLOW-THRU BRUSH

**Provides solvent flow where needed.** Fluid flows through 2 ft. hose and out heavy-duty nylon brush. Can be used instead of flexible metal flush hose on all Graymills Handi-Kleen parts washers except No. 4Z949. Graymills brand (6A).



**No. 5A342.** Shpg. wt. 0.5 lbs. List $19.05. Each.....$18.57

Replacement Parts Available 1-800-323-0620

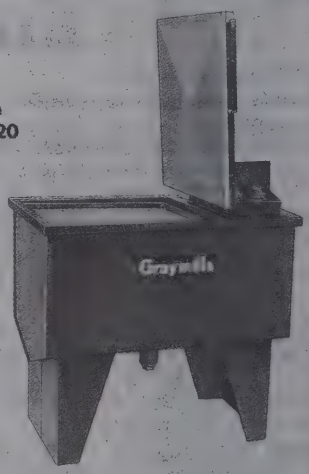
No. 6Z509 8-12 Gallon

## HEATED DRUM MOUNTED PARTS WASHER

**Solution is circulated at 115°F** from the heated 16 gallon drum (included) to the stainless steel tank (28 x 16 x 6½") through a flexible hose. Contaminated solution returns through the disposable filter bag and is reheated and recirculated. Unit must be used with Aquatene cleaning solution No. 5W274 (see page 2951) or other water based cleaning solutions. Do not use with solvent based cleaning solutions.

**Stainless steel tank and cover.** 1500 watt electric immersion heater with On-Off Switch, submersible pump with On-Off Switch. 115 volt, 60 Hz. 8 ft. cord and plug. Flexible plastic hose and nozzle, filter bag and polybag drum liner. Overall dimensions: 31L x 19W x 55½"H. Graymills brand (DH226-A).

**No. 6Z509.** Shpg. wt. 45.0 lbs. List $815.00. Each.....$756.00



## LIFTKLEEN HEATED PARTS WASHER/SOAK TANK

- 12" soaking depth
- Automatic–immersion cleaning
- Pneumatic lift platform agitates vertically at 60-80 strokes per minute—flushes away dirt and grime from every surface, even blind holes and recesses
- All sides insulated for maximum heat efficiency
- Easy loading/unloading. Push button controlled lift platform holds 125 lbs. Operates on standard shop air (50 PSI minimum to 100 PSI maximum)
- Uses nonflammable Aquatene No. 5A343 (see page 1525) heated water-based detergent solution for effective cleaning and ease of disposal
- 4KW heater. Heats cleaning fluid up to 180°F for greatly increased cleaning efficiency. 60-180°F range. On/Off switch. 8 ft. cord and 230V AC plug
- Optional turbo jet stream pump agitation unit No. 6Z607 (see below) circulates 3000 GPH. Combines dual action of agitating platform and pump, circulating the Aquatene to speed cleaning time up to 40%
- Platform measures 22 x 19"
- Easy cleanout. V-shaped bottom with 2" drain
- Overall machine dimensions: 38⅞L x 24½W x 66"H
- Graymills brand (TH2420SL)

**No. 5Z057.** Shpg. wt. 255.0 lbs. List $2385.00. Each.....$2242.00

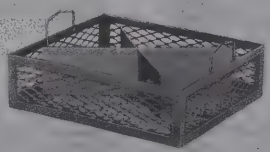
## OPTIONAL ACCESSORIES FOR LIFTKLEEN PARTS WASHER

### STEEL PARTS BASKET

With handles and removable dividers. 22 x 18 x 6". Graymills brand.



**No. 6Z605.** Shpg. wt. 26.0 lbs. List $210.00. Each.....$198.25

### PUMP AGITATION UNIT

1/3 HP centrifugal pump circulates 3000 gallons/hour of liquid in the tank. Use if additional cleaning agitation is required. Unit drops into top of tank and is held in place with 3 bolts. Cord on motor plugs into receptacle in control box. On-Off switch on motor. Graymills brand.

**No. 6Z607.** Shpg. wt. 48.0 lbs. List $828.00. Each.....$813.00

Graymills

No. 6Z605 Steel Parts Basket

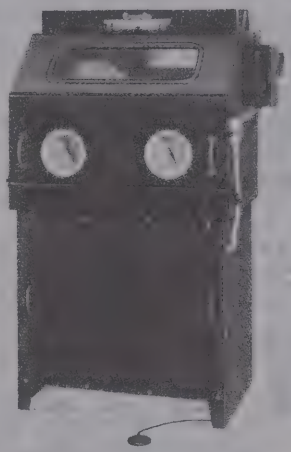
No. 6Z607 Pump Agitation Unit

# HIGH PRESSURE SPRAY PARTS WASHER CABINET AND CLEANERS

**For industrial applications** such as: compound removal, batch cleaning of machined parts, blind hole cleaning, metal chip removal, machine and cutting oil removal, tool and die maintenance, and pneumatic and hydraulic cylinder cleaning. For automotive applications such as: transmission parts and assemblies, engine blocks, oil pumps, diesel injectors, wheel bearings, cylinder heads, valve covers, pistons and rocker arms.

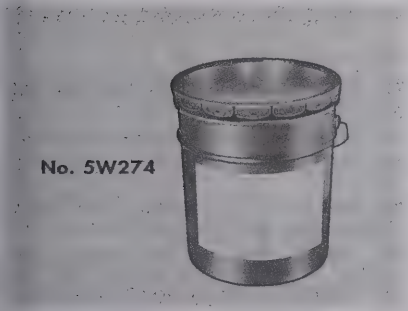
**Combines cleaning power of heated, water-based industrial detergent with scouring action of concentrated high pressure spray.** 400 PSI of cleaning power strips away toughest automotive and industrial soils in seconds. Foot pedal controls power to pump, freeing hands to direct scouring spray where needed. Employs 1000-watt heater and uses water/detergent mixture. Can effectively clean precision parts like bearings and valve bodies without damage.

**By using rugged neoprene gloves, worker's hands never come in contact with dirty parts or chemicals.** Convenient working height and well-lighted cabinet. Tempest parts washer uses Aquatene solution No. 5A343, an alkaline detergent powder that mixes with water. Easily accessible 10 gallon fluid reservoir. Graymills brand (Tempest 10).



**No. 5Z150.** Shpg. wt. 345.0 lbs.
List $4085.00. Each ..... $4023.00

## TEMPEST HIGH PRESSURE SPRAY CABINET



- Heated detergent model
- 3/4 HP piston pump delivers 2.2 gals. of filtered cleaning solution per minute at 400 PSI pressure. Single phase 115V power required
- #150 mesh filter bag traps metal chips and other solids
- "Dead Man" switch cuts power to window blower and pump when door is open
- Rugged neoprene gloves protect hands yet flexible enough to easily handle parts
- Thermostatically controlled (operating range: ambient to 115°F)

Graymills™ Replacement Parts Available 1-800-323-0620

## AQUATENE BIODEGRADABLE ALKALINE CLEANERS FOR HEATED PARTS WASHERS

No. 5W274

- Aquatene cleaners mix with water to form a nonflammable detergent-action cleaning solution
- Formulated to remove oils, greases, soft carbon, corrosion, oxides, varnishes, machining and finishing compounds
- Safe for use on ferrous and nonferrous materials including aluminum
- May be used to clean materials—most rubbers and elastomers which would be damaged by solvents. (Plated materials should be trial cleaned to test compatability)
- Minimize hazardous waste disposal. Treat used solution with oil absorbent pads and detergent neutralizer, listed below, to permit sewer disposal; check local codes for disposal regulations
- Available in two formulations, liquid concentrate and powder compound

### AQUATENE 330

Recommended for use in Graymills Heated Drum Mount Parts Washer and Tempest models. General purpose cleaner in liquid concentrate form. Mixed at 4 to 9 parts water, it may be used at room temperature or heated for faster cleaning action. Five gallon pail. Graymills brand. (Aquatene 330-CS).

**No. 5W274.** ❸ Shpg. wt. 45.0 lbs.
List $47.00. Each ..... $44.00

### AQUATENE 571

Recommended for use in Graymills Liftkleen and Tempest heated parts washer. White alkaline powder mixes at 3 to 8 ozs. per gallon of water. Use hot for best results, up to 180°F. 25 lb. carton. Graymills brand (GM571-25).

**No. 5A343.** ❶ ❸ Shpg. wt. 25.0 lbs.
List $74.00. Each ..... $63.90

## DETERGENT NEUTRALIZER SYSTEM

In two steps, used water-based alkaline detergent solution can be treated for sewer disposal. Check with your federal, state, and local authority for proper disposal of treated cleaning material as well as used pads.

Graymills brand (OAP-25-1). Sold in bundles of 25 pads.

### OIL ABSORBENT PAD

- Ideal for general use to soak up oil spills
- 18 x 18" pad floats on surface of tank solution as it absorbs up to 25 times its weight in oil
- Use to remove tramp oil from coolant pump reservoirs to prevent odor and algae build-up

**No. 5W480.** ❸ Shpg. wt. 3.33 lbs. List... $21.63.
Each Bundle ..... $21.44

### DETERGENT NEUTRALIZING POWDER

- Use to reduce pH level to a safe range before disposal of used hot tank solution
- Self-indicated color change eliminates the guesswork as to when solution is neutralized. 7 lb. container
- Graymills brand (DN 10-1)

**No. 5W481.** ❶ ❸ Shpg. wt. 7.2 lbs.
List $33.50. Each ..... $32.85

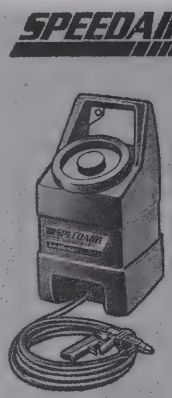
● These products are covered by California Proposition 65. California purchase or shipments, see first page of Grainger Branch Listing or call any local Grainger branch.
● These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

# PORTABLE SANDBLASTING KITS

**Speedaire portable,** siphon-type sandblasters are used for removing rust, scale, paint, and dirt from metals, wood, brick, and stone, as well as etching glass. Can also be used for liquid spraying.

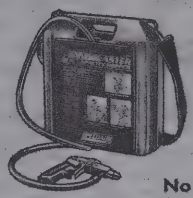
**Include ergonomically designed** die cast aluminum blast gun with 3/16" ceramic nozzle, air jet, and material hose. Air pressure range: 40-125 PSI. Hoppers are durable black polyethylene.

**No. 6W614** 30 lb. capacity hopper includes molded loop handle and shoulder strap for ease of use.



**No. 6W615** 60 lb. capacity hopper includes screened top opening which sifts blast media to help prevent clogging.

**No. 6W616** 120 lb. capacity hopper includes screened top opening, 8" dia. wheels, and pull handle for jobsite maneuverability.



| Hopper Capacity (Lbs.) | Stock No. | List | Each | Shpg. Wt. |

(*) Nozzle kits fit Nos. 6W614, 6W615, 6W616, and 6W617 only.

**NOTE: When using any sandblasting equipment, operator should wear appropriate safety equipment approved by MSHA/OSHA.**

# BLAST MEDIA

Potters Industries Inc.

No. 2W580

**Potters Ballotini™ impact glass bead and ground glass blast media** for use with abrasive blast finishing equipment in cleaning, deburring, finishing, and peening applications. 50 pounds of media comes in a leakproof plastic pail. Inert and environmentally pure. Can be induced into closed systems without risk of contamination. **Media contains no free silicas.**

**Glass bead** media is spherical shaped which makes it ideal for use on soft metals where tolerances must be maintained.

**Ground glass** is a sharp edged, abrasive media ideal for rapid cleaning when surface profile is not critical.

**No. 6ZC14** for peening applications as well as a glossy finish.

**No. 2W765** for heavy-duty cleaning with glossy finish.

**No. 2W580** for general purpose cleaning.

**No. 2W766** for light cleaning with matte finish.

**No. 6ZC13** for cleaning thin sheet metals which require a smooth dull matte finish.

**No. 5W022** Glass bead/aluminum oxide mixture provides extra cutting power for fast abrasive cleaning where fine workpiece tolerances are not required.

**No. 6ZC15** for rapid cleaning where a rougher surface profile is desired. For applications that usually utilize sand or slag media. Ideal for use with recirculating sandblasters to remove paint and rust from metals.

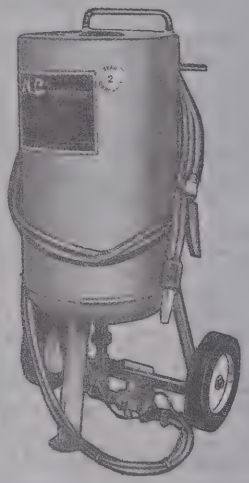
❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

# PROFESSIONAL-DUTY SANDBLASTERS

## HIGH PERFORMANCE PRESSURE BLASTER



**ALC® Sandy Jet® Pressure-type Sandblaster** removes rust, scale, dirt and paint from metal, wood, concrete and brick. High performance pressure blaster can reduce time on job by as much as 75% compared to siphon blasters. ASME certified tank has capacity for 90-110 lbs. of abrasive. Provides 35-50 minutes blast time.

**Remote control handle system** automatically shuts off air/abrasive flow at tank if handle is released or control hose is damaged. Provides greater degree of safety than "deadman" controls, which only shut off flow at handle.

**Semi-automatic tank closure valve** seals instantly. Recessed top for quick, easy, no-mess filling. Single lever adjustable media mixing valve provides precise air/media mix during use. Engineered balance point for easy portability. Includes 10 ft. of 1/2" I.D. heavy-duty hose, three 1/8" and one 3/32" ceramic nozzles, pressure gauge, clean-out fitting, 8" wheels, handle, and protective hood.

**Air pressure range:** 50-125 PSI. Minimum air requirement: 7 CFM @ 80 PSI. Tank dimensions: 12" dia., 22"H, overall: 32"H. 1/2" NPT air inlet. Made in USA. ALC brand (F-110R).

**No. 6ZF22.** High Performance Pressure Blaster. Shpg. wt. 70.0 lbs. List $956.99. Each.....$897.50

- Can reduce job time by 75%
- Remote control handle system shuts off flow at tank
- Provides greater safety than "deadman" controls

**PRESSURE BLASTER PERFORMANCE GUIDE**

Average coverage rate for given nozzle size. Actual rate may vary depending on blast media and surface conditions.

## HEAVY-DUTY SIPHON BLASTERS

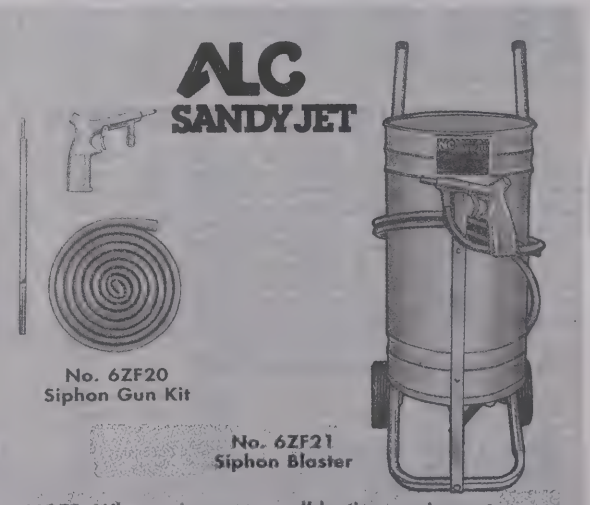
**ALC® Sandy Jet® Siphon Blasters** quickly clean brick, concrete, metals and wood without harsh chemicals, scraping, or sanding. Also used to etch glass and marble, remove graffiti, texture surfaces, and clean equipment after use.

### No. 6ZF20 SIPHON GUN KIT

**Insert pick-up tube in any blast media container** for essentially unlimited capacity and blast time. For use with abrasives or liquids. Includes pick-up tube, 10 ft. of 3/8" I.D. hose, Model F gun with 1/4" steel nozzle and 1/8" air jet, and two extra 13/64" nozzles with 5/64" air jet. Minimum air requirement 7,15, or 20 CFM @ 80 PSI, depending on nozzle size. Made in USA. ALC brand.

**No. 6ZF20.** Siphon Gun Kit (F-30). Shpg. wt. 4.0 lbs. List $60.83. Each.....$59.40

### No. 6ZF21 SIPHON BLASTER



**Siphon blaster abrasive container** holds 90-110 lbs., depending on abrasive type. 70-80 minutes blast time per fill. Model F blast gun includes 13/64, 1/4, and 5/16" nozzles, air jets, 10 ft. of 3/8" I.D. hose, Allen wrench, goggles, and hood. Heavy-duty wheels and handle for easy movement of unit. Minimum air requirement 7, 15, or 20 CFM @ 80 PSI, depending on nozzle size. Made in USA. ALC brand.

**No. 6ZF21.** Siphon Blaster (F-90). Shpg. wt. 20.0 lbs. List $149.60. Each.....$145.80

### REPLACEMENT NOZZLE KITS FOR PRESSURE BLASTER

Ceramic or extra long life tungsten carbide. Kit includes 2 each ceramic or 1 each tungsten nozzle and replacement washer.

**NOTE: When using any sandblasting equipment, operators should wear appropriate safety equipment as approved by MSHA/OSHA**

### No. 6ZF52 REPLACEMENT BLAST GUN

**For use with Nos. 6ZF20 and 6ZF21 siphon blasters.** Includes 1/4" nozzle and 1/8" air jet. ALC brand (F-50-7).

**No. 6ZF52.** Shpg. wt. 1.2 lbs. List $50.91. Each.....$48.45

# ABRASIVE BLAST CABINETS

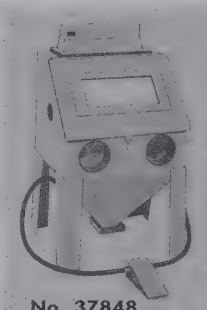
**Designed for surface cleaning and finishing** jobs. Econoline abrasive blast finishing equipment removes corrosion, chemicals and old paint. Cleans dies, molds, stampings and parts. Used to prepare surfaces for plating, scale removal as well as for deburring and peening for additional surface strength. Gray finish.

**Handles abrasives** including glass beads, aluminum oxide, nutshells and fine metal grit/shot. To order glass bead media, see Index, under Blast Media.

**Steel hopper seams are bent and butt welded** to prevent leakage. Atmospheric air inlet is internally guarded keeping abrasive materials from leaking out.

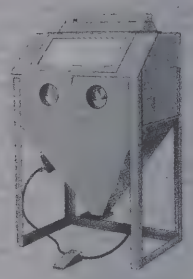
**Built-in rubber gloves** are cloth lined (except on No. 3Z848) for comfort.

**Large access door at front** on Nos. 3Z848 and 3Z850 provides easy loading. No. 3Z850 also has 17 x 11" side door.



**Full width flip top opening** on Nos. 3Z887 and 3Z947, which has a counterbalanced mechanism that allows top to be opened or closed with very little effort.

**Sturdy, easy-to-replace window underlayment** protects interior of plexiglass sight window from blast media.



**Fluorescent tube** is located outside of unit to allow larger turning radius in working area and more even illumination.

**All models include** carbide nozzle, carbide air jet, regulator and gauge, foot pedal actuator, and door safety switch designed to automatically shut off air flow when access door is opened. All units require 12 CFM compressed air at 80 PSI. 5 HP air compressor (not included) is required for most blasting applications. Cabinets utilize No. 3JR93 or No. 4KR11 high-performance abrasive dust collectors (**sold separately**), except No. 3Z848 utilizes No. 2Z972 Dayton 4.0 HP steel tank workshop vac. Use No. 2Z212 hose to adapt dust collectors to sandblast cabinets.

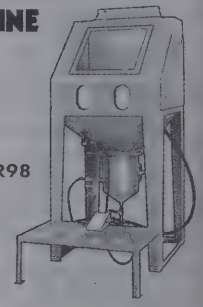
# PRESSURE-FEED CABINETS



Designed for maximum efficiency for surface cleaning and finishing. Econoline pressure-feed abrasive blast equipment can reduce time on job by as much as 75% compared to siphon blasters reducing blasting time considerably. Can be used with all types of dry-blasting abrasives. Includes an ASME code pressure tank tungsten carbide 12CFM nozzle. No. 3JR98 has a hopper mounted, 1 cubic ft. pressure pot with media refill/reclaim capability. No. 3JR97 has a side mount 100 lb. capacity pressure pot. Both units include all of the features of Econoline siphon systems, as described above.

• **Use blast media found on page 1526**

# GUN MOUNTING BRACKET

**Econoline's Gun Mounting Bracket** can be mounted on the wall or ceiling inside your Econoline cabinet to hold the gun for storage or hands free operation. Gun can be easily installed or removed. Telescopic design provides length adjustment from 7¾" to 12¾". Rotates 360° degrees. Fits all Econoline cabinets and guns.

**No. 3JR94.** Gun Mounting Bracket. Shpg. wt. 1.1 lbs. List .....$32.00
Each .....**$29.00**

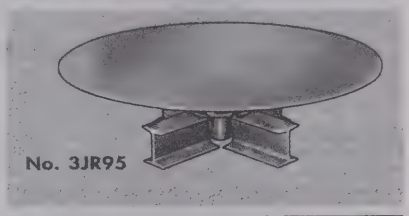
## ABRASIVE CABINET DUST COLLECTORS

**Econoline's 100 AND 175 CFM Dust Collector system** is designed especially for the removal of dust and dirt particles created while blasting within a cabinet. In operation, the collector draws dust and dirty air from the cabinet into the canister where the heavier particles are deposited into the bottom of the barrel housing. The air is then drawn through the filter which removes the finer dust particles. This bag style dust collector requires only minor maintenance. A sewn-in weight drops, shaking the built up dust from the bag each time the collector motor is shut-off.

**No 3JR93 features:** 115V, 60 cycle, 8 amp motor. 50 micron polyfelt dust bag. 2½" diameter x 5 ft. hose. 8 ft. electric cord plugs into cabinet light box. Dimensions: 15" diameter, 62" height.

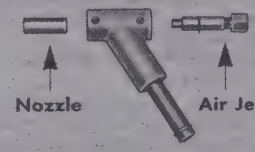
**No. 3JR93.** 100 CFM Dust Collector. Shpg. wt. 65.0 lbs. List $365.00. Each.....**$329.00**

**No. 4KR11 features:** 110 V, 60 cycle, 1/2 HP motor, 175 CFM. 50 micron polyfelt dust bag. 2½" diameter x 5 ft. hose. Quiet sound level, 87 db @ 4 ft. Low maintenance, self-cleaning bag style dust collector filter. Dimensions: 15" diameter, 68" height.



**No. 4KR11.** 175 CFM Dust Collector. Shpg. wt. 76.0 lbs. List $540.00. Each .....**$495.75**

## MANUAL TURNTABLES



**Econoline turntables are designed** to easily rotate heavy or awkward pieces inside of blast cabinet. The hub contains sealed roller bearings, so all lubrication points are protected. The frame is constructed of I-Beam steel. The table plate is 7-gauge hot rolled steel. Weight capacity: 2000 lbs.

| Overall Dimensions (In). Diameter | Height | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **26** | 8 | **3JR95** | $280.00 | **$255.00** | 54.0 |

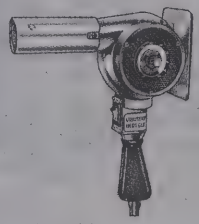
# VARIABLE TEMPERATURE HEAT GUNS AND BUTANE-POWERED MICROTORCHES



## VARIABLE TEMPERATURE HEAT GUNS

MASTER® APPLIANCE

Replacement Parts Available 1-800-323-0620

No. 3KH79

No. 3KH80

Heat guns are used in applications where fast, portable flameless heat is needed, such as activating/curing adhesives, bending and forming plastics, drying applications, melting solder, shrinking tubing, packaging/heat shrinkables, and stripping paint.

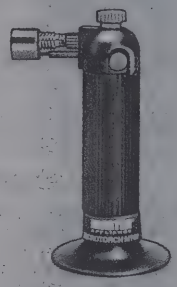
### PROHEAT® VARITEMP HEAT GUN No. 3KH79

- Variable temperature control allows dial-in temperatures from ambient to 1050°F (565°C), features tamper-proof temperature lock
- Self-limiting solid state electronic controller maintains selected temperature
- 15 CFM (425L/min) average air volume
- Permanent magnet DC motor allows high RPM airflow
- Enclosed ceramic heating element for durability
- 3-position rocker switch (no cool down required)
- Built-in hand and switch guard
- 6 ft., 3-wire grounded cordset
- Made in U.S.A., UL Listed (E40900), CSA (LR43386)
- Master Appliance Brand (PH-1200)

**No. 3KH79.** Shpg. wt. 2.3 lbs. List $135.27. Each ..... $110.00▲

### MASTER VARITEMP® HEAT GUN No. 3KH80

- For heavy-duty industrial and commercial applications that require high temperature and power
- Safe way to heat sensitive material such as thermoset resins and potting compounds
- Variable temperature control allows dial-in temperatures from ambient to 1000°F (540°C), features tamper-proof temperature lock
- 23 CFM (651L/min) air flow rating
- Universal motor for high speed performance
- Die-cast aluminum housing
- External, replaceable carbon brushes
- Nonslip, adjustable stand
- Off-Cool-Hot switch
- Reinforced, mica-insulated ceramic heating element
- 6 ft., 3-wire grounded cordset
- Made in U.S.A., UL Listed (E40990)
- Master Appliance brand (VT-750C)



**No. 3KH80.** Shpg. wt. 5.2 lbs. List $169.00. Each ..... $115.00▲

## BUTANE-POWERED MICROTORCHES

MASTER® APPLIANCE

No. 3KH77

No. 3KH78

Butane powered microtorches can be used in a wide variety of torch applications such as aluminum welding, automotive repairs, light brazing, electrical/electronic repairs, lab use, melting plastics, shrinking tubing and connectors, silver soldering, soldering and desoldering, and windshield repair.

### MASTER MICROTORCH No. 3KH77

- 2500°F (1300°C) blue pinpoint flame adjustable by regulator on fuel cell
- 20 minutes non-stop burning with full charge
- Refillable fuel cell
- Waterproof self-ignition system with dead-mans switch
- Safety lock insures switch stays Off when not in use
- Compact size ideal for tools kits and field service kits
- Master Appliance brand (MT-10)

**No. 3KH77.** Shpg. wt. 0.4 lbs. List $18.00.Each ..... $14.95▲

### MASTER MICROTORCH No. 3KH78

- 2500°F (1300°C) blue pinpoint flame easily adjustable by air control sleeve
- Two hours non-stop burning with full charge
- Built-in refillable fuel tank allows table top, hands-free operation
- Built-in self-ignition system
- Ideal for applications that require continuous heat
- Master Appliance brand (MT-50)

**No. 3KH78.** Shpg. wt. 0.4 lbs. List $36.27. Each ..... $29.95▲

(▲) Net prices, not subject to discounts.

## PROHEAT® HEAT GUN

- For packaging, electronic, electrical, renovation, and automotive applications
- Provides user with two heat settings of 570 and 1050°F
- Airflow at 15 CFM/3650 FPM
- Compact, lightweight design, Easy-to-use heat gun
- Ergonomically designed handle for superb balance and secure grip
- Rugged, enclosed ceramic heating element for long life durability
- Built-in hand guard for extra protection
- Hanging loop for hands-free operation
- Three-position rocker switch; no cool down required
- Industrial quality, grounded 3-wire cordset
- Modular design for easy servicing
- Lexan housing for high impact durability
- Made in U.S.A.
- UL Listed (E40970), CSA Certified (LR43386)
- Master Appliance brand (PH1100)

**No. 3W771.** Shpg. wt. 2.0 lbs. List $74.82. Each.....$60.00▲

MASTER® APPLIANCE E40970 LR43386

Replacement Parts Available 1-800-323-0620™

## ULTRATORCH® HEAT TOOLS

- Completely cordless; no AC current or batteries required; run on butane refill fuel
- No electrical leakage or radio interference
- Perform a variety of tasks from soldering to shrinking and terminating insulated solder preforms and environmental splices
- Refillable from standard butane fuel containers (order No. 3W799 below)
- Lightweight and easy to handle
- UL Listed (MH16458)

MASTER® APPLIANCE MH16458

Replacement Parts Available 1-800-323-0620™

### PEN-SIZED HEAT TOOL

- Fits in shirt pocket for absolute portability
- Small as a pen, but has the power of an 80 watt soldering iron
- Includes protective cap, soldering tip, and heat tip
- 392°F to 842° soldering
- Master Appliance brand (MINI UT-50)

**No. 3W774.** Shpg. wt. 0.2 lbs. List $84.00. Each.....$68.00▲

No. 3W774
Pen-Sized Heat Tool

### SELF-IGNITING HEAT TOOL

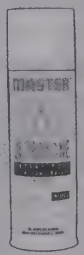
- Highly portable tool for field maintenance and repairs
- Operates as a soldering iron and heat tool
- Use heat tip for electrical applications
- Includes one ejector for soldering, a soldering and heat tip, spanner wrench, open end wrench, shrink attachment, and protective cap
- 482°F to 932°F soldering
- Master Appliance brand (UT-100SI)

**No. 3W772.** Shpg. wt. 0.6 lbs. List $109.09. Each.....$88.00▲

No. 3W772
Self-Igniting Heat Tool

### SELF-IGNITING JUMBO HEAT TOOL

- Ultimate portability for heavy-duty maintenance jobs
- Operates as a soldering iron and heat tool
- Variable temperature control allows precision heat for shrinking tubing
- Includes soldering and heat tip, spanner wrench, open end wrench, heat shrink attachment, ejector for soldering and heat applications, and protective cap
- Master Appliance brand (UT-200SI)



**No. 3W773.** Shpg. wt. 0.8 lbs. List $142.00. Each.....$114.00▲

No. 3W773
Self-Igniting
Jumbo Heat Tool

### MASTER ULTRATANE® BUTANE FUEL REFILL CONTAINER

**No. 3W799.** S Butane Fuel Canister. †5⅛ oz. Shpg. wt. 0.5 List $4.16. Each.....$3.50▲

No. 3W799

S These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available.
See page opposite inside back cover.

# HEAT GUNS, BLOWERS AND ACCESSORIES

## [A] MASTER® HEAT GUNS

- Heavy-duty industrial quality to shrink heat shrinkable tubing, molded parts and shrink packaging, activate adhesives, bend and form plastics, soften resilient floor coverings, tiles and covings, strip paint, and for drying applications
- Features high air volume and high air temperatures
- Heavy-duty die-cast housing
- Externally replaceable brushes
- Reinforced mica-insulated ceramic heating element
- Rubber padded base rotates 90°
- 6 ft., 3-wire grounded cord set
- UL Listed (E40970)

## [B] MASTERFLOW® HEAT BLOWERS

- Brushless, shaded pole motor for continuous 24 hr. day-in, day-out operation
- For use on conveyor lines and shrink tunnels; singly or in multiples for drying, heating, and shrinking
- Steel constructed housing, metal blower wheel, 2-way off-cold-hot switch, adjustable nonslip stand
- UL Listed (E40970)
- No. 4Z718 requires an 18-amp 5-20R receptacle (shown) for operation

## [C] LIGHTWEIGHT HEAT GUN

- For assembly and repair applications in production plants, laboratories, and service shops
- 6 ft. cord with 3-wire grounded plug
- Complete with a set of 4 baffle adapters
- Oil and heat resistant

## [D] [E] FLAMELESS HEAT GUNS

- Dual temperature settings for applying heat shrink tubing, curing epoxy, loosening adhesives, thawing frozen pipes, softening and shaping plastics, and stripping paint
- High impact polymer housing, stainless steel heat shield, reinforced mica-insulated ceramic heating element, and 3-wire grounded plug
- UL Listed (E21922) and approved for outdoor use
- Heat gun No. 4A162 is for standard use; heavy duty heat gun No. 4A163 is for the demands of long and constant use

## HEAT GUN BAFFLE KIT

Includes spreader baffle, paint scraper baffle, and shrink tube reflector. Fits Weller units only.

**No. 4A164.** Shpg. wt. 0.6 lbs. List $9.37. Each.....$7.80

## COMPLETE MODULAR SOLDERING IRONS

Ready-to-use professional soldering irons utilize interchangeable handles, heaters, and tips for custom applications and easy maintenance. Handle is 3-wire grounded with 4½ ft. cord and features "soft touch" acid and flux-resistant grips. UL Listed (E21922).

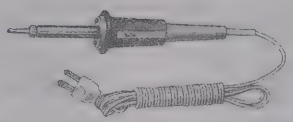
Includes handle (7400), 23-watt heater (5375-23W), and pencil point tip (PL111). Weller brand (SL325).

**No. 2AC08.** Shpg. wt. 0.5 lbs. List $31.80.
Each ..... $25.85▲

Includes handle (7400), 33-watt heater (1237S-33W), and chisel tip (PL113). Weller brand (SL335).

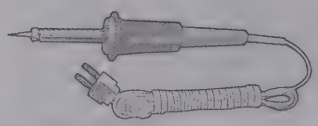
**No. 2AC09.** Shpg. wt. 0.5 lbs. List $33.77.
Each ..... $27.45▲

Includes handle (7400), 45-watt heater (4037S-45W), and long taper chisel tip (PL133). Weller brand (SL345).



**No. 2AC10.** Shpg. wt. 0.5 lbs. List $35.79.
Each ..... $29.15▲

# SINGLE TEMPERATURE SOLDERING IRONS



**Weller®**

**COOPER Tools**

**Replacement Parts Available**
**1-800-323-0620**

No. 4Z765

No. 4Z766

**Lightweight Soldering Iron No. 4Z765** has 25-watt (750°F tip) heat setting for workshop applications. Features replaceable nickel plated copper 1/8" cone shaped tip and heat-resistant pencil-style handle. Weller brand (SP23).

**No. 4Z765.** Shpg. wt. 0.2 lbs. List. $11.91. Each ..... $10.09▲

(▲) Net prices, not subject to discounts.

**Industrial Soldering Iron No. 4Z766** has 35-watt heat setting (900°F tip) for plumbing, automotive, and electrical applications. Features replaceable pretinned, iron-plated, chrome coated 1/8" screwdriver tip, and pencil-style iron with impact-resistant handle and black heat shield. Weller brand (WP35).

**No. 4Z766.** Shpg. wt. 0.4 lbs. List. $40.21. Each ..... $32.15▲

# SOLDERING EQUIPMENT

## DESOLDERING STATION

- **Meets military specifications; complies with MIL-STD-2000, DOD-STD-2001B, WS-6536E, and MIL-S-45743E**

Variable temperature, electronically controlled system for continual production applications such as; repair, rework, modification, bread-boarding, and salvage operations. Features precise, closed loop electronic control. Self-contained unit has fast response diaphragm-type vacuum pump. Desoldering range: 500 to 1000°F. 3-wire grounded, 120V input, 60 Hz. Dimensions: 6.66H x 5.12W x 7.5"D. Includes pistol-grip static dissipative desoldering handle. UL Listed. ESD safe. Weller brand (4024P).

**No. 6A902.** Shpg. wt. 9.5 lbs. List $593.57. Each.....**$493.75▲**

## SOLDERING/DESOLDERING STATION

- **Meets military specifications; complies with MIL-STD-2000, DOD-STD-2001B, WS-6536E, and MIL-S-45743E**

System simultaneously operates 24 volt desoldering handle and soldering iron for repair, rework, and modification tasks. A second soldering iron may be controlled in place of the desoldering handle.

Safe for work on voltage sensitive components. Desoldering range: 500 to 1000°F; soldering range: 450 to 850°F. 3-wire ground, 120V, 60 Hz. UL Listed. ESD safe. Weller brand (4624P).

**No. 6A903.** Shpg. wt. 9.9 lbs. List $775.89. Each.....**$675.50▲**

## SOLDERING STATIONS

**General Purpose Soldering Station** No. 6A904 combines accurate closed-loop temperature control with economy. Selectable heat from 600 to 800°F. 40 watts. Features long-life ceramic heaters and burn-resistant cord. Station is fully grounded, and meets military specifications. Equipped with Macro Iron (PL 100 tip) for general purpose soldering. Uses 1/4" thread-on tips. UL Listed. ESD safe. Weller brand (UTC100).

**No. 6A904.** Shpg. wt. 1.5 lbs. List $112.53. Each.....**$84.85▲**

**Professional Soldering Station No. 3W886** provides dual wattage control for use in home, farm. and workshop applications. Low setting is 21-watts (650°F); high setting is 35-watts (850°F). Includes a general purpose soldering tip. Station can also be used with the complete line of 1/4" thread-on tips. UL Listed. Weller brand (UTCSS).

**No. 3W886.** Shpg. wt. 2.0 lbs. List $55.24. Each.....**$39.20▲**

## SOLDERING GUNS

**Electric Solder Gun Kits** for most soldering jobs in industrial, farm, or workshop applications. Feature trigger selection switch for high or low temperature output in six seconds, built-in lamp, and 6 ft., 2-wire cord.

Kits include gun with pretinned copper tip, two extra untinned copper tips (curved and smooth), flux brush, soldering aid tool, coil of 40/60 rosin-core solder, and carrying case. UL Listed. Weller brand.

**No. 4Z763.**❸ 140 Watt Gun (8200PK). Shpg. wt. 0.3 lbs. List $38.90. Each.....**$32.30▲**
**No. 4Z764.**❸ 260 Watt Gun (D550PK). Shpg. wt. 3.6 lbs. List $52.78. Each.....**$43.70▲**

## SOLDERING ACCESSORIES

**Desoldering Pump** has spring-loaded piston for one-hand operation to provide ESD-safe vacuum to remove solder. Replaceable tip is self-cleaning, nonclogging, and static-free.

**Flux Dispensers** avoid spills and waste and place flux precisely where it is needed. Squeeze bottles dispense one drop of liquid resin, flux, oil or solvent through stainless steel needles. Static dissipative models protect static-sensitive components. ESD safe.

**Scrub-It™ Solvent Dispenser** distributes solvent through a brush for cleaning printed circuit boards and other solder connections. No mess, no waste. Horsehair bristles for static-safe applications. ESD safe. Solvent not included.

**Solder-Mate™ Dispenser** holds a 1 lb. solder spool.

## WELLER® EXTRACTION SYSTEM

- **Designed for operation with 120V AC and suitable for up to two Weller FE-soldering irons**
- **Equipped with 4-stage filter set for the absorption of solder fume**
- **Condensation pre-filter extends the life of the main filter**
- **The required vacuum is produced by a low vibration rotation pump which is driven by a thermo-fused, maintenance-free, split-phase motor**

**SPECIFICATIONS:**

- **Voltage: 120V, 50/60 Hz; Noise Level: 40 dBA; Max. Vacuum: 100 mbar; Separation Degree: 99,995% DOP**

**Extracts noxious soldering fumes** before they have a chance to get into the atmosphere. Attached to each fume extractor iron is an adjustable tube which can be positioned directly above the soldering tip. The tube is connected to a vacuum pump fitted with special filters. As fumes rise from the heated solder, they are instantly sucked into the tube and captured in the filter housing.

**Completely self-contained system with no ducts or special electric works.** Built for continuous duty in a production environment. Portable unit is easily moved. Provides instant OSHA compliance by removing over 95% of all solder smoke at the source. Complete extraction system is made up of a pump with filter(s), a soldering station, and a soldering iron. Soldering station and soldering iron must be ordered separately. Weller brand (WFE-2P).

**No. 6W725.** Shpg. wt. 32.0 lbs. List $691.68. Each.....$632.00▲

## SOLDERING STATIONS

**Transformer-powered Soldering Station No. 4Z762** is ESD safe and safe for IC soldering and features a low voltage circuit which automatically maintains output and temperature in three ranges: 600, 700, and 800°F (with appropriate tip). 42 watts. Unique closed loop method of controlling maximum tip temperature protects sensitive components. Temperature is easily selected by changing tips.

Includes lightweight pencil-style iron with heat shield and 4 ft. nonburnable silicone cord, impact-resistant power unit with On-Off toggle switch, neon indicator light, non-heat sinking iron holder, storage tray for extra tips, tip cleaning sponge with receptacle, and 1/16", 700°F screwdriver tip. UL Listed. Must order soldering iron No. 6W727 to be able to use this soldering station with Fumex system. Weller brand (WTCPT).

**No. 4Z762.** Shpg. wt. 4.0 lbs. List $134.86. Each.....$103.15▲

**Electronically controlled Soldering Station No. 6W724** is electrostatic dissipative for all delicate soldering operations in even the most sophiscated applications. ESD safe and meets military specifications. Electronically controlled temperature range of 350 to 850°F. 40-watts. Dial calibrated in 10°F steps. No high voltage spikes or magnetic fields present on soldering tips due to the systems thyristor power control with zero thyristor drive.

Iron stand, with tip storage, positions left, right or remote from main unit. Includes soldering station and soldering iron. Weller brand (EC1002-1) must order soldering iron No. 6W728 to be able to use this Soldering Station with Fumex system.

**No. 6W724.** Shpg. wt. 4.0 lbs. List $237.36. Each.....$199.25▲

## SOLDERING IRONS

Designed for use with the Fumex system, these two fume extractor irons are highly efficient and comfortable to use. Each has an adjustable 3/16" diameter stainless steel exhaust tube (with 3/16" dia. x 7 ft. length of vinyl tubing) for precise positioning over the work.

**No. 6W727 42-Watt Soldering Iron** with ET series tip PTA-7 for use with Soldering Station No. 4Z762. Weller brand (TC201FE).

**No. 6W727.** Shpg. wt. 0.9 lbs. List $89.98. Each.....$74.75▲

**No. 6W728 40-Watt Soldering Iron** with ET series tip for use with Soldering Station No. 6W724. Weller brand (EC1201AFE).

**No. 6W728.**. Shpg. wt. 0.6 lbs. List $120.08. Each.....$99.30▲

## FUME EXTRACTION KIT

Converts existing standard and micro irons for use with the Weller Fumex system. Weller brand (AKFE6).

**No. 6W729.** Shpg. wt. 0.2 lbs. List $45.38. Each.....$37.40▲

# SOLDERS AND FLUX

- Kester solder is manufactured only from 100% virgin, grade A metals
- Meets all applicable military, federal, and electronic industry standards

Lead-Free Solder No. 6Z772

Acid Paste Flux No. 6Z775

Solder Flux Pen No. 6W280

Solder Syringe No. 6W277

## LEAD-FREE SOLDER

**Lead-Free Paste Solder No. 6A473.** No-lead, 95% tin, 5% antimony alloy. For applications where food or potable water might come in contact with soldered connection. Applications include copper tubing, pipes and fittings, copper utensils, and stainless steel repairs. Includes a noncorrosive flux for quick, easy application.

**Lead-Free Solder No. 6Z772.** For nonelectrical and plumbing applications. Formulated for drinking water lines where lead content is not allowed due to building codes or regulations. Can be used to install or repair copper plumbing, hot water tanks, and refrigeration systems. Use with flux and a soldering iron or propane torch.

**Lead and Cadmium-Free Silver Solder No. 6Z773.** For nonelectrical applications and for repairs on plumbing, stainless steel, jewelry, and kitchen utensils. Effective for joining silver, nickel alloys, copper, copper to steel, or where strength or a shiny finish is important. Use with flux and a soldering iron or propane torch.

## SOLID WIRE SOLDER

**Solid Wire Solder No. 1A055.** For nonelectrical applications. Must be applied with a flux. For repair of stained glass, household items, drainage plumbing, brass fittings and fixtures, steel, nickel plate and nickel alloys. Use with soldering iron or propane torch.

## ROSIN CORE SOLDER

Rosin core solder is used for a variety of applications on electrical components and electronic circuitry. Apply with soldering irons or guns. Contains activated rosin flux core to clean parts while soldering.

**60/40 Rosin Core No. 6A470** is for general purpose work.

**60/40 Rosin Core Nos. 6A471 and 6W273** are for smaller components.

**63/37 Rosin Core No. 6A472** is for heat-sensitive components.

**40/60 Rosin Core No. 2Z173** is for electrical applications such as repairing speaker wires, motors, generators, printed circuit boards, CB/home radios, TVs, and computers.

## ACID CORE SOLDER

**Acid Core Solder No. 2Z174.** For nonelectrical applications such as repairing tools, radiators, automotive parts, and sheet metal. Contains flux core with a highly active cleaner. Apply with soldering iron or propane torch.

**Note: Can harm or short circuit electrical connections.**

## PASTE FLUX

**Acid Paste Flux Nos. 6Z775 and 6W275.** High quality petroleum base zinc chloride solder flux for all nonelectrical applications. Use with solid wire and bar solders or when additional flux is needed.

**Rosin Paste Flux No. 6W276.** Benchtop flux for touch-up and soldering of electronic assemblies.

## FLUX-PEN™

For rework and touch-up soldering. Allows controlled application of flux eliminating mess from flux bottles. Spring-loaded chisel point tip dispenses just the right amount of flux while limiting operator exposure to soldering chemicals. Chisel point allows work in very confined spaces while the spring valve prevents the flux inside of pen from "drying out."

**RMA Rosin Flux-Pen™ No. 6W279.** Mildly activated rosin flux that is approved for military soldering under MIL-F-14256. Good heat stability properties minimizing "white residue."

**Low Solids, No Clean Flux-Pen™ No. 6W280.** Very low solids, halide free "no-clean" flux. Leaves minimal residue as well as eliminating interfering residues with "probe" testing.

## CARDED SOLDER SYRINGES

**Silver Solder Paste Syringe No. 6W277.** For all electrical soldering of wires, connectors, and cables, for use with copper piping in home plumbing applications, and for use in car radiators. Works with the heat of a match or lighter. Will not tarnish.

**Plumbers' Solder Syringe No. 6W278.** For making professional quality pipe joints with copper, brass, stainless steel, nickel, or bronze. Low melting temperature allows repair of existing joints without disassembly. Works with the heat of any torch or open flame. No flux required. Contains no lead, cadmium, or antimony.

# ALL-STATE® SOLDER ALLOYS

No. 2C225

## ALL-STATE® No. 430

Cadmium-free, low temperature, food grade solder for high strength on stainless steels and dissimilar metals. Deposits closely match stainless, and stay bright after prolonged service. Use with All-State Duzall® flux or All-State® 430 flux.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/8" | 1 lb. spool | 69070044 | 2C225 | $53.25 | $53.25 | 1.1 |

## ALL-STATE® DYNAGRIP® SOLDER KIT

Contains 4 ft. No. 430 solder and 1/2 oz. Duzall® flux.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/16" | 1 kit each | 69070090 (.64 oz) | 2C244 | $12.66 | $12.66 | 0.2 |

## ALL-STATE® No. 430 PASTE

Cadmium-free, low temperature, food grade solder in mesh form premixed with flux. For use on stainless steel and dissimilar metal combinations.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| N/A | 8 oz. jar each | 69070080 | 2C234 | $41.80 | $41.80 | 0.6 |

## ALL-STATE® PASTE SOLDER

A 50/50 lead/tin solder for sealing, joining or tinning most common metals, except aluminum. Can be used with soldering iron or torch. Working temperature is 360° to 375°F.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1 lb. jar (plastic) | 69070060 | 2C232 | $25.85 | $25.85 | 1.1 |

# ALL-STATE® ALUMINUM ALLOYS

## ALL-STATE 509 STRONGSET®

A solder of cadmium and zinc alloys with high strength and corrosion resistance, also resists galvanic corrosion. For joining aluminum and various ferrous and nonferrous metal combinations (except magnesium). Ideal at constant elevated temperatures up to 350°F and where continual vibration is encountered. Use with All-State® No. 509 flux. Kit contains 4 ft. wire coil, 1/2 oz. 509 flux.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/16" | 1 lb. spool | 69070050 | 2C227 | $50.00 | $50.00 | 1.1 |
| 1/8 | 1 lb. spool | 69070051 | 2C230 | 48.80 | 48.80 | 1.1 |
| 1/16 | 1 kit each | 69070100 | 2C246 | 12.37 | 12.37 | 0.2 |

## ALL-STATE 55 RUBBON®

Aluminum solder for joining aluminum at low temperatures without flux. For high strength and long service without galvanic action between base metal and solder.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/8 x 18" | 1 lb. tube | 69071030 | 2C250 | $15.65 | $15.65 | 1.1 |

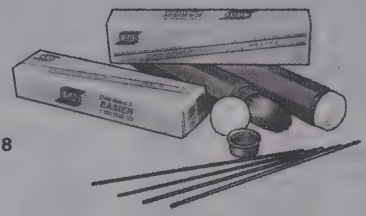
# ALL-STATE® MISCELLANEOUS ALLOYS

## ALL-STATE GALVOVER®

Special low temperature alloy used to restore and protect galvanized area of sheet and angle iron. Smooth, with a firm bond that resists corrosion.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/4 sq. x 14" | 3 lb. tube | 69071070 | 2C252 | $64.10 | $64.10 | 3.4 |

# ALL-STATE AQUASAFE® 100 LEAD-FREE SOLDER KIT



No. 2C248

Lead-free, cadmium-free solder and flux kit for joining copper and dissimilar metals in drinking water lines. Works, melts, and solders better than 50/50 lead/tin solder. Meets all Government and Plumbing Code specs. Flux performs to Fed. 0-F-506, Form A.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/8" | 1 kit each (1 lb.) | 69070200 | 2C248 | $22.58 | $22.58 | 1.3 |

# ELECTRODES

ESAB

No. 2C428

**MILD STEEL COVERED ELECTRODE DESIGNATIONS**

**EXAMPLE:** E 60 1 0
(1) (2) (3) (4)

1. E—Stands for electrode.
2. Two (or three) digits indicate tensile strength X 1000 PSI.
3. Third digit refers to welding position.
   EXX1X All positions (flat, horizontal, vertical, overhead).
   EXX2X Horizontal and flat only.
   EXX3X Flat position only.
   EXX4X Flat, overhead, horizontal, vertical down.
4. Last digit indicates usability of the electrode, i.e., type of current and type of covering.

## ALL-STATE® MILD STEEL COVERED ELECTRODES

### ALL-STATE® 6010

**DC Electrode Positive.** General purpose. For welding vertical, flat or horizontal. Deep penetrating mild steel electrode used for farm and road equipment, tanks, piping, wrought iron, building structures, jigs and fixtures, and general maintenance. Must be run on DC welder with the electrode on the positive terminal.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32"** | 11 lb. carton | 69106160 | **2C428** | $19.74 | **$19.74** | 11.0 |
| **1/8** | 11 lb. carton | 69106161 | **2C431** | 17.63 | **17.63** | 11.0 |
| **5/32** | 11 lb. carton | 69106162 | **2C433** | 16.47 | **16.47** | 11.0 |
| **3/32** | 5 lb. tube | 69106133 | **2C411** | 12.64 | **12.64** | 5.0 |
| **1/8** | 5 lb. tube | 69106132 | **2C409** | 10.11 | **10.11** | 5.0 |
| **5/32** | 5 lb. tube | 69106134 | **2C413** | 10.02 | **10.02** | 5.0 |

### ALL-STATE® 6011

**AC-DC Electrode Positive.** General purpose. For welding vertical, flat, or horizontal position. Ideal for use on AC welders. Deep penetration allows for use on farm and road equipment, wrought iron, building structures and pipe. Works well on rusty, dirty steel. Similar to the E6010 (above) but can be used on AC or DC current. Popular electrode for utility type welders.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32"** | 11 lb. carton | 69106180 | **2C435** | $21.47 | **$21.47** | 11.0 |
| **1/8** | 11 lb. carton | 69106181 | **2C437** | 17.82 | **17.82** | 11.0 |
| **5/32** | 11 lb. carton | 69106182 | **2C439** | 16.85 | **16.85** | 11.0 |
| **3/32** | 5 lb. tube | 69106127 | **2C404** | 12.68 | **12.68** | 5.0 |
| **1/8** | 5 lb. tube | 69106126 | **2C402** | 10.11 | **10.11** | 5.0 |
| **5/32** | 5 lb. tube | 69106128 | **2C407** | 10.02 | **10.02** | 5.0 |

### ALL-STATE® 6013LV

**AC-DC Electrode Negative.** General purpose. For welding vertical, flat, and horizontal positions. Produces a soft arc and easy operation. Ideal for poor fitup applications, used for general repair and light thickness fabrication. Excellent for sheet metal work. Works well with low cost hobbyist-maintenance type AC welding machines with 40 Open Circuit Volts (O.C.V.).

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32"** | 11 lb. carton | 69106200 | **2C441** | $20.51 | **$20.51** | 11.0 |
| **1/8** | 11 lb. carton | 69106201 | **2C443** | 18.01 | **18.01** | 11.0 |
| **5/32** | 11 lb. carton | 69106202 | **2C446** | 17.24 | **17.24** | 11.0 |
| **5/64** | 5 lb. tube | 69106145 | **2C419** | 21.83 | **21.83** | 5.0 |
| **3/32** | 5 lb. tube | 69106144 | **2C417** | 12.64 | **12.64** | 5.0 |
| **1/8** | 5 lb. tube | 69106143 | **2C415** | 10.11 | **10.11** | 5.0 |

### ALL-STATE® 7014

**AC-DC Electrode Positive.** General purpose. All position. A high percentage iron powder in the coating allows for higher welding speeds and use of a drag technique. Easier to use than most electrodes. Works well on poor fitting joints as well as welds requiring very flat bead shape.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32"** | 11 lb. carton | 69104136 | **2C396** | $21.47 | **$21.47** | 11.0 |

| **3/32** | 5 lb. tube | 69104131 | **2C392** | 12.64 | **12.64** | 5.0 |
| **1/8** | 5 lb. tube | 69104130 | **2C390** | 10.11 | **10.11** | 5.0 |
| **5/32** | 5 lb. tube | 69104132 | **2C394** | 10.02 | **10.02** | 5.0 |

## ALL-STATE® LOW HYDROGEN COVERED ELECTRODES

### ALL-STATE® 7018

**DC Electrode Positive Low Hydrogen.** All position. Highest quality weld for mild steel. Ideal for carbon steel where cracking is a concern. The first choice for field construction and contracting and applications where weld quality is critical. Low hydrogen electrodes should be kept in a sealed container or electrode oven when not in use. (Do not store in the same container with other mild steel electrodes.)

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32"** | 11 lb. carton | 69501420 | **2C038** | $17.43 | **$17.43** | 11.0 |
| **1/8** | 11 lb. carton | 69501421 | **2C040** | 16.47 | **16.47** | 11.0 |

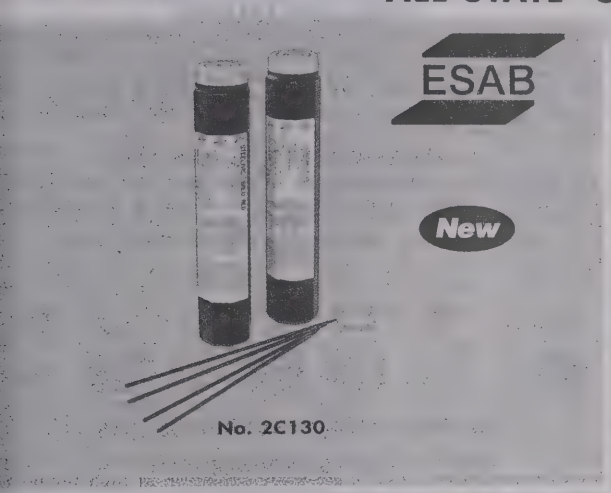
| **5/32** | 5 lb. tube | 69501551 | **2C048** | 10.02 | **10.02** | 5.0 |



### ALL-STATE® 7018 AC

**AC-DC Electrode Positive Low Hydrogen.** All position. Low Hydrogen Electrode designed to operate on AC welding machines. Preferred by contractors using portable AC welding machines where weld quality is critical. High purity crack resistant welds on mild steel and carbon steels. Easier to operate than other low hydrogen electrodes.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32"** | 11 lb. carton | 69502868 | **2C064** | $21.47 | **$21.47** | 11.0 |

# ELECTRODES

## ALL-STATE® STEEL ALLOYS

### ALL-STATE STEELARC® 80LV RED

This AC/DC straight or reverse polarity, all position electrode can be used with low voltage machines for short, intermittent or tack welds on thin, medium, and heavy sections of mild steel.

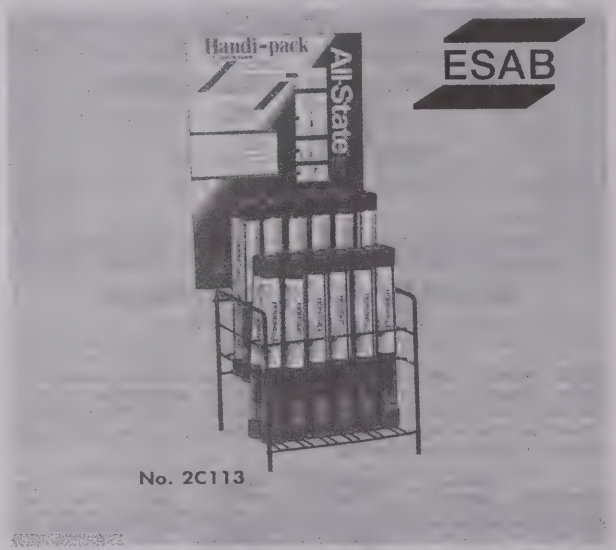
| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32 x 12"** | 5 lb. tube | 69015145 | **2C132** | $31.25 | **$31.25** | 5.5 |
| **1/8 x 14** | 5 lb. tube | 69015140 | **2C130** | 24.73 | **24.73** | 5.5 |

### ALL-STATE® No. 275

An AC/DC reverse, all position electrode that will produce high tensile and yield strengths on tool, high alloy, spring, stainless, aircraft, nickel clad and dissimilar steels.

| Diameter | Package Quantity | All-State Model | | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **3/32 x 9"** | 5 lb. tube | 69010070 | *New* | **4UT73** | $144.40 | **$122.00** | 5.5 |
| **1/8 x 14** | 5 lb. tube | 69015071 | | **2C126** | 122.20 | **122.20** | 5.5 |
| **5/32 x 14** | 5 lb. tube | 69015072 | | **2C128** | 117.90 | **117.90** | 5.5 |

### ALL-STATE STEELARC PLUS®



An AC/DC all position electrode for sound, dependable, spatter free welds, even on rusty, oily, dirty, painted mild steel. Can join light gauge to heavy steels.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32 x 12"** | 5 lb. tube | 69010090 | **2C092** | $25.40 | **$25.40** | 5.5 |
| **1/8 x 14** | 5 lb. tube | 69010096 | **2C094** | 21.16 | **21.16** | 5.5 |

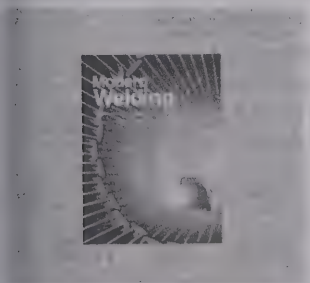
### ALL-STATE HY-10®

A special AC/DC reverse, all position high strength electrode for low alloy and sulphur steels. Machinable and ideal for joining or build up.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/8 x 14"** | 5 lb. tube | 69015155 | **2C136** | $35.45 | **$35.45** | 5.5 |
| **5/32 x 14** | 5 lb. tube | 69015153 | **2C134** | 32.95 | **32.95** | 5.5 |

### ALL-STATE MONOWELD®

An almost stick-free AC/DC all position electrode for mild and low alloy steels. Deposit is strong, smooth, and may be painted.



| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/16 x 10"** | 1 lb. tube | 69011108 | **2C113** | $10.78 | **$10.78** | 1.1 |

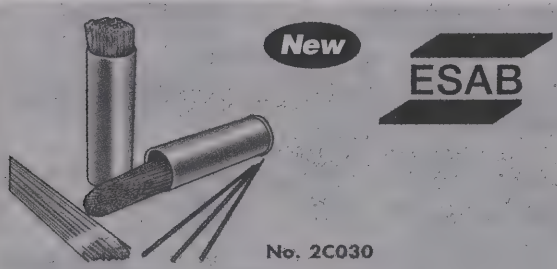
## ALL-STATE® COPPER ALLOY ELECTRODES

### ALL-STATE® No. 24 AC/DC

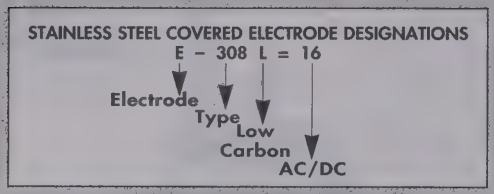
An AC/DC all position electrode that produces sound, porosity free deposits on bronze, brass, copper, cast iron and steel. Use as an overlay on cast iron or steel and to join dissimilar metals.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/8 x 14"** | 5 lb. tube | 69211009 | **2C303** | $107.15 | **$107.15** | 5.5 |

## MODERN WELDING TECHNICAL REFERENCE MANUAL



Written for students, apprenticeships, and journeymen. Covers the theory, fundamentals, equipment, and techniques of welding. Explains "how's" and "why's" of all major welding and cutting processes. Provides information on reading welding symbols, inspecting and testing welds, and certification. Contents correlate to AWS standard QC10-95. Full-color illustrations. 779 pages, hard cover, 1997 edition.



**No. 5H554.** Shpg. wt. 3.7 lbs. List $59.75. Each ..... **$46.00**

# STEEL, COPPER AND ALUMINUM ELECTRODES

## ALL-STATE® COVERED STAINLESS STEEL ELECTRODES

### ALL-STATE® 308L

**(E308L-16) AC-DC Electrode Positive.** All position stainless steel electrode. Designed for welding most types of 18-8 stainless steel (304,302). All-State® stainless electrodes have excellent wetting action and bead appearance. Highly corrosion resistant weld deposit and easy slag removal.

| Diameter (In.) | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32 x 9** | 6 lb. can | 69103336 | **2C030** | $36.70 | **$30.70** | 5.0 |
| **1/8 x 14** | 10 lb. can | 69103180 | **2C028** | 51.25 | **51.25** | 10.0 |
| **5/32 x 14** | 10 lb. can | 69103530 | **2C032** | 49.65 | **49.65** | 10.0 |

### ALL-STATE® 309L

**(E309L-16) AC-DC Electrode Positive.** All position stainless steel electrode. For welding most types of dissimilar stainless, e.g. 304 to 309, 308 to mild steel. 309 electrodes offer higher corrosion resistance and strength than type 308. Excellent welder appeal and easy slag removal.

| Diameter (In.) | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32 x 9** | 6 lb. can | 69807666 | **2C077** | $46.83 | **$39.05** | 5.0 |
| **1/8 x 14** | 10 lb. can | 69807564 | **2C073** | 67.15 | **67.15** | 10.0 |
| **5/32 x 14** | 10 lb. can | 69807571 | **2C075** | 65.95 | **65.95** | 10.0 |

### ALL-STATE® 316L

**(E316L-16) AC-DC Electrode Positive.** An electrode with excellent starting properties on all types of AC welding equipment. The arc is stable and smooth, with fine spray metal transfer, while the bead is uniform, flat or slightly concave with straight-line feathered edges. Penetration is complete and the weld metal is free from porosity. Slag is easily and completely removed without secondary film, which means less cleaning, grinding and polishing time. Electrode also has good out-of-position characteristics. Used for welding 316L and 318 type steels used in the chemical industry. Weld deposit has a maximum of .04% carbon.

| Diameter (In.) | Pkg. Qty. | All-State Model | *New!* Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32 x 9** | 6-lb. can | 69122336 | **4UT80** | $73.08 | **$49.80** | 7.0 |
| **1/8 x 14** | 10-lb. can | 69122180 | **4UT79** | 110.30 | **74.20** | 11.0 |
| **5/32 x 14** | 10-lb. can | 69122530 | **4UT81** | 104.30 | **70.00** | 11.0 |

## ALL-STATE® HEAVY COATED STAINLESS STEEL ELECTRODES

Smoothcote Plus stainless steel electrodes are formulated with a heavier coating to optimize operation in the flat and horizontal positions. Beads are concave and finely rippled. Spatter is low and does not adhere to the plate, while slag is virtually self-removing. Clean-up time is minimized. The 3/32 " diameter features a heat-resistant coating.

### ALLSTATE SMOOTHCOTE PLUS 308L

Use for welding Cr/Ni steels such as 304L, 308L, 301, 303, 304 and 309, found in paper and chemical industries, food processing equipment, dairies, breweries, distilleries, kitchens and hospitals. Superior welding characteristics to all other stainless steel electrodes.

## ALL-STATE® STEEL ALLOYS

### ALL-STATE® No. 252

This AC/DC reverse, all-position electrode is used for welding 310 and 314 stainless subjected to corrosion and elevated temperatures, as well as dissimilar steels and stainless of unknown analysis.

| Electrodes Diameter (In.) | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/8 x 14** | 5 lb. tube | 69015062 | **2C115** | $98.55 | **$98.55** | 5.6 |
| **5/32 x 14** | 5 lb. tube | 69015063 | **2C123** | 96.55 | **96.55** | 5.5 |

## ALUMINUM ELECTRODES

### ALL-STATE® No. 34

A premium DC reverse, all position aluminum electrode with an extruded coating. For use on aluminum sheets, plates and castings of 1/8" thickness or heavier. Deposits are dense and smooth, and provide good color match to base metal. Also for build-up, cladding and reinforcing.

| Diameter (In.) | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **3/32 x 14** | 5 lb. can | 69010049 | **2C087** | $145.80 | **$145.80** | 5.5 |
| **1/8 x 14** | 5 lb. can | 69010053 | **2C089** | 137.50 | **137.50** | 5.5 |

# ARC GOUGING, METAL REMOVAL, CAST IRON AND HARDFACING ELECTRODES

## ALL-STATE® CAST-IRON ALLOYS

### ALL-STATE® No. 8

All position AC/DC reverse electrode for thin sections of cast iron. Provides a high nickel, machinable deposit. For welding parts, filling holes and defects and salvaging imperfect castings. Meets AWS A5.15, Class ENiCI-A.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 3/32 x 9" | 5 lb. tube | 69020000 | 2C139 | $128.15 | $128.15 | 5.5 |
| 1/8 x 14 | 10 lb. tube | 69020002 | 2C141 | 231.50 | 231.50 | 11.0 |
| 5/32 x 14 | 10 lb. tube | 69020004 | 2C143 | 231.50 | 231.50 | 11.0 |

### ALL-STATE® 8-60

All position AC/DC reverse nickel electrode for heavy sections of cast iron and ductile iron. For welding requiring machinable deposits with high strength and good ductility. Meets AWS A5.15, Class ENiFeCI-A.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/8 x 14" | 10 lb. tube | 69020012 | 2C145 | $183.75 | $183.75 | 11.0 |
| 5/32 x 14 | 10 lb. tube | 69020014 | 2C147 | 183.75 | 183.75 | 11.0 |
| 3/16 x 14 | 10 lb. tube | 69020016 | 2C149 | 181.50 | 181.50 | 11.0 |

### ALL-STATE® No. 6 IMP

An AD/DC reverse, all position electrode for cast iron. For high strength, dense, sound welds where machinability is not needed. Excellent for dirty or grease soaked castings.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/8 x 14" | 10 lb. tube | 69010026 | 2C085 | $67.30 | $67.30 | 11.0 |

### ALL-STATE® SUPER 4-60

AC/DC straight or reverse electrodes for heavy sections of cast iron, ductile iron and dissimilar metals. Strong, machinable, crack-resistant deposits without porosity, yet spatter-free. No overheating at rated amperages.

| Diameter (In.) | Pkg. Qty. | All-State Model | New! Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 3/32 x 9 | 5-lb. tube | 69010017 | 4UT67 | $194.45 | $109.90 | 6.0 |
| 1/8 x 14 | 10-lb. tube | 69010019 | 4UT68 | 363.40 | 216.00 | 11.0 |
| 5/32 x 14 | 10-lb. tube | 69010024 | 4UT69 | 363.40 | 216.00 | 11.0 |

## ALL-STATE® ARC GOUGING ELECTRODES

Special formulation of carbon and graphite. Available copper-coated and plain non-jointed. Recommended for manual gouging of steel, stainless steel and copper alloys up to 60% copper. For use with DC power sources. Copper coating increases electrode life, retards penciling, and improves conductivity.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **Copper Coated:** | | | | | | |
| 5/32 x 12" | 50/box | 69090160 | 2C270 | $23.75 | $23.75 | 1.6 |

## ALL-STATE® METAL REMOVAL ELECTRODES

### ALL-STATE® CHAMFER ROD

An AC/DC straight, all position electrode for chamfering and gouging both ferrous and non ferrous metals.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 3/32 x 14" | 5 lb. tube | 69010138 | 2C098 | $26.75 | $26.75 | 5.5 |
| 1/8 x 14 | 5 lb. tube | 69010147 | 2C101 | 23.26 | 23.26 | 5.5 |

### ALL-STATE® CUTTING ROD

An AC/DC straight, all position electrode for cutting and piercing of all metals.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/8 x 14" | 5 lb. tube | 69010118 | 2C096 | $22.63 | $22.63 | 5.5 |

### ALL-STATE STUD PLUS®

AC/DC reverse electrode specially formulated for easy removal of broken studs and bolts. Kit package contains 8 sticks 3/32" diameter, 5 sticks 1/8" and 4 sticks 5/32".

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 3/32, 1/8, 5/32" | 1 lb. tube kit each | 69001015 | 2C079 | $28.40 | $28.40 | 1.1 |

## ALL-STATE® HARDFACING AND WEARFACING ELECTRODES

### ALL-STATE HS-2C®

An all position AC/DC reverse electrode for severe abrasion and moderate impact. Hardness 58 to 62 Rockwell C.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/8 x 14" | 10 lb. tube | 69010700 | 2C108 | $153.00 | $153.00 | 11.0 |

### ALL-STATE HS-65W®

A highly alloyed AC/DC reverse electrode for superior wear resistance involving extreme abrasion. Hardness up to 63-67 Rockwell C.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/8 x 14" | 10 lb. tube | 69010710 | 2C111 | $223.50 | $223.50 | 11.0 |

### ALL-STATE NI-MATRIX®

An all position AC/DC electrode for fabrication and build up of manganese steels. For constant heavy impact and abrasion. Hardness to 48 Rockwell C.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/8 x 14" | 10 lb. tube | 69010522 | 2C103 | $86.65 | $86.65 | 11.0 |

### ALL-STATE SUPER JOIN-M®

This AC/DC reverse electrode provides deposits for severe impact on manganese steel, and unknown iron base metals. Resistant to corrosion from water, steam, and mild corrosives.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 1/8 x 14" | 10 lb. tube | 69010527 | 2C105 | $184.75 | $184.75 | 11.0 |

# ALL-STATE® SOLID MILD STEEL MIG WELDING WIRE

## ALL-STATE® 70S-6

**(ER70S-6) DC Electrode Positive.** All position general purpose solid MIG wire. Multi-pass ($CO_2$ or Argon mixed gas required). Excellent for welding thinner gauge materials in all positions. Designed to be used on (light) dirty and rusty plate. Makes slag free, higher strength welds. Small diameter, 2 lb. and 10 lb. spools for 110 volt MIG welders.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **0.035"** | 44 lb. spool | 69851491 | **1Z942** | $69.75 | **$69.75** | 44.0 |

## ALL-STATE® 71T-1

**(E71T-1) DC Electrode Positive.** All position general purpose gas shielded flux cored wire ($CO_2$ or Argon mixed shielding gas required). Used for single or multipass welding on low and medium carbon steel. This is the most versatile of the gas shielded fluxcore wires. Easy slag removal and flat smooth weld bead.

## ALL-STATE® SHIELD-FREE PLUS-MP

**(E71T-11) DC Electrode Negative.** All position general purpose self shielded flux cored wire for multi-pass welds (no gas required) Designed for outdoor welding or areas where weld cannot b protected from wind.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |

ESAB

## ALL-STATE® MIG STAINLESS STEEL WIRE

### ALL-STATE® 308L HI-SIL

A smooth drawn, uniform surfaced stainless steel wire useful in applications where uniform appearance is essential. For use on stainless steel types 304, 305, 308, 321 and 347 as well as other 18-9 stainless steels where carbide precipitation may arise.

### ALL-STATE® 309L

Primarily used in the overlay of steel where intergranular corrosion must be kept to a minimum. Also used for welding mild or carbon steel to stainless steel provided the service temperature is less than 600° F (316° C). 309L is preferred to 309 MIG for cladding over carbon or low alloy steels as well as for dissimilar joints that undergo heat treatment.

## ALL-STATE® ALUMINUM WELDING WIRE

### ALL-STATE® No. 5356

H18 tempered bare aluminum MIG wire manufactured to exacting standards, perfectly extruded, and die-shaved. MIG spooled level-layer wound. Deposits provide high strength and ductility, excellent color match after anodizing, excellent compressive strength and resist salt water corrosion. Use on base metals 1060, 1100, 3003, 3004, 5052, 5083, 5154, 5454, 5456, 6061, 6063, 6151, 7005 and 7039, and cast alloys 13, 43 and D612. Certified to AWS A5.10 and ASME SFA-5.10.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **MIG Wire:** | | | | | | |
| **.030"** | 1 lb. spool | 69020120 | **2C157** | $7.06 | **$7.06** | 1.2 |
| **.035** | 1 lb. spool | 69020121 | **2C159** | 6.63 | **6.63** | 1.2 |
| **3/64** | 1 lb. spool | 69020122 | **2C161** | 5.97 | **5.97** | 1.2 |

## ALL-STATE® TIG STEEL RODS

### ALL-STATE® No. 4130-T

Low alloy TIG rod for medium and high carbon steels where complete heat treatment is desired such as SAE 4130, 4140, 4330, 4340, 8620, and 8630 steels. Hardness from 36 to 38 Rockwell C.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/16 x 36"** | 1 lb. tube | 69701140 | **2C320** | $9.88 | **$9.88** | 1.1 |
| **3/32 x 36** | 1 lb. tube | 69701141 | **2C322** | 9.50 | **9.50** | 1.1 |

### ALL-STATE® No. 88-T

(ER70S-6) A mild steel, copper coated TIG rod with good wetting characteristics, and excellent bead appearance. Can be used on uncleaned metal.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/16 x 36"** | 1 lb. tube | 69701150 | **2C324** | $6.71 | **$6.71** | 1.1 |
| **3/32 x 36** | 1 lb. tube | 69701151 | **2C326** | 6.50 | **6.50** | 1.1 |

### ALL-STATE® TIG MAINTENANCE WELDING KIT

Ten of our most versatile TIG rods for Maintenance and Repair Applications. One pound plastic tube each of the following:

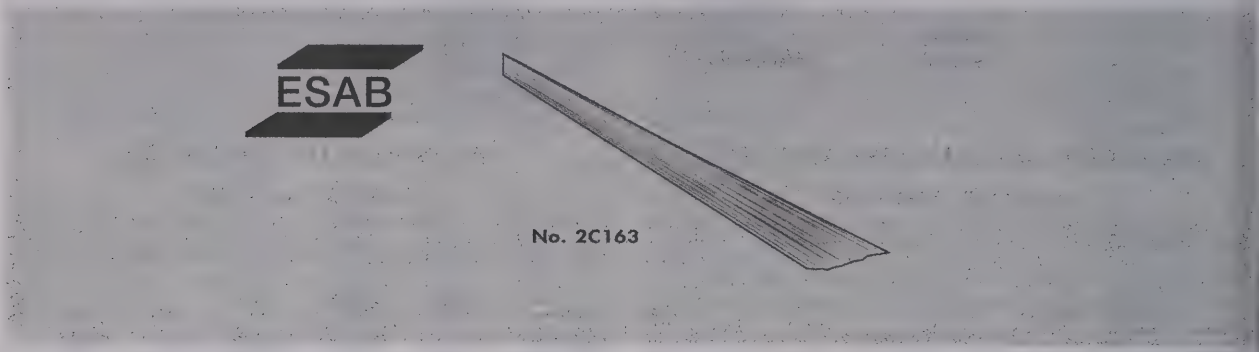
4043 - 1/16" x 36" Aluminum
4043 - 3/32" x 36" Aluminum
252-T - 1/16" x 36" for Stainless
252-T - 3/32" x 36" for Stainless
4-60-T - 3/32" x 36" Nickel for Cast Iron
Phos Bronze "C" - 3/32" x 36" Copper Alloy
88-T - 1/16" x 36" Mild Steel
88-T - 3/32" x 36" Mild Steel
4130-T - 3/32" x 36" Low Alloy Steel
275-T - 3/32" x 36" for Dissimilar Steels

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **10-1 lb. tubes** | 69003000 | **2C081** | $177.75 | **$177.75** | 12.0 |

## ALL-STATE® ALUMINUM WELDING WIRE

### ALL-STATE® No. 4043

H18 tempered bare aluminum MIG wire manufactured to exacting standards, perfectly extruded, and die-shaved. MIG spooled level-layer wound. Deposits are strong and crack resistant when used on base metals 1060, 1100, 3003, 3004, 5005, 5050, 5052, 5662, 6005, 6061, 6063, 6101, 6151, 6201, 6351, 6951, and 6070 and cast alloys 13, 43, 319, 214, 356, A612 and C612. Certified to AWS A5.10 and ASME SFA-5.10.



| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **MIG Wire:** | | | | | | |
| **.030"** | 1 lb. spool | 69020110 | **2C151** | $6.63 | **$6.63** | 1.2 |
| **.035"** | 1 lb. spool | 69020111 | **2C153** | 6.16 | **6.16** | 1.2 |
| **3/64** | 1 lb. spool | 69020112 | **2C155** | 5.50 | **5.50** | 1.2 |

**DON'T DELAY... ORDER FROM GRAINGER NOW!**

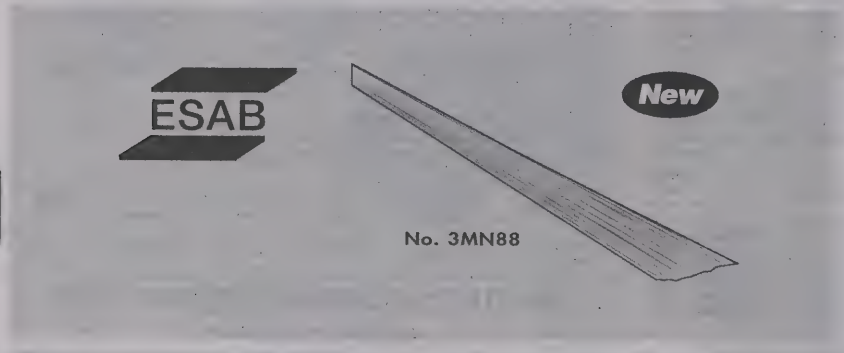
**Place your order with your local Grainger branch, and you'll be assured of prompt service, technical support, and our "No Hassle" return policy on any product ordered.**

# TIG WELDING RODS

## ALL-STATE® TIG ALUMINUM WELDING RODS

### ALL-STATE® No. 4043 TIG RODS

H18 tempered bare aluminum manufactured to exacting standards, perfectly extruded, and die-shaved. Deposits are strong and crack resistant when used on base metals 1060, 1100, 3003, 3004, 5005, 5050, 5052, 5662, 6005, 6061, 6063, 6101, 6151, 6201, 6351, 6951, and 6070 and cast alloys 13, 43, 319, 214, 356, A612 and C612. Meets AWS A5.10, MIL-E-16053, and QQ-R-566.



| Diameter (In.) | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **TIG Straight Lengths:** | | | | | | |
| **1/16" x 36"** | 5 lb. ctn. | 69030000 | **2C163** | $22.79 | **$22.79** | 5.4 |

| **308/308L** | 5 lb. tube | 1/8 x 36 | 69602183 | **3MN89** | 24.82 | **24.82** | 5.5 |
| **309/309L** | 5 lb. tube | 1/16 x 36 | 69613112 | **3MN91** | 32.50 | **32.50** | 5.5 |
| **309/309L** | 5 lb. tube | 3/32 x 36 | 69603333 | **3MN93** | 31.15 | **31.15** | 5.5 |
| **309/309L** | 5 lb. tube | 1/8 x 36 | 69603183 | **3MN92** | 29.85 | **29.85** | 5.5 |
| **316/316L** | 5 lb. tube | 1/16 x 36 | 69607113 | **3MN94** | 32.90 | **32.90** | 5.5 |
| **316/316L** | 5 lb. tube | 3/32 x 36 | 69607333 | **3MN96** | 31.35 | **31.35** | 5.5 |
| **316/316L** | 5 lb. tube | 1/8 x 36 | 69607183 | **3MN95** | 29.60 | **29.60** | 5.5 |

### PHOSPHOR BRONZE "C" TIG RODS

| Tig Rod Type | Package Quantity | Diameter (In.) | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **Phosphor Bronze "C"** | 1 lb. tube | 3/32 x 36 | 69701101 | ***New*4UV03** | $19.17 | **$16.20** | 1.3 |
| **Phosphor Bronze "C"** | 1 lb. tube | 1/8 x 36 | 69701102 | ***New*4UV04** | 19.00 | **16.06** | 1.3 |

### ALL-STATE® No. 308/308L

For welding types 201, 202, 301, 302, 304, 305, 308, 304L, 308L, 321, and 347. Same analysis as 308 wire except that carbon content is 0.03% max. to avoid carbide precipitation. May be used successfully for welding types 321 and 347 steels, provided the service temperature is below 500°F (260°C).

### ALL-STATE® No. 309/309L

For welding type 309. For high temperature applications, and welding straight chromium grades of stainless steels when preheat and postheat is not possible. For welding 304 clad stainless steel, stainless steel to mild steel, and stainless steel overlay work.

### ALL-STATE® No. 316/316L

For welding type 316, 316L and 318 chromium-nickel steel. Molybdenum added to increase the corrosion resistance to pitting by sulfuric and sulfurous acids, sulfites, chloride and cellulose solutions. Used in rayon, dye, and paper industries and welding of chemical equipment.

### ALL-STATE® PHOSPHOR BRONZE "C"

Produces high strength deposits on phosphor bronze materials. Can be used to join copper and brasses, overlay on cast iron or steel, and join dissimilar metals. For maintenance, repair, and fabrication. Use with 100% Argon or 25/75 Argon/Helium shielding gas mixture.

# BRAZING ALLOYS

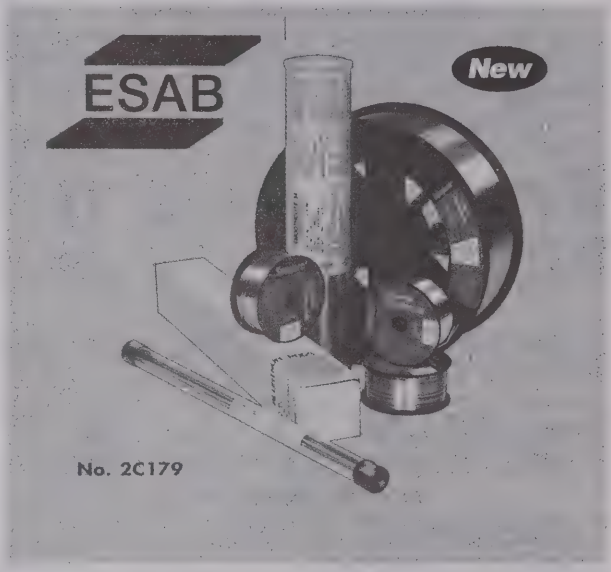
## ALL-STATE® ALUMINUM ALLOYS

### ALL-STATE SEALCOR®

special aluminum flux cored brazing alloy for fabrication and epair of all weldable grades of aluminum including cast, sheet, nd wrought. Ideal for out-of-position work, building up and join- ıg dissimilar gauges of aluminum.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| /8 x 32" | 2 lb. tube | 69050093 | **2C181** | $53.95 | **$53.95** | 2.3 |

### ALL-STATE® No. 31



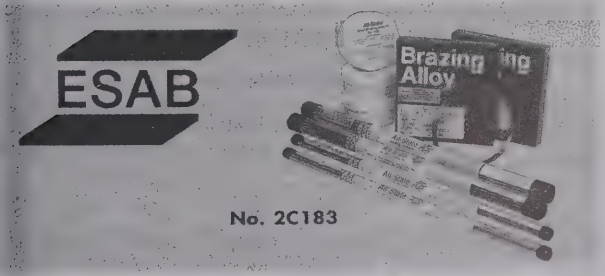
special brazing alloy for joining light gauge aluminum. Used xtensively in production and maintenance brazing of aluminum xcept 2011, 2014, 2017, 2024 and 7075 types. Alloy is very fluid nd has capillary action similar to silver brazing alloys. Use All- tate® Brazaloy No. 31 flux.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| /16 x 18" | 1 lb. tube | 69050073 | **2C179** | $15.02 | **$15.02** | 1.1 |

### ALL-STATE® No. 31 FLUX CORED

/se for torch application. Non-corrosive flux cored brazing alloy or joining light gauge aluminum. No separate flux required. luid alloy has a capillary action similar to silver brazing alloys. ecommended for brazing thin sheets, extruded shapes, and cor- er joints. Applications include production and maintenance razing of aluminum furniture, truck and trailer bodies, window ames, and aircraft instruments. Not recommended for the fol- owing grades of aluminum: 2011, 2014, 2017, 2024 and 7075.

| Diameter | Package Quantity | All-State Model | *New!* Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/16 x 18"** | 2 oz. tube | 69010042 | **4UT70** | $23.46 | **$23.46** | 0.1 |
| **1/16 x 18** | 4 oz. tube | 69010045 | **4UT72** | 40.80 | **40.80** | 0.1 |
| **1/16** | 4 ft. coil | 69010044 | **4UT71** | 6.00 | **6.00** | 0.1 |



### ALL-STATE® 31 TORCH BRAZING PASTE

Use for torch application. Same applications as 31 Flux Cored wires. Paste is a non-corrosive, non-hygroscopic flux blended with aluminum wire in mesh form.

| Diameter | Package Quantity | All-State Model | *New!* Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **N/A** | 2 oz. syringe | 69050329 | **4UT74** | $11.02 | **$11.02** | 0.1 |

## ALL-STATE® SILVER BRAZING ALLOYS

### ALL-STATE® No. 101 and No. 101 F/C TRUCOTE®

silver brazing alloy for use on light gauge material and tight fit- ing joints. Excellent capillary flow on ferrous metals and non- errous metals or combinations of both (excluding white metals). ontains cadmium. Not for food processing or handling equip- ıent. Use bare with All-State® No. 110 or All-State® S-200 flux. its with 1 oz. 110 flux.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| /16" | 4 oz. coil | 69050234 | **2C191** | $54.90 | **$54.90** | 0.5 |
| onvenience Tubes-F/C: /16 x 18 | 4 oz. tube | 69050120 | **2C183** | 55.10 | **55.10** | 0.3 |
| its: /16 coil | 2 oz. (10 ft.) | 69050170 | **2C187** | 34.15 | **34.15** | 0.3 |

### ALL-STATE® No. 155 and No. 155 F/C TRUCOTE®

A cadmium-free food grade brazing alloy with low melting point temperature. For joining and repair of steels, stainless steels, nickel, copper, and high speed steels. Use bare with All-State® No. 110 flux or All-State® S-200 flux. Kits with 1 oz. 110 flux.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/16"** | 4 oz. coil | 69050191 | **2C189** | $65.90 | **$65.90** | 0.5 |
| **Convenience Tubes-F/C: 1/16 x 18** | 4 oz. tube | 69050130 | **2C185** | 64.60 | **64.60** | 0.5 |
| **Kits: 1/16 coil** | 2 oz. (10 ft.) | 69050276 | **2C193** | 41.60 | **41.60** | 0.3 |

### ALL-STATE® No. 125

Cadmium-free 25% silver brazing alloy with good flow properties at relatively low melting range 1265°-1430°F. Wide plastic range helpful when filling loose connections. Use with All-State® 110 or S-200 flux.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/16"** | 4 oz. coil | 69050161 | **3MN87** | $45.00 | **$45.00** | 1.0 |
| **Kits:** | | | | | | |
| **1/16" coil w/ 1 oz. jar flux** | 2 oz. (10 ft.) | 69050140 | **3MN86** | 29.15 | **29.15** | 0.3 |

# BRAZING ALLOYS & GAS WELDING RODS

## ALL-STATE® COPPER ALLOYS

### ALL-STATE® LOW FUMING BRONZE

Bare or flux coated torch rod for fabricating or repairing steels, cast iron, copper base metals, galvanized and malleable irons or any combination of these metals. Use All-State® Brazo flux, All-State® Flux No. 5, or All-State Jet Flux® when using bare rod.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **Bare:** | | | | | | |
| **1/16 x 36"** | 5 lb. tube | 69063000 | **2C211** | $33.25 | **$33.25** | 5.7 |
| **3/32 x 36** | 5 lb. tube | 69063001 | **2C213** | 26.70 | **26.70** | 5.7 |
| **1/8 x 36** | 5 lb. tube | 69063002 | **2C215** | 25.60 | **25.60** | 5.7 |
| **Flux Coated:** | | | | | | |
| **3/32 x 36"** | 5 lb. tube | 69063020 | **2C217** | 29.50 | **29.50** | 5.7 |
| **1/8 x 36** | 5 lb. tube | 69063021 | **2C219** | 28.30 | **28.30** | 5.7 |

### ALL-STATE® No. 41 F/C

A premium general purpose, flux coated brazing rod for joining or overlay of steel, cast iron, brass, bronze, galvanized and malleable irons or any combination of these metals.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/8 x 18"** | 3 lb. tube | 69053101 | **2C199** | $32.10 | **$32.10** | 3.0 |

### ALL-STATE SILFLO® "0"

A self-fluxing brazing alloy for copper to copper joining. For tight fitting (.001" to .002") areas. Use All-State S-200 flux when joining brass or bronze metals.

| Flat Rod | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **.050 x 1/8 x 18"** | 1 lb. tube | 69050055 | **2C177** | $11.33 | **$11.33** | 1.1 |

### ALL-STATE SILFLO® "5"

A self-fluxing alloy for copper to copper joining. Use where close fit-up cannot be maintained. Use All-State S-200 flux when joining brass or bronze metals.

| Flat Rod | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **.050 x 1/8 x 18"** | 1 lb. tube | 69060062 | **2C201** | $25.75 | **$25.75** | 1.1 |

### ALL-STATE SILFLO® "15"

A self-fluxing brazing alloy for copper to copper joining. Use for higher ductility in joints where close fit-up is impossible. Use All-State S-200 flux when joining brass or bronze metals.

| Flat Rod | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **.050 x 1/8 x 18"** | 1 lb. tube | 69060072 | **2C209** | $52.35 | **$52.35** | 1.1 |

## ALL-STATE® NICKEL SILVER ALLOYS

### ALL-STATE® No. 11 FLUX COATED

A high strength brazing alloy for joining ferrous and non-ferrous metals (except white metals), and carbon and alloy steels. Higher strength than ordinary bronze rods, can replace many higher cost silver alloys. Use with All-State® No. 1113 flux, No. 1 flux or Jet Flux®.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **Flux Coated:** | | | | | | |
| **3/32 x 18"** | 3 lb. tube | 69053020 | **2C195** | $52.15 | **$52.15** | 3.0 |
| **1/8 x 18** | 3 lb. tube | 69053021 | **2C197** | 50.80 | **50.80** | 3.0 |

## ALL-STATE® CAST IRON ALLOYS

### ALL-STATE® No. 3

High quality general purpose cast iron torch brazing alloy flows at lower temperatures than electrodes-without melting base metal. Used for maintenance and repair of heavy and light castings. Use with All-State® No. 5 flux.

| Diameter | Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/8 x 20"** | 10 lb. carton | 69050005 | **2C175** | $205.75 | **$205.75** | 10.0 |

## ALL-STATE ® STEEL ALLOYS FOR OXY-FUEL WELDING

### ALL-STATE® RG-65

**(Bare Finish)** For oxy-fuel welding of tubes, pipes, sheets, pressure vessels, and tanks in the 65-75 ksi range. Creates higher weld strengths on low alloy steels.

| Diameter | Package Quantity | All-State Model | *New!* Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **Bare:** | | | | | | |
| **1/16 x 36"** | 5 lb. tube | 69710310 | **4UV09** | $27.70 | **$23.40** | 5.5 |
| **3/32 x 36"** | 5 lb. tube | 69710312 | **4UV10** | 25.25 | **21.30** | 5.5 |
| **1/8 x 36"** | 5 lb. tube | 69710314 | **4UV11** | 23.75 | **20.10** | 5.5 |

### ALL-STATE® RG-45

**(Bare Finish)** Primarily used in the overlay of steel where intergranular corrosion must be kept to a minimum. Can also be used for welding mild or carbon steel to stainless steel, provided the service temperature is less than 600°F (316°C).

| Diameter | Package Quantity | All-State Model | *New!* Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **Bare:** | | | | | | |
| **1/16 x 36"** | 5 lb. tube | 69710212 | **4UV06** | $22.30 | **$18.80** | 5.5 |
| **3/32 x 36"** | 5 lb. tube | 69710214 | **4UV07** | 20.15 | **17.10** | 5.5 |
| **1/8 x 36"** | 5 lb. tube | 69710216 | **4UV08** | 18.90 | **16.00** | 5.5 |

# METAL POWDER SPRAY KIT AND FLUXES

## ALL-STATE® TORCHWELD METAL POWDER SPRAY KIT

### ALL-STATE® POWDER TORCH KIT

Consists of Purox W-300 torch handle, powder hopper, flow control unit, three popular tips, and three nickel alloy metal powders. Attaches to existing oxy-acetylene equipment. For joining and overlay of cast iron, stainless steel and carbon steel.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1 kit | 69320000 | 2C305 | $1061.00 | $1061.00 | 18.0 |

### ALL-STATE® RC 20 POWDER

Nickel base machinable build-up powder for cast iron, steels, stainless steels and nickel alloys. 16 to 20 Rockwell C.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1 lb. jar each | 69320003 | 2C307 | $35.55 | $35.55 | 1.1 |

### ALL-STATE® RC 30 POWDER

Nickel base build-up machinable powder for cast iron, nickel alloys, steels and stainless steels. 26 to 32 Rockwell C.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1 lb. jar each | 69320004 | 2C309 | $34.65 | $34.65 | 1.1 |

### ALL-STATE® RC 60 POWDER

Non-machinable, nickel-base powder for carbon steel, alloy steel, stainless steels, cast iron, copper, monel, nickel and cobalt base alloys. 55 to 60 Rockwell C.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1 lb. jar each | 69320005 | 2C311 | $35.55 | $35.55 | 1.1 |
| 1 lb. jar each | 69320006* | 2C313 | 62.90 | 62.90 | 1.1 |

(*) RC 60 Powder with tungsten carbide particles.

### ALL-STATE BRAZALOY® No. 5

Red powder welding flux for cast iron, cast steels, mild and low alloy steels, and stainless steel to cast iron joining. Performs to AWS 5. Working range 1270° to 1500°F.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1 lb. can | 69080204 | 2C256 | $9.23 | $9.23 | 0.8 |

### ALL-STATE BRAZO® FLUX

White powder flux for brazing on steel, cast iron, copper and brass. Active from 1400°F to 2200°F. Performs to MIL-F-16136B Type A, and AWS 3B. Active from 1300° to 1800°F.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1 lb. can | 69080205 | 2C258 | $6.27 | $6.27 | 1.3 |

### ALL-STATE BRAZALOY® No. 31

Light blue powder flux for sheet and extruded aluminum. Removes oxides at just below the melting point of aluminum. Performs to AWS 1, and AMS 3412B.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 4 oz. plastic jar | 69080208 | 2C260 | $5.77 | $5.77 | 0.4 |

### ALL-STATE® No. 110

Blue paste brazing flux for stainless steel, nickel, monel, copper alloys, and silver alloys. Active at 1000°F, protects up to 1600°F. Performs to MIL-F-4483, AWS 3A, AMS 3410D and Fed. 0-F-499C Type B.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 7 oz. squeeze bottle | 69080215 | 2C262 | $6.40 | $6.40 | 0.5 |

### ALL-STATE® S-200

White paste brazing flux for stainless steels, monel, copper alloys, and silver alloys. Active at 1100°F and protects to 1800°F. Performs to MIL-F-4483, AWS 3A, AMS 3410D and Fed. 0-F-499C Type B.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 8 oz. plastic jar | 69080218 | 2C264 | $6.44 | $6.44 | 0.6 |

### ALL-STATE® No. 430 ACID FLUX

Clear liquid soldering flux particularly suited for corrosion resistant steels such as 316, 321, 347 and 430. Performs to MIL-F-4995 Type III, and Fed. 0-F-506C Type II, Form B.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 4 oz. squeeze bottle | 69080224 | 2C266 | $7.64 | $7.64 | 0.4 |

### ALL-STATE DUZALL® NCR PASTE FLUX

Paste has a no-run gel consistency and a neutral off-white color. Use gel instead of liquid Duzall® for neater, easier application. Produces non-corrosive residue.

| Package Quantity | All-State Model | *New!* Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 4 oz. plastic jar | 69080181 | 4UT75 | $4.77 | $4.04 | 0.5 |

### ALL-STATE DUZALL®

Gen. purpose soldering flux. Use with soft solders on stainless and galvanized steels, copper alloys, gold, silver. Active at 430°F, Fed. Spec. O F-506B, Type I, Form B.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 4 oz. squeeze bottle | 69080161 | 2C254 | $4.20 | $4.20 | 0.4 |

### WELDERS ANTI-SPATTER SPRAY

Quick and easy means of applying anti-spatter to welding surfaces. Prevents spatter from sticking to metal surfaces, making welding easier and eliminating clean-up. Contains no silicone. 16 oz. can/16 oz. net wt. CRC brand (03083).

No. 2F137. Shpg. wt. 1.0 lbs. List $6.60.
Each $5.65. Lots 12.....$5.09

### ALL-STATE No. 509

Golden viscous aluminum and copper soldering flux active at 475° to 520°F.

| Package Quantity | All-State Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 4 oz. squeeze bottle | 69080226 | 2C268 | $8.90 | $8.90 | 0.4 |

### ALL-STATE® HANDI-JIG

Heat resistant compound for insulating metals from heat and for positioning parts for brazing and soldering.

| Package Quantity | All-State Model | *New!* Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 2 lb. jar each | 69300650 | 4UV02 | $18.48 | $16.80 | 2.2 |

### ALL-STATE ALL-GUARD® NOZZLE GEL

Helps eliminate weld spatter build-up on gas nozzles and contact tubes. Provides better control of gas shielding and reduces filler wire snarling.

| Package Quantity | All-State Model | *New!* Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 16 oz. jar each | 69300600 | 4UV01 | $5.28 | $4.80 | 1.0 |

# SELF-IGNITING TORCHES, JUMBO TORCH, MINI TORCH AND ACCESSORIES

## SELF-IGNITING, SWIVEL HEAD BRAZING TORCH

**High temperature, self-igniting brazing torch** produces a powerful turbo-action pressure regulated swirl flame for fast soldering. Excellent for brazing, silver soldering, general purpose soldering or any high temperature application. Burn tube is curved and swivels 360° to allow user access to the most difficult locations. Torch uses either Propane or MAPP® gas cylinders without an orifice change and produces a temperature of 3400°F with Propane and 3600°F with MAPP® gas. Tank not included.

Constructed of a durable solid brass body, high impact ABS knob, and a corrosion-resistant, stainless steel burn tube. Heat output is 12,000 Btu's per hour with flame temperature of 3600°F. SureFire brand (SF839TS).

**No. 3AC05.** Shpg. wt. 0.6 lbs. List $53.96. Each ..... **$42.60**

## JUMBO FLAME JET TORCH

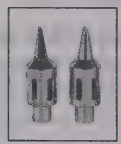
- **Produces a 1¼" wide flame to heat larger surfaces**
- **Solid brass construction**

The Jet Torch outputs three times more normal heat than a basic brass torch by using a venturi that enhances air fuel mixture. Used to lay asphalt tile, remove paint and putty, thaw frozen metal pipes, and loosen rusted bolts. For use with Propane only.

**No. 3ZJ25.** Jumbo Flame/Solid Brass Jet Torch. Bernzomatic brand (JT680). Shpg. wt. 0.8 lbs. List $19.41. Each ..... **$15.53**

## LIGHTWEIGHT MINI TORCH

- **Compact, lightweight torch ideal for detail projects**
- **Operates continuously for over 29 hours**
- **Long, 42" flexible hose makes handling easier**



Features adjustable flame control that produces needlepoint flame lengths from 1/16" to 1½". Used for precision applications such as soft soldering 1/2" copper pipe, silver soldering intricate parts with MAPP® gas, electrical soldering, jewelry repair, heat shrinking, tube bending, and foam cutting. Pressure regulated for consistent performance. Operates on standard Propane and MAPP® gas cylinders.

**No. 3ZJ30.** Lightweight Mini Torch. Bernzomatic brand (ST900STS). Shpg. wt. 1.3 lbs. List $63.44. Each ..... **$50.80**

## LIGHTWEIGHT MINI TORCH ACCESSORY TIP SETS

- **Catalytic element provides flameless heat concentration**
- **For use with Propane fuel on Lightweight Mini Torch No. 3ZJ30**

### SOLDERING TIP SET No. 3ZJ28

Used for electrical soldering of small connections, wood burning, engraving, and stained glass applications. Includes 1.0mm and 2.4mm soldering tips.

**No. 3ZJ28.** Soldering Tip Set. Bernzomatic brand (ST9007). Shpg. wt. 0.4 lbs. List $17.20. Each ..... **$13.76**

### HOBBY/UTILITY TIP SET No. 3ZJ29

Used for heat shrink tubing, softening putty/caulk, cutting thin plastic, and cutting or trimming floor tile. Includes hot air tip, hot knife tip, and needlepoint burntip.

**No. 3ZJ29.** Utility/Hobby Tip Set. Bernzomatic brand (ST9008) Shpg. wt. 0.4 lbs. List $17.20. Each ..... **$13.76**

## SELF-IGNITING HOSE TORCH GUN

- **Capacity: 3530°F, 6600 Btu's with Propane; 3670°F, 8800 Btu's with MAPP® gas**
- **Includes Propane fuel cylinder**
- **UL Listed (MH5592)**

Designed for professional applications which require higher temperatures. Swirl-action brazing flame and flared burner tube further increase the heat rate. Comfortable pistol grip and abrasion-resistant fuel hose allow access to cramped areas where working space is limited. Can be used at any angle. Bernzomatic brand (TS6000MK).

**No. 6Z009.** ❸† Shpg. wt. 4.2 lbs. List $71.14. Each ..... **$50.20▲**

## SELF-IGNITING TORCH

- **Capacity: 3500°F, 4800 Btu's with Propane**
- **Includes 14.1 oz. Propane fuel cylinder**
- **For propane fuel only**
- **UL Listed (MH5592)**

Self-igniting torch offers automatic ignition and a fully adjustable flame. Trigger activated piezo ignitor for thousands of easy torch lights. Regulated fuel valve allows heating, soldering, sweating of pipes, and paint removal. Solid brass valve threads for easy cylinder attachment and removal. Stainless steel burner tube resists corrosion. Comfortable easy-to-hold grip. Bernzomatic brand (TS2000K).

**No. 6Z008.** ❸† Shpg. wt. 2.9 lbs. List $37.98. Each ..... **$28.50**

## SELF-IGNITING TORCH GUN

- **Features self-contained, trigger activated ceramic ignitor to instantly produce 3500°F/7000 Btu's per hour**
- **Includes 14 oz. Propane fuel cylinder**
- **UL Listed (MH5592)**

Used to heat, sweat, solder, and braze. Regulator valve delivers constant gas pressure at any angle or temperature. Stainless steel burner tube produces a swirl flame to heat work efficiently. Large grip provides positive fuel shutoff. Bernzomatic brand (TS5000MK).

**No. 4Z729.** ❸† Shpg. wt. 3.3 lbs. List $56.88. Each ..... **$42.15**

❸ These products are covered by OSHA Communication Standard, and Material Handling Data Sheets (MSDS) are available. See page opposite inside back cover.
(†) DOT regulated product—shipped in full ship pack only. (▲) Net prices, not subject to discounts.

# SELF-IGNITING TORCHES AND ACCESSORIES

| BTU OUTPUT PER HOUR | | |
|---|---|---|
| | PROPANE | MAPP GAS |
| BTU/HR. | 7250 | 7131 |
| FLAME TEMP. | 3400°F | 3600°F |

No. 5W956

No. 3ZJ31

No. 3ZJ32

## HIGH OUTPUT, SWIRL ACTION TORCH

- **Swirl action flame**
- **Self-igniting**
- **Burns either Propane or MAPP® gas**

Self-Igniting Torch features a heavy-duty ignitor for more consistent lighting. Swirl action burn tip substantially increases the heat output of the torch causing the torch to burn hotter with less Btu's, making it more fuel efficient. Unit includes built in pressure regulator for consistent performance in any position and an adjustable flame. Instant ON, Instant OFF. Can be used at any angle. Adjustable flame control. Perfect for soft soldering up to 4" copper pipe. Brazing or silver solder up to 1¼" copper pipe. Surefire brand (T655).

**No. 5W956.** Shpg. wt. 1.2 lbs. List $67.65. Each ..... **$49.50▲**

## CAST ALUMINUM, SELF-IGNITING TORCH

- **Cast aluminum construction**
- **Pressure regulated for consistent performance**
- **Burns either Propane or MAPP® gas without any conversion**

Self-Igniting Torch with general purpose flame. Can be converted to a pencil, swirl, or general purpose flame by replacing the orifice and burntip. Multiple uses for the professional. Use the Pencil Flame for detail work, the Swirl Flame for high heat output, and the General Purpose Flame for a variety of other projects. Sure-Fire brand (T111)

**No. 3ZJ31.** Self-Igniting Torch. Shpg. wt. 1.1 lbs. List. $53.56. Each ..... **$42.85**

## CAST ALUMINUM, SELF-IGNITING, HEAT SHRINK TORCH

- **Cast aluminum construction with trigger guard**
- **Solid brass burntip operates in high winds**
- **Burns either Propane or MAPP® gas**

Heat Shrink Torch can be converted to a pencil, swirl, or general purpose flame by replacing the orifice and burntip. Generates 10,700 BTU output per hour. Designed for heat shrink applications such as heat shrinkable tubing. SureFire brand (T751).

**No. 3ZJ32.** Shpg. wt. 1.3 lbs. List $97.85. Each ..... **$78.30**

## PERFORMANCE CHART

| Torch No. | Flame Type | Burntip Marking | Uses Burntip No. | Propane Gas Soft Solder (In.) | Propane Gas Silver Braze (In.) | MAPP® Gas Soft Solder (In.) | MAPP® Gas Silver Braze (In.) |

| Accessory | Pencil | C | 5W957 | 1/8 to 2 | 1/8 to 1/2 | 1/4 to 2½ | 1/8 to 3/4 |

No. 5W957

No. 5W958

No. 5W959

No. 5A336

## ACCESSORIES COMPATIBLE WITH TORCH Nos. 5W956, 3ZJ31, & 3ZJ32

### SWIRL FLAME BURN TIP AND ORIFICE

Replacement for original orifice and tip for torch. Kit includes replacement brass orifice and swirl action tip.

**No. 5W958.** SureFire (OT658). Shpg. wt. 0.2 lbs. List $7.72. Each..... **$6.64**

### PENCIL FLAME BURN TIP AND ORIFICE

Item converts the flame of torch to a fine pencil point. Includes a new brass orifice and pencil flame tip.

**No. 5W957.** SureFire brand (OT657). Shpg. wt. 0.1 lbs. List $7.72. Each ..... **$6.64**

### BURN TUBE ASSEMBLY

Replacement burn tube assembly for torch. Includes new stainless steel burn tube.

**No. 5W959.** SureFire brand (BT656). Shpg. wt. 0.2 lbs. List $17.95. Each ..... **$15.20**

### 12 FT. HOSE ASSEMBLY FOR LP TANK

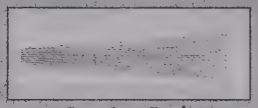
Includes adapter for hose to LP tank valve, adapter for hose to torch, check valve, and 12 ft. hose.

**No. 5A336.** SureFire brand (H-101). Shpg. wt. 1.8 lbs. List $46.74. Each ..... **$41.20**

(▲) Net prices, not subject to discounts.

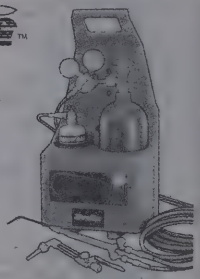
# PORTABLE TORCH KITS AND ACCESSORIES

Oxygen/Propane & Oxygen/MAPP® Gas Tote Torch Kit No. 3X673



Propane Gas Torch Kit No. 3X671

Cylinder Stand No. 3ZJ24



Brazing Rods

Disposable Fuel Cylinders

Oxygen/MAPP® Gas Torch Kit No. 3ZJ26

## MAPP GAS vs. ACETYLENE COMPARISON CHART

| MAPP Gas | Acetylene |
|---|---|
| 1. More stable: No limit on delivery pressure | 1. Less stable: Cannot be used over 15 PSI |
| 2. Economical | 2. Expensive |
| 3. Oxygen flame temp. 5301°F | 3. Oxygen flame temp. 5589°F |
| 4. High BTU release in both primary and secondary flame | 4. High BTU release in primary flame only |

## OXYGEN/PROPANE AND OXYGEN/MAPP® GAS PORTABLE TOTE TORCH™ KIT

Combines Oxygen and Propane (or MAPP® gas) to produce a concentrated high temperature flame of approx. 4600°F and 5200 Btu's per hour. Cuts, welds, brazes and solders. Capable of cutting 1/4" steel plate and 3/4" bolts. Disposable Propane and Oxygen cylinders are clean and safe—no tips to change, no filters or tip cleaners needed, no hot pellets or messy contents to dispose of.

Includes 14.1 oz. Propane and 1.1 cu.ft. Oxygen cylinders with stand, solid brass fuel and Oxygen regulator valves, nonclogging burner with hand-contoured grip, 4½ ft. hose plus spark lighter and five assorted welding brazing rods. Bernzomatic brand (0X2500).

**No. 3X673.**❸† Shpg. wt. 6.1 lbs. List $62.98.Each.....**$48.20**

## PROPANE GAS TORCH AND KIT

Propane torch produces a concentrated flame that delivers 3500°F and 4200 Btu's per hour. Use to solder, soften paint and putty, repair gutter leaks, sweat copper pipes, and loosen bolts and nuts. Up to 12 hours burning time per fuel cylinder.

Includes pencil flame brass burner head and 14.1 oz. Propane fuel cylinder. No. 3X671 also includes flame spreader, spark lighter and deluxe molded storage case. UL Listed. Bernzomatic brand.

**No. 3X670.** Propane Torch (JT10). Shpg. wt. 3.0 lbs. List $24.73. Each.....**$18.10**

**No. 3X671.** Torch Kit (JT25). Shpg. wt. 3.8 lbs. List $37.71. Each.....**$28.05**

### DISPOSABLE FUEL CYLINDERS

**No. 3X676.**❸† **Disposable Propane Fuel Cylinder.** Meets DOT 39 standards. 1" threaded bushing with pressure relief valve. 18,500 Btu's 14.1 oz, Bernzomatic brand (TX9). UL Recognized (MH5592) Shpg. wt. 2.0 lbs. List $5.66. Each.....**$2.97▲**

**No. 3X677.**❸† **Disposable Oxygen Fuel Cylinder.** Meets DOT 39 standards. Patented eutectic relief device. Bernzomatic brand (0X9).Shpg. wt. 1.6 lbs. List $9.65. Each.....**$7.64**

**No. 6Z010.**❸† **Disposable MAPP® Gas Cylinder.** Meets DOT 39 standards. 1" threaded bushing with pressure relief valve. Combines methylacetylene and propadiene to allow a higher heat rate of 21,000 Btu's for more efficient burning. 16 oz. Bernzomatic brand (MG-9). **NOTE:** Use only with Bernzomatic torch kits No. 6Z009 and 3X673. **DO NOT USE** with standard Propane appliances including No. 4Z729. Use only with MAPP® gas appliances Nos. 6Z009 and 5A341. UL Recognized (MH10820). Shpg. wt. 2.1 lbs. List $9.64. Each.....**$6.88▲**

## CYLINDER STAND

For use with all standard 14.1 oz. and 16.4 oz. cylinders of Propane and MAPP® gas. Fits cylinder Nos. 3X676, 3X677, and 6Z010. Bernzomatic brand (CS1000).

**No. 3ZJ24.** Cylinder Stand. Shpg. wt. 0.3 lbs. List $6.00. Each.....**$4.80**

## PORTABLE OXYGEN/MAPP® GAS TORCH KIT

- **Fluted torch handle design with check valves safeguards against reverse flow of gases**
- **Heavy-duty Oxygen regulator with 2" gauges and 1¾" diaphragm. CGA 540 cylinder connection with inlet filter to prevent contaminants from entering the system**
- **MAPP® gas fuel valve for precision gas flow control. CGA 600 cylinder connection**
- **#4 welding/brazing tip with in-tip mixer and brass coupler nut welds up to 1/8" and brazes up to 1/4"**
- **#56-1 MAPP® gas cutting tip cuts up to 1/2"**
- **Teflon-packed adjustment valves provide smooth operation**

Kit also includes 20 cu. ft. refillable Oxygen cylinder (shipped empty), 16 oz. disposable MAPP® gas cylinder for high temperature performance, 12½ ft. twin-welded hose with standard "B" fittings, safety goggles and spark lighter, and heavy-duty carrying case.

**No. 3ZJ26.**❸† Portable Oxygen/MAPP® Gas Torch Kit. SureFire brand (OM2750). Shpg. wt. 29.0 lbs. List $484.00. Each.....**$387.25**

## BRAZING RODS

**No. 3AC22 Bronze Flux Coated Brazing Rod.** With a 56-60% copper-based alloy, the balance is zinc for high strength joints and overlap on steel, cast iron, copper, brass, bronze, yellow brass, and galvanized parts. Brazing range 1595-1620°F.

**No. 3AC22.**❸ Shpg. wt. 1.0 lbs. List $15.09. Each.....**$11.68**

**No. 3AC23 Silver Brazing Rod.** Uses a substitute for silver content brazing alloys. Alloy mix of 92-93% copper and 7-8% phosphorous. Brazing range from 1310-1460°F. Approximate tensile strength is 90,000 PSI.

**No. 3AC23.**❸ Shpg. wt. 1.0 lbs. List $21.02. Each.....**$16.91**

❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

# HIGH OUTPUT SWIRL ACTION TORCH KITS

Spark-igniting swirl flame tip lights with one push of a button-spark lighters or matches are not needed. Compatible and interchangeable with current quick disconnect style tips.

No. 3ZJ14

SureFire™ A BERNZOMATIC PRODUCT

No. 3ZJ20

## AIR ACETYLENE SPARK-IGNITING TORCH KIT

- **Cool operating tip for extended life**
- **Each torch is lit and tested for leaks and proper flame**

Kit includes 3/8" spark-igniting swirl flame tip, quick disconnect torch handle with On/Off control, 12 ft. hose with "A" fittings, solid brass regulator with 2" contents gauge (fits "B" acetylene cylinder and 3/8"-24 LH hose nut), heavy-duty piezo electric ignitor, swirl action flame, and replaceable solid brass burntip for extended life.

**No. 3ZJ14.** Air Acetylene Spark-Igniting Torch Kit. SureFire brand (AA1000). Shpg. wt. 9.8 lbs. List $175.10. Each ..... $140.05

### AIR ACETYLENE TIPS

**No. 3ZJ15.** 1/4" Spark-Igniting Swirl Flame Tip. SureFire brand (AA1001S). Shpg. wt. 0.4 lbs. List $50.47. Each ..... $40.40

**No. 3ZJ16.** 3/8" Spark-Igniting Swirl Flame Tip. SureFire brand (AA1002S). Shpg. wt. 0.4 lbs. List $50.47. Each ..... $40.40

**No. 3ZJ17.** 1/2" Spark-Igniting Swirl Flame Tip. SureFire brand (AA1003S). Shpg. wt. 0.4 lbs. List $50.47. Each ..... $40.40

### ACCESSORIES

**No. 3ZJ18.** "B" to "MC" Acetylene Cylinder Adapter. SureFire brand (AA1201). Shpg. wt. 0.3 lbs. List $21.00. Each ..... $16.80

**No. 3ZJ19.** Screw to Quick Disconnect Adapter. SureFire brand (AA1202). Shpg. wt. 0.5 lbs. List $27.00. Each ..... $21.60

## AIR PROPANE/MAPP® GAS SPARK-IGNITING TORCH KIT

- **Cool operating tip for extended life**
- **Each torch is lit and tested for leaks and proper flame**

Kit includes 3/8" spark-igniting swirl flame tip, quick disconnect torch handle with On/Off control, 12 ft. hose with "A" fittings, solid brass regulator with 2" gauge (fits standard POL valve and 3/8"-24 LH hose nut), heavy-duty piezo electric ignitor, swirl action flame, and replaceable solid brass burntip for extended life. Surefire brand (AP500LS).

**No. 3ZJ20.** AirPropane/MAPP Gas Spark-Igniting Torch Kit. Shpg. wt. 9.8 lbs. List $175.10. Each ..... $140.05

### AIR PROPANE/MAPP® GAS TIPS

**No. 3ZJ21.** 3/8" Spark-Igniting Swirl Flame Tip. SureFire brand (AP5002S). Shpg. wt. 0.4 lbs. List $50.47. Each ..... $40.40

**No. 3ZJ22.** 1/2" Spark-Igniting Swirl Flame Tip. SureFire brand (AP5003S). Shpg. wt. 0.4 lbs. List $50.47. Each ..... $40.40

### ACCESSORIES

**No. 3ZJ23.** 12 ft. Hose with "A" fitting and 3/8"-24LH Hose Nut. SureFire brand (AA5601). Shpg. wt. 1.4 lbs. List $19.00. Each ..... $15.20

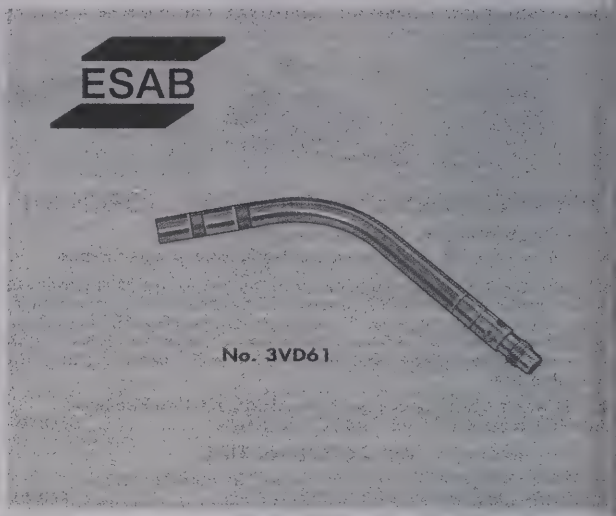
**No. 3ZJ27.** Swirl Flame/Swivel Brazing Torch. SureFire brand (SF-9). Shpg. wt. 0.8 lbs. List $54.59. Each ..... $43.70

### SWIRL FLAME BRAZING PERFORMANCE CHART

| Swirl Flame, Swivel Brazing Torch No. | Flame Type | Propane Gas Soft Solder (In.) | Silver Silver (in.) | MAPP® Gas Soft Solder (In.) | Silver Solder (In.) |
|---|---|---|---|---|---|
| 3ZJ27 | 1/2" Swirl | 1/4 to 2½ | 1/4 to 1 | 1/4 to 3 | 1/4 to 1½ |

# SWIRLJET® TIPS, BRAZING KITS AND TANK CARRIERS



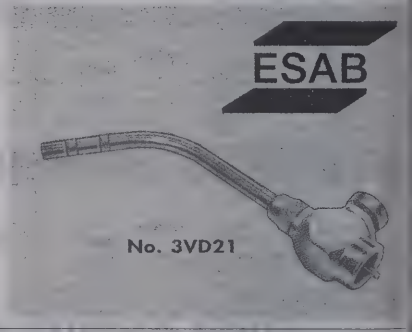
## SWIRLJET® TIPS

- **Superior to standard tips—provide maximum effective heating power**
- **Short wrap around flame for close work—no heat damage to walls or woodwork as close as 1" away**
- **All weather use—protected, high velocity flame works in wind, rain and sub-zero temperatures**
- **Interchangeable with both Prest-O-Lite 403 & 401M torch handles**
- **Run quieter, cooler and give better heat transfer than other comparable tips**
- **Can be used with the R-10 Liquid Fuel Gas Regulator on the 1 lb. disposable cylinders of FG-2, propane & MAPP**

In the Swirljet tip, mixed gases (air and fuel) are swirled at very high velocity through a propeller-like set of vanes at the rear of the flame tube. This swirling produces a much hotter, relatively short flame that concentrates heat output on the work. Swirljet tips are available for air-acetylene and air-fuel gas use.

### OPERATING PRESSURES:

Swirljet air-acetylene tips require a minimum acetylene pressure of 13 psi and are so labeled. Do not use with any regulator preset to deliver 10 psi or less. Swirljet air-fuel gas tips require pressure of 24 psi with Propane, 32 psi with FG-2 and 36 psi with MAPP. Operating at too low a pressure will cause overheating at the flame tube.



| Description | Pressure Fuel | Gas Flow (PSIG) | Copper Tubing Soft Solder ft. 3/hr (cfh) | Silver Braze Size (In.) | Silver Braze Capacity (In.) | ESAB Model | Stock No. | List | Each | Shpg Wt. |

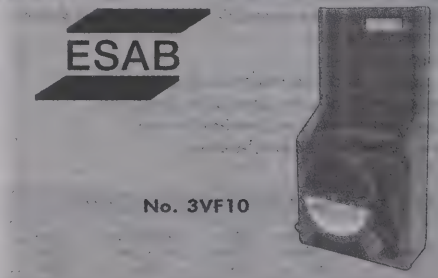
| **SJ-6LPG** | FG-2* | 32† | 16.2 | 1 - 6 | 3/4 - 4 | 21477 | **3VD67** | 58.49 | **56.20** | 0.8 |

(*) These tips can also be used with Propane and MAPP Gas.
(†) 24 PSI with Propane, 36 PSI with MAPP Gas.

## TRI-FLAME KIT

- **For soft soldering and silver brazing**
- **Triple convenience—burns FG-2, MAPP or propane in disposable cylinders**
- **Operates in all positions—even upside down**
- **Brings copper tubing to the brazing temperature 25% faster than propane**
- **High-flame velocity—works efficiently outdoors in cold, windy weather**
- **Regulator machined from solid brass bar stock—greater strength and durability**
- **Concentrated wrap around flame—reduces risk of damage to surrounding areas**
- **Includes: R-10 Regulator No. 4 Swirljet Tip**
- **Swirljet tips available in three sizes—No. 4 (standard) solders up to 3/4"; No. 5 (optional) solders up to 2"; No. 3 (optional) for fine work**



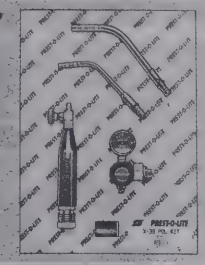
**No. 3VD21.** Tri-Flame Kit (17145). Shpg. wt. 1.5 lbs. List $91.99. Each ..... **$88.30**

## CARRIERS AND ADAPTERS

Kangaroo Kart is strong, lightweight polypropylene carrier for MC (10 cu. ft.) acetylene tank and an R (20 cu. ft.) oxygen tank. Includes handy accessory compartment. 24H x 12¼"W.

**No. 3VF10.** Kangaroo Kart (791F80). Shpg. wt. 5.1 lbs. List $39.80. Each ..... **$38.30**

### PREST-O-LITE ADAPTERS FOR REGULATORS



| Hose Connection | ESAB Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **Left-Hand A to B** | 18Z56 | **3VD35** | $6.17 | **$5.92** | 0.1 |
| **Right-Hand A to B** | 18Z57 | **3VD36** | 6.17 | **5.92** | 0.1 |

**Note:** These adapters allow an "A" size regulator to be attached to a "B" size hose. "A" fitting: 3/8-24, "B" fitting: 9/16"-18.

## QUICK DISCONNECT TORCHES

**No. 4UT34 LP-2 POL KIT**

- For use with Air/Propane
- For jobbing and smaller work
- Soft solders to 2½ in. (60mm)
- Silver brazes to 1¼ in. (30mm)

**No. 4UT35 X-3B POL Kit**

- For use with air-acetylene
- Flexible kit bronze brazes light/medium gauge steel
- Soft solders to 4 in. (100mm)
- Silver brazes to 2 in. (50mm)
- "B" tank connection

### AIR-LP KIT (ONLY)

PREST-O-LITE® Quick Disconnect Torches operate on PREST-O-LITE® FG-2 propane, propylene, and all other LP gases. PREST-O-LITE® torches and tips provide maximum heat output and heat transfer with all of these gases.

## FITTED HOSE ASSEMBLIES

All PREST-0-LITE® outfits are supplied with hose assemblies. Top quality 3/16 in. I.D. hose is used, with brass fittings securely attached by means of aluminum ferrules. Single hose assemblies are offered in two lengths: 6 and 12½ feet. Twin hose assemblies (Oxygen and Acetylene hoses joined by stout web of rubber) for oxy-acetylene welding and cutting outfits are available in 12½ foot lengths.

# AIR-ACETYLENE AND OXY-ACETYLENE OUTFITS

## PREST-O-LITE® GENERAL PURPOSE AIR-ACETYLENE OUTFITS

### GENERAL PURPOSE OUTFITS

- Precision flame control—for joints near a wall, against each other, and hard-to-reach places
- Instant heat—4000°F, without pumping or priming
- Convenient—small, light, easy to handle and always ready to use
- Efficient—ample range for run-of-shop work; unaffected by drafts, wind and rain

### 4-IN-1 OUTFITS

- Interchangeable tips—for proper flame size and heat
- Change tips in seconds—no tools necessary; tips lock in any working position
- Common torch handle—provides equivalent of five outfits

General-purpose air-acetylene outfits are designed for sweat-type fittings, and heating and brazing applications. Ideal for use with copper, brass, steel and wrought iron pipe with solder-type fittings. 4-in-1 outfits are suitable for all-purpose soldering, heating, and brazing. Both feature adjustable pressure regulator with contents gauge, and delivery pressure indicators on pressure adjustment knob for steady gas delivery and stable flame. "B" tank and "MC" tank models available.

### AIR-ACETYLENE OUTFIT COMPONENTS AND ORDERING DATA

## PREST-O-LITE® OXY-ACETYLENE OUTFITS

- Torch handle has piston-type arrangement for hand-tight connection of welding heads and cutting attachment
- Cutting attachment offers ease-on control of cutting oxygen flow for smooth pierce starts; cuts up to 2" thick steel with optional larger nozzle
- Oxygen regulator designed to contain explosive fires caused by spontaneous ignition

Oxy-acetylene outfits are used for welding, cutting, brazing, and heating applications. Available in basic, standard, and deluxe for use with "R" (20 cu.ft.) oxygen cylinder and either "B" (40 cu.ft.) or "MC" (10 cu.ft.) acetylene tank. All kits include lightweight W-200 aircraft-style torch handle with replaceable "A" size inlets, solid brass bar stock body with drilled gas passages, and front-mounted throttle valves. Deluxe kits include adapter for air-acetylene soldering. Tanks not included.

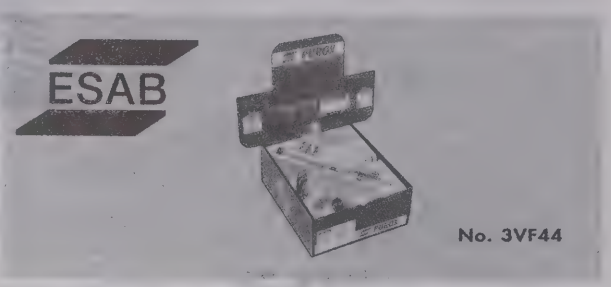
## PUROX® TRADEMASTER OUTFIT



No. 3VF45

Particularly popular among journeyman users, the TradeMaster Outfit handily accomplishes any craftsman's full complement of welding, heating and cutting jobs — from light-duty to heavy-duty. It features top-line components, equally versatile for contractors, general shops, field applications, general maintenance work and trade schools.

### WELDING, CUTTING AND HEATING RANGES

| | Outfit as furnished | Outfit with optional heads and nozzles |
|---|---|---|
| Welding Range (metal thickness) | Up to 3/8 in. (10mm) | Up to 1 in. (25mm) |
| Cutting Range (metal thickness) | Up to 1½ in. (38mm) | Up to 8 in. (203mm) |
| Heating Range | Up to 55 cfh acet. (103,000 Btu/hr.) | Up to 200 cfh acet. (294,000 Btu/hr.) |

## PUROX® "E" MASTER OUTFIT

No. 3VF44

"E" Master is a prime performer for contractors, scrap burners, steel fabricators, structural iron workers, foundry men and other industrial users. In addition to a full range of normal cutting operations, its usefulness extends to pad washing, rivet cutting, gouging or grooving, piercing and heating, plus specialized applications.

### CUTTING RANGE

| | Outfit as furnished | Outfit with optional heads and nozzles |
|---|---|---|
| Cutting Range (metal thickness) | Up to 4 in. (102mm) | Up to 12 in. (305mm) |

## PUROX® METALMASTER OUTFIT

Smooth, dependable performance over a considerable operating range makes the MetalMaster Outfit an excellent choice for general purpose welding, heating and cutting. This package provides exactly the right combination of components ideal for professional auto repair and muffler work, trade schools, in addition to farm and light maintenance jobs. (No. 3VD95 same as No. 3VF28 except for CGA 300 connection on the acetylene regulator).

No. 3VF28

*) The CGA 300 valve is exclusive to the East coast. Check with your local gas supply before purchasing this welding outfit.

# HAND WELDING AND CUTTING TORCHES

No. 3VC87

No. 3VD30

## TYPE "E"

- Ease-on control of cutting oxygen —ideal valve action for pierce starts, gouging, and rivet busting
- Performs efficiently with any fuel gas
- Gland nut restricts lateral movement of hand wheel — valve stem will not bend if the torch is dropped
- Extra long Teflon valve packing and extra fine pitch threads — provides fine control of flame while protecting against unintended fluctuation.
- Nozzle nut threaded to fit inside head, which causes it to tighten — less chance of leakage when torch is operated
- Front, bottom mounted cutting oxygen lever — for convenient handling
- Heat resistant nickel-silver alloy tubes — provide rigidity and high corrosion resistance

### TYPE "E" SPECIFICATIONS

Cutting Capacity:
Acetylene and Other Fuel Gases . . . . . up to 12 in. (305mm)
Nozzles:
Type "E" . . . . . 4200 series

### PUROX® TYPE "E" CUTTING TORCH*

| Description | ESAB Model | Stock No. | List | Each | Shpg. Wt. |

|---|---|---|---|---|---|
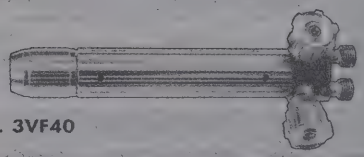
| For acetylene | 19048 | 3VD37 | $26.16 | $25.15 | 0.1 |
| For low psi natural gas | 19417 | 3VD38 | 34.29 | 32.95 | 0.1 |

## C-84

- Lightweight, well-balanced, rugged, low cost torch for general purpose cutting—ideal economy torch for steel fabricators, shipyards, scrapyards, contractors, and foundries
- Replaceable inlet connections—thread damage does not require replacement of the rear body
- Universal mixer for all medium pressure fuel gases—one mixer for cutting up to 4" with acetylene and up to 12" with other fuel gases
- Forged brass fold-back cutting lever bottoms out on torch handle-excessive force will not damage cutting oxygen valve or lever
- Gases mixed in the head—reduces possibility of damage from flash-backs



### C-84 SPECIFICATIONS

Cutting Capacity:
Acetylene . . . . . up to 4 in. (127mm
Other fuel gases . . . . . up to 12 in. (305mm
Nozzles . . . . . 4200 series

### PUROX® C-84 CUTTING TORCH

## PUROX® W-300 WELDING TORCH

No. 3VF40

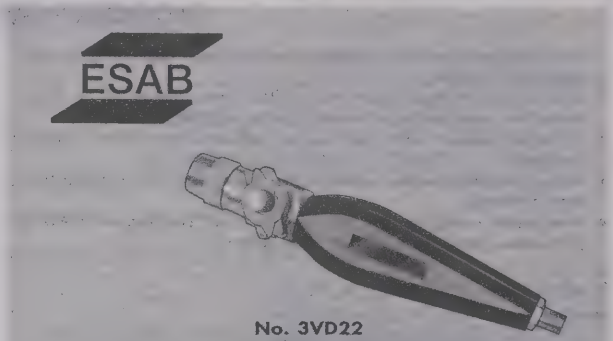
**Welding Range:** Thin gauge to over 1 in.

**Heating Range:** 1 to 200 cfh acetylene*

- Ideal for all welding, brazing or medium heating applications in average production, repair or maintenance work
- Recommended for manual operations requiring speed and uninterrupted welding, heating and brazing
- Operates on medium pressure acetylene and other fuel gases
- Gas-mixer—high resistance to backfires, flame pops, and flashbacks
- Roll stamped permanent identification
- Extra length teflon valve packing for improved back-lash characteristics
- Order tips and cutting assembly separately. See Index for listings

**No. 3VF40.** (ESAB Model 999339).
Shpg. wt. 1.6 lbs. List $136.49.
Each . . . . . $131.1

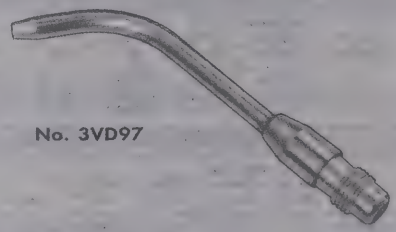
(*) Equivalent to approximately 1400 to 300,000 Btu/hr. Acetylene and other fuel gases may be used.



# PREST-O-LITE TORCH HANDLES AND TIPS

## TORCH HANDLES

- Compact and comfortable to work with
- Features a quick-acting connection for instant tip changes without tools
- Standard and SWIRLJET® tips fit interchangeably
- Valve assembly for 401M is located at the front of the handle for convenient flame adjustment
- Valve incorporates a gas flow adjustment knob with a shutoff lever, permitting relight without flame readjustment
- 403 has a valve at the rear for handy shutoff and automatic gas regulation
- ESAB brand



**No. 3VD22.** Torch Handle (401m) forward On/Off valve with flame control knob. Shpg. wt. 0.8 lbs. Each ..... $71.55

**No. 3VC86.** Torch Handle (403) Valve at rear. (19x39). Shpg. wt. 0.6 lbs. Each ..... $33.60

No. 3VD22

No. 3VC86

No. 3VD97

## STANDARD TORCH TIPS

- Interchangeable with both PREST-O-LITE torch handles
- Five sizes for open-flame heating and soldering with acetylene
- Acetylene flame spreader tip
- Two copper soldering iron tips for use with acetylene
- Two fuel gas tips for special applications in the telecommunications industry using FG-2, MAPP, or propane
- Mixer and mixer disc matched to tip orifice size
- Tips silver-soldered to mixer bodies

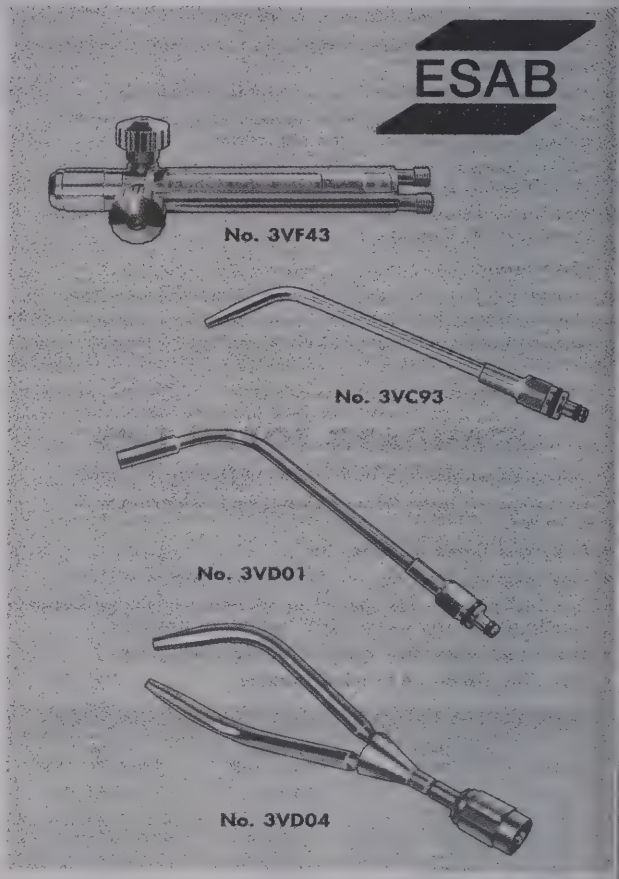
### OPERATING PRESSURES AND GAS CONSUMPTION

| Tip Size | Flame Port Size | Operating Pressure Range | Gas Consumption Range |
|---|---|---|---|
| 1A | 1/10 in. | 1 to 5 psi | 0.2 to 1 cfh |
| 3 | 5/32 in. | 1 to 10 psi | 1 to 4 cfh |
| 4 | 13/64 in. | 1 to 10 psi | 1.5 to 6 cfh |
| 5 | 1/4 in. | 1 to 10 psi | 3 to 9 cfh |
| 6 | 3/8 in. | 2 to 10 psi | 8 to 20 cfh |
| 8, 8C | 3/32 in. | 2 to 5 psi | 0.3 to 1 cfh |
| 9 | 1/32 x 2 in. | 5 to 10 psi | 2 to 6 cfh |
| 1 FG | 7/64 in. | 5 to 10 psi | 0.4 cfh |
| 6FG | 1.350 in. | 25 to 35 psi | 11 cfh |

### STANDARD TORCH TIPS SPECIFICATIONS AND ORDERING DATA

| Number | Gauge | Use | ESAB Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **FOR ACETYLENE USE** | | | | | | | |
| **1-A** | Fine | For fine jewelry work, telephone switchboard and other small-wire soldering, radiator fin soldering | 638948 | **3VD97** | $15.96 | **$15.33** | 0.2 |
| **3** | Light | For many wire splicing assignments, some jewelry work, light sheet metal work | 10X23 | **3VD06** | 13.84 | **13.29** | 0.2 |
| **4** | Medium | For automobile body work and copper tube joints in the 1/2 to 1 in. range | 10X24 | **3VD07** | 13.84 | **13.29** | 0.3 |
| **5** | Heavy | For most heating jobs and for copper tubing joints in the 3/4 to 1½ in. range | 10X25 | **3VD08** | 13.84 | **13.29** | 0.3 |
| **6** | Extra-Heavy | For maximum heating power, such as needed for large diameter copper tubing joints | 10X26 | **3VD09** | 17.33 | **16.64** | 0.4 |
| **8** | — | Soldering iron with pointed copper | 11X18 | **3VD12** | 72.49 | **69.60** | 0.7 |
| **8-C** | — | Soldering iron with chisel copper | 11X17 | **3VD11** | 79.89 | **76.75** | 0.8 |
| **9** | — | Flame Spreader for paint removal and tile cutting | 10X29 | **3VD10** | 112.62 | **108.15** | 0.6 |
| **FOR FG-2, MAPP OR PROPANE USE** | | | | | | | |
| **1FG** | — | Pencil flame tip for precision and soldering aluminum | 17861 | **3VD29** | 44.84 | **43.10** | 0.3 |
| **6FG** | — | Bushy flame tip for heat shrinking | 11X19 | **3VD13** | 57.81 | **46.30** | 0.7 |

# TORCHES, HEADS, AND CUTTING ATTACHMENTS



## PUROX® W-200 TORCH

- For light production welding and general light-duty welding and brazing
- Solid brass forged body has drilled gas passages to eliminate the possibility of mixed gases within the handle
- Forward valves—for convenient adjustment without changing grip
- Long, slender heads—reach into all spots and around jigs and fixtures
- Acetylene welding tips can be used for brazing with FG-2, propane, MAPP, and other fuel gases

**Welding Range:** Thin gauge to 3/8 in.

**Heating Range:** 1 to 40 cfh acetylene (1470 to 59,000 Btu/hr.)

**No. 3VF43.** ESAB brand (999805). Shpg. wt. 0.9 lbs. List $114.13.
Each.....$109.65

### W-200 ACETYLENE WELDING HEADS

(Single Flame)

| Steel Thickness (In.) | Size | ESAB Model | Stock No. | List | Each | Shpg. Wt. |

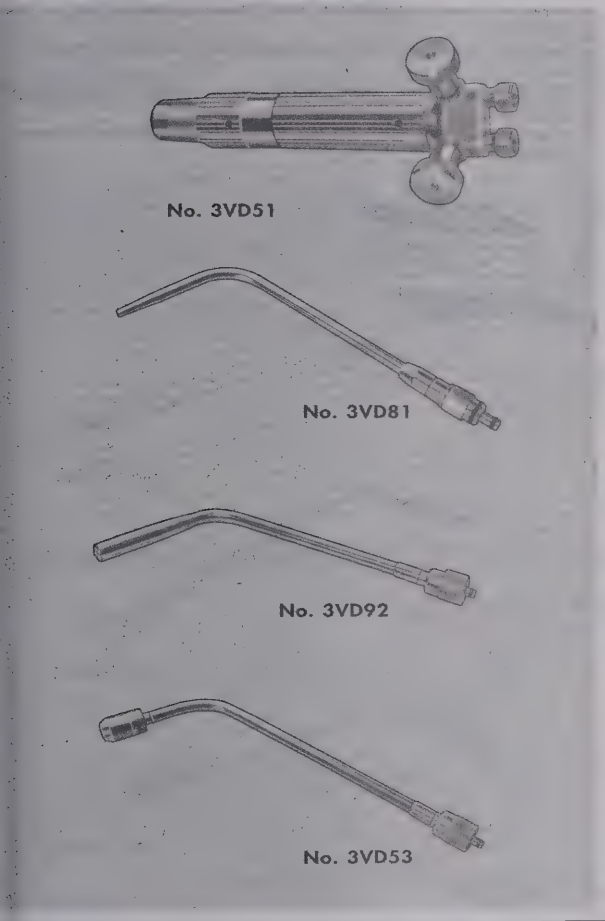
## PUROX® CW-200 CUTTING ATTACHMENT

- Adapts W-200 torch to oxy-fuel cutting—connects directly to torch handle
- Unique piston-type "O" ring seals provide positive leakproof connections
- Ease-on control of cutting oxygen flow for smoother starts
- Lightweight-easy to handle
- Ideal for work on aircraft, auto bodies and sheet metal fabrications as well as pad washing, gouging and rivet washing
- Cuts to 2 inches
- 90° head

**Cutting Range:** 1/16 - 2 in.



**Cutting Nozzles:** 4200 Series

**No. 3VC89.** ESAB brand (05L20). Shpg. wt. 1.2 lbs. List $149.11.
Each.....$143.20

TELL US WHAT YOU NEED—WE'LL DO OUR BEST TO HELP YOU!

# PUROX® W-250 TORCH

- For medium-duty production welding and brazing
- Heavy-duty rear mounted throttle valves with encapsulated stems
- "B" size replaceable inlets

## W-250 WELDING TORCH

**Welding Range:** Thin gauge to 1-in.

**Heating Range:** 2 to 70 cfh acetylene*

**No. 3VD51.** ESAB brand (21189). Shpg. wt. 1.6 List $81.98.
Each ..... $78.75

(*) Equivalent to approximately 2,800 to 102,000 Btu/hr. Acetylene and other fuel gases may be used.

## W-250 ACETYLENE WELDING HEADS (Single Flame)

# W-300 AND W-400 WELDING AND HEATING HEADS

- Quick change, slip in and hand-tighten, no wrench needed; three separate parts all readily replaceable and individually sized
- Goose neck shape easy to manipulate in cramped working spaces
- Rosebud models off faster heat transfer over a larger heating area
- Swaged copper tips for maximum heat and wear resistance
- Rapid heat transfer provided by extra heavy forward wall sections
- Proven performance—all heads are factory-tested before shipment

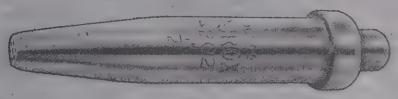
# PUROX® CW-300 CUTTING ATTACHMENT

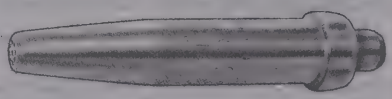
- 90° head—No. 3VF41; 75° head—No. 3VF42
- Ease-on control of cutting oxygen for smoother starts
- Adapts torch to oxy-fuel cutting
- Unique piston-type "O" ring seals provide positive, leakproof connections
- Also effective for pad washing, gouging and rivet washing
- Operates with all medium-pressure acetylene and other fuel gases
- Valve packing nut contained under handwheel to resist stem damage
- Cutting range using acetylene 1/16 to 8"
- Cutting range using other fuel gases 1/16 to 4"
- Use torch handle No. 3VF40
- Use 4200 series nozzles
- ESAB brand



**No. 3VF41** (999340). Shpg. wt. 2.0 lbs. List $182.38.
Each.....$175.50

**No. 3VF42** (999341). Shpg. wt. 2.0 lbs. List $182.38.
Each.....$175.50

# NOZZLES



ESAB

No. 3VD96

- General purpose
- Medium preheat sufficient for beveling

No. 3VF22

- Heavy preheat for scrap cutting in excess of 45°
- Can be used with FG-2 or MAPP

## GENERAL PURPOSE ACETYLENE HAND OR MACHINE CUTTING NOZZLES — 4202 SERIES

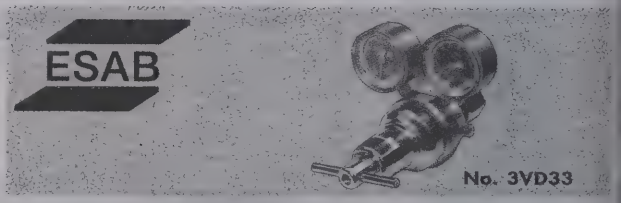
# REGULATORS

## PUROX® MEDIUM-DUTY R-72 REGULATORS

- Designed for medium-duty service and built for years of trouble-free performance with minimum maintenance
- Models available for oxygen, acetylene, and propane service
- Body and cap—all R-72's machined from solid, high-strength brass bar stock
- 2½" pressure gauges—easy-to-read for precision settings
- Patented baffle design incorporated in oxygen version for suppressing internal forces in case of a regulator burnout



### MEDIUM-DUTY R-72 REGULATORS SPECIFICATIONS AND ORDERING DATA

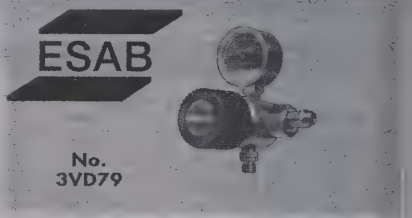
(*) The CGA 300 valve is exclusive to the East coast. Check with your local gas supply before purchasing this regulator. (†) One gauge for outlet PSI.

## PREST-O-LITE® LIGHT-DUTY R-22 SERIES REGULATORS

- Light-duty regulators for maintenance and repair shops requiring occasional welding and cutting operations
- Forged brass body and 2" calibrated gauges—enough gas supply to weld 3/4" and cut 6" thick steel
- Baffle design incorporated in oxygen version for suppressing internal forces in case of a regulator burnout



### LIGHT-DUTY R-22 REGULATORS SPECIFICATIONS AND ORDERING DATA

| Cylinder Gas | Model | Maximum Delivery Pressure (PSIG) | CGA Connection Inlet | CGA Connection Outlet | Weight (Lbs.) | Overall Length (In.) | Body Diameter (In.) | Gauge Size (In.) | ESAB Model | Stock No. | List | Each | Shpg. Wt. |

## PREST-O-LITE® R-511 REGULATOR

- Fine mesh inlet filter that prevents contamination
- Piston design for improved performance
- Valox high impact coverall P.A. screw

With its simplified design, the R-511 has fewer parts that need repair, making it more reliable and economical. It also has more common parts with other regulators in the series, for even greater economy and flexibility. Small, yet lightweight, the R-511 is rugged and dependable, outperforming regulators twice its size and three times as heavy.

### R-511 REGULATORS SPECIFICATIONS AND ORDERING DATA

| Cylinder Gas | Model | Maximum Delivery Pressure (PSIG) | CGA Connection Inlet | CGA Connection Outlet* | ESAB Model | Stock No. | List | Each | Shpg. Wt. |

# REGULATORS

## PUROX® MEDIUM-DUTY R-36 REGULATORS

- Body—all R-36s machined from solid brass bar stock for maximum strength
- Pressure gauges—easy-to-read 2-in. diameter
- The R-36-75-580 model has a standard inert gas (5/8-18 RH female) outlet connection
- The R-36-125-580 and R-36-400-580 have 1/4-in. flare fittings that will accept standard refrigerant charging system hoses; designed for air-conditioning/refrigeration industry to perform nitrogen purging and testing of refrigerant systems

## HEAVY-DUTY TRIMLINE AND TWO-STAGE TRIMLINE REGULATORS

- Diaphragm—wafer thin, fabric reinforced with small diameter gives maximum flexibility and strength
- Pressure gauges—color-coded (oxygen-green, fuel gas-red, inert gas-blue) for easy identification; each gauge has a Lexan crystal for added durability and protection
- Seating materials—tailored to gas service. Viton-a for oxygen and neoprene for all other gases; results are additional operating reliability and reduced maintenance
- Feedback Bleeder System—Two-Stage Only-reduced spring force, 30-50 psig pressure differential; cylinders can be used to much lower pressures for increased gas savings
- Up to 10% of full cylinder content savings depending on regulator service

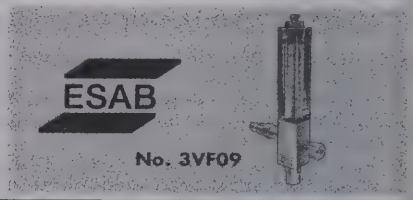
(*) The CGA 300 valve is exclusive to the East coast. Check with local gas supply before purchasing.

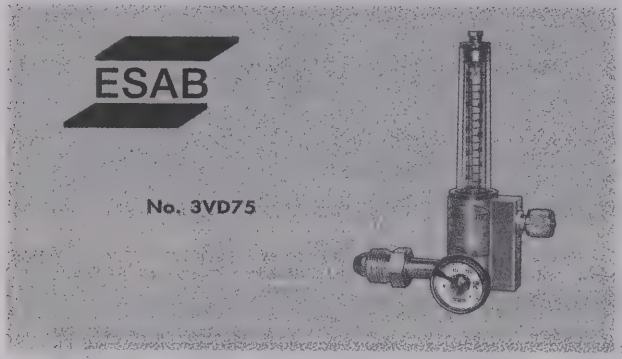
## PREST-O-LITE PRESSURE REGULATORS

- Small and lightweight
- Outperform regulators twice as big and three times heavier
- Fine mesh inlet filter — prevents contamination
- Large, color-coded gauges



| Gas | Model | PSI | CGA Inlet Connection | Maximum Delivery Pressure Connectio | Gauges Outlet Contents | Gauges Delivery Pressure | ESAB Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| **Liquefied Fuel Gas Cylinders with CGA 510 Outlet such as FG-2, MAPP, or Propane** | R-416 | 60 | Nut .880-14 LH Male | A size (3/8"-24) | none | 100 psi | 05X38 | **3VC92** | $69.38 | **$66.65** | 1.6 |

# REGULATORS-FLOWMETERS AND FLOWMETERS



## PUROX ® L-32 ROTATING SCALE FLOWMETER

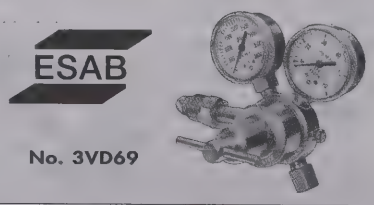
- Easy to read — rotate plastic scale to desired position
- Calibrated for electric welding process gases — argon, helium, $CO_2$, C-25 and nitrogen at 50 psig inlet pressure
- High-strength plastic external tube — withstands rough treatment

| Cylinder Gas | Model | Calibrated Flow Range (cfh) | Connections (CGA) Inlet | Outlet | ESAB Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| **Argon, Helium, C-25 and Nitrogen** | L-32 | 10 to 70Ar<br>10 to 65 C-25<br>20 to 220 He<br>10 to 80 N2 | RH Male | 5/8-18 RH Female | 639751 | **3VF09** | $117.15 | **$112.55** | 1.4 |
| **Carbon Dioxide** | L-32 | 10 to 65 $CO_2$ | 1/4 NPT | 5/8-18 RH Female | 998843 | **3VF36** | 117.15 | **112.55** | 1.3 |

**Note:** The L-32 flowmeter is not equipped with a gauge or a regulator. It is calibrated to operate with 50 psig inlet pressure.
The $CO_2$ model is calibrated to operate at 80 psig inlet pressure.

## PUROX® R-33 REGULATOR-FLOWMETER

- Competitively priced
- Durable Lexan outer tube and flow tube with easy-to-read graduations
- Solid brass piston and machined brass body
- 3000 psi cylinder contents gauge



## PUROX ® R-50 SERIES REGULATOR-FLOWMETER COMBINATIONS, CONTROLLED-FLOW REGULATORS

- Lowest priced regulator/flowmeter
- Bar stock construction for long life and durability
- Equipped with cylinder contents gauge for convenience
- Equipped with reliable safety release system for operator and equipment protection

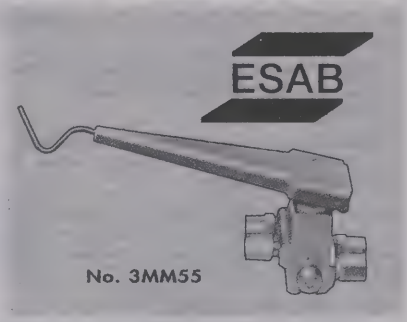
## PREST-O-LITE FLOWMETER-REGULATOR R-36-CF-580

- 2-in. delivery gauge scaled in cfh
- Accurate argon flow rate of 10 to 40 cfh

## PREST-O-LITE FLOWMETER-REGULATOR R-36-FM-580



- Mounted with the well-known L-32 type flowmeter
- Accurate flow control of argon, helium, C-25 & nitrogen
- Delivery pressure to flowmeter factory preset to 50 PSIG

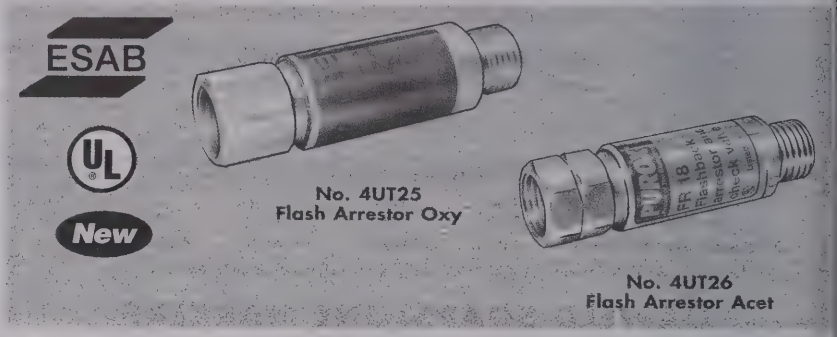
# FRICTION LIGHTERS

- Single-or triple-flint models
- Specially hardened file surface—over one square inch
- Fat spark—flint strikes file at angle
- Quick ignition—protection cup forms gas-collection pocket
- File turns automatically—equalizes wear
- Easily replaceable flints
- Individually blister packed

## ORDERING DATA



| Single Flint Lighter | Model No. | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **Heavy-Duty Model** | 790F34 | **3MM60** | $1.99 | **$1.91** | 0.2 |

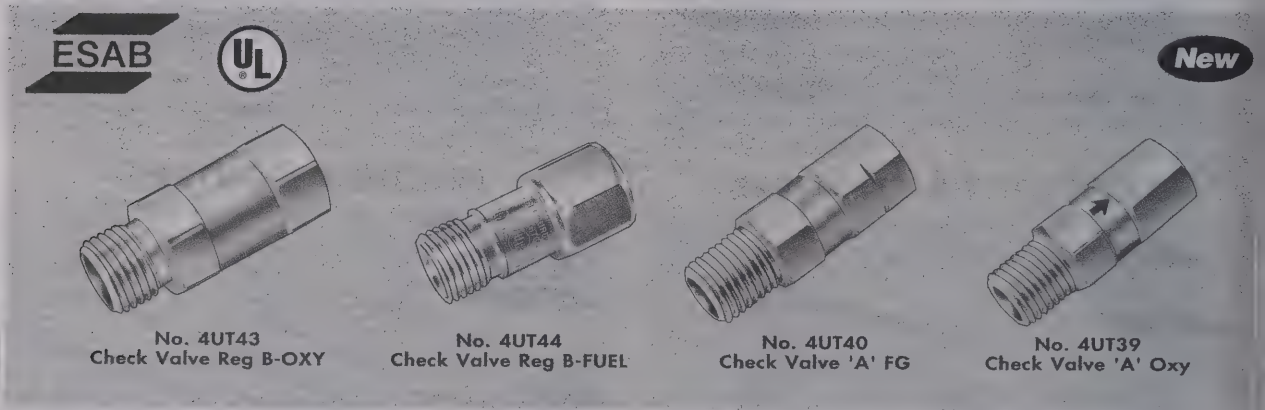
| **Renewal Unit for 3MM61** | 790F98 | **3MM62** | 0.62 | **0.60** | 0.1 |

# WELDING ACCESSORIES

## HOSE LINE FLASH ARRESTORS

- When attached to torch handles with B-size inlets, will actually stop a flashback
- Also designed to stop reverse flow of gases; should be left in place when hose is detached

NOTE: Fuel gas model will work on acetylene up to 15 psig. O2 up to 200 psig. and all other fuel gases up to 50 pdig.



### *New!* FLASHBACK ARRESTOR SPECIFICATIONS AND ORDERING DATA

| Description | ESAB Model | *New!* Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| Torch flashback Arrestor Oxygen (B-size*) | 20373 | **4UT25** | $34.41 | **$31.35** | 0.2 |
| Torch flashback Arrestor Fuel (B-size†) | 20374 | **4UT26** | 34.41 | **31.35** | 0.2 |
| Torch Pair Oxygen/fuel (B-size‡) | 20357 | **4UT24** | 60.80 | **55.35** | 0.6 |

## REVERSE FLOW CHECK VALVES

- Attached either to a torch or to a regulator, provide a certain measure of protection against reverse flow of gases
- Any condition that might cause reverse flow will close the valve completely
- Reverse flow check valves should be tested periodically for reverse flow leakage. Frequency of testing depends on severity of service

CAUTION: These valves ARE NOT designed to stop a flashback. Flow rate maximum—100 CFH using flash Arrestors or Check Valves.

250AC/DC Amps
Less Wheel Kit

- **Easy to operate, quick set amperage control allows instant amp changes**
- **Easy to install. Operates on either standard 230 or 115V (No. 3Z744 only), 60 Hz single phase current**
- **Continuous current control allows operator to set exact heat needed for each job. Settings are precise and free from creep**
- **20% duty cycle at rated amp on all machines, except No. 3Z564 has 50% duty cycle at 175 amps**
- **All welders UL Listed and NEMA 1 Rated enclosures**

## 100 AMP AC WELDER No. 3Z744

**Versatile home and shop welder** welds, brazes, cuts, heats (for bending) and solders metal. No special wiring or circuits required. Features forced draft cooling system for component protection. Equipped with movable continuous current control from 25 to 100 amp welding range. Fully adjustable and operates from 115V outlet with 30 amp fuse or 20 amp time delay fuse **(NEMA 5-20R receptacle required)**.

Lightweight with carrying handle for easy portability. Comes with ground clamp and electrode holder. 5½ ft. cables, welding helmet also included. Overall dimensions: 14½H x 10W x 9"D.

## 230 AMP AC WELDER No. 3Z561

**Fan-cooled precision arc welder** cuts, bends, welds or pierces carbon and stainless steel; solders and welds cast iron. Instant amp changes are made possible by quick set amperage control. Handles up to 3/16" mild steel electrodes.

Welder provides continuous current control from 50 to 230 amps. 230V, 60 Hz single phase input. Aluminum wound transformer. Includes 6 ft. 3-cond. cord set, 10 ft. ground cable with clamp, 12 ft. #5 AWG electrode cable with holder, welding helmet **(NEMA 6-50R receptacle required)**. Overall dimensions: 21H x 15W x 22"D. CSA Certified (LR12812).

## 230/140 AMP, AC/DC WELDER No. 3Z563

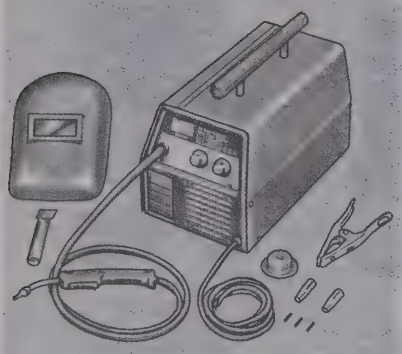
**Provides maximum flexibility for use in maintenance departments, machine shops and training schools.** Welds with AC, DC+ or DC–, giving high operator flexibility; welds with all types of electrodes up to 3/16", all position welding. Welder provides continuous current from 20 to 230 amps. 230V, 60 Hz, single phase input. Aluminum wound transformer. Includes 6 ft. 3-cond. cord set, 12 ft. #5 AWG electrode cable with holder, 10 ft. ground cable with clamp and welding helmet **(NEMA 6-50R receptacle required)**. Overall dimensions: 21H x 15W x 22"D.

## 250 AMP, AC/DC WELDER No. 3Z564

**For light industry, plant maintenance and job shop use.** Welds with AC, DC+ or DC–, giving operator flexibility to weld with all types of electrodes up to 1/4", all position welding. High open circuit voltage (78VAC, 65VDC) ensures easy arc starting and maximum arc stability. Provides continuous current control from 30 to 250 amps. 208/230V, 60 Hz single phase input. Transformer is 60% copper and 40% aluminum. Has junction box, 12 ft. #4 AWG electrode cable with holder, 10 ft. #4 AWG ground cable with clamp and welding helmet. 21H x 15W x 22" deep. CSA Certified (LR12812). Power cord optional. Call 1-800-323-0620.

## OPTIONAL WHEEL KIT

Dayton wheel kit for use with Nos. 3Z561, 3Z563 and 3Z564. Includes two 6" wheels, axle, foot rest, handle and mounting brackets.



**No. 2Z966.** Shpg. wt. 5.6 lbs. List $29.96.Each.....**$19.44**

# PORTABLE WIRE FEED WELDER

Dayton

E17102 LR12812

No. 6Z935

Replacement Parts Available
1-800-323-0620

## No. 6Z935 GASLESS WIRE FEED WELDER

**For home, farm or small jobs in the welding shop**

- 90 amp power welds 3/16" in a single pass
- Uses .030" self-shielding flux core wire, converts in seconds to .024 or .035" solid core wire for use with gas (with optional gas conversion kit)
- Heavy-duty drive system
- Multi-insulated transformer
- Ground clamp assembly
- Professional quality gun
- Includes starter spool of .030 wire

Gasless wire feed welder plugs into standard 120 volt outlet. 90 amp power welds 3/16" in a single pass. Welds with continuous wire electrodes, instead of individual short rods. Uses flux core wire to shield weld. UL Listed (E17102).

| Rated Amps | Duty Cycle | Input Volts | Input Amps | OCV | Overall Dimensions (In.) L | W | H | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 90 | 20% | 120AC | 20 | 28 | 18 | 10¼ | 13 | 6Z935 | $493.68 | $349.00 | 59.0 |

## OPTIONAL GAS CONVERSION KITS

**No. 3W721 Gas Conversion Kit for 85 Amp Gasless Wire Feed Welder.** Includes pressure regulator, gas cylinder bracket assembly and all necessary hardware to convert the 85 amp gasless wire feed welder to gas operation.

**No. 3W721.** Shpg. wt. 5.0 lbs. List $90.36. Each ..... $67.20

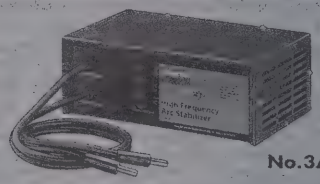
## REPLACEMENT SPOOLS

**No. 5W522 0.035" Self-Shielding Flux Core Wire** for all Dayton wire feed welders. 2½ lb. spool.

**No. 5W522.**❸ Shpg. wt. 3.0 lbs. List $41.80. Each ..... $32.30

**No. 3A548 0.045" Self-Shielding Flux Core Wire** for Nos. 3Z914 and 5Z136 Dayton wire feed welders. 10 lb. spool.

**No. 3A548.**❶❸ Shpg. wt. 11.0 lbs. List $76.05. Each ..... $60.70



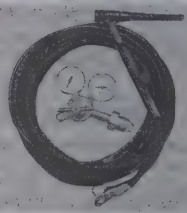
❶ These products are covered by California Proposition 65. California purchases or shipment, see first page of Grainger Branch Listing or call any California Branch. ❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety and Data Sheets (MSDS) are available. See page opposite inside back cover.

## HIGH FREQUENCY ARC STABILIZER

Establishes a welding arc without having to touch the electrode to the workpiece, making welding easier on dirty, painted, or rusty metals. Simplifies welding with difficult to run electrodes like low hydrogen, stainless steel, and cast iron. Required for AC TIG welding on aluminum, magnesium, and other alloy metals. For use with Dayton arc welders Nos. 3Z561, 3Z563 and 3Z564 only.

**No. 3AC01.** Shpg. wt. 16.0 lbs. List $304.56. Each ..... $235.25

Dayton



No. 3AC01

## DELUXE TIG TORCH KIT

Attaches to any AC or DC welder. Air cooled torch rated to 200 amps. Allows precision welds up to 1/4" max. thickness on aluminum, magnesium, stainless steel, and other alloy metals. Complete with 1/16" tungsten collet, collet body, and ceramic cup. Has 12½ ft. gas hose and power lead; comes complete with gas pressure regulator and gauges.

**No. 3AC00.** Shpg. wt. 6.3 lbs. List $178.88. Each ..... $138.00

Dayton

# WIRE FEED WELDERS AND PLASMA CUTTING SYSTEMS

## WIRE FEED WELDERS

All models equipped with cart for holding standard gas bottles, and spot and stitch weld controls for use with very thin metals. Includes lift lens welding helmet, 6 ft. power cord with plug and receptacle, air-cooled 10 ft. heavy-duty gun assembly, gun liner for welding with steel, 10 ft. ground cable and clamp, gas hose and connection hardware, gasless flux core wire, and nozzles and contact tips for steel or aluminum welding.

### 110 AMP DC (MIG) WELDER No. 3Z913

Designed for maintenance departments, automotive repair applications and home use. 110 amp 20% duty cycle plugs into any standard 20 amp, 120 volt receptacle. Unit welds aluminum to 1/4" and steel from 26 ga. through 3/16" with a single pass, up to 3/8" steel with beveling and multiple passes. Handles 0.024 or 0.030" wire. Thermo-protected to prevent overheating, fully adjustable heat selector, and adjustable wire speed control.

### 160 AMP DC (MIG) WELDER No. 3Z914

Designed for production applications, farms, maintenance shops, schools and body shops. 160 amp, DC 60% duty cycle unit handles 0.024, 0.030, 0.035 and 0.045" wire. Welds aluminum, 22 gauge sheet metal and up to 1/4" steel with a single pass. Control panel features fully adjustable heat selector with variable wire speed control to feed wire as it melts. Polarity plug for DC+ and DC- welding.

### 225 AMP DC (MIG) WELDER No. 5Z136

Designed for heavy-duty welding applications, maintenance welding or fabrication. 225 amp DC, 60% duty cycle. Easily welds aluminum, with additional attachments and features phase control for precise selection of most efficient heat setting. Can handle from 26 gauge sheet metal up to 3/8" in single pass, or up to 1" with multiple passes. Uses 0.024, 0.030, 0.035, and 0.045" wire.

## PLASMA CUTTING SYSTEMS

### 20 AMP PLASMA CUTTER No. 3W722

- **Cuts up to 1/4" metal with 230 volt electricity and 65 PSI compressed air**
- **Free standing arc cuts expanded metal and cuts through clear coat paint and rust**
- **Compact, easy to move**

Unit comes complete with 15 ft. gun assembly, 10 ft. ground clamp assembly, 6 ft. power cord, pressure regulator welding/cutting helmet and plasma torch consumables kit. CSA Certified (LR12812).

### 50 AMP PLASMA CUTTER No. 5Z031

- **Cuts up to 1/2" metal using 230V, single phase electricity and 65 PSI compressed air**
- **75° gun head allows user to see guidelines while maintaining comfortable grip**
- **Three heat settings to suit cutting speed and temperature preference**
- **Cutting rates up to 180 inches-per-minute**
- **42% duty cycle**

Unit comes complete with wheel kit and handle for mobility, cable wraps for cord storage, 25 ft. plasma torch, 15 ft. ground cable, air pressure regulator, and plasma torch consumables kit. CSA Certified (LR12812).

### REPLACEMENT PLASMA CONSUMABLES KITS

**No. 5W564** for 15 and 20 amp plasma cutters Nos. 5Z135 and 3W22. Includes 3 nozzes, 3 electrodes, and silicon lubricant.

## GROUND CLAMPS

ESAB ground clamps provide the largest workpiece contact area of any clamp. They assure positive connections and slide easily under steel plate. The three mechanical clamps (Nos. 4UT48, 4UT49, and 4UT50) help eliminate arc blow and make it easy to change ground location. They also assure proper voltage for maximum weld results with all rods.

| Description | Type Cable Connection | Amp. Capacity | ESAB Model | New! Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **Ground Clamp Model 200** | Mechanical Oval-Point Screw | 200 | 81F11 | **4UT48** | $14.86 | **$13.53** | 0.9 |
| **Ground Clamp Model 300** | Mechanical Oval-Point Screw | 300 | 81F12 | **4UT49** | 22.28 | **20.27** | 1.9 |

| **Ground Clamp Model G** | Two Oval-Point Screws | 600 | 82F17 | **4UT52** | 53.65 | **48.85** | 4.4 |

## CABLE CONNECTORS

ESAB cable connectors have an advanced design that features metal parts precision machined from heavy, specially shaped brass extrusion. Cam action design of male half connector pulls the two halves tightly together. The connector covers are molded from special heat-and cold-resistant material. Cover has no metal liner to rust or corrode. Connectors easily install with a 1/4" Allen wrench.

# AC WELDERS AND AC/DC ARC WELDERS

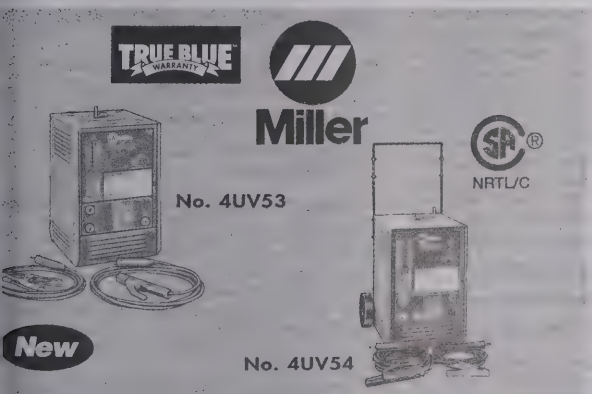
## THUNDERBOLT® 225 WELDERS AC AND AC/DC 230V

- For SMAW (Stick) welding
- Continuous amperage adjustment 30-225 amps AC and 30-150 DC amps provides better weld
- Includes plug, 6-50R wall receptacle, 6 ft. power cord, 15 ft. electrode cable, electrode holder, and 10 ft. work cable with clamp
- Uses 230 VAC, single-phase 60 Hz input power
- Compact and lightweight

Better welds are possible with the continuous amperage control provided. Correct and consistent amperage output results in complete weld penetration. Both units have two amperage ranges. High range recommended for many welding, hardsurfacing, and cutting jobs. Low range recommended for use with low hydrogen and other special alloy stick electrodes. Thunderbolt 225 AC/DC has a DC range from 30-150 amps. Operates from 230 VAC, 60 Hz, single-phase input power. Fan cools unit constantly. Aluminum wound transformer. Accessories included with unit (see list above). Stick electrodes not included.

### MILLER TRUE BLUE WARRANTY

**3 years—parts and labor. Text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover.**



SEE OPTIONAL RUNNING GEAR BELOW

## THUNDERBOLT® 300 WELDERS AC AND AC/DC 230V

- For SMAW (stick) welding
- Continuous amperage adjustment 35-300 amps AC/25-200 amps DC
- Includes 15 ft. electrode cable, electrode holder, 10 ft. ground cable with clamp, and 10 ft. power cord (less plug)

Miller's 300 amp AC and 300/200 amp AC/DC power sources let you choose between AC and DC weld output to handle either AC or DC Stick electrodes. DC output means fewer arc outages, less sticking and spatter, better control on thin work, and easier out-of-position welding. AC output produces less arc blow and easier starts.

### MILLER TRUE BLUE WARRANTY

## DC INVERTER WELDERS

For maintenance/repair, construction, fabrication, pipe welding, aircraft, precision welding, and commercial/ industrial users. Inverter welders are small and light but have comparable output to conventional welders. Inverter technology provides smooth DC welding current for better arc quality. Touch-start GTAW (TIG) welding allows arc starting without high frequency. Operates from 50 or 60 Hz, single-phase input power. Greater than 80% efficient power consumption at rated load. Fan-cooled with thermal overload protection.

### No. 1Z900 MAXSTAR® 91

- For GTAW (TIG), touch-start welding
- Plugs into 115 VAC, 20A receptacle
- Amperage adjusts from 1-90 amps
- Equipped with 7 ft. primary cord and remote control receptacle

### OPTIONAL REMOTE CONTROL TIG-TORCH (RCC-14)

**No. 1Z729.** Shpg. wt. 1.4 lbs. List $149.35. Each.....**$143.50▲**

### Nos. 4UV57 and 4UV58 MAXSTAR® 152 PAKS

- For GTAW (TIG), touch-start and SMAW (Stick) welding
- GTAW/SMAW selector switch
- Uses 230 VAC, 50/60 Hz single-phase power
- Amperage adjusts from 1-150 amps

MAXSTAR PAKS include: TIG torch, wor cable with clamp, consumable kit, gas reg ulator, gas hose, stick electrode holde with cable, remote control (foot contro with 4UV57 and finger control with 4UV58 and TIG calculator.

### OPTIONAL SNAP START II™ ARC STARTER HF 115 VOLT

Impresses high frequency on the weldin circuit for non-contact arc starting for DC GTAW only. Mounts under power source.

**No. 1Z540.** Shpg. wt. 24.0 lbs. List $897.13. Each.....**$831.00▲**

# WELDING MIG PACKAGES

## MILLERMATIC® 130XP AND CHALLENGER 172

No. 1Z866

Replacement Parts Available
1-800-323-0620

For maintenance/repair, garages, body shops, home, farm, heating/air conditioning with either gasless or gas shielded wire.

- **DC/CV wire feed welder**
- **For GMAW (MIG) or FCAW welding**
- **Protected from overheating, short-circuit, and motor overload**
- **130XP plugs into any 115 VAC "household" receptacle. The 172 requires a 230 V receptacle.**
- **Both include work cable and clamp, power cord, gun, flux-cored wire, gas valve, extra contact tips, and instructional video**

The Millermatic 130XP has 30-130 amperes output to weld materials up to 3/16" (4.5 mm) thick. The Challenger 172 has an output range of 40-170 amperes to join materials up to 1/4" (6.4mm) thick. The 130XP is designed to feed 0.023-0.030" dia. solid and stainless steel wire, 0.030-0.035" dia. flux-cored wires, and 0.030-0.035" dia. aluminum wires. The Challenger is capable of feeding larger diameter wire: 0.023-0.035" solid and stainless steel wire, 0.030 - 0.045" flux-cored wire, and 0.030 -0.045" aluminum wire. Both welders accommodate 4" and 8" wire spools, and can be adapted to 1 lb. spools as well. Power source covered by:

**MILLER TRUE BLUE WARRANTY**

**3 years—parts and labor. Text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover.**

Cast aluminum drive roll housing provides more accurate wire alignment. 16 gauge steel case provides longer service life. For welding solid, gas shielded wire, the following items are required: gas hose, regulator/flowmeter, cylinder of shielding gas, welding wire, and safety equipment. Order optional cart and cylinder rack No. 1Z572. See Index for listing.

## MILLERMATIC® WELDER MIG PACKAGES

No. 4UV66

No. 4UV56

**No. 4UV66 MILLERMATIC® 250X Features:**

- **Output range 40-300 amps (300A at reduced duty cycle)**
- **Welds material up to 1/2" thick in a single pass**
- **Quick-change drive roll system uses two gear-driven drive rolls**
- **Heavy-duty braking system handles wire spools up to 12" (305 mm)**
- **Wire sizes: solid steel, .023-.045" (0.6-1.2 mm); stainless steel, .023-.035" (0.6-0.9 mm); flux colored, .030-.045 in (0.8-1.2 mm)**
- **Options available for aluminum MIG welding (Note: Shipped from factory ready to feed .035" (0.9 mm) wire.**
- **Includes: 12" (3.7m) M25 200 amp MIG gun, work cable, 9 ft. (2.7m) power cord with plug (200/230 volt model only), factory-installed running gear/cylinder rack, regulator/flow gauge with hose, extra contact tips**

**OPTIONAL SPOOLMATIC 30A GUN**

For aluminum welding with Millermatic 250 and 250X only. Earlier Millermatic 250 models require receptacle module 2 (Part No. 042607, call 1-800-323-0620).

**No. 1Z716.** Shpg. wt. 19.0 lbs. List $909.49. Each .....$841.50▲

**No. 4UV56 Millermatic 185 Features:**

- **Wide output range of 30-185 amps**
- **High-strength, cast aluminum drive system**
- **Low, 24 VAC gun trigger circuit for extra safety**
- **Industrial-quality braking system for wire spools up to 12" (305mm)**
- **Wire feed speeds: 90-650IPM (2.3-16.5 m/min)**
- **Wire sizes: solid or stainless steel, .023-.035" (0.6-0.9 mm); flux colored, .030-.045" (0.8-1.2 mm); aluminum, .030-.035" (0.8-0.9 mm)**
- **Includes: power cord with plug, 10 ft. (3m) M15, 150 amp MIG gun and cable assembly, 10 ft. (3m) work cable with clamp, gas solenoid valve, flow gauge and 5 ft. (1.5m) gas hose for use with CO2/Argon cylinder, extra contact tips, factory-installed running gear and large cylinder rack**

**OPTIONAL SPOOLMATE 185 GUN**

For aluminum welding with Millermatic 185 (No. 4UV56), sold below.

***New* No. 4UV44.** Spoolmate 185. Shpg. wt. 12.0 lbs. List $419.18. Each .....$396.25▲

# AC/DC ARC WELDER, WIRE FEEDER, AND DRIVE ROLL KITS

## SHOPMASTER™ WELDER 300 AC/DC

- **Multiprocess power source for DC GMAW (MIG) and FCAW, AC/DC GTAW (TIG), and SMAW (Stick) welding**
- **Uses single-phase 60 Hz input power**
- **Solid-state contactor and controls provide longer service life**
- **Adjustable arc control for optimum SMAW arc characteristics.**

Current/constant voltage SHOPMASTER™ provides 200 amps, SQUAREWAVE™ balanced AC output for Stick and TIG welding. SQUAREWAVE™ AC output and balance control help eliminate tungsten spitting and allow the use of smaller diameter tungsten electrodes at higher current levels. For AC TIG welding No. 1Z536 high-frequency unit is required, see Index. 115 VAC duplex receptacle with 10 amp circuit breaker protection is provided for accessories.

**True Blue Warranty**

**3 years—parts and labor. Text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover.**

### OPTIONAL METER KIT A&V AC/DC KIT

Analog AC/DC meters display weld amperage and voltage.

**No. 1Z517.** Shpg. wt. 2.0 lbs. List $120.23. Each ..... **$112.00▲**

Remote Controls available, see Index for listings.

### AC/DC ARC WELDER SPECIFICATIONS AND ORDERING DATA

## WIRE FEEDER

- **24 VAC constant speed wire feeder**
- **For GMAW (MIG) and FCAW**
- **Uses 24 VAC from constant voltage power source; must have 14-pin receptacle**
- **CSA NRTL/C Certified to both Canadian and U.S. standards**
- **Single, multi-conductor cord allows quick and easy connection**
- **Hinged cover allows quick and easy access to wire feed assembly**
- **Accommodates up to a 60 lb. coil of welding wire**

Uses solid-state control and brake circuit with a 24 VDC high-torque drive motor for optimum wire feed and speed regulation. Designed to feed 0.023-5/64" dia. wire with a wire-feed-speed range of 75-630 inches per minute. Equipped with gas solenoid valve for gas-shielded wires. Motor and circuit protected against overloading conditions. Polarity insensitive—may weld with straight or reverse polarity. Equipped with 10 ft. interconnecting cord. Extension cords available, see Index for listings. Does not include drive rolls (see Drive Roll Table below to order).

### OPTIONAL SPOT/BURNBACK CONTROL KIT

Installs inside feeder. Provides up to 5 seconds of spot weld time in two ranges. Burnback control up to 0.25 seconds. Time start when gun trigger switch is pressed. Can be used in spot or continuous mode.

**No. 1Z679.** Shpg. wt. 1.0 lbs. List $159.65. Each ..... **$153.50▲**

### OPTIONAL METER-DIGITAL V/WFS KIT

Dual function, backlit LCD digital meter with selector switch displays arc voltage or wire feed speed (wfs). Meter used when presetting wire feed speed, but only displays and monitors arc voltage when welding.

**No. 1Z742.** Shpg. wt. 1.0 lbs. List $222.48. Each ..... **$213.75▲**

### OPTIONAL REMOTE VOLTAGE CONTROL KIT

Installs into front panel of feeder and allows remote voltage control of most Miller electrically controlled CV or CC/CV power source equipped with a 14-pin receptacle.

**No. 1Z685.** Shpg. wt. 0.2 lbs. List $38.11. Each ..... **$36.60▲**

# ACCESSORIES FOR MIG PACKAGES

**POOLMATIC® 30A SPOOL GUN.** Use for MIG welding with a constant voltage power source equipped with a 10-pin receptacle. 'erforms well for aluminum welding jobs. Air-cooled, 200 Amps, 00% duty cycle, with 30 ft. cable assembly. WC-24 Weld Control No. 4UV51) to attach spoolgun to Shopmaster, contactor (No. UV50) and WC115 control box (No. 4UV49) to attach spoolgun o the Bobcat. See Index for listings.

lo. 1Z716. Shpg. wt. 19.0 lbs. List $909.49. Each ..... $841.50▲

**YLINDER CART.** MM 130XP Wire feed welder and cylinder mount nto this cart. Fits cylinders 24-56" high with 6-9" dia.

lo. 1Z572. Shpg. wt. 69.0 lbs. List $249.25. Each ..... $249.25▲

**M-25 MIG GUN.** Use for MIG welding with DC constant voltage power source and wire feeder with a 14-pin receptacle. Air-cooled gun is rated 200 Amps, 100% duty cycle and includes 12 ft. cord. Durable one-piece handle molded from virtually unbreakable lightweight resin. Rugged unicable outer jacket, and steel coils on cable ends protect against fatigue. Trigger switch rated for 1.5 million cycles. (Accessory tips, liners, and nozzles listed below).

**No. 1Z746.** Shpg. wt. 7.5 lbs. List $243.08. Each ..... $198.25▲

Replacement Parts Available
1-800-323-0620

# HIGH FREQUENCY UNIT

**(For Use With AC, DC, or AC/DC Constant Current Arc Welding Power Sources and Arc Welding Generators)**

Impresses high frequency (HF) on the welding circuit to aid in starting and stabilizing the arc for GTAW (TIG) welding. This portable unit is designed for use with most AC, DC or AC/DC constant current arc welding power sources and arc welding generators. Use this unit with a constant current power source to weld aluminum, magnesium, thin stainless steel, brass, copper, alloys and other ferrous and non-ferrous metals.

Unit features include power On/Off switch with pilot light, HF start/off/continuous control, gas solenoid, intensity control, built-in postflow (15 seconds), protected secondary terminal, and 14-socket receptacle for connecting remote controls. CSA Certified.

# REMOTE CONTROLS

## REMOTE FOOT CONTROL (RFCS-14)

Use with constant current power sources with solid-state output control and 14-pin remote receptacle. Heavy-duty foot control provides remote current and contactor control. Includes 20 ft. cord and 14-pin plug.

**No. 1Z712.** Shpg. wt. 5.0 lbs. List $215.27. Each ..... $208.75▲

## HAND CONTROL (RHC-14)

Use with constant current power sources with solid-state output control and 14-socket remote receptacle. Miniature hand control provides remote current and contactor control. Includes 20 ft. cord and 14-pin plug.

**No. 1Z714.** Shpg. wt. 2.5 lbs. List $154.50. Each ..... $148.60▲

## EXTENSION CORDS

These extension cords may be added to remote controls or accessory equipment to move farther away from the power source or generator. 14-pin plugs are attached to each cord end.

**No. 1Z689.** 25 Ft. Cord Shpg. wt. 5.0 lbs.

# AC/DC ARC AND TIG WELDERS

## ECONOTIG® 150 AMP AC/DC ARC WELDER

- **For home, hobbies, light-duty fabrication, maintenance shops, radiator repair shops, autobody repair, sheet metal shops, and marine repair**
- **Complete AC/DC, GTAW (TIG), or SMAW (Stick) welding package**
- **AC output for aluminum welding, DC output for mild and stainless steel welding**
- **Built-in internal arc assist starter for TIG**
- **Uses single-phase 60 Hz input power**
- **Protected from overheating**
- **Includes power cord, TIG torch, international-style quick torch disconnect, torch consumables, work cable with clamp, stick electrode holder, remote foot control, gas regulator and flow meter, shielding gas hose, and "How-To" video**

The ECONOTIG® is designed for easy operation, even for the novice or occasiona welder. This unit is best suited for light gauge TIG welding of 18 gauge through 3/16 thick steel, stainless steel, and aluminum. For thicker metals, it offers Stick welding per formance with 3/32 and 1/8" electrodes. Unique "flow-through" shielding gas TIG torc connection allows removal of torch without any tools. Automatic 15 second postflo timer (non-adjustable) provides enough shielding gas to protect tungsten, workpiece and torch. To start welding, just supply argon gas, stick electrodes, filler rod, and safe ty equipment. Remote Controls available, see Index for listings.

(▲) Net prices, not subject to discounts

**MILLER TRUE BLUE WARRANTY**

## SYNCROWAVE 250 AC/DC WELDER 250 AMP 200/230/460 AND SYNCHROWAVE 250 TIG RUNNER PACKAGE

- **For GTAW (TIG) and SMAW (Stick) welding**
- **Uses single-phase 60 Hz input power**
- **5-310 amps output**
- **Patented AC SQUAREWAVE™ output for the most demanding AC jobs**
- **Adjustable arc control for optimum SMAW arc characteristics**
- **Contactor-activated shielding gas solenoid valve and postflow timer prevents contamination of electrode and workpiece**
- **Internal high-frequency (HF) arc starter provides non-contact arc starting for GTAW**
- **TIG RUNNER PACKAGE includes running gear, foot control, and Cool Runner® coolant system**

The SYNCROWAVE and SYNCHROWAVE TIG RUNNER are a constant current AC/DC power sources. The AC balance control increases arc stability on various aluminum alloys. The SQUAREWAVE™ AC output and balance control also helps eliminate tungsten spitting and allows the use of smaller diameter tungsten electrodes at higher current levels.

Three-position high-frequency switch (Off/Start/Continuous), Polarity changing switch for quick and easy changes from GTAW to SMAW. 115 VAC duplex receptacle with 15 amp circuit breaker protection is also standard. Remote Controls and Coolant Systems available, see Index for listings.

### OPTIONAL METER KIT AMP/VOLT

Meters display AC and DC output, and mount into front panel.

**No. 1Z517.** Shpg. wt. 2.0 lbs. List..... $120.23.
Each..... **$112.00▲**

### OPTIONAL TIMER SPOT KIT

Adjusts TIG spot welding time from 0 to 5.7 seconds. Includes On/Off switch.

**No. 1Z519.** Shpg. wt. 2.0 lbs. List..... $178.96.
Each..... **$160.50▲**

### OPTIONAL PREFLOW TIMER KIT

Adjusts gas preflow time from 0 to 15 seconds. Includes On/Off switch.

**No. 1Z521.** Shpg. wt. 3.0 lbs. List..... $153.72.
Each..... **$137.80▲**

### OPTIONAL RUNNING GEAR

Includes two 10" wheels, two 5" casters, and two-compartment rack for gas cylinder(s) or coolant system.

**No. 1Z523.** Shpg. wt. 48.0 lbs. List..... $213.16.

# WATER-COOLED SPOT WELDERS

## STATIONARY AND PORTABLE AIR-OPERATED SPOT WELDERS

Water-cooled spot welders for resistance spot welding. Choose from portable or stationary models. All operate from 50/60 Hz, single-phase input power. Weld materials up to 1/4" thick.

Cam-operated locking device makes bottom tong installation adjustment fast and easy. Ten-step current control and adjustable speed control valve. Both sides of control circuit are safety fused. Stationary models equipped with durable, steel construction pedestal. Easy-to-use, electric foot lever starts weld sequence.

Require minimum 60 PSI air pressure, however 100 PSI is recommended. Air-operated models also include safety shroud over pivot linkage, weld timer, 10 second adjustable solid-state, digital timer for squeeze time, foot lever, air filter, and oiler.

COOLMATE 3, and WATERMATE™ coolant systems recommended for water-cooled spot welders (see Index under Coolant Systems).

Spot welder does not include tongs or tips (see Tong and Tip Ordering Data Tables below).

### OPTIONAL TIP DRESSER

Evenly dresses top and bottom tips at the same time. For use with pointed tips.

**No. 1Z456.** Optional Tip Dresser. Shpg. wt. 0.6 lbs. List $83.74. Each ..... **$78.20▲**

(▲) Net prices, not subject to discounts.

### TECHNICAL REFERENCE LITERATURE

Technical reference literature is available on such subjects as welding, basic electricity, electric motors, and hydraulics and pneumatics

See Index under Books.

# AIR-COOLED SPOT WELDERS

## PORTABLE SPOT WELDERS

All models operate on 50/60 Hz, single-phase AC power. Durable, lightweight spot welders provide advantages of resistance welding in a compact tool. For sheet metal shops, manufacturers, production lines, truck and auto body shops, farm implement work, heating and air conditioning contractors. Multi-pressure lever locks tongs firmly onto material and provides positive, accurate pressure until work is welded. Lifting lever releases pressure and opens tongs. Can be adjusted to various material thicknesses quickly and easily.

Reversible handle for right or left-handed operation. Burnout-proof transformer is wound with high temperature resistant, glass insulated magnet wire. High grade silicon steel core.

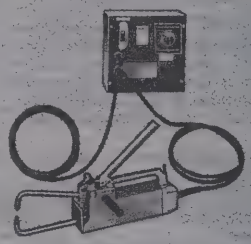
Models with timer panel include 0-5 second weld timer, power On/Off switch, 10 ft. input power cord and 10 ft. interconnecting cord.

Spot welder does not include tongs or tips (see Tong and Tip Ordering Data Tables below).

### OPTIONAL SPOT WELD TIMER KIT

For No. 2Z543. 0-5 seconds mechanical weld timer (110V only).

**No. 1Z485.** Shpg. wt. 16.0 lbs. List $527.65. Each.....**$475.25▲**



### OPTIONAL SPOT WELDER PEDESTAL

Leaves hands free to handle the work. When foot control is depressed, tongs close, and Start switch is activated.

**No. 2Z581.** Shpg. wt. 36.0 lbs. List $170.98. Each.....**$169.50▲**

# WATER COOLANT SYSTEMS AND AIR PLASMA CUTTING SYSTEMS

## WATER COOLANT SYSTEMS

Water coolant systems are designed for GMAW (MIG) and GTAW (TIG) welding, resistance welding, and plasma cooling. Units use 50/60 Hz, single-phase input power. 1/4 HP motor is thermally protected from overheating. Units circulate water to equipment and connecting cables. All units feature a closed-loop design with a radiator to reduce coolant temperature and prevent the system from overheating. Use distilled water for coolant. Standard inlet and outlet torch fittings are 5/8-18 L.H. threads. 10 ft. power cord with plug included.

**COOLMATE 3** models have a 3 gal. coolant tank capacity. Compact, horizontal design can be conveniently mounted onto a trailer or other equipment. Radiator models are for use with water-cooled torches rated up to 600 amps. (Torch rating may vary depending on torch design and cable length). Also equipped with panel-mounted On/Off switch and water flow indicator.

**WATERMATE™** 1A has 2 gal. coolant tank capacity. Vertical design assures pump is always primed. For use with water-cooled torches rated up to 500 amps. (Torch rating may vary depending on torch design and cable length).

All units are CSA NRTL/C Certified to both Canadian and U.S. standards.

***New* No. 4UV46.** Low Conductivity Coolant (043810). Shpg. wt. 10.0 lbs. List $18.74.

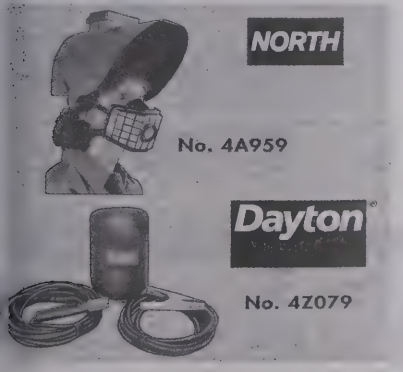
## AIR PLASMA CUTTING SYSTEMS

**Spectrum® 300 CutMate with 25 Amp Torch**
**Spectrum® 701 with 50 Amp Torch**



- **Diagnostic lights for quick troubleshooting**
- **Torch airflow design allows drag cutting without a standoff**
- **Controlled pilot arc for cutting grates, chain link fence and other perforated materials, and painted or coated surfaces, without retriggering the gun**
- **Exclusive postflow circuit cools consumables and torch to extend life**

Spectrum® 300 CutMate™ is an economical cutting system for work on all conductive materials including mild steel up to 3/8", aluminum to 1/4", and stainless steel to 5/16". Includes: ICE-25C torch with 15-ft. cable and consumables, 15-ft. work cable with clamp, 10-ft. power cord with 115 VAC, 20 A plug, built-in gas/air filter and regulator.

Spectrum 701 cutting and gouging system cuts mild and stainless steel up to 3/4" or aluminum to 5/8". Includes: ICE-50C torch with 25-ft. cable, 20-ft. work cable with clamp, factory-installed running gear and lifting eye, built-in gas/air filter and regulator, torch consumable kit.

## WELDER DISPOSABLE RESPIRATOR

**Lightweight construction. Fits under any welding helmet.** Patented coaxial inhalation/exhalation valve system makes this the coolest and driest disposable/reusable respirator available. Low profile design minimizes vision obstruction; safety spectacles and goggles will not ride up. Soft, anatomically designed facepiece and 4-point adjustable headpiece assure a comfortable and snug fit. Can be used in most dust, mist environments and as protection from most fumes generated by welding, soldering, metal cutting and pouring. Approved for respiratory protection against dusts, mists and fumes having a time-weighted average not less than 0.05 milligram per cubic meter or 2 million particles per cubic foot. NIOSH/MSHA Approval No. TC-21C-338. North brand (7190).

**No. 4A959.** Shpg. wt. 0.4 lbs. List $10.80.
Each **$10.54;** Lots 12 ..... **$10.01**

### WELDER/GENERATOR ACCESSORY KIT

For Lincoln and Miller welder/generators. Accessory kit includes welding helmet with No. 12 shaded lens, 30 ft. No. 2 welding cable, 25 ft. No. 2 ground cable, electrode holder and ground clamp. Dayton brand.

**No. 4Z079.** Shpg. wt. 20.0 lbs. List $205.49.

## BLUE STAR™ 3500 WELDER/GENERATOR

- **Compact portable unit protected by a durable steel frame**
- **Powered by 9HP Honda gasoline engine**
- **Three-phase welding output produces smooth, stable welding arc**
- **Color-coded amperage control for easy weld amperage setting**
- **Simultaneous welding and auxiliary output**

The Blue Star™ 3500 is a compact welding and auxiliary power generator designed for construction, maintenance and agriculture applications, and where portability and versatility are needed. Its 3500 watts of auxiliary power easily powers most tools at the job site and features duplex receptacles with circuit breakers. Get excellent DC Stick performance with most electrodes; ideal for 1/8 - 5/32" (2.4-4 mm). Choose electric or manual start. Use with Welding Accessory Kit No. 1Z391 sold on page 1581.

**Miller True Blue Warranty 3 years — parts and labor. 2 Years Honda Engine parts and labor.**
**Text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover.**

# BLUE STAR™ 6000 WELDER/GENERATOR

**For DC SMAW (Stick) welding**
**Welds up to 1/4" thick steel**
**Compact and portable**
**6,000 watts, 120V AC auxillary power**
**Gasoline, Honda OHV, 13 HP engine**
**180 amps DC welding output**
**Ideal DC Stick performance with 3/32 - 3/16 in electrodes**

- **Compact, portable unit protected by a durable steel frame**
- **Color-coded amperage control**
- **Utilizes the same accessories offered with the Bluestar 3500 model, sold on page 1580, and No. 1Z391 Welding Accessory Kit listed below**

he BLUE STAR® 6000 is a compact weld-ıg and 6000-watt auxiliary power genera-ɔr designed for light industrial Stick weld-ıg and maintenance applications. This ortable unit is capable of producing Ac uxiliary power even while welding.

The single-phase welding generator provides smooth arc performance for Stick welding with 3/32 - 3/16" electrodes. DC-TIG welding also possible. Equipped with engine hour meter.

# BOBCAT™ 225NT AND BOBCAT 225D PLUS

**For SMAW (Stick) and DC (TIG) welding**
**GMAW (MIG) and Flux cored welding possible with voltage sensing wire feeder**

- **Fine amperage adjustment control produces smooth SMAW welding**
- **Automatic idle**
- **8000W, 120/240V AC auxiliary output power**

hese welders provide versatile weld out-ut for SMAW. The GMAW and FCAW use onstant voltage adjustment control nixed gas recommended). Selector witch allows easy changes between DC-C and CV polarity reversing and AC out-ut selection. Auxiliary power receptacles 're circuit breaker protected. The two-ole, single-phase alternator design pro-ıces high quality welding characteristics ıd strong auxiliary power.

obcat NT 225 is equipped with an Onan erformer series 216 engine. The four-ycle gasoline engine is air-cooled and fea-ures twin cylinders with cast iron liners.

In addition, the Bobcat 225NT only includes a 360° rotatable exhaust, enclosed 60% more housing, and top fuel and oil fill.

Bobcat 225 D Plus is powered by a Deutz/Ruggerini MD-151 industrial 16-hp diesel engine. Engine has an aluminum block with replaceable cast-iron liners, in-line cylinders, and is air cooled.

**MILLER TRUE BLUE WARRANTY**

## LEGEND NT® DC WELDER/GENERATOR

Miller Legend NT (New Tradition) is a quiet, dependable welding generator featuring a low-speed, four pole single-phase alternator that produces a smooth and stable welding arc. Ideal for Stick and TIG welding.

- Full case, rugged housing
- Enlarged, 10 gallon fuel tank and fuel gauge
- Onan Performer Series P218 gasoline engine
- Rotatable exhaust pipe
- Low, 1860 RPM idle/auxiliary power speed
- 5000 watts of AC auxiliary power
- Miller's True Blue® Warranty

| Stock No. | Engine Brand | HP | Engine Type | Start | Tank Capacity | Rated Watts* | Number of Receptacles 120 9A | 120 15A | 120 20A | 120 / 240 70 / 35A | 24 15 |

## MILLER® SUPER S-32P VOLTAGE SENSING FEEDER

- Operates on open-circuit, arc voltages
- Voltage-sensing control circuit with CC/CV switch
- 50—700 IPM (1.3—18 m/min) wire speed range and high/low range switch
- High-torque, 24 VDC drive motor
- Solid-state speed control and brake circuit
- Overload protection
- Quick-change drive rolls and quick connect for Miller guns
- Insulated gun holding bracket
- Includes contactor and gas valve

Enclosed in a steel-reinforced, impac resistant and flame-retardant molded pla tic case, the Super S-32 has the durabilit to take the roughest treatment in field co struction work. This feeder operates o arc voltage, so a control cord is n required. Operates with most CV and C DC-type power sources.

The motor and control handle a wide var ety of wire sizes and types with the nece sary high-end speed for small diameter and the low-end speed and power for th more demanding larger diameter, all-pos tion, self-shielding wires. The Super S-32 includes professional features for max mum performance and reliability.

**MILLER TRUE BLUE® WARRANTY**

**Feeder is warranted for three years, parts and labor.**

## TRAILBLAZER® 251 NT AC/DC WELDER/GENERATOR

- For SMAW (Stick), FCAW, GMAW (MIG), and GTAW (TIG) welding
- Welds with low alloy and mild steel (including E6010) electrodes
- Onan Performer Series P220 gasoline engine
- 8000W, 120/240V AC aux. power
- Adjustable stabilizer allows operator to "tailor" short arc performance
- Automatic idle saves fuel, reduces noise
- Hour meter accurately records engine "On" time
- Rotatable exhaust pipe

8 KW/KVA auxiliary power available while welding from 1-120 VAC duplex receptacles and 1-240 VAC duplex receptacle. Receptacles protected by circuit breakers. AC or DC weld output for SMAW and GTAW welding. 8.5. gal. fuel tank with easy-to-use side fill neck located below the generator. Four-pole, three-phase alternator produces smooth and stable arc results. 3600 RPM power and weld speed, 2200 RPM idle speed. Onan Performer Series P220 industrial 20 HP gasoline engine is twin-cylinder, four-cycle, and air cooled. Large maintenance-free battery is base mounted in slide-out tray for full protection and easy access.

**Order Accessory Kit No. 1Z391 and Running Gear No. 1Z578**

**MILLER TRUE BLUE WARRANTY**

**3 years—parts and labor. Text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover.**

## WELDING BLANKETS

No. 1H169

### GLASS WEB BLANKET

32 oz. woven material is 100% textured fiberglass. Flame retardant, withstands temperatures up to 1000°F. Superior electrical insulator. Inorganic, cannot burn or mildew. For use as welding blanket or protective shield. Hemmed on all four sides with brass grommets on 24" centers. White color. Steiner brand.

### BLACKFLEX BLANKET

24 oz. blend of fiberglass and aramid fibers. Protects from most molten metal, welding sparks and slag. Good abrasion characteristics. For use as welding blanket, screen, or curtain. Hemmed on all four sides with brass grommets on 24" centers. Black color. Steiner brand.

# WELDING HELMETS

## A ARC WELDING HELMET

Lightweight nylon construction resists heat and weld spatter. Lens holder is molded into the shell to prevent light from entering helmet. Sweatband and pinstop for setting helmet angle. Large headgear knob for easy adjustment, even when wearing gloves. Meets ANSI Z87.1-1989 Standard. Helmet includes No. 4T545 No. 10 shade and No. 4T547 cover plate. Sellstrom brand (28501-10).

**No. 3T921.** Shpg. wt. 1.8 lbs. List $28.15. Each.....**$25.40**

## B C SILVER SUPER SLIM SUPER KOOL WELDING HELMETS

Drop down ratchet headgear adjusts to fit all head sizes. Compact design allows working in confined areas. Extended crown and rigid bib protect user and improve helmet rigidity. Sel-Snap™ lens retention system requires no gasket. Easy front loading provides quick release for replacement of filter and cover plates. Special coating makes helmet 30% cooler than uncoated models, and sheds welding spatter. Proven performance in subzero temperatures. Absorbent sweatband. Nylon lift and wide view fixed front plate retainer models. Includes No. 10 shade plate and cover plate. Lift front includes impact plate. Meets ANSI Z87.1-1989 Standard. Sellstrom brand (29311-10, 29911-10).

| Key | Helmet Type | Plate Size (In.) | Stock No. | List | Each | Shpg. Wt. |

## D SUPER SLIM SUPER TUFF WELDING HELMETS

Lightweight molded thermoplastic resin helmet provides high strength and heat resistance. Drop down ratchet headgear. Sel-Snap™ lens retention system requires no gasket. Easy front loading provides quick release for replacement of impact plate. Proven performance in subzero temperatures. 2 x 4¼" lift front plate retainer. Includes No. 10 shade plate. Meets ANSI Z87.1-1989 Standard. Sellstrom brand (29301-10).

**No. 4T543.** Shpg. wt. 1.8 lbs. List $36.23. Each.....**$32.65**

## E F AUTO-DARKENING WELDING FILTER AND HELMET

**Filters** increase welding accuracy and speed. When arc light strikes a Phantom filter, window will instantly darken to the designated shade in less than 1/25,000 of a second. Offers protection against UV/IR rays at all shades and in the off position. Uses standard cover and impact plates.

E **Phantom®** auto-darkening module has adjustable shade selection of 9-12. Two AAA Alkaline batteries are replaceable without removing module. The 4½ x 5¼" module is complete with a silver Super Slim Super Kool welding helmet. Silver helmet is 30% cooler than uncoated helmets and sheds spatter without burning. Large ratchet headgear knob allows for easy one hand adjustment for a perfect fit. Meets ANSI Z87.1-1989 Standard. Batteries included. Sellstrom brand.

F **Phantom Electro 10™** auto-darkening shade 10 module. 2 x 4¼ Module is complete with a black Super Slim Super Tuff weldi helmet. Helmet is extremely durable and features a drop do ratchet headgear. Large ratchet headgear knob allows for ea one hand adjustment for a perfect fit. Meets ANSI Z87.1-19 Standard. Two AAA Alkaline batteries included. Sellstrom bra

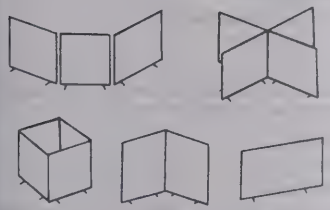
# PORTABLE WELDING SCREENS

No. 3W171
Durable Black Finish

Shown As Three Connecting Screens

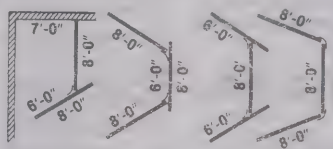
**UNIQUE CURTAIN CONNECTIONS**

Create "No-Leak" Multi-Screens



Can be used at any location along the screen.

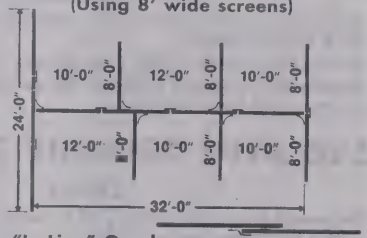
Connecting Kit included; no extra parts needed.



Replacement Parts Available
1-800-323-0620

## WELDING SCREEN CONFIGURATIONS

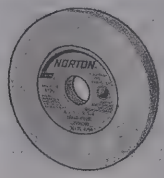
**UNLIMITED DESIGNS FOR CUSTOM WORK AREAS**



**CREATE SMALLER SIZES BY PLACING "FLEXIBLE HINGE" CONNECTORS IN VARIOUS LOCATIONS.**
**(Using 8′ wide screens)**

Design compensates for unlevel floors.

**Example Divided Work Area Plan View.**
**(Using 8′ wide screens)**



"In-Line" Overlap Allows any length, to the inch, to be accommodated

- Complies with OSHA 1910.252 (ii) Fire Curtains, (v) Shields, and California Fire Marshall Codes
- Provides protective barrier around operations producing flames, arcs, or sparks
- Create custom designed work areas
- Curtain connectors create "no-leak" multi-screens
- Connecting kit included
- No tools required for assembly
- Corrosion resistant black finish

Provides protective barrier around hazardous areas. Reinforced vinyl or canvas curtain shields operations producing flames, arcs or sparks. Slip-fit constructed with lightweight tubular steel frame. Free standing screen can be used alone or joined in multiples using connecting kit included. Versatile curtain connectors create "no-leak" multi-screens. Connectors may be used at corners or any location along the screen allowing unlimited combinations of size, length and shape. No tools required for assembly. Corrosion resistant black finish. Available in yellow transparent vinyl, orange transparent vinyl or olive drab canvas duck. J.C. Goss brand.

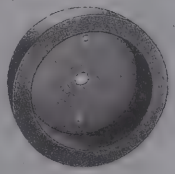
# TOOLROOM WHEELS



Type 1
Straight Wheel

Type 6
Straight Cup

Type 12
Dish Wheel

Type 50
Plate Mounted
Wheel

## ALUMINUM OXIDE

### 38A WHITE ALUMINUM OXIDE

- The value-priced wheel for cool, fast tool reconditioning
- Ideal for light grinding on all tool steels

### 32A GRAY ALUMINUM OXIDE

- The toolroom standard of performance
- Ideal on all tool steels, especially with moderate to heavy feeds

### 32AA ALUMINUM OXIDE

- Proprietary aluminum oxide, with up to 2 times the life of 32A on tool steels
- Draws less power, freer cutting, less burn, broad versatility
- High-performance VTR bond system for improved part tolerance and form holding

## 5SG BLUE CERAMIC SEEDED GEL

### 5SG-VS

- Patented wheel for D2, M, T, A, or S Series steels and other high temperature alloys
- Long lasting, cool cutting, minimal dressing
- 5SG-VSP with induced porosity for less heat generation
- Dress with SG diamond tools for maximum performance

## SILICON CARBIDE

### 37C BLACK SILICON CARBIDE

- Dark gray/black silicon carbide
- Use on cast iron and nonferrous metals

### 39C GREEN SILICON CARBIDE

- Use for hard cemented carbide, glass and ceramic tooling, and nonferrous metals

**TOOLROOM WHEEL SELECTION GUIDE**

| Abrasive Type | Grit Size | Grade Hardness | Bond Type | Bond Modification |
|---|---|---|---|---|
| EX: 38A | 60 | J | V | BE |
| 38A | Coarse | Soft, Free-cut | V = Vitrified | BE |
| 32A | 36 | F | | CE |
| 32AA | 46 | G | B = Resin | KS |

| 39C | 150 | O | | |
| | 180 | P | | |
| | 220 | Q | | |
| | Fine | Hard, Form Hold | | |

## TECHNICAL TIPS: MAKING A WHEEL ACT HARDER OR SOFTER

Very often a wheel can be made to perform differently by varyi machine parameters.

If a wheel is acting too hard (causing burn, chatter, slow rate cut, loading) a wheel can be made to act softer by:

1) Increasing the work speed
2) Increasing traverse speed
3) Increasing infeed/downfeed
4) Decreasing the wheel speed
5) Dressing at a slower traverse rate
6) Dressing the wheel face thinner
7) Increasing the depth of dress per traverse
8) Dressing more often

If a wheel is acting too soft, (not holding size, or wearing prem turely) a wheel can be made to act harder by:

1) Decreasing the work speed
2) Decreasing the traverse speed
3) Decreasing infeed/downfeed
4) Increasing the wheel speed while observing proper safety procedures
5) Dressing at a faster traverse rate
6) Using a lighter dressing feed

**NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE**

**Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.**

### TECHNICAL REFERENCE LITERATURE

Technical reference literature is available on such subjects as welding, basic electricity, electric motors, hydraulics and pneumatics.

See Index under Books.

# TOOLROOM CUT-OFF WHEELS

No. 2D752

## REINFORCED TOOLROOM CUT-OFF WHEELS

- A60-OBNA2 proven specification for thin, straight, burr-free cutting of most steels
- Fully reinforced for maximum safety

## NON-REINFORCED TOOLROOM CUT-OFF WHEELS

- For well-fixtured applications where freeness of cut and durability are desired
- Grit Recommendations:
  46—Fastest cut rate, durable, finish unimportant
  541—Fast cut rate, durable, better finish
  60,601—Average cut, minimal burr
- Use softer wheels (M or O) on hard metals to avoid burn
- Use harder wheels (P, Q, R) on softer metals or to increas wheel life
- Bond Recommendations:
  B—Mild-acting bond for light, general purpose cutting
  B25—More durable bond for longer wheel life

### USE THE GRAINGER CD-ROM, ELECTRONIC CATALOG TO REVIEW THOUSANDS OF PRODUCTS!

**Our Grainger Electronic Catalog is a state of the art CD-ROM selection guide which features products and information from our General Catalog. The perfect reference tool when you need product and technical information on the road. Contact your local branch for more information.**

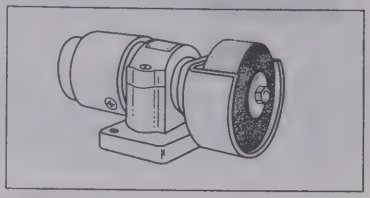
# DIAMOND DRESSING TOOLS AND DRESSING STICKS

## SINGLE POINT TOOLS

- **Use to dress a straight face onto a straight wheel**
- **Use to dress a particular form onto wheel face**
- **Use BC tools with conventional wheels, BCSG tools with SG wheels**
- **BC tool infeed is 0.0015 in. per pass maximum BCSG infeed is 0.001 in. per pass maximum**
- **Traverse rates range from 8 to 10 inches per minute**
- **Use at a 15° angle to wheel centerline**
- **Turn tool periodically to maintain sharp point**
- **Dress SG wheels less frequently to maximize SG grain**

A **BC General Purpose** single-point tools.

B **BCSG High performance** single-point tools for SG wheels.



C **U-DEX-IT® TOOLS—BCUD-5:** Installed and used like other single point tools. Rotate tool ead with any standard 5/8" wrench when tool requires turning. Suited for 11 to 16" heels.

D **RADIUS TOOL—BCRD:** For concave or convex dressing.

E **PHONO POINT TOOLS—BCPP:** Forms tight concave or convex radii.

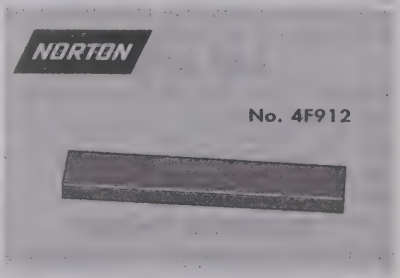
## BRAKE CONTROLLED TRUING DEVICE



- **Ideal on straight wheels as used on chip breaker, tool and cutter, surface, and cylindrical grinding machines**

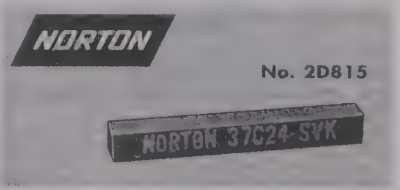
Designed for rapidly truing diamond and CBN wheels with minimum loss of diamond. Norton brand (UPC 662601/93530).

**No. 3UN57.** Each.....**$641.50**

## NORBIDE® DRESSING STICK

- **Designed for dressing and forming toolroom wheels, 10" and smaller, especially cup shapes**
- **3/16 x 1/2 x 3"**

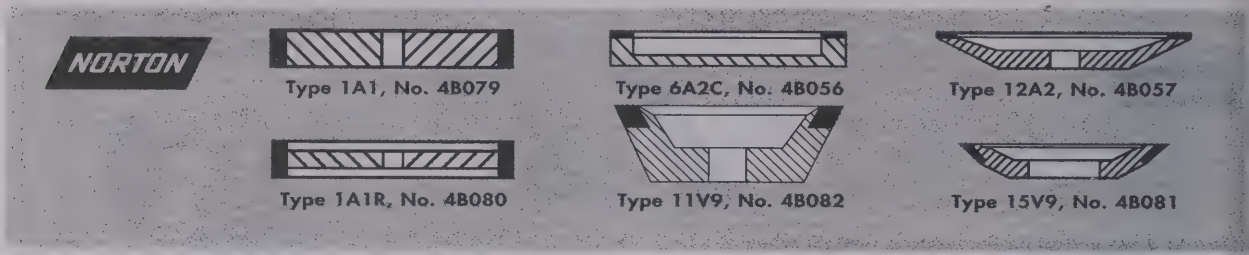
**No. 4F912.** ①② Norbide Dressing Stick (614636-10148). Shpg. wt. 0.1 lbs. Each.....**$33.20**



## DRESSING STICKS

**itrified Dressing Sticks** come in two abrasive ypes—Aluminum Oxide (38A or NSA) and ilicon Carbide (37C).

**luminum Oxide** sticks formulated for off- and dressing of diamond and CBN wheels after truing. Applied vigorously to wheel face, sticks will clean and expose new abrasives prior to grinding. Abrasive grit size in dressing stick should be 2 grit sizes finer than wheel grit size.



**Silicon Carbide** sticks Nos. 2D815 and 2D819 are most popular choice for off-hand truing and dressing of conventional vitrified grinding wheels, especially bench and pedestal wheels.

# DIAMOND AND CBN WHEELS AND SUPERABRASIVES SELECTION GUIDE

## APPLICATION RECOMMENDATIONS

### SUPERABRASIVE TYPES

**SD**—An uncoated synthetic diamond that provides a free cut on carbide.

**ASD**—Armored synthetic diamond is nickel coated for added holding power and greater heat reduction in the resin bond. Versatile diamond used on carbide and carbide where a small amount (<33%) of steel is contacted.

**CB**—Cubic Boron Nitride is coated for greater crystal retention and durability when grinding hard tool and tough alloy steels.

### GRIT SIZES

**100/100S**—Most commonly used in roughing
**120**—For roughing where 100 is too coarse
**150**—For combined roughing and finishing
**180**—For improved finish
**220**—For finish grinding

### DIAMOND GRADE

**R**—Durable, all-purpose resin bond has been pre-engineered to maximize productivity.

### CBN GRADE

**T**—Mid-range durability designed for freer cutting action on low horsepower grinders. Ideal for toolroom resharpening operations when grinding dry (approx. 75 concentration).

### DIAMOND CONCENTRATIONS

**75**—For dry grinding, toolroom job shop applications gives free cut and is easy to dress.
**100**—Recommended for wet grinding or in dry applications where greater durability is needed. Works well on high horsepower, high stock removal jobs.

### BOND

**B99**—Pre-engineered resin bond for the widest range of applications.
**V99**—Vitrified bond for added durability when grinding carbide.

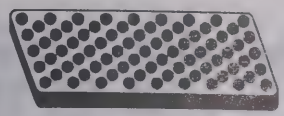
### TROUBLESHOOTING GUIDE

| PROBLEM: | POSSIBLE CAUSES: | SUGGESTED CORRECTION: |
|---|---|---|
| Burning (excessive heat): | Wheel loaded or glazed | Dress wheel with a dressing stick |
| | Excessive feed rate | Reduce infeed of wheel or workpiece |
| | Wheel too durable | Use freer cutting specification or slow down wheel speed |
| | Poor placement of coolant | Apply coolant directly to wheel/workpiece interface |
| Poor finish: | Excessive dressing | Use lighter dressing pressure. Stop dressing as soon as wheel starts to consume stick rapidly. |
| | Grit size too coarse | Select finer grit sizes |
| | Poor coolant flow | Apply heavy flood to wheel/workpiece interface |
| Chatter: | Wheel out of true | True wheel, ensure it is not slipping on mount |
| Short wheel life: | Incorrect coolant flow | Apply coolant to flood wheel/work surface |
| | Low wheel speed | Increase wheel speed |
| | Excessive dressing | Use lighter dressing pressure |
| | Wheel too soft or too hard | Change grit or grade, use higher concentration |

**DON'T DELAY... ORDER FROM GRAINGER NOW!**



**Place your order with your local Grainger branch, and you'll be assured of prompt service, technical support, and our "No Hassle" return policy on any product ordered.**

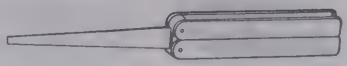
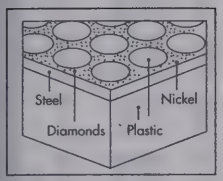
# DIAMOND WHETSTONE SHARPENERS

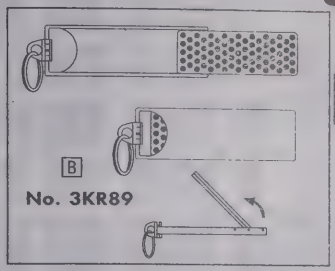
DMT®



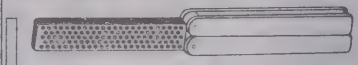
A No. 3KT18



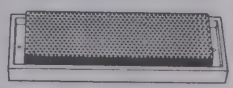
C No. 3KT15



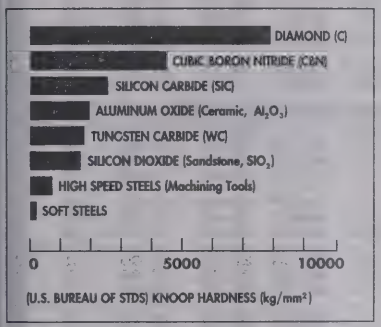
F No. 3KR93



G No. 3KT07



B No. 3KR89



D No. 3KR98

E No. 3KR96

H No. 3KT11

**Fast**—Ultra-hard sharp diamond crystals and unique polka dot pattern chip clearing surface on whetstones

**Easy**—Micro cutting, not plowing, removes stock with less force

**Clean**—Use with water or dry, no oily mess

**Versatile**—Hone carbon steel, tool steel, stainless steel, carbide, ceramics, etc. (any hard material)

**Durable**—Strong, tough structural bases and wear-resistant monocrystalline diamond. Surface remains flat

**Extra-Fine Diamond**—Green-9 micron 1200 mesh—Polishes and refines cutting edges

**Fine Diamond**—Red—25 micron—600 mesh for regular honing of well maintained edges

**Course Diamond**—Blue—45 micron—325 mesh—Rapidly sharpens general cutting tools

**Extra-Coarse Diamond**—Black-60 micron —220 mesh—Remove material rapidly, for nicked or damaged edges, for heavy cutting such as axes and lawnmower blades.

### A POCKET DIAMOND WHETSTONE™ KITS

- 3 Grit set — Mini Diamond Stones

### B DIAMOND MINI-SHARP™ POCKET MODEL

- Swivel ring attachment for key chains, zipper pulls, etc.
- Convenient handle folds for storage

### C 4" MACHINIST DIAMOND WHETSTONES™

- 1" uninterrupted diamond at one end of stone for honing small pointed tools
- Leather storage sheath

### D 4"DIAFOLD™ DIAMOND WHETSTONES™

- Folding handle protects stone when closed

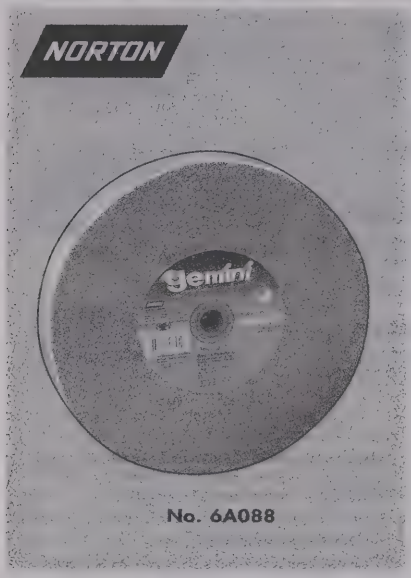
### E 4" DIAFOLD™ SERRATED KNIFE SHARPENER™

- Folding handle protects stone when closed
- Uninterrupted diamond coated cone surface tapers from 1/4 to 1/16" diameter over 4" of length
- Use on any curved blade or as a mini steel for straight edges

### F 4" DIAFOLD™ DIAMOND FLAT KNIFE

- Uninterrupted diamond abrasive on one side of 1/32" thick file
- Tapers from 3/4 to 1/4" over 4" in length
- Folding handle to protect file when closed
- Ideal for closely spaced cutting edges: garden pruners, shears and carbide circular saw blades

### G 6" BENCH DIAMOND WHETSTONE™



- Plastic case with non skid rubber feet and mounting screw holes

### H 8" BENCH DIAMOND WHETSTONE™

- Mounting holes molded into stone base
- Hardwood storage case with non-skid rubber feet

# BENCH & PEDESTAL WHEELS

No. 6A088

- A/O (Aluminum Oxide) gray wheels for all types of steel
- A/O Grit Ranges: Coarse (C)—36/46 grit for an extended range of non-precision grinding applications; Medium (M)—60/80 grit is a mid-range blend for a variety of bench and pedestal grinding jobs; Fine (F)—100 grit, a versatile blend for fine cleanup, small tool reconditioning, and deburring jobs
- S/C (Silicon Carbide) green wheels for tungsten carbide and nonferrous metals such as brass, bronze, and aluminum
- S/C Grit Ranges: Medium (M)—60 for roughing carbide tools; Fine (F)—80 for all-purpose grinding of carbide tools; Extra Fine (XF)—for finest grinding

## ARBOR ADAPTER BUSHINGS (Included with Wheel)

5, 6, & 7" Wheels include 1/2, 5/8, and 3/4" bushings. 8" wheels include 5/8, 3/4, and 7/8" bushings. 10" wheels include 3/4, 7/8, and 1" bushings. 12" wheels include 1" and 1¼" bushings.

## "CHARGER®" RESIN MOUNTED WHEELS

- Ideal for rapid stock removal in metal-fab, welding, and foundry applications where heavy pressure is applied. Highly versatile product.
- Very free-cutting Zirconia Alumina self-sharpening grain for fast metal removal.
- Extremely durable resin bond offers outstanding resilience under pressure.

Need abrasives? Choose a supplier with true grit. Choose Grainger.

# SHARPENING STONES

## A B INDIA® BENCH STONES

**For sharpening high-quality tools where keenness of edge is primary concern**

**Produces strong, long-lasting edge for artisans, craftsmen, and mechanics**

## C INDIA® SQUARE FILES

**For stoning radial faces of router bits, touching up edges of reamer teeth, and radiusing, lapping, and honing to close tolerances**

## D INDIA® TRIANGULAR FILES

**For stoning cutting surfaces of milling cutters and radiusing, lapping, and honing tools, dies, and molds to close tolerances**

## E INDIA® ROUND FILES

**For dimensioning compound curves on templates and for radiusing, lapping, and honing to close tolerances**

## F INDIA® HALF ROUND FILES

**With both a round and a flat surface for imparting a fine finish on precision machine parts, tools and dies**

## G INDIA® KNIFE BLADES

**Used by clock and watchmakers to quickly sharpen and maintain edge and point of cutting tools**

## H INDIA®-SOFT ARKANSAS COMBINATION BENCH STONE

**Combination fast cutting action on one side and final honing on the other**

**Preferred by woodworkers**

## I HARD ARKANSAS-INDIA® FILE SET

**Set has the 10 most popular file shapes/sizes in both fine grit India and ultra-fine grit Hard Arkansas**

**Offers complete range of finishing, honing and polishing stones, including HF13, HF43, HF113, HF183, HF873, FF14, FF44, FF114, FF214, and FF724**

## J K MOUNTED ARKANSAS BENCH STONES

**Mounted in hardwood for permanent, dust-free protection**

**SM-6 Soft Arkansas stone is extra fine grit for final honing of straight blades and gouges**

**HM-6 Hard Arkansas stone is ultra fine grit for extremely fine edges on precision tools and instruments**

# SHARPENING STONES, KNIFE SHARPENERS, AND REPLACEMENT STONES

## [L] ARKANSAS ROUND EDGE SLIP STONE

- For final honing after prior stoning with comparable shapes of India or Crystolon® stones

## [M] CRYSTOLON® BENCH STONES

- Fast-cutting action for general sharpening of cutting tools when speed is more important than fineness of cutting

## [N] CRYSTOLON® ROUND EDGE SLIPS

- To produce a sharp edge on curved knifes and tools, molder's knives and wood gouges

## [O] CRYSTOLON® RUBBING BRICK WITH HANDLE

- For concrete and masonry moldmark removal

## [P] MACHINE KNIFE STONE

- One side is coarse, the other fine for sharpening, honing paper & cloth cutting knives and planer knives on machine
- Mid-section groove protects fingers; easy to hold

## [Q] AXE & HATCHET STONE

- Palm-size stone for sportsmen, outdoorsmen, and tradesmen

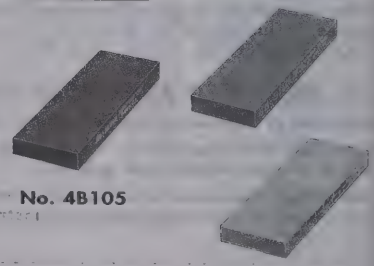
## 3-IN-1 TOOL AND KNIFE SHARPENER

NORTON

- Three-stone oil bath system produces quick results when sharpening tools and knives
- Coarse and medium Crystolon® stones quickly generate new edges and angles and remove nicks and chips
- Fine India stone restores cutting edge and enhances finish
- Stones are reversible to expose two good surfaces, extending sharpener life, and sit in an easily rotated carriage passing through special oil bath, allowing proper amount of oil on stone
- Use XB1 specially formulated mineral oil (sold separately) for best results (oil meets FDA requirements for use near food)

No. 6A454



**No. 6A454.** 3-in-1 Sharpening Kit (614636-85356). Shpg. wt. 2.8 lbs.

# POWERWHEELS AND POWERNUT

MERIT abrasives

New

No. 4UK51

## POWERWHEEL

- Wheel has layered abrasive flaps that wear away evenly, continually providing sharp grain
- Achieves both aggressive grinding and fine finishes, eliminating numerous sanding steps and tool changes
- PowerWheel is more durable than stone and won't brake if dropped
- Use in 90° angles, up in corners, and in edge and bottom sanding
- Quickly blends, polishes, and removes welds on stainless steel, and aluminum
- For use on portable tools or stationary grinders

Jacobs® CHUCK MANUFACTURING CO.

New

No. 4PL54

## THE POWERNUT®

### TOOLLESS RETAINING NUT SYSTEM FOR ANGLE GRINDERS

- Change Type 27 and 28 grinding wheels at your fingertips; no wrenches needed
- No hub wheels—saves money
- Positive locking—increases productivity and safety
- Innovative design—improves performance with ergonomic comfort

The Powernut® won't self-tighten or lock up. Its ergonomic design and textured, non-slip rim make it easy to hand tighten and loosen for fast wheel replacement. The PowerNut® is heat-, corrosion-, and dirt- resistant.

Jacobs PowerNut® has been designed for use with electric angle grinders. For use in pipe fabrication shops, shipyards, petrochemical plants, steel fabricators, welding shops and foundries. Ideal for virtually any large surface that requires hogging out of material.

| Description | Jacobs Model No. | New! Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| Retaining Nut for 7 & 9" angle grinders | 33805 | 4PL54 | $24.99 | 0.7 |
| Retaining Nut for 4½ & 6 angle grinders | 33810 | 4PL55 | 14.99 | 0.4 |

# RAISED HUB WHEELS AND NOTCHERS

## GEMINI® GENERAL PURPOSE & MASONRY GRINDING WHEELS

No. 6A076

- Available with 5/8-11 threaded arbor with discard mount or 3/8, 5/8 or 7/8" arbor hole, see chart
- Wheels fit 4½, 7, and 9" grinders
- Always use proper grinder guard when using these wheels
- Wheels comply with ANSI Safety Code B-7.1
- Masonry wheels give long life and cool cut on all nonferrous metals and are fast cutting on concrete work
- Use Type 27 wheels on 15° angle for proper work contact
- Type 28 wheels have built-in 15° angle for out of position work
- Use notchers on O.D. for proper work contact

## ROUGH PORTABLE WHEELS

NORTON

No. 2D931

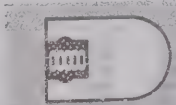
Type 1 Straight wheels and Type 11 Flaring cups fit all popular straight and angle head grinders

57A aluminum oxide for removal of metal in general maintenance/repair shops

57AC abrasives for work on sand cast parts, for removing gates, risers and parting lines

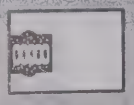
57AZ abrasive mixes aluminum oxide and zirconia alumina for long-lasting, faster cutting needs on weld beads

C abrasive for non-steel applications



37C abrasive for cast iron finishing

4NZ abrasive for 3X life of aluminum oxide



Grade ranges—P - softest, fastest cutting; Q - more durable, good cut; R - longest lasting, holds edge, good cut rate

# ABRASIVE FLAP DISCS

## ZIRCONIUM LAYERED ABRASIVE SANDING/GRINDING DISCS

**FEATURES**

- Lasts up to 15 times longer than conventional abrasive discs
- Flap wear continually exposes new abrasive grain for longer work life
- Grind and finish in one easy step

**APPLICATIONS**

- Stainless steel grinding
- Metal fabrication
- Weld removal and blending
- Stock removal and dressing

### [A] BOBCAT™ 3" ABRASIVE FLAP DISCS

- Out performs conventional blending discs
- Smoother grinding and enhanced conformability
- Can use with drive mandrel or back-up pad
- Consistently high cut rate and outstanding edge durability
- For right angle air tools

### [B] 1/4" DRIVE MANDREL

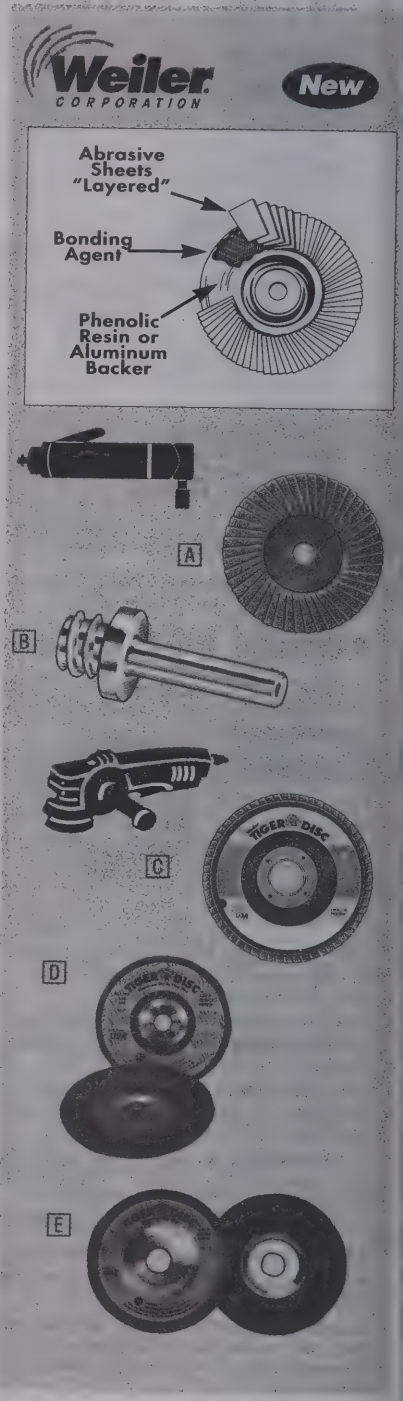
- Mounts Bobcat™ Abrasive Flap Discs on tools with 1/4" collet

***New*** **No. 4KM70.** 1/4" Drive Mandrel. Weiler brand (07766). Shpg. wt. 0.1 lbs. List $10.17. Each.....$9.87

### [C] HEAVY-DUTY PHENOLIC BACKED BIG CAT™ DISCS

- Grinds faster, lasts longer (up to 40%) than standard flap discs
- A thicker disc with larger abrasive flaps for increased conformability on uneven or contoured surfaces
- Produces highly consistent finish
- For use with angle grinder sanders

### [D] PHENOLIC BACKED TIGER™ DISCS



- Consumable backer, will not scratch workpiece during operation
- Best for grinding on flat and contoured surfaces
- For use with angle sander grinders

### [E] ALUMINUM BACKED TIGER™DISCS

- Lightweight backer
- Best for grinding on flat surfaces
- Provides rigid support for maximum aggression
- For use with angle sander grinders

(†) Note. BigCat™ and Tiger™ Abrasive Discs should be one or two grits coarser than resin fiber grinding discs for optimum results. Exception: 36" grit use same grit size.

*Need abrasives? Choose a supplier with true grit. Choose Grainger.*

# AVOS GRINDING SYSTEM

- Shape and holes allow swarf and loose abrasive to escape grinding zone
- Patented back-up pad designed to reduce heat generation

## FIBRE DISCS

**944-Norton SG Disc** provides the highest level of grinding performance on difficult-to-grind materials, including supper alloys and hardened steel.

**826-NorZon Plus Zirconia Alumina Disc** is ideal for fast stock removal and rough cutting applications.

**226-Aluminum Oxide Disc** offers general purpose cuts on a wide variety of materials, from stainless steel to malleable iron and bronze.

CLESCO Manufacturing

Operate according to ANSI and OSHA guidelines and do not exceed maximum RPM noted on wheel being used.

## WHEEL ADAPTERS

•For use with cut-off wheels listed above, and wire brushes on pages 1630-1633

### A CUT-OFF WHEEL MANDRELS (SCREW-TYPE)

Machined from stress proof steel. Screw head is slotted for fast, easy change. Design holds wheel flush and permits wheel to be held close to work area. Stock No. 1F540 comes with both screws to mount either 1/4 or 3/8" holes. Plated finish.

### B GENERAL PURPOSE WHEEL ARBOR ADAPTERS (NUT-TYPE)

Arbor adapters mount all types of wheels (cut-offs, cloth buffs, wire wheels, etc.). Includes arbor, hex nut, and a pair of machined steel washers which have a recessed flange for extra-strong grip. Plated finish.

# HAND PADS AND SURFACE BLENDING DISCS

## NONWOVEN NYLON ABRASIVE HAND PADS

### No. 748 BEAR-TEX® FINAL SHINE HAND PAD

- Removes overspray on wood parts
- Polishes machine parts
- Use for mold and die polishing

### No. 851 BEAR-TEX VERY FINE SILICON CARBIDE HAND PAD

- Conformable to irregular surfaces
- Satin finishes on aluminum
- Cleans glass molds

### No. 796 BEAR-TEX VERY FINE ALUMINUM OXIDE HAND PAD

- Use for preparing surfaces for painting, applying finishes to copper, brass, aluminum, and stainless steel
- Removes corrosion from metals

### No. 747 BEAR-TEX GENERAL PURPOSE HAND PAD

- Cleans, finishes, removes rust, does light deburring
- Denibs plastic component parts
- Waterproof and solvent-resistant

### No. 777 BEAR-TEX GENERAL PURPOSE PAD

- Use where stiff, aggressive cutting action is needed for overall cleaning and deburring
- Removes corrosion, rust, and scale
- Waterproof and solvent-resistant

### No. 740 BEAR-TEX HAND PAD

- For Heavy-duty cleaning or deburring rust

**SELECTION GUIDE FOR HAND PADS**

| Least Aggressive | | | | | Most Aggressive |
|---|---|---|---|---|---|
| 748 | 851 | 796 | 747 | 777 | 740 |

Use on a broad range of off-hand applications, from heavy-duty cleaning to finishing, or light duty polishing. Will not rust.

## SURFACE BLENDING DISCS

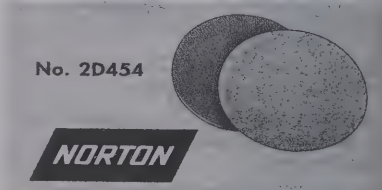
- Impregnated on one side with a premium Aluminum Oxide grain
- Deliver consistent finishes whenever cleaning, deburring, blending, or finishing all types of metal, wood, and plastic
- Provides higher cut rate and longer life than surface blending discs
- Ideal for production applications

### 80 GRIT—BROWN

- Used for blending heavy grind lines, removing coatings and gasket residue or blending 80-150 grit grind lines

### 120 GRIT—MAROON

- Ideal for surface preparation before coatings for blending 150-180 grit grind lines



### 320 GRIT—BLUE

- Used for scratch blending, light scuffing, and fine finishing
- For blending 180-320 grit grind lines

**7" and smaller Blank Discs** are used with Surface Blending Back-Up Pads utilizing a hook-and-loop interlock disc backing.

### "HOOK AND LOOP" BEAR-TEX DISCS AND BACKUP PADS

- Designed to provide easy, press-on mounting and firm anchoring of discs
- Each pad has foam face containing numerous hooks which mate with loop fabric on disc

**Bear-Tex Convolute Wheels** are formed by wrapping non-woven nylon, specially treated with abrasive and resin, around a center core, then bonding layers to create an abrasive wheel. Can be used dry or with lubricants.

**Convolute wheel applications** can be divided into two general categories:

1. Cleaning and finishing
2. Blending/deburring/polishing

**[A] Bear-Tex Clean/Finish Wheels** are for general clean-up, rust removal, and blending on stainless steel. Works best where light to moderate pressure and low speeds are utilized.

**[B] Bear-Tex Series 1000—6 Density Wheels** for applying decorative finishes, blending coated abrasive scratch patterns, and for general oxidation removal.

**[C] Bear-Tex Series 1000—7 Density Wheels** for general light deburring applications and blending where a more aggressive cut is needed.

**[D] Bear-Tex Series 1000—8 Density Wheels** used for deburring dies, finishing prior to buffing, and for polishing welds prior to final inspection.

**[E] Bear-Tex Series 1000—9 Density Wheels** are for toughest burr removal jobs, radiusing edges, while producing fine finish.

**[F] Bear-Tex Series 2000—8 Density Wheels** designed to be smearproof, cool cutting on moderate deburring and finishing of exotic alloys like titanium. Series 2000 conforms to eliminate gouging of parts.

**[G] Bear-Tex Series 4000— 8 Density Wheels** provide longer life than Series 1000 wheels where excellent edge and form holding is required. Smear-proof.

**[H] Bear-Tex Series 4000— 9 Density Wheels:** For longest life on heavy duty deburring, edge breaking, and parting line removal jobs on exotic alloys. Smear-proof.

**[I] Bear-Tex B442 Wheels** provide longest wheel life for deburring and finishing stainless steel, and for general deburring applications.

**[J] Bear-Tex Deburring Wheels** are for removing parting lines and applying high polish on soft metals.

❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS ) are available. See page opposite inside back cover.

## BEAR-TEX® FLAP WHEELS

**Bear-Tex Flap Wheels are formed** by mounting sheets of Bear-Tex web material around a fiber center hub, the tightly packed pieces forming the spokes of the wheel. This construction provides cushioning action which is ideal for use on uneven or irregular surfaces.

**Bear-Tex Flap Wheels are available in a wide range** of abrasive, grit, and density combinations.

For many applications, including:

- **Producing uniform finishes on aluminum, brass, and stainless steel**
- **Imparting long line brushed finishes**
- **Cleaning threaded parts**
- **Removing oxide from printed circuit boards**
- **Deglossing plastic parts**

*) With 1/4" diameter spindle mount.

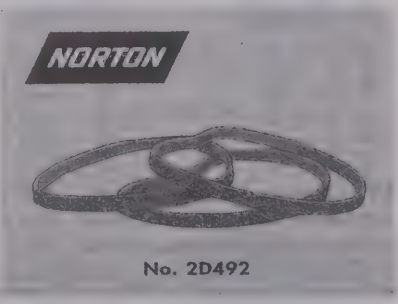
No. 2D507

No. 2D449

## BEAR-TEX® SURFACE BLENDING STE BELTS

Used on portable, bench, and pedestal belt machines where less aggressive action or cushioning characteristics is desired.

**Surface Blending STE Belts use the same** scrim-backed material as STE discs, only in belt form. Applications include:



- **Buffing and polishing**
- **Generating #3 and #4 finishes on stainless steel**
- **Grind line conditioning**

Recommended starting points:

- **For blending 180-320 grit grind lines—STE 320 grit**
- **For blending 150-180 grit grind lines—STE 120 grit**
- **For blending 80-150 grit grind lines—STE 80 grit**

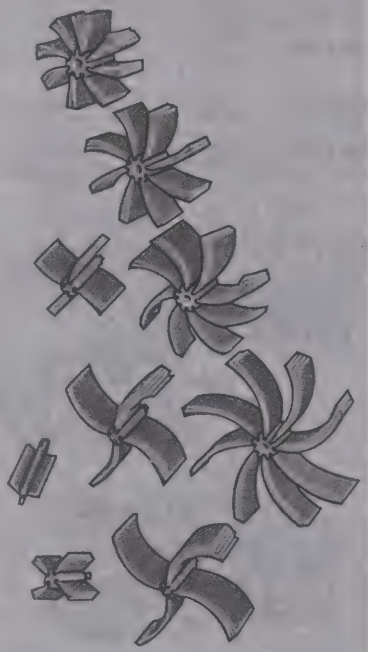
## MANDREL MOUNTED AND QUICK CHANGE FLAP WHEELS

- For use with portable drills, die grinders, and air tools
- 1/4" diameter hardened steel mandrel permanently mounted in epoxy core on mandrel mounted wheels
- 1/4-20 Threaded shank on quick change wheels
- Shape to fit any desired contour, even a compound radius

## FLAP WHEELS WITH ARBOR HOLE

- For use with portable drills, bench grinders, and air tools
- For areas not workable with other abrasive tools
- For metal, plastic, wood, fiberglass, and rubber applications
- High density wheel with tough resin-bonded abrasive cloth

Need abrasives? Choose a supplier with true grit. Choose Grainger.



# BORE POLISHERS

'olishing interior diameters can be a real challenge. Quality and consistency are impor-ant, as well as versatility. Merit Abrasives manufacturers a wide range of flexible bore olishers that provide a solution to your interior polishing needs.

## ALO RESIN BOND

- **Uniform quality**
- **Flaps adjust automatically to interior diameter, polishing the entire surface area with each pass**
- **Bore polishers are self-centering, so they apply equal pressure to full wall of interior diameter**
- **As flaps wear, fresh abrasive is constantly exposed, for even, consistent cutting**
- **Smooth, vibration-free operation**
- **Equal spacing between packs of abrasive leafs eliminates heat build-up and assures perfect balance**
- **Fast, versatile polishing**
- **Spring-action design provides fast cleaning, deburring and polishing of interior diameters of cylinders, deep tubes and hydraulic fittings**
- **Finish a range of interior diameter sizes without changing polisher**

# INTERLEAFED FLAP WHEELS

- **Composed of flaps of our standard X-weight abrasive cloth. The flaps are interleafed with Abrasotex™ for a softer and more flexible wheel**
- **Used for deburring, producing decorative finishes, removing parting line, breaking edges, sanding sealer, and removing rust**
- **Produces finer finish than regular flap wheels**
- **Eliminates chatter at slow speeds**
- **Gives more mush to the wheel**

## A BORE POLISHER TEST KIT "BP"

- Contains 10 Bore Polishers, 2 Mini Grind-O-Flex wheels in assorted sizes and grits for finishing 1 to 5" interior diameters, and mandrels for 1/4" chuck
- Merit brand (54181)

No. 3T627. Shpg. wt. 3.0 lbs. Each $69.95; Lots 5 ..... $62.90

## B GENERAL PURPOSE TEST KIT "GP"

- Includes samples of Merit abrasive tools and mandrels
- For deburring, polishing, and grinding applications
- Merit brand (69025)

No. 3T631. Shpg. wt. 3.0 lbs. Each $140.80; Lots 5 ..... $126.66

## C MICRO-MINI TEST KIT "MMC"

- Includes 5 wheels, 3/8 to 1 3/16" diameters with 1/8" shank, in various grits
- Merit brand (31493)

No. 3T621. Shpg. wt. 3.5 lbs. Each $19.63; Lots 5 ..... $17.67

## D MANDREL MOUNTED MINI GRIND-O-FLEX TEST KIT "CMM"

- Includes 10 wheels, 1 to 3" diameters, in various grits
- Each wheel comes with 1/4" hardened steel mandrel permanently mounted in an epoxy core
- Merit brand (38004)

No. 3T625. Shpg. wt. 1.2 lbs. Each $47.80; Lots 5 ..... $42.97

## E MINI GRIND-O-FLEX TEST KIT "CQ"

- Includes 10 wheels, 1 to 3" diameters, and 1/4" Quick-Change adapter
- Merit brand (38001)

No. 3T623. Shpg. wt. 1.2 lbs. Each $44.30; Lots 5 ..... $39.83

Need abrasives? Choose a supplier with true grit. Choose Grainger.

## CRATEX INTRODUCTORY KIT

- Contains 80 wheels and points plus four mandrels
- Ideal for use in a wide range of polishing, smoothing, and deburring applications
- Packaged in four compartment plastic box by grit texture (coarse, medium, fine, and extra fine) for easy selection
- Cratex brand (777 KIT)

**New No. 3P033.** Shpg. wt. 1.0 lbs. Each ..... $42.75

## CRATEX COMBINATION KIT

- Introductory assortment of Cratex Blocks and Sticks, Cones, 2" Wheels and 1/4" shank mandrels
- Items contained in kit are used in a broad range of industrial and metalcraft applications involving light deburring, smoothing, cleaning, and polishing
- Contains 4 each: oblong blocks, round sticks, tapered cones, cylinder cones straight wheels in an equal assortment in coarse, medium, fine, and extra fine grits; 1 each: cone and wheel mandrel
- Cratex brand (226 KIT)

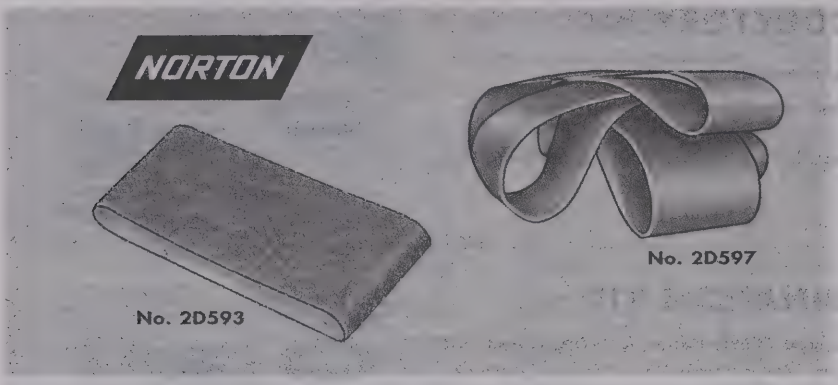
**New No. 3N097.** Shpg. wt. 2.2 lbs. Each ..... $124.55

## CRATEX POINT TEST KIT

- Contains two each of all eight Cratex shapes equally assorted in four grit textures (coarse, medium, fine, and extra fine), plus 2 each Nos. 3N212 and 3N449 point mandrels
- Ideal for deburring, smoothing, and polishing hard-to reach surfaces
- Cratex brand (778 KIT)

**New No. 3P035.** Shpg. wt. 1.0 lbs. Each ..... $50.95

## CRATEX BLOCK & STICKS TEST KIT



- Contains 16 popular Cratex blocks and sticks
- Excellent for cleaning, deburring, and polishing metal surfaces for breaking edges, smoothing away high spots, removing rust, heat marks, tarnish, and stain
- Contains 4 each of oblong blocks (6 x 1 x 3/8"), square blocks (6 x 1/2 x 1/2), round sticks (4-6 x 3/8" and 4-6 x 1/2), equal assortment in coarse, medium, fine, and extra fine grits
- Cratex brand (228 KIT)

**New No. 3N099.** Shpg. wt. 2.0 lbs. Each ..... $89.95

## DON'T FORGET THE BACK OF THE BOOK! MANY CROSS-REFERENCE GUIDES AND INDEXES HELP MAKE PRODUCT SELECTION EASIER

**Besides complete National Brand and Product Indexes, the back section of this catalog contains a Terminology and Technical Data Section as well as a handy Stock Number/Page Number Cross-Reference Guide. And don't forget, if you need assistance with product selection, help is as close as a call to your local branch.**

# ABRASIVE BELTS, RESIN BOND

## COATED ABRASIVE BELTS

Coated Abrasive Belts are listed by groups in the following order:

1. **Width** (narrow to wide)
2. **Length** (short to long)
3. **Grit Size** (coarse grit to fine grit)
4. **Abrasive Type** (Aluminum Oxide, Zirconia, SG Ceramic)
5. **Coating Type** (closed coat to open coat)

## BELT SELECTION

Look for abrasive requirement and select appropriate belt. When same size and grit are available, premium belts will offer faster stock removal and longer life.

### METALITE® R228 BELTS

- Made of rugged Aluminum Oxide Closekote® resin bond X-weight cloth to provide aggressive cutting action and resistance to sanding heat
- For metalworking applications with moderate to heavy pressure
- Feature fast cutting action and long belt life

### METALITE® R283 BELTS

- Offer improved resistance to grain shedding and a more flexible backing
- P-Graded Aluminum Oxide abrasive
- Waterproof close coated, resin bonded on a semi-flexible X-wgt.
- Developed specifically for use on portable belt machines
- Specially-designed joint that gives smooth, trouble-free performance

### METALITE® R215 BELTS

- Aluminum oxide resin bond belt is open-coated for woodworking or use on soft metals that tend to load
- X-weight cotton back for dry use only

### NORZON® R821 BELTS

- Provides an aggressive, free-cutting action on metalworking applications where fast stock removal is required
- Unique design combines high-performance Zirconia Alumina abrasive with heavy-duty Y-weight cloth backing
- Close coated resin bonded

### NORZON® R823 BELTS

- Similar to Norzon® R821
- Aggressive, closed coat, long-lasting metalworking belt is on a waterproof, polyester X-weight backing for greater flexibility

### NORZON® R824 BELTS

- Designed for high pressure, coarse grit, heavy duty applications where a high rate of stock removal is desired, closed coat
- Extra-strong Y-weight polyester backing

### NORTON SG® R981 BELTS

- For hard-to-grind, heat-sensitive metals such as alloyed steel
- Premium ceramic abrasive is specially coated to promote a cool-cutting action that gives a long, aggressive grinding life
- Resin bonded on a Y-weight polyester backing

# FIBRE DISCS

NORTON

Fibre Disc

- **Metalite F226 Fibre Discs provide superior results when grinding and blending carbon steel**
- **Norzon F826 Fibre Discs feature premium, self-sharpening zirconia alumina abrasive for consistently fast cut rates. For heavy stock removal; especially productive on stainless steel**
- **F944 Norton SG Fibre Discs offer sharp ceramic aluminum oxide grain. For carbon steel and welds in medium to heavy pressure production applications**
- **Use Fibre Discs with air-cooled rubber back-up pads with 5/8-11" threaded aluminum hubs for mounting. Sold on the following page**

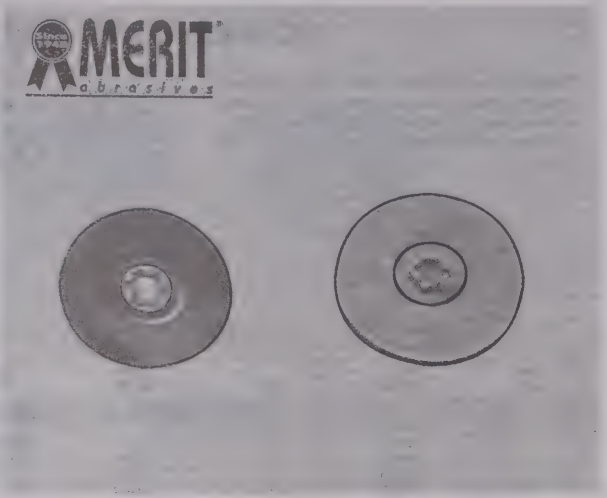
NORTON

## CLOTH SPEED-LOK TS DISCS

- **2 and 3" R228, R981 Cloth Speed-Lok TS Discs are for moderate to finish grinding-fast disc change. Use with thin, strong Speed-Lok TS back-up pads (see page 1609) for hard-to-reach areas**

## CLOTH PSA DISCS

- **PSA (Pressure Sensitive Adhesive) Cloth disc with adhesive backing for fast, convenient mounting**
- **Made without center holes for full-face usage**
- **Choose Norzon for long life and fast cut**
- **Choose Metalite for general purpose jobs**



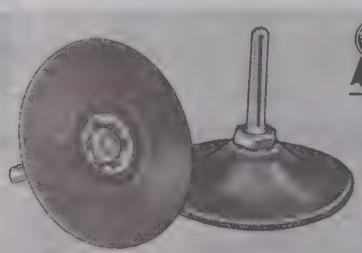
❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

*Need abrasives? Choose a supplier with true grit. Choose Grainger.*

## POWER-LOCK DISCS

- For general use, including blending light welds, breaking edges and removing parting lines and machine marks
- Can be used for working mild contours, as well as flat surfaces
- Abrasive surface is laminated to a tough backing for exceptional durability
- Snagging and shredding that can occur with pressure-sensitive discs is virtually eliminated
- Higher speeds can be utilized to reduce labor and disc costs
- Increased RPM's result in faster stock removal, thus reducing finishing time
- Loading and glazing are reduced
- Available in a variety of materials and types of construction
- Three types of fasteners available

## POWER-LOCK TYPE 1



- Patented snap-on/snap-off fastener enables user to change discs quickly and safely, reducing downtime and cutting operating expenses

## POWER-LOCK HOLDERS

Last longer
Reduce replacement costs
Patented retainer ring permits higher speeds than other rubber holder pads
Retainer ring locks nylon to cam, protecting from disintegration under high speeds
Nylon reinforcing cloth keep rubber from expanding under high speeds
Use medium flexible pads for contour work, feathering and edging into corners, fillets and radii
Use hard pads for flat work, especially on heavy-duty jobs, for more aggressive cutting and heavy stock removal

No. 3V091

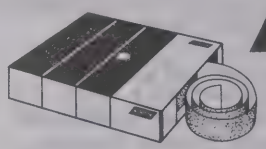
**IF YOU'RE IN A BIND, CALL GRAINGER**

**If it's an emergency, chances are Grainger's got the items you need today. Grainger has more than 350 well-stocked branches nationwide. So you can replace, build, or repair it right away. And we're conveniently located. To find the branch nearest you check the Branch Locations listed in the front of this catalog.**

# PLUMBER'S, HANDY, AND SHOP ROLLS

No. 4F880



## PLUMBER'S ROLLS

- Open mesh construction removes scale, corrosion, and oxidation without clogging—sanding residue falls through the backing
- Silicon carbide abrasive grain is coated on both sides of an open-weave cloth backing
- Ideal for preparation of pipe joints

| Width (In.) | Length (Yds.) | Grit | Norton Model | Stock No. ❸ | Each | Price Each in Pkg. Qty. | Pkg. Qty. | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| 1 1/2 | 25 | 80 | 662611-07275 | 4F880 | $44.30 | $39.87 | 2 | 1.3 |
| 1 1/2 | 25 | 120 | 662611-07270 | 4F881 | 31.25 | 28.11 | 2 | 1.1 |
| 1 1/2 | 25 | 180 | 662611-07265 | 4F882 | 27.85 | 25.05 | 2 | 0.9 |

## HANDY ROLLS

- Metalite K224 Cloth Handy Rolls are the best choice for all-purpose dry sanding of metal surfaces
- Sharp Aluminum Oxide abrasive comes on flexible J-weight backings
- on grits 80 and finer for fine sanding and polishing
- Extra strength of X-weight backing on grits 50 and 60 is ideal for heavier duty coarse grit jobs

# COATED ABRASIVE SHEETS

### A ADALOX® PAPER

- Aggressive sheets for dry applications Aluminum Oxide/Openkote® Flexible D-, C-, and A-weight paper

### B A251 NO-FIL® ADALOX® PAPER SHEETS

- Conformable sheets dry applications
- Resists loading •Flexible A-weight paper/Openkote®

### C A275 NO-FIL ADALOX® SHEETS

- A275 Sheets fast-cutting action and tear resistance on dry applications where loading is a problem

### D GARNET PAPER

- For dry "finishing" applications, wood surfaces where loading is not a problem, and where conformability and consistently good finish are of prime concern

### E NO-FIL DURITE A413 PAPER SHEETS

- Open-coat silicon carbide for dry finishing of dense, hard surfaces where loading can be a problem

### F TUFBAK® DURITE® PAPER SHEETS

- Tear resistant/waterproof •Rough to intermediate finishing •Silicon Carbide/Closekote® •Flexible A-C weight paper

### G E-Z FLEX METALITE® CLOTH SHEETS

- Aggressive/general metal surfaces
- Aluminum Oxide/glue bond
- J-weight cloth •Heavier X-weight cloth for coarse grits

### H K622 EMERY CLOTH SHEETS

- Glue-bonded on flexible J-weight cloth
- For metal clean-up, light rust removal, hand polishing and lapping

### I K624 CROCUS CLOTH SHEETS

- K624 Crocus cloth is used for cleaning corroded surfaces of polished metals
- For superfine finishing and polishing

### J Q421 SCREEN-BAK® SHEETS

- Open mesh screen • Used wet or dry application • Resists loading

### A ADALOX A211, A212, AND A213 PAPER SHEETS

# LAPPING AND GRINDING COMPOUND SANDING ACCESSORIES

## CLOVER LAPPING AND GRINDING COMPOUND

**Clover Compound** is an abrasive paste perfectly suited for the cutting, smoothing and finishing of metal surfaces, and for the precision mating of metal parts.

This petroleum grease mix retains its texture and lubrication properties during extended lapping. Clover Compound contains hard, sharp silicon carbide crystals that break down in grinding and lapping operations to create more sharp edges for continued cutting. Sizes: 4 oz. and 1 lb. can.

FEL-PRO

New

No. 2C750

Abrasive Belt & Disc Cleaner

### ABRASIVE BELT AND DISC CLEANER

Solid natural rubber cleaner removes abraded materials of wood, plastic, copper, brass, and aluminum for portable and stationary sanding machines, abrasive belts and discs. Cleans belts, prevents burning, chatter marks, and machine vibrations. 1⅝ x 1⅝ x 1¾". Advantage Plus brand.

No. 5W526.③ Shpg. wt. 0.7 lbs. Each.....$7.68▲

### 18-PC. DRUM SANDING KIT

Spiral Bands are the correct choice when close tolerances are needed in curved, contoured, or hard-to-reach surfaces on plastic, wood, or metal. The spiral construction gives the benefit of smooth cutting action, thus avoiding unsightly shadow marks. Rubber expanding drum gives the abrasive a cushioned backing and enables the operator to quickly and easily replace the abrasive sleeves. Kit includes....six sizes of drums, ½ x ½", ¾ x 1", 1 x 1", 1½ x 1½", 2 x 1½ and 3 x 3", with one medium 80 grit and one fine 120 grit Aluminum Oxide abrasive sleeve to fit each drum size. Merit brand.

*New* No. 4UK44.③ Shpg. wt. 2.0 lbs. Each.....$35.90▲

③ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

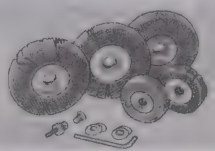
## TEST KITS

### POWER-LOCK TEST KIT "D"

- Type I Snap-on style
- Includes 150 discs, assorted grits in 1, 2, 3" diameters, and 3 holders
- Several Zirconia Alumina and Flex-Edge Discs A/O included
- Merit brand (65001)

No. 3T629. Shpg. wt. 3.0 lbs. Each $73.25; Lots 5 ..... $65.85

MERIT® abrasives

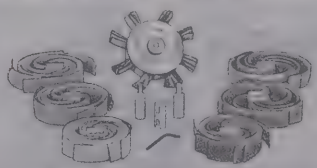


### GRIND-O-FLEX TEST KIT "E"

- Includes 5 wheels, 3½ to 6" diameters, in various grits
- Merit brand (26001)

No. 3T619. Shpg. wt. 3.5 lbs. Each $81.65; Lots 5 ..... $73.42

MERIT® abrasives



### SAND-O-FLEX TEST KIT "S"

- Includes Model 350-R metal body wheel, 8 assorted refills (scored and unscored), 5/8 to 1/2" arbor bushing, 1/4 and 3/3" chuck adapter
- Merit brand (14006)

No. 3T617. Shpg. wt. 3.5 lbs. Each $78.00; Lots 5 ..... $70.13

MERIT® abrasives

## NORTON BODYFILES FOR AUTOMOTIVE APPLICATIONS

- Aluminum oxide
- Open coat/resin bond
- 40 and 80 grit on heavy D-weight backing

### BODY FILE STRIP FOR AIR & HAND TOOLS

| Diameter (In.) | Grit | Norton Model | Stock No. ❸ | Each | Pkg. Qty. | Lots 100 | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| 2¾ x 17½ | 40 | 662611-02075 | 6A028 | $0.50 | 100 | $0.43 | 0.1 |
| 2¾ x 17½ | 80 | 662611-02065 | 6A029 | 0.38 | 100 | 0.33 | 0.1 |

❸ These products are covered by OSHA Hazard Communications Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

### ORDERING HAS NEVER BEEN EASIER!

Whether you phone, fax, write or stop by your local branch to place an order, Grainger can tailor sales terms to meet your needs. Ask about establishing an open line of credit or pay with your VISA, MasterCard, or American Express card.

# WIRE BRUSHES

## CRIMPED WIRE BENCH GRINDER WHEELS

No. 3A194 Crimped Narrow Brush Face

No. 3A196 Crimped- Medium Brush face

Available in both carbon and stainless steel.

APPLICATIONS:

- Cleaning rust, scale, dirt, and paint
- Deburring
- Edge blending
- Roughening for adhesion
- Flash removal of rubber and plastic
- Finishing for appearance
- Finish preparation prior to painting or plating

| Dia. (In.) | Face Width (In.) | Wire Size (In.) | Arbor Hole (In.) | Max. RPM | Weiler Model | Stock No. | Each | Lots 5 | Shpg. Wt. |

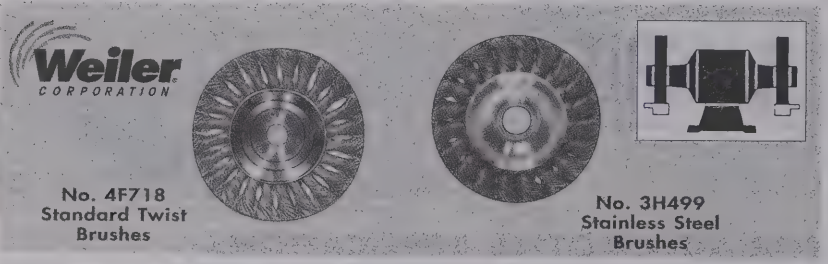
(*) Features plastic snap-out arbor hole adapter.

### CRIMPED - NARROW BRUSH FACE

- Produces flexible brushing action; conforms to uneven surfaces or irregular shapes

### CRIMPED - MEDIUM BRUSH FACE

- Greater fill density creates more aggressive brushing action



### CRIMPED - WIDE BRUSH FACE

- Heavy fill density creates minimal flexibility; fast aggressive cutting covers more surface area in a single pass

### STAINLESS STEEL BRUSHES

- Recommended for stainless steel, aluminum, non-ferrous alloyed metals

## KNOT WIRE BENCH GRINDER WHEELS

No. 4F718 Standard Twist Brushes

No. 3H499 Stainless Steel Brushes

### STANDARD TWIST BRUSHES

- Available in carbon and stainless steel

APPLICATIONS:

- Cleaning rust, scale, dirt, paint, weld spatter
- Heavy burr removal
- Roughening for adhesion
- Flash removal
- Finish preparation prior to painting or plating
- Weld cleaning

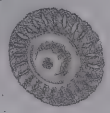
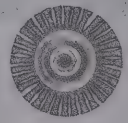
# WIRE BRUSHES

## SMALL ANGLE GRINDER WIRE BRUSHES





No. 3AC10
Crimped Cup Brush

No. 3AC06
Knot Cup Brush

No. 3AC14
Standard Twist Brush

No. 3AC18
Stringer Bead Wheel

**APPLICATIONS:**
- Deburring
- Roughening
- Cleaning prior to welding
- Rust and paint removal
- Weld scale, spatter and corrosion removal
- Metal surface preparation for painting

**CRIMPED WIRE CUP BRUSHES**
- Greater brushing flexibility for flat surfaces and relatively fine finish

**KNOT WIRE CUP BRUSHES**
- For tight operations, corners and angle welds, curved surfaces, pipe bevel cleaning

**STANDARD TWIST WIRE WHEELS BRUSHES**
- For broader cleaning coverage, deburring, edge blending, and finishing

**STRINGER BEAD TWIST WIRE WHEEL BRUSHES**
- Narrow brush face for stringer weld, piping, pipe grooves, and other hard-to-reach areas

**STAINLESS STEEL STRINGER BEAD TWIST WHEEL BRUSHES**
- Recommended for stainless steel, aluminum, and non-ferrous alloyed metals

## 1/4" STEM-MOUNTED END BRUSHES

No. 5X895
Crimped Wire
End Brush

No. 3H689
Circular Flared
End Brush

No. 3A202
Knot Wire
End Brush

**END BRUSH APPLICATIONS**

Carbon cleaning, I.D. pipe cleaning, die, mold and tool cleanin and polishing, rust and paint removal. Cleaning and finishing c recessed areas. Crimped and knot wire construction.

**CRIMPED WIRE END BRUSHES**
- For light duty brushing applications

**CIRCULAR FLARED END BRUSHES**
- Flare design accommodates the natural working angle for consistent finishing
- Allows easy access to a broad range of surface angles and contours

**KNOT WIRE END BRUSHES**
- For aggressive brushing applications

**STAINLESS STEEL**
- Recommended for stainless steel, aluminum, and non-ferrous alloyed metals

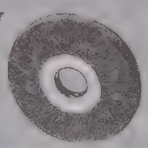
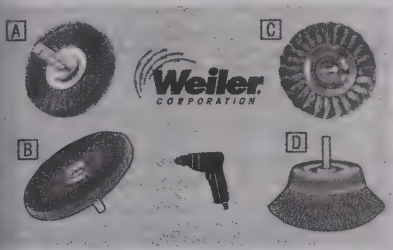
# WIRE BRUSHES



## SMALL DIAMETER WIRE BRUSHES

Copper Center Wire Wheel Brushes



Polyflex® Copper Center Wire Wheel Brushes

**APPLICATIONS:**

- Burr removal in slots and narrow confined areas
- Rust removal
- Surface refinement and juncture blending
- Weld scale removal
- Flash removal of rubber or plastic

| Description | Dia. (In.) | Face Width (In.) | Wire Size | Arbor Hole (In.) | Max. RPM | Weiler Model | Stock No. | Each | Lots 5 | Shpg. Wt. |

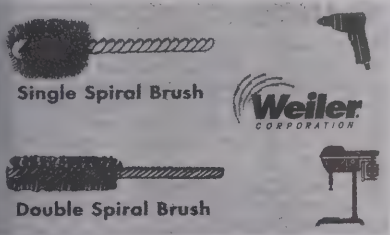
## 1/4" STEM-MOUNTED CUP AND WHEEL BRUSHES

**APPLICATIONS:**

Carbon cleaning. I.D. pipe cleaning. Die, mold and tool cleaning and polishing. Rust and paint removal. Cleaning and finishing of recessed areas.



### STAINLESS STEEL

- Recommended for stainless steel, aluminum, and non-ferrous alloyed metals

### POLYFLEX® ENCAPSULATED BRUSHES

- Encapsulation material wears away during use, constantly exposing new wire tips
- Perpetual short trim minimizes long wire breakage

## POWER TUBE BRUSHES

**APPLICATIONS:**

- Fine wire single spiral brushes for light cleaning and deburring
- Fine wire double spiral brushes for general purpose cleaning/deburring
- Medium wire double spiral brushes for more demanding applications
- Package quantity 10
- For deburring, honing, thread chasing, and cleaning blind and threaded holes
- Typically used on low RPM drill presses and portable drills, but can also be installed on multi-head CNC machine tools
- Pipe fitting, cleaning holes, refurbishing welding equipment and power painting equipment, general MRO cleaning applications

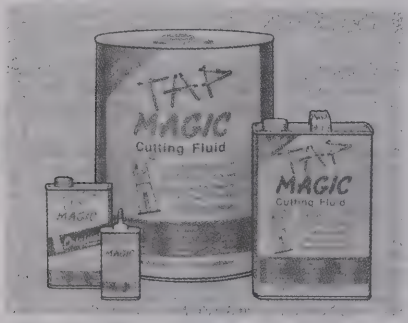
# TERMINOLOGY AND TECHNICAL DATA

**Tungsten Carbide Grade:** This group consists of uncoated, chemical vapor deposition (CVD) coated and physical vapor deposition (PVD) coated materials. Each coated grade consists of various substrates of unalloyed (straight WC/Co), and alloyed (WC/TaC/TiC/NbC/Co) compositions.

## TURNING GRADES FOR CUTTING MATERIAL



### TUNGSTEN CARBIDE GRADES

| Grades | Composition And Application | ISO |
|---|---|---|
| | **CVD Tri-Phase Coated Carbide Grades** | |
| **KC850** | composition: A TiC/TiCN/TiN coating on an extra-strong, cobalt-enriched substrate.<br>application: For your toughest jobs on a wide variety of materials. Used for interrupted cuts and heavy to moderate roughing of carbon and alloy steels, tool steels, stainless steels, alloy cast steels, and ductile irons. Excellent thermal and mechanical shock resistance makes grade KC850 ideally suited for applications requiring maximum edge strength. | M25-M45<br>P25-P45 |
| **USA Coated** | composition: A TiC/TiCN/TiN coating.<br>application: For your tough jobs on a wide variety of materials. Used for interrupted cuts and heavy to moderate roughing of carbon and alloy steels, tool steels, stainless steels, alloy cast steels, and ductile irons. Excellent thermal and mechanical shock resistance. | M25-M45<br>P25-P45 |
| | **PVD TiN (Titanium Nitride) Coated Carbide Grades** | |
| **KC730** | composition: A PVD coated carbide grade.<br>application: For machining high-temperature alloys, aerospace materials, refractory metals, and 200 or 300 series stainless steels. The substrate offers superior thermal deformation resistance, depth of cut notch resistance, and edge strength. The uniformly dense PVD coating increases wear resistance, reduces problems with edge buildup, and provides an unusually good combination of properties for machining difficult-to-machine materials and aluminum. | M05-M20<br>S15-S25 |
| | **Uncoated Carbide Grades** | |
| **USA Uncoated** | composition: A general purpose WC/Co unalloyed grade.<br>application: Excellent edge wear resistance for machining stainless steels, cast irons, nonferrous metals, nonmetals, and most high-temperature alloys. | K05-K15<br>M10-M20 |

## MILLING GRADES FOR CUTTING MATERIAL

### TUNGSTEN CARBIDE GRADES

| Grades | Composition And Application | ISO |
|---|---|---|
| | **Coated—Titanium Nitrides PVD** | |
| **KC710** | composition: A PVD TiN coated carbide grade that has good toughness and thermal shock resistance with good crater wear resistance and resistance to buildup on the cutting edge.<br>application: Greatly improved productivity when cutting a variety of steels and tool steels over a broad range of feeds at moderate to high speeds. | M1-M25<br>P15-P25 |
| **KC725M** | composition: A patented, multi-layer, PVD TiN/TiCN/TiN coated carbide.<br>application: A new milling grade engineered for high productivity wet and dry milling of carbon, alloy, and austenitic stainless steels. The high thermal shock resistance of the tough carbide substrate combined with the patented multi-layer coating provides long and reliable tool life in aggressive milling operations with or without coolant. It is the higher speed companion to KC720 in wet steel milling. | M15-M35<br>P20-P35 |
| **KC730** | composition: A PVD TiN coated carbide grade.<br>application: For milling cast and ductile irons, high-temperature alloys, aerospace materials, refractory metals, and 200 and 300 series stainless steels. The substrate offers superior thermal deformation resistance, depth of cut notch resistance, and edge strength. The uniformly dense PVD coating increases wear resistance, reduces problems with edge buildup, and provides an unusually good combination of properties for machining difficult-to-machine materials and aluminum. | K05-K15<br>M05-M15 |

## CUTTING FLUIDS

### TAP MAGIC™

Special blend of extreme pressure lubricants penetrate to the cutting edge to break down surface tension, stress and prevent metal-to-metal adhesion (weldment). Drilling, tapping, threading, and boring operations are free of drag. Provides greater precision, superior finish while greatly extending tool life.

[A] **New Tap Magic.** Formulated with Ep-Xtra™ to replace 1,1,1 trichloroethane. Highly effective fluid yields micro-fine finish while preventing rust and corrosion. Ideal for difficult cutting operations including long duration extreme-pressure cuts. For use with all metals including stainless steel, aluminum and titanium. Longer cling time reduces need for reapplication.

[B] **Protap.** Highly effective on all metals. Completely biodegradable and free of all regulated chemicals.

[C] **Aluminum.** Formulated specifically for use on aluminum. Provides excellent performance for all cutting operations.

# KL-COMBINATION TOOLHOLDERS

- Clamp-on style chipbreakers should only be used on these toolholders when using an insert that does not have chip control geometry
- Shipped with all parts shown except optional hardware and inserts
- By replacing the KL-pin and shim provided with the optional shim and screw listed, thicker Kendex style ceramic inserts may be used in these toolholders
- Gage insert shown is for dimensional purposes only

## ORDERING HAS NEVER BEEN EASIER!

Whether you phone, fax, write or stop by your local branch to place an order, Grainger can tailor sales to meet your needs. Ask about establishing an open line of credit or pay with your VISA, MasterCard, or American Express card.

## SQUARE

High speed steel (M2) and cobalt (Co5%) steel tool bits for general purpose and heavy duty cutting. M2 is for general purpose - works extremely well on mild steel, alloys and tool steel. Cobalt will work better where high heat is present like heavy cuts in hard steel.

| Square Size (In.) | Overall Length (In.) | Box Qty. | M2 H.S.S. | Each* | Lots 50 | 5% Cobalt Steel | Each* | Lots 50 | Shpg. Wt. |

| D12 | 3/4 | 4K426 | 4K312 | 7.30 | 6.57 | 1.4 |
| D16 | 1 | 4K424 | 4K310 | 13.07 | 11.76 | 1.6 |

## CARBIDE TIPPED — STYLE E

**C-2 grade for cast iron and non-ferrous materials**
**C-5 grade for steel and steel alloys**

hreading tool. Standard 60° angle for universal threading, V-ooving, chamfering turning, boring and facing.

| Industry No. | Size (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|
| E4 | 1/4 | 4K422 | 4K308 | $2.52 | $2.27 | 0.4 |
| E5 | 5/16 | 4K420 | 4K306 | 2.63 | 2.37 | 0.7 |
| E6 | 3/8 | 4K418 | 4K303 | 2.63 | 2.37 | 0.9 |
| E8 | 1/2 | 4K416 | 4K301 | 2.83 | 2.55 | 0.8 |
| E10 | 5/8 | 4K414 | 4K299 | 4.65 | 4.19 | 1.1 |
| E12 | 3/4 | 4K411 | 4K297 | 7.30 | 6.57 | 2.2 |
| E16 | 1 | 4K409 | 4K295 | 13.07 | 11.76 | 1.6 |

## CARBIDE TIPPED — STYLE ER

**C-2 grade for cast iron and non-ferrous materials**
**C-5 grade for steel and steel alloys**

)° offset threading tool. Carbide tipped bit is offset from shank or threading and V-grooving to a shoulder. Cuts right to left.

| Industry No. | Size (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|
| ER4 | 1/4 | 4K242 | 4K229 | $4.15 | $3.74 | 0.4 |
| ER6 | 3/8 | 4K239 | 4K227 | 4.37 | 3.93 | 0.9 |
| ER8 | 1/2 | 4K237 | 4K225 | 5.88 | 5.29 | 1.1 |

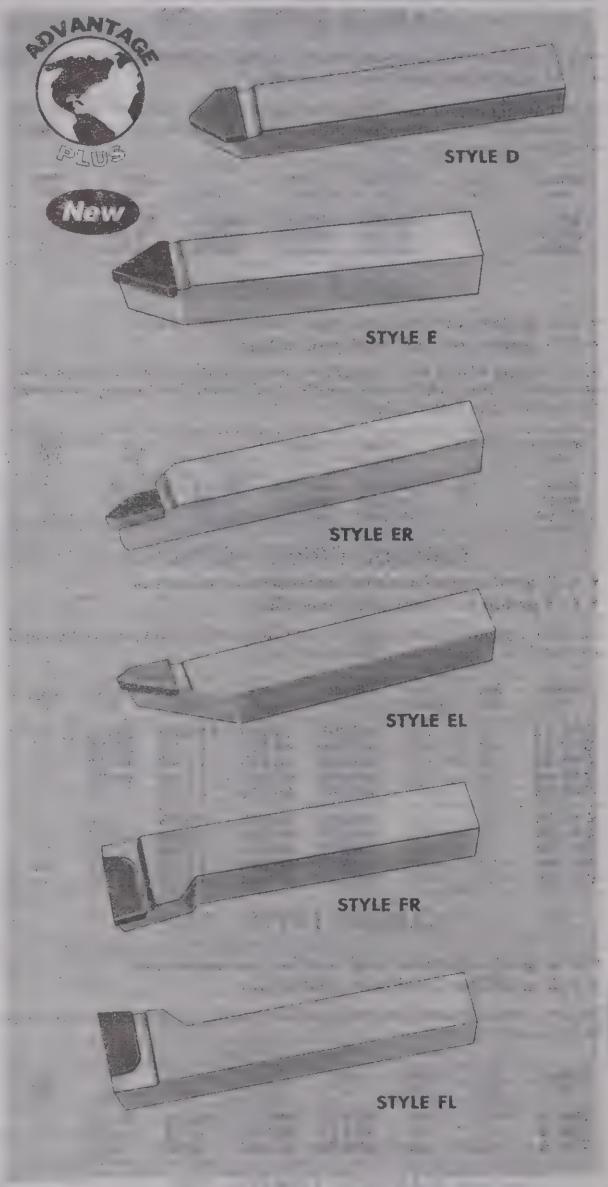
## CARBIDE TIPPED — STYLE EL

**C-2 grade for cast iron and non-ferrous materials**
**C-5 grade for steel and steel alloys**

)° offset threading tool. Carbide tipped bit is offset from shank or threading and v-grooving to a shoulder. Cuts left to right.

| Industry No. | Size (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|
| EL4 | 1/4 | 4K235 | 4K223 | $4.14 | $3.73 | 0.4 |
| EL6 | 3/8 | 4K233 | 4K221 | 4.39 | 3.95 | 0.9 |
| EL8 | 1/2 | 4K231 | 4K219 | 5.88 | 5.29 | 1.1 |

## CARBIDE TIPPED — STYLE FR



**C-2 grade for cast iron and non-ferrous materials**

**C-5 grade for steel and steel alloys**

**End cutting offset stool**

sed mainly for turret lathe operation. Right hand tool for facing square shoulder. Can be combined with FL tool for straddle acing.

| Industry No. | Size (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|
| FR8 | 1/2 | 4K217 | 4K209 | $6.33 | $5.70 | 1.1 |
| FR10 | 5/8 | 4K215 | 4K207 | 7.49 | 6.74 | 0.9 |

## CARBIDE TIPPED — STYLE FL

- **C-2 grade for cast iron and non-ferrous materials**
- **C-5 grade for steel and steel alloys**

End cutting offset tool. Used mainly for turret lathe operation. Left hand tool for turning to a square shoulder. Can be combined with FR tool for straddle facing.

| Industry No. | Size (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|
| FL8 | 1/2 | 4K213 | 4K205 | $6.33 | $5.70 | 1.1 |
| FL10 | 5/8 | 4K211 | 4K202 | 7.49 | 6.74 | 0.9 |

## CARBIDE TIPPED — GR

- C-2 grade cast iron and non-ferrous materials
- C-5 grade for steel and steel alloys

Side cutting offset tool. Ideal for facing work close to chuck jaws on turret lathes and boring mills. Right hand for facing to square shoulder. Cuts right to left.

| Industry No. | Size (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|
| GR8 | 1/2 | 4K200 | 4K187 | $6.33 | $5.70 | 0.3 |
| GR10 | 5/8 | 4K198 | 4K185 | 7.49 | 6.74 | 0.5 |
| GR16 | 1 | 4K196 | 4K182 | 16.69 | 15.02 | 1.6 |

## CARBIDE TIPPED—GL

- C-2 grade cast iron and non-ferrous materials
- C-5 grade for steel and steel alloys

Side cutting offset tool. Ideal for facing work close to chuck jaws on turret lathes and boring mills. Left hand for facing to square shoulder. Cuts left to right.

| Industry No. | Size (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|
| GL8 | 1/2 | 4K194 | 4K179 | $6.33 | $5.70 | 0.3 |
| GL10 | 5/8 | 4K192 | 4K177 | 7.49 | 6.74 | 0.5 |
| GL16 | 1 | 4K189 | 4K175 | 16.69 | 15.02 | 1.8 |

## CARBIDE TIPPED—CTR:CTL

- C-2 grade cast iron and non-ferrous materials
- C-5 grade for steel and steel alloys

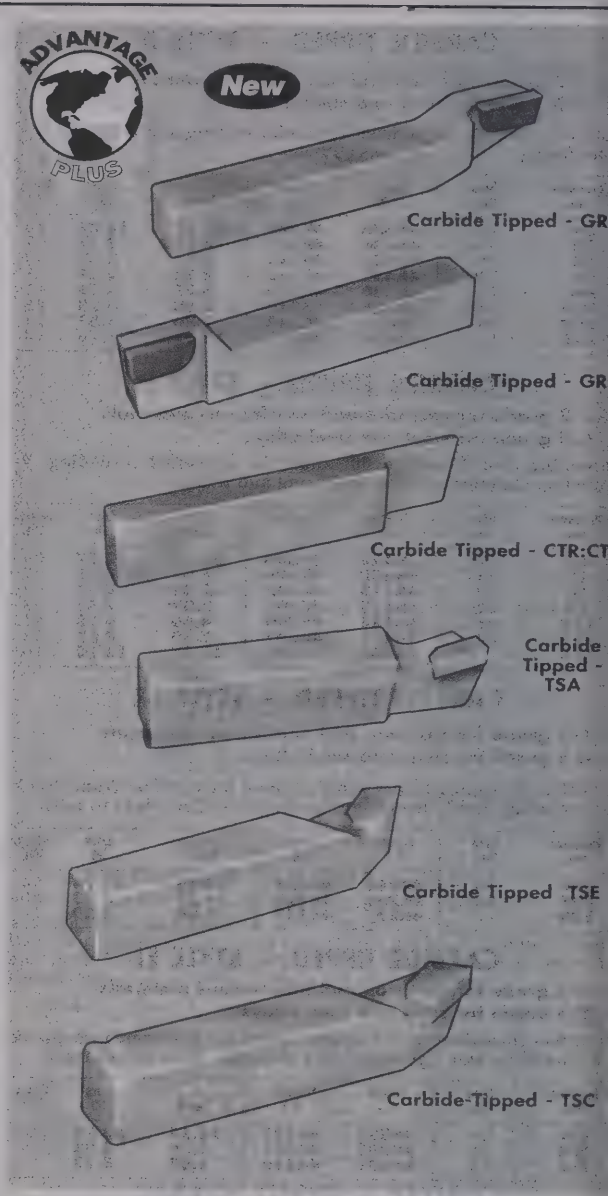
Carbide tipped cut off tool for maching non-ferrous materials and steel. CTR - right hand, CTL - left hand.

| Industry No. | Size (In.) | Tip Width (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| CTR 11 | 1/2 | 1/8 | 4K293 | 4K269 | $10.95 | $9.86 | 0.6 |
| CTR 22 | 1/2 | 3/16 | 4K290 | 4K267 | 11.18 | 10.06 | 0.6 |
| CTR 33 | 1/2 | 1/4 | 4K288 | 4K265 | 11.46 | 10.31 | 0.6 |
| CTR 44 | 1/2 | 5/16 | 4K286 | 4K257 | 11.46 | 10.31 | 0.6 |
| CTR 55 | 5/8 | 3/8 | 4K283 | 4K255 | 13.82 | 12.44 | 1.0 |
| CTL 11 | 1/2 | 1/8 | 4K281 | 4K253 | 10.95 | 9.86 | 0.6 |
| CTL 22 | 1/2 | 3/16 | 4K279 | 4K250 | 11.18 | 10.06 | 0.6 |
| CTL 33 | 1/2 | 1/4 | 4K277 | 4K248 | 11.46 | 10.31 | 0.6 |
| CTL 44 | 1/2 | 5/16 | 4K273 | 4K246 | 11.46 | 10.31 | 0.6 |
| CTL 55 | 5/8 | 3/8 | 4K271 | 4K244 | 13.82 | 12.44 | 1.0 |

## CARBIDE TIPPED—TSA

- C-2 grade cast iron and non-ferrous materials
- C-5 grade for steel and steel alloys

Square shank boring tool is used for boring to a square shoulder in 90° boring bars.



| Industry No. | Size (In.) | Radius (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| TSA 5 | 5/16 | 1/64 | 4K173 | 4K135 | $4.46 | $4.01 | 0.1 |
| TSA 6 | 3/8 | 1/64 | 4K171 | 4K117 | 4.33 | 3.90 | 0.1 |
| TSA 8 | 1/2 | 1/32 | 4K169 | 4K115 | 5.99 | 5.39 | 0.2 |

## CARBIDE TIPPED—TSE

- C-2 grade cast iron and non-ferrous materials
- C-5 grade for steel and steel alloys

Square shank boring tool is used for boring to a square shoulder in a 45° boring bar or boring with a 15° lead angle in a 30°boring bar.

| Industry No. | Size (In.) | Radius (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| TSE 5 | 5/16 | 1/64 | 4K152 | 4K069 | $4.32 | $3.89 | 0.8 |
| TSE 6 | 3/8 | 1/64 | 4K148 | 4K054 | 4.33 | 3.90 | 0.2 |
| TSE 8 | 1/2 | 1/32 | 4K140 | 4K052 | 5.95 | 5.36 | 0.7 |
| TSE 10 | 5/8 | 1/32 | 4K138 | 4K050 | 7.32 | 6.59 | 0.3 |

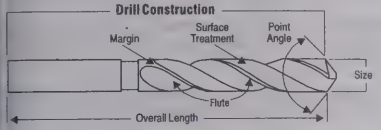
## CARBIDE TIPPED—TSC

- C-2 grade cast iron and non-ferrous materials
- C-5 grade for steel and steel alloys

Square shank boring tool is used for boring to a square shoulder in a 30° bar or internal chamfering (30°) in a 0°.

| Industry No. | Size (In.) | Radius (In.) | Grade C-2 | Grade C-5 | Each | Lots 50 | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| TSC 5 | 5/16 | 1/64 | 4K167 | 4K080 | $4.33 | $3.90 | 0.1 |
| TSC 6 | 3/8 | 1/64 | 4K164 | 4K078 | 4.33 | 3.90 | 0.1 |
| TSC 8 | 1/2 | 1/32 | 4K160 | 4K076 | 5.99 | 5.39 | 0.2 |
| TSC 10 | 5/8 | 1/32 | 4K158 | 4K074 | 7.32 | 6.59 | 0.3 |
| TSC 12 | 3/4 | 1/32 | 4K156 | 4K072 | 8.60 | 7.74 | 0.5 |

# TWIST DRILL TECHNICAL DATA AND TERMINOLOGY



118° CONVENTIONAL POINT  135° SPLIT POINT

**118° CONVENTIONAL POINT.** Most commonly ed point angle for performance in a wide riety of materials

**135° SPLIT POINT.** Reduces thrust and elimi- tes walking at the drill point which akes it ideal for tight tolerance and rtable drill applications

## DRILL TYPES

**BBER LENGTH.** Standard length twist drill signed for a variety of applications from ght duty maintenance to heavy duty dustrial, depending on the drill construc- on and surface treatments.

**REW MACHINE.** Shorter length twist drill r drilling holes in thin metal, heating/air nditioning installation and auto body eet metal work. Shank size is same size drill diameter.

**PER LENGTH.** Longer, straight shank, gen- al purpose drill used where a deeper le is required. Shank size is same size as ill diameter.

**PER SHANK.** Self-holding taper fits direct- into machine spindle for rigid setups d fast tool changes.

**TRA LENGTH.** Extra length drills have the ngest overall length for drilling extreme- deep holes or other hard-to reach illing applications.

**DUCED SHANK.** 3/8" and 1/2" reduced ank drills allow the twist drill diameter exceed the chuck diameter. 1/2" shank ilver and Deming" drills range in diame- r from 1/2" to 1½". 3/8" shank drills range diameter from 25/64" to 1/2".

**SC./SPECIALTY.** Triumph and Greenfield ve a complete specialty drill selection mprised of items such as Combined Drill Countersinks, Screw Extractors, Drill anks, Spot Drills and many others.

## MATERIALS APPLICATION REFERENCE
### For HSS, HD-HSS, and HD-COBALT Twist Drills

| Material | Hardness BHN (3000Kg) | Drill Style | Feed | SFPM * Speed |
|---|---|---|---|---|
| Aluminum & Aluminum Alloys | | High Helix | Medium-Heavy | 200-300 |
| Brass-free Machining | | Low Helix | Medium-Heavy | 100-250 |
| Bronze-Common | | High Helix | Heavy | 200-250 |
| Cast Iron-Soft | Up to 150 | Gen. Purpose | Medium-Heavy | 75-100 |
| Cast Iron-Medium | 150-200 | Gen. Purpose | Medium | 50-100 |
| Cast Iron-Hard | 200-300 | Carbide | Light-Medium | 40-75 |
| High Temp Alloys (Cobalt, Iron, Nickel) | 150-400 | Heavy Duty and Cobalt | Medium | 5-30 |
| Alloy Steel | Up to 200 | Gen. Purpose | Medium-Heavy | 50-70 |
| | 200-300 | Heavy Duty | Medium | 40-50 |
| | Over 300 | H.D. and Cobalt | Medium | 20-50 |
| Stainless-free Machining | Up to 300 | Heavy Duty | Medium | 40-60 |
| Stainless Tough Machining & Precipitation Hardening | Over 300 | H.D. and Cobalt | Medium | 20-50 |
| Titanium | Over 200 | Cobalt | Medium | 20-50 |
| Wood | | Gen. Purpose | Medium-Heavy | 300-400 |
| Plastic | | Gen. Purpose | Medium-Heavy | 100-200 |

(*) Surface Feet Per Minute

## TROUBLE SHOOTING GUIDE

| Problem | Solution |
|---|---|
| **Drill Breaks:** | |
| Chip congestion | Check geometry references |
| Improper point geometry | Resharpen or replace |
| Dull drill | Resharpen or replace |
| Misalignment | Review and adjust |
| Vibration and chatter | Review set-up rigidity and adjust |
| **Drill Splits Up Center:** | |
| Insufficient clearance | Resharpen or replace |
| Web too thin | Resharpen or replace |
| Improper feed | Reduce feed |
| **Oversize Hole:** | |
| Improperly pointed drill | Resharpen or replace |
| Chip congestion | Check geometry references |
| Dull drill | Resharpen or replace |
| Misalignment | Review and adjust |

| Problem | Solution |
|---|---|
| **Outer Corner Breakdown:** | |
| Improper speed and feed | Reduce speed; Increase feed |
| Insufficient coolant flow | Review and Adjust |
| Improper Clearance | Resharpen or replace |
| Chip congestion | Check geometry references |
| Misalignment | Review and adjust |
| Inconsistency of material | Review and adjust |
| **Drill Will Not Enter Workpiece** | |
| Insufficient clearance | Resharpen or replace |
| Web too thick | Resharpen or replace |
| Dull drill | Resharpen or replace |
| Chisel edge angle too high | Resharpen or replace |
| Wrong rotation | Change rotation |

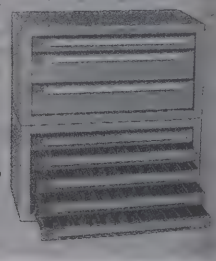
(*) Sold only in standard package quantity; see chart above.

# DRILL DISPENSER CABINETS



- Large enough to hold a generous supply of each drill size
- Available in fractional, number and letter drill sizes
- Marked drawer fronts allow easy identification of drill sizes
- Smooth-action drawer slides have safety stops to prevent spills
- Individual compartments for drill separation hold full drill packages (12 pcs.) and have rounded bottoms for easy pick-up
- Stackable design economizes on space
- All cabinets measure 7¾H x 14⅝W x 7⅜"D

| Drill Cabinet Description | Holds Drills Size | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| Fractional | 1/16 to 1/2" by 64ths | 4F698 | $133.15 | $88.55 | 10.0 |
| Number | 1 to 60 Wire Gauge | 4F699 | 161.68 | 107.50 | 13.0 |
| Letter | A to Z Letter Sizes | 4F700 | 133.15 | 88.55 | 10.0 |

# JOBBERS LENGTH DRILLS
# 118 AND 135° SPLIT POINT - FRACTIONAL SIZES

TRIUMPH
America's Choice

Chicago-Latrobe®

No. 4F544
Thunderbit®

No. 1P440

No. 1G855

No. 2BR46
Thunderbit®

- General purpose, maintenance, production, portable drilling
- Black Oxide, Titanium Nitride (TiN), Cobalt
- 135° Split point, 135° Thunderbit®
- Split point drills are self-centering and provide quick penetration
- Thunderbits: heavy-duty core construction provides greater strength and rigidity; wide spiral design increases chip ejection, leading to longer tool life

## DON'T FORGET THE BACK OF THE BOOK! MANY CROSS-REFERENCE GUIDES AND INDEXES HELP MAKE PRODUCT SELECTION EASIER

Besides complete National Brand and Product Indexes, the back section of this catalog contains a Terminology and Technical Data Section as well as a handy Stock Number/Page Number Cross-Reference Guide. And don't forget, if you need assistance with product selection, help is as close as a call to your local branch.

# 1/2" REDUCED SHANK SILVER AND DEMING DRILLS

TRIUMPH America's Choice

Quality Import

New

Chicago-Latrobe®

No. 4AK48

No. 1M875

- 6" overall length and 3⅛" flute length allow for minimal adjustments during tool changes
- Eliminates tool presetting
- Used for portable electric drills or drill presses to run drill sizes up to 1½"
- Chicago Latrobe flatted shanks provide a more positive grip in the drill chuck

## QUICK CHANGE DRILL CHUCKS

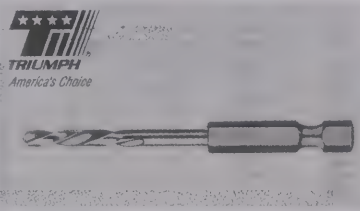
- Fits cordless and standard 3/8" or larger chuck power drills
- For use with any 1/4" hex shank drills, screwdrivers, or 1/4" hex power bits

**Adapter Chuck** mounts directly into the standard 3/8" or 1/2" drill chuck with 3/8" diameter shank; tighten with drill key.

No. 4F701. Shpg. wt. 0.2 lbs. List $13.59.
Each ..... $13.09

**Replacement Chuck** replaces standard adjustable chuck. Mounts directly to the standard 3/8"-24 drill spindle; tighten with locking collar.

No. 4F702. Shpg. wt. 0.3 lbs. List $25.03.
Each ..... $23.66



## CARBIDE-TIPPED GLASS & TILE SPEAR POINT

- Designed for drilling in glass, tile, mirrors or ceramics
- Spear point reduces cutting pressure for cleaner holes

# DRILL BIT SHARPENERS

## DAREX M5 PRECISION DRILL SHARPENER

- Accommodates 1/16 to 3/4" diameter drills, including letter, fractional, number, and metric sizes
- Produces factory perfect points that hand sharpening cannot achieve
- Resharpened drills increase drill life, cut faster, reduce rejects
- Includes machine, 2 precision chucks, machine lamp, and two super abrasive borazon (CBN) grinding wheels (180 grit and 100 grit)
- Accurately sharpens these and other drill points: 90-180° points, standard points, split points, web thinning, and bullet points with Bullet Point Attachment (sold separately)
- Bullet Point Attachment sharpens bullet, wood, and sheet metal drill points
- Grinding wheel size: 6 x 3/4 x 1"

| Description | Drill Diameters | HP | Grinding Wheel Dia. | Volts 1 Phase | Max. RPM | Stock No. | List | Each | Shpg. Wt. |

(*) Does not accept Large Drill Attachment No. 4F696.

## DEWALT DRILL BIT SHARPENER

- Accurately sharpens 1/8 to 1/2" 118° standard point high speed twist drill bits in one minute
- Requires less than one square foot of bench space
- Calibrated feed control knob simplifies uniform grinding on both cutting edges
- 5 x 3/4" Grinding wheel with special angled face
- Rigidly-mounted chuck head assures consistent arc across wheels
- Includes grinding wheel, diamond wheel dresser, and bit locator
- For AC operation only
- UL Listed, CSA Certified

## DRILL GRINDING ATTACHMENT

GENERAL

- Permits resharpening of drill bits to factory accuracy
- Angle adjustments to grind drill bits for a variety of materials
- Automatically adjusts to give correct clearance angle
- For use with ANSI, OSHA, UL Listed standard electric bench or surface grinders
- Has mounting holes for workbench
- Locks into five standard angles: 88, 68, 59, 49, and 41°
- Capacity: Fractional 1/8-3/4"; Number sizes 30-1; Letter A-Z; Millimeter 3.0-19.0.

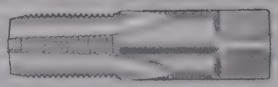
**No. 3ZH44.** Shpg. wt. 2.2 lbs. List $28.74. Each .....$25.90

## DAREX DRILL DOCTOR PORTABLE DRILL SHARPENER

- Dimensions: 6.5L x 6W x 7"H
- Size capacity: 3/32"-3/4", 2.5-19mm
- 120V 1.75 amp motor, RPM 18,500
- Replaceable diamond wheel
- UL Listed in U.S. and Canada

Sharpens bits in 30-90 seconds (depending on drill bit size). Use to sharpen 3/32"-3/4", metric, number and letter size drill bits and conventional, split point, and masonry paint styles. Diamond wheel sharpens high speed steel, cobalt, and carbide drill bits. Adjustment free sharpening eliminates operator modifications and set-up procedures. Allows user to change point angle of the drill bit to meet specific needs. Steel stop plate assures consistent and maintenance-free drill bit grind-depth control and alignment.

***New*** **No. 4TL60.** Shpg. wt. 4.8 lbs. List $199.00. Each .....$189.00



# TAPER PIPE TAPS AND CUTTING FLUIDS

## TAPER PIPE TAPS

- General purpose
- NPT/ANPT or NPTF
- Ground thread
- 2½ to 3½ thread chamfer

**General Purpose Pipe Taps** are appropriate for threading a wide variety of materials, both ferrous and nonferrous. Ground Thread Pipe Taps are standard in American Standard Pipe Form (NPT) and American Standard Dryseal Pipe Form (NPTF). NPT threads require the use of a sealer like Teflon tape or pipe compound. Dryseal taps are used to tap fittings which will give a pressure tight joint without the use of a sealer. The nominal size of a Pipe Tap is that of the pipe fitting to be tapped, not the actual size of the tap. The thread tapers 3/4" per foot. ANPT taps marked NPT may be used for NPT and ANPT applications.

GTD GREENFIELD

**TAPER PIPE**

| Thread | Drill | Thread | Drill | Thread | Drill |
|---|---|---|---|---|---|
| 1/16" | C | 1/4" | 7/16" | 3/4" | 29/32" |
| 1/8 | Q | 3/8 | 9/16 | 1 | 1 5/64" |
| | | 1/2 | 45/64 | | |

## CUTTING FLUIDS

### CRC CUTTING OIL

**Thread-cutting lubricant for use on** all types of metal. Low-odor formula is safe on soft metals such as brass, copper, and aluminum, and has no strong sulfur odor. Additives create strong film that withstands extreme pressures, increasing tool life and ease of cutting. 16 oz. can/12 oz. net wt. CRC brand (14050).

**No. 2F146.** Shpg. wt. 1.0 lbs. List $5.62. Each ..... $5.35

CRC

LPS

No 2F019

No 2C649

### LPS® TAPMATIC GOLD CUTTING FLUIDS

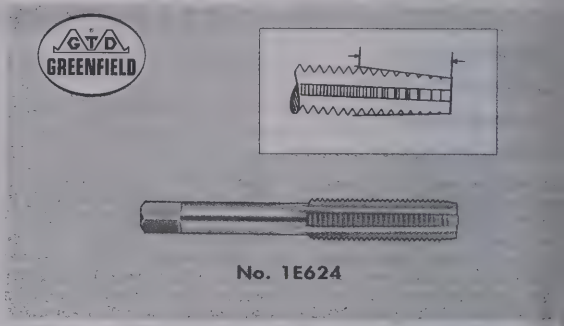
**LPS® TAPMATIC #1 GOLD Cutting Fluid** simultaneously protects and lubricates to reduce friction and eliminate chip welding in tapping, drilling, reaming, and threading. Does not contain 1,1,1 trichloroethane, CFC's, chlorinated paraffins, water, solvents, or reactive fillers. Safe to use on all metals. LPS brand (40320).

**No. 2F019.** Shpg. wt. 0.3 lbs. List $4.36. Each ..... $3.80

**No. 2F021.** Shpg. wt. 1.1 lbs. List $8.57. Each ..... $7.45

### LPS® TAPMATIC AQUACUT

**LPS® Tapmatic® Aquacut cutting fluid** is a water-based cutting fluid that extends tool life and reduces friction, heat, and tool failure. Provides clean cuts and fine finishes. Designed for use on steel, aluminum, and other metals, except magnesium. Does not contain any sulfur, chlorine, or 1,1,1 trichloroethane. Will not stain metal. Nonflammable and cinnamon-scented. LPS brand (01216).



**No. 2C649.** Shpg. wt. 1.3 lbs. List $7.25. Each ..... $6.03

# HAND TAPS

## HIGH SPEED STEEL HAND TAPS

- **Ground thread**
- **Taper (7-10 pitches), plug (3-5 pitches), bottoming (1-2 pitches) chamfer**
- **Titanium Nitride (TiN) coated taps offer increased tool life and improved productivity through increased tapping speeds.**

For hand use or for tapping under power in general machine or CNC tapping. Appropriate for tapping the majority of materials in through shallow or blind hole conditions. Hand taps store chips in their flutes adjacent to the chamfered teeth during threading operations. The plug chamfer hand tap is the general purpose tap for use in through shallow or blind holes. Metric taps are manufactured to USCTI specifications and dimensions.

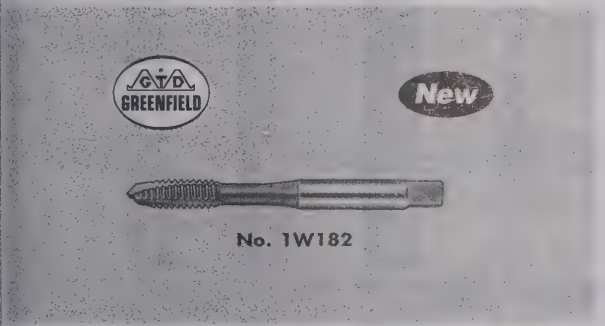
(*) Suitable for Unified Standard Threads and American National Standard Threads. (†)Includes one each of taper, plug, and bottom taps listed on same line of chart.

*Set up your next job with quality cutting tools from Grainger.*

# HAND & GUN TAPS

## HAND TAPS, 6 INCH EXTENSION, PLUG CHAMFER



- One Piece High Speed Steel
- Ground Thread
- Plug (3-5 pitches)

Extension taps are of industrial quality and are avaliable in the popular H3 limit. They are made to standard USCTI tap dimensions, but with extended shanks for long reach applications. The long shank permits tapping in places that might be inaccessible for regular length hand taps.

## EM-SS GUN TAPS (SH-50 TREATED)

- Gun Taps - No. 8301 Series
- Spiral Fluted Taps-No. 8304 Series
- High Vanadium Premium Steel
- SH-50 Surface Treated (Steam Oxide)
- Ground Thread

EM-SS Taps are designed for tough jobs in stainless steels and free machining steels. Due to their unique design, EM-SS Taps increase productivity through longer tool life. EM-SS Taps are surface treated to reduce loading and galling, improving tap wear life and thread quality. The necked design enhances the flow of cutting fluid to the cutting teeth and reduces surface contact between the tool and workpiece. EM-SS Gun Taps, featuring plug chamfer (3-5 pitches), are ideally suited for through hole tapping.

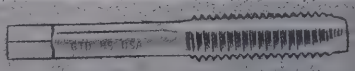
NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE

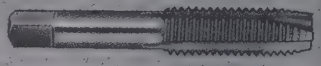
**Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.**

# SPIRAL POINT OR GUN TAPS



## HIGH SPEED STEEL SPIRAL POINT GUN® TAPS

- **Ground thread**
- **Plug (3-5 pitches) chamfer**



**Gun Taps** were originated and patented by Greenfield to solve the problem of tap breakage in through hole tapping in a wide variety of materials. Gun tap shoots chips ahead of the cutting action, thus reducing loading and clogging in the flutes. They are recommended for use in through holes, and are ideal for threading a wide variety of ductile materials, copper and copper alloys, brass, and nonmetallics. Metric taps are manufactured to USCTI specifications and dimensions.

**Titanium Nitride (TiN) coated gun taps** increase tool life, improve product thread flank finish, reduce tapping torque (lower frictional coefficient of tapping surface), and increase tapping speeds.

| PACKAGE QUANTITY | |

## LITTLE GIANT® TAP AND DIE SETS

ie is in two pieces; each half has two cut-ng edges which are easy to sharpen and ermit an unusually wide range of adjust-ent. The two die halves fit into a beveled ollet cap. Simply tightening the guide akes the entire assembly a solid rigid die. et, it can easily be taken apart, the dies harpened and quickly reassembled. reenfield brand.

# TAP AND DIE SETS

## O.K. Jr.® TAP AND DIE SETS

Furnished with American National Form Threads, National Coarse, and National Fine Threads. Dies in these sets are also adjustable. Two screws in the sides of the stock provide contracting pressure while a third screw engages the split in the die to provide expanding pressure. Packed in solid steel cases with an Ethafoam moisture and oil resistant liner for protection.

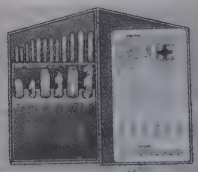
# DRILL AND TAP SETS AND TAP WRENCHES

## DRILL AND TAP SETS



- Inch and metric sizes
- High speed steel
- Metal index case
- Plastic tap & drill chart included

Complete sets of jobber length drills are matched to HSS ground thread taps. Designed to handle a wide range of maintenance jobs. Drills are specified for 75% of thread height.

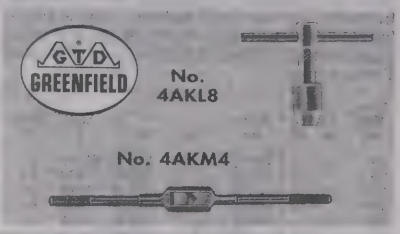
| **No. 337 Long Shank** | The long shank permits tapping in hard to get at places encountered in machine and automobile repair work. Has plain T-handle. | 337 | 7/32-1/2 | 12-14 | 10 5/8 | 01364 | **4AKM2** | 56.76 | **41.00** | 1.6 |
| **No. 339 Ratchet** | The combination of ratchet and slip handle make this an all-around wrench capable of handling most hand tapping jobs. | 339 | 7/32-1/2 | 12-14 | 5 | 01377 | **4AKM3** | 59.65 | **43.00** | 0.7 |

## RATCHET TYPE WRENCHES

Ratchet can be set for right or left hand operation or locked for non-ratchet use. Self-entering hardened tool steel jaws and knurled chuck sleeve provide positive grip. Zero clearance handle provides good leverage in confined spaces. No. 3G951 conforms to government specifications #GGG-W-680a.



| Tap Capacity (Nos. and Inches) | Body Length | General Model | Stock No. | Each | Shpg. Wt. |

Net prices, not subject to discounts.

## STARRETT T-HANDLE TAP WRENCHES

For holding taps, drills, reamers, and small tools to be turned by hand. Body is centered for use on lathe centers or drilling machines to start tap straight. Jaws heat treated to withstand hard use. Wrenches have sliding handle for positioning and leverage convenience. Larger bodies permit work at depths which cannot be reached with shorter wrenches.

| Body Length (In.) | Tap Size/ Capacity (In.) | Shank Capacity (In.) | Starrett Model | Stock No. | Each | Shpg. Wt. |

# HIGH SPEED STEEL END MILLS

## GENERAL PURPOSE 2-FLUTE END MILLS

- High speed steel
- Center cutting
- Regular length
- Double end mills provide the added economy of two cutting ends for less cost than two single end tools

Two flute end mills are industrial quality, general purpose end mills manufactured in a wide variety of styles and sizes to mill and slot all types of materials. They feature right hand spiral and right hand cut.

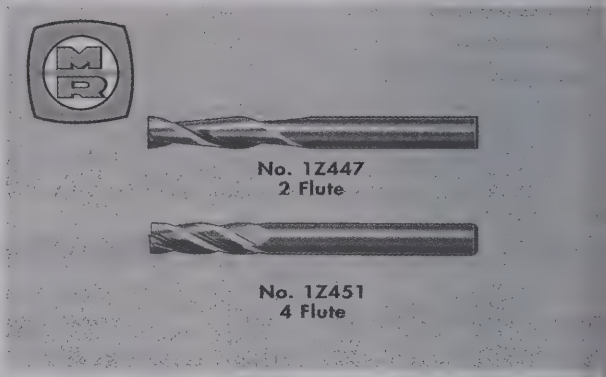
# SOLID CARBIDE END MILLS



## SOLID CARBIDE END MILLS—GENERAL PURPOSE

- Single end
- Center cutting
- Standard length
- Straight shank
- 30° RHH, RHC

Rugged geometry for difficult machining applications or roughing cuts. Deflection is minimized at high cutting speeds, eliminating excessive shock on the tool. Core diameter and primary land are greater than high speed steel end mills.

**The 2 flute end mill** is a multi-purpose tool for plunge cutting, peripheral milling, and slotting applications. Most economical in milling cast irons, nonferrous light metals, and plastics.

**The 4 flute end mill** is used on more difficult to machine materials. Stiffer construction results in minimal deflection. The 4 flutes provide good wear resistant characteristics for excellent size control.

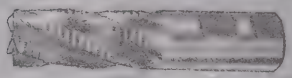
**DON'T FORGET THE BACK OF THE BOOK!**
**MANY CROSS-REFERENCE GUIDES AND INDEXES HELP MAKE PRODUCT SELECTION EASIER**

**Besides complete National Brand and Product Indexes, the back section of this catalog contains a Terminology and Technical Data Section as well as a handy Stock Number/Page Number Cross-Reference Guide. And don't forget, if you need assistance with product selection, help is as close as a call to your local branch.**

# ROUGHING END MILLS

## COBALT ROUGHING END MILLS-MULTIPLE FLUTE



For general purpose machining. Knuckle tooth design achieves:

- Maximum strength for heavy cutting
- Constant form relieved for long tool life
- Staggered design for free cutting action

# CNC TAPERED END MILLS

## CNC TAPERED END MILLS

- Shanks are ground to within .0005" to fit standard spring collets
- A standard flat in the shank permits positive lock
- All end mills are three flute, right hand spiral, right hand cut with flat end
- Cutters are hollow ground, flutes polished, and a double back off with proper clearance at the tip and large diameter

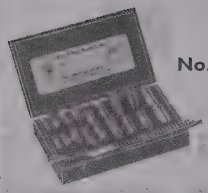
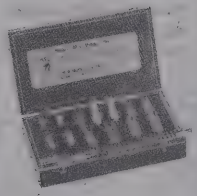
# KEYWAY BROACH SETS AND ARBOR PRESSES

## duMONT Minute Man



New



No. 3H777

No. 3H779

No. 3H781

No. 3H879

## KEYWAY BROACH SETS

Now you can make precision holes or keyway in seconds by a simple push-through broaching operation using a hand operated arbor press or hydraulic press. All Minute Man® Broach Sets are furnished in handsome varnished wood boxes, and come complete with precision broaches, slotted collared bushings and necessary shims.

- **No. 00 Precision Set**

**3 broaches and 5 bushings = 15 keyway combinations**

- **No. 10 Standard Set**

**4 broaches and 9 bushings = 18 keyway combinations**

- **No. 10-10A Combination Set**

**All bore sizes in 1/16" increments for keyways 1/8-3/8"**
**4 broaches and 18 bushings = 36 keyway combinations**

- **No. 70 Metric Set**

**4 broaches and 13 bushings = 26 keyway combinations**

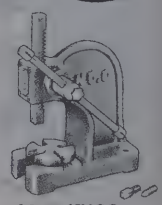
**Individual Keyways, Bushings, Square, and Hexagon Broaches Available. Contact your Local Branch.**

## ARBOR PRESSES

**Sturdy cast-iron constructed arbor presses** for use when heavy pressure is needed in riveting, pressing, squeezing, punching, bending tubing, production and assembly work. Machined table provides accurate work support and has slotted, removable 4-position revolving anvil to hold arbor work over table opening.

**Steel ram with heavy large toothed rack** is driven by machined pinion; end of ram has a hole with hex head bolt for inserting special punches or tools. 3-pc. punch set included. Base is drilled for bolting to bench or pedestal. Dayton brand.



Dayton®

Replacement Parts Available
1-800-323-0620

No. 4Z328
**3-Piece Punch Set Included With All Arbor Presses**

New

No. 4TJ92

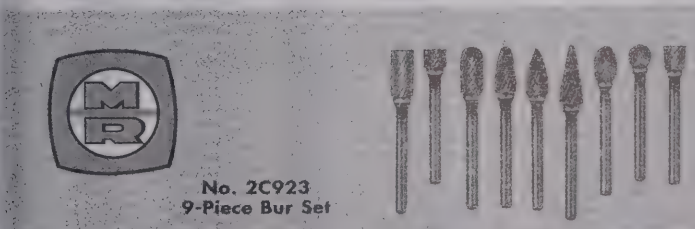
# CARBIDE BURS AND BUR SETS

**Carbide burs feature a chisel type cutting edge.** Machine ground and tool built to exacting tolerances of concentricity, size, and shape. Results in smooth running, fast metal removal and fine finishes when used with precision grinders.

**Right and left hand helical flutes** combine to produce a chisel type cutting tooth that results in faster penetration and stock removal with minimal bounce or chatter and less operator fatigue. Master Cut design produces easy-to-handle granular chips in most metals, not conventional sliver type chips. Maintains good finish on wide variety of workpiece materials.



**Burs are available in the following shapes:** cylindrical, cylindrical end cut, cylindrical ball nose, round nose tree, pointed tree, pointed cone, egg shape, ball shape and flame shape. 8- and 9-piece bur sets of multiple shapes are available below. Metal Removal brand.

# BAND SAW BLADES

## PREMIUM HARD-BACK CARBON STEEL BAND SAW BLADES

- Economical production cutting

### APPLICATIONS

- Light to medium vertical and horizontal machines
- Both contour and straight cutting
- Low alloy, non-ferrous metals

High carbon steel band has a precisely hardened tooth coupled with a hardened, spring-tempered back, resulting in a high tensile strength. Greater band tension and improved blade rigidity increase cutting rates and provide more accurate cuts. Double heat treatment improves Premium blade's strength. (Do **NOT** run blades above 3,000 SFM.)

# BAND SAW BLADES

## PREMIUM HARD-BACK CARBON STEEL BAND SAW BLADES

### WELDED TO LENGTH (READY TO USE)

- Economical production cutting

**APPLICATIONS**

- Light to medium vertical and horizontal machines
- Both contour and straight cutting
- Low alloy, non-ferrous metals

High carbon steel band has a precisely hardened tooth coupled with a hardened, spring-tempered back, resulting in a high tensile strength. Greater band tension and improved blade rigidity increase cutting rates and provide more accurate cuts. Double heat treatment improves Premium Blade's strength. (Do **NOT** run blades above 3,000 SFM.)

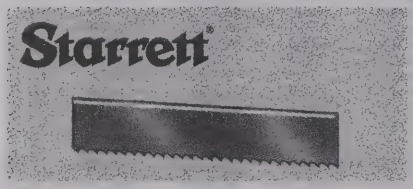
# BAND SAW BLADES



## PORTABLE BAND SAW BLADES

To allow a wide range of cutting capabilities for all standard portable band saws. Bi-Metal blades provide the best balance of metallurgical properties to resist heat, wear and shock. Flex-Back blades have a hardened tooth and flexible back. Starrett brand.

## FLEX-BACK CARBON STEEL BAND SAW BLADES

- Carbon steel with precisely hardened teeth
- Standard and thin gage material
- Economical, general purpose cutting

**APPLICATIONS**

- Both contour and straight cutting
- Small light-duty machines
- Low alloy, non-ferrous metal
- Furniture, composition board
- Plastics of numerous types

Made from carbon steel with a flexible back. Ideal for general purpose cutting on easy-to-machine ferrous metal. Has an excellent fatigue factor to give long life on machines running at a high SFM, cutting non-ferrous metal and wood. (Not recommended above 10,000 SFM.) Flexible feature also suitable for absorbing contour cutting stresses.

# BAND SAW BLADES AND ACCESSORIES

## FLEX-BACK CARBON STEEL BAND SAW BLADES (cont'd.)

- Carbon steel with precisely hardened teeth
- Standard and thin gage material
- Economical, general purpose cutting

**APPLICATIONS**

- Both contour and straight cutting
- Small light-duty machines
- Low alloy, non-ferrous metal
- Furniture, composition board
- Plastics of numerous types

Made from carbon steel with a flexible back. Ideal for general purpose cutting on easy-to-machine ferrous metal. Has an excellent fatigue factor to give long life on machines running at a high SFM, cutting non-ferrous metal and wood. (Not recommended above 10,000 SFM.) Flexible feature also suitable for absorbing contour cutting stresses.

No. 4K940

Starrett

Made In U.S.A.

No. 4K582

## BAND SAW ALIGNMENT GAGE

" band saw alignment gage used for aligning blades on band saw machines for traight cuts. Starrett brand (PT92925).

lo. 4K940. Shpg. wt. 0.2 lbs. Each.....$10.71▲

## SAW TENSION GAGE

Checks for proper blade tension in either nglish or metric. Graduated both in ounds and kilograms. Gage can be read irectly on either band saws or power acksaws. Reads up to 60,000 PSI or 4,000 ilograms. Furnished with instructions, ncluding suggested tensions. Starrett rand (682EMZ).

o. 4K582. Shpg. wt. 2.0 lbs. Each.....$329.00▲

## POWERBAND MATRIX II BI-METAL HIGH SPEED STEEL BAND SAW BLADES

- Bi-metal blade with Matrix II high speed edge containing 8% cobalt
- Tooth hardness RC65-67

APPLICATIONS

- General cutting on light-to-medium duty vertical and horizontal machines
- Production cutting for steel, iron, aluminum, and stainless steel
- Contour cutting, irregular shapes and structurals

Powerband is the ideal general purpose metal sawing blade. It has a Matrix II high speed steel cutting edge welded to an alloy back, selected for its toughness and ductility. Matrix II provides the best balance of metallurgical properties to resist heat, abrasion, and shock in most production cutting operations for long blade life. Assures faster cutting rates over a wide range of materials.

# POWERBAND MATRIX II BI-METAL HIGH SPEED STEEL BAND SAW BLADES (cont'd.)

Starrett

Made in U.S.A.

- Bi-metal blade with Matrix II high speed edge containing 8% cobalt
- Tooth hardness RC65-67

## APPLICATIONS

- General cutting on light-to-medium duty vertical and horizontal machines
- Production cutting for steel, iron, aluminum, and stainless steel
- Contour cutting, irregular shapes and structurals

Powerband is the ideal general purpose metal sawing blade. It has a Matrix II high speed steel cutting edge welded to an alloy back, selected for its toughness and ductility. Matrix II provides the best balance of metallurgical properties to resist heat, abrasion, and shock in most production cutting operations for long blade life. Assures faster cutting rates over a wide range of materials.

# BAND SAW BLADES AND BLADE WELDER

## POWERBAND MATRIX II BI-METAL HIGH SPEED STEEL BAND SAW BLADES

Starrett®

Made in U.S.A.

- Bi-metal blade with Matrix II high speed edge containing 8% cobalt
- Tooth hardness RC65-67

APPLICATIONS

- General cutting on light-to-medium duty vertical and horizontal machines
- Production cutting for steel, iron, aluminum, and stainless steel
- Contour cutting, irregular shapes and structurals

Powerband is the ideal general purpose metal sawing blade. It has a Matrix II high speed steel cutting edge welded to an alloy back, selected for its toughness and ductility. Matrix II provides the best balance of metallurgical properties to resist heat, abrasion, and shock in most production cutting operations for long blade life. Assures faster cutting rates over a wide range of materials.

## BLADE WELDER

Blade welder has solid state circuitry to guarantee integrity of the welds on carbon and bi-metal blades.

Welder includes self-contained grinder for preparing blade prior to weld and removing buildup at seam after weld. Features thermal protection for transformer, vented bottom to aid in cooling, cutting shear with guides to produce square cut, safety Acrylic spark deflector, and carrying handles. Use welder with optional multipurpose tool stand No. 5A335.

Castle Metals®

## COLD FINISHED ROUNDS

### Type 303 Annealed

The addition of phosphorus and sulfur improves machinability but slightly reduces some of the corrosion resistance. Used as shafts, bushings, valves, bolts, and nuts.

### Type 304/304L Annealed

A general purpose stainless steel with good resistance to atmosphere corrosion is less heat sensitive than other 18:8 steels.

### Type 316/316L Annealed

This stainless steel has a higher corrosion resistance than type 304. Contains molybdenum for better resistance, especially in environments containing chlorides. Applications include pulp and chemical equipment, pump shafts, valves, and fittings.

## HEXAGONS

### Type 304 Annealed

A general purpose stainless steel with good resistance to atmosphere corrosion. Used in many applications including high temp. situations.

### Type 316 Annealed

This stainless steel has a higher corrosion resistance than type 304. It also improves pitting and crevice corrosion in environments containing chlorides. Applications include pulp and chemical equipment, pump shafts, valves and fittings.

Annealed, ASTM A-276, ASTM A-182, ASTM A-479,
ASTM A-484 (for 1" and under). 6' R/L (+/-3").
* Indicates 3' R/L (+/-3").

## EDGE CONDITIONED FLATS

### Type 304 Hot Rolled

Our flats are produced from sheet, plate, and coil in type 304. In the sizes listed, the flats are produced on Gauer edge conditioner. Edge-conditioned flats are used in many structural applications.

**Overall Length 6 Ft.**

| Size (In.) Thick/Wide | Estimated Lbs./Bar | Stock No. | Each | Shpg. Wt. |

**Grainger features quality products from the brand name manufacturers you know and trust. More than 900 national brands are listed in the Brand Index at the back of this catalog.**

# ALUMINUM BAR STOCK

Castle Metals®

## ALUMINUM

### 6061-T6511 Aluminum

Generally selected where welding or brazing is required or for its particularly high cor rosion resistance. Applications include many structural components.

## EXTRUDED ROUNDS

Alloy 6061-T651 aluminum rounds 6' lengths, extruded rod, 1/2 tol.

| Size (In.) Dia. | Estimated Lbs/Bar | Stock No. | Each | Shpg. Wt. |

Place your order with your local Grainger branch, and you'll be assured of prompt service, technical support, and our "No Hassle" return policy on any product ordered.

Castle Metals®

# BRASS

CDA 360 Free Cutting Brass is used when improved knurling, thread rolling, deep drilling, staking and other difficult operations are important. It gives you increased tool life, higher production rates, and better finish of machined surfaces.

## COLD FINISHED FLATS

### Low Carbon 1018

A general purpose low carbon steel with good case hardening qualities. Especially suited to cold forming, bending, and welding operations.

SELECT QUALITY PRODUCTS FROM LEADING MANUFACTURERS WITH PROVEN PERFORMANCE

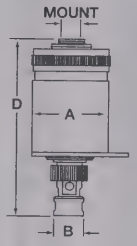
Grainger features quality products from the brand name manufacturers you know and trust. More than 900 national brands are listed in the Brand Index at the back of this catalog.

# TAPPING HEADS AND COLLETS

## X SERIES SELF-REVERSING TAPPING ATTACHMENTS

TAPMATIC

- **Pre-selective Torque Drive: Prevents breakage***
- **1.75 x 1 Reverse Ratio: Increases productivity**
- **Self-Feed: Ensures guage perfect threads**
- **Re-Entry cushion: Eliminates cross-threading**
- **Right hand tapping only**



Self-reversing tapping units for manually operated drilling and milling machines.

Note: Order collets separately. Tool capacity reduced 25% for roll form taps. Options: Non-reversing X model also available.

## TC/DC SERIES SELF-REVERSING TAPPING ATTACHMENTS

- **Pre-selective Torque Drive: Prevents tap breakage***
- **1.75 x 1 Reverse Ratio: Increases productivity**
- **Self-Feed: Ensures guage perfect threads**
- **Re-Entry cushion: Eliminates cross-threading**
- **Right hand tapping only**
- **Adjustable Depth Control: For shallow hole, controlled depth tapping. This provides an adjustable means of reducing or increasing the amount of self-feed required for any specific tapping operation. The self-feed of these units may be reduced to as little as .078.**

Self-reversing, depth control tapping units for manually operated drilling and milling machines.

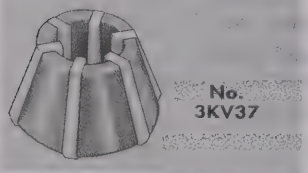
## R SERIES SELF-REVERSING TAPPING ATTACHMENTS

- **Pre-selective Torque Drive: Prevents tap breakage***
- **Ball Drive: Friction free design provides greater thread accuracy, higher production rates (Same drive feature as NCR units.) 1.75 x 1 Reverse ratio increases productivity**
- **Self-Feed: Ensures guage perfect threads**
- **Re-Entry Cushion: Eliminates cross-threading**
- **Right or Left Hand Tapping (Please specify taper mount for left hand tapping)**

Ball-drive, self-reversing, tapping unit for manually operated drilling and milling machines.

## SPD SERIES TAPPING ATTACHMENTS

- **Positive Drive & Reverse: Eliminates slippage**
- **Uses standard bore cycle for tapping**
- **Short Stroke Self-Feed: Compensates for any lead error**
- **Re-Entry Cushion: Eliminates cross-threading when re-entering previously threaded holes**
- **Choice of top holding systems: Rubber-flex collet chuck. Quick-change spindle accepts intertap or conventional style positive drive or torque control adapaters**



Self-reversing tapping units for large capacity applications on manually operated or automated equipment.

**Note:** For manual tool changes. Automatic tool change models available upon request. Select either Rubber-Flex collet chuck or Quick-Change spindle. Order collets or adapters separately. Tool capacity reduced 25% for roll form taps. Options: Hard start. Coolant port style available.

# BALL AND PLAIN BEARING CHUCKS

## BALL BEARING SUPER CHUCKS

- **Ball bearing contraction maximizes gripping force and drilling accuracy**
- **Jaws center-ground for absolute straightness and alignment**
- **Jaws specially treated to ensure extended thread life and high gripping surface hardness**
- **One-piece sleeve eliminates crack between driving teeth often found in other designs**
- **Through-hardened sleeve teeth plus hardened nose and keyholes outstanding wear resistance**
- **Fluted sleeve standard**
- **Each chuck 100% inspected for performance and precision**

Designed for close tolerance production drilling on precision equipment. The Jacobs Super Chuck Ball Bearing Chuck is specifically engineered for heavy-duty, close tolerance production drilling. It is adaptable to a wide range of production drilling equipment, jig borers, milling machines, lathes and radials. Utilizing a ball thrust bearing to reduce friction to chuck closing mechanism, it permits the application of more gripping force on drill shanks to maximize drilling torque under the most demanding machining conditions.

No. 3L872

### BALL BEARING SUPER CHUCKS SPECIFICATIONS AND ORDERING DATA

(*) At minimum capacity will hold a No. 60 (0.040 in/1mm) drill. (†) No. 2 Jacobs Taper. (▲) Net prices, not subject to discounts.

## PLAIN BEARING CHUCKS — HEAVY-DUTY, TAPER MOUNT

- **Jaws center-ground for absolute straightness and alignment**
- **Specially treated jaws to ensure extended thread life and high gripping surface hardness**
- **Through-hardened sleeve teeth plus hardened nose and keyholes provide outstanding wear resistance**
- **Fluted sleeve standard except No. 3L856, which is smooth and ground**

For accuracy and durability on all types of industrial power and machine tools. Chucks can be used for medium- or heavy-duty portable, bench, or floor-mounted tools. This industrial chuck, with fully hardened and ground working components offers high accuracy, gripping power and durability. Both heavy- and medium-duty models are available in a wide range of capacities for use on threaded and taper mounted spindles.

No. 3M312

## INDUSTRIAL KEYLESS CHUCKS, HIGH TORQUE/HIGH PRECISION MODEL

- Precision tested and certified to .0016" T.I.R. or better
- For use on CNC machining centers in drilling, boring, counter-boring and milling operations requiring heavy penetration
- Furnished with milled wrench flats and spanner wrench to allow the application of supplementary gripping torque
- Light tightening increases gripping torque up to 3 times higher than hand tightening
- Resists tool loosening on high speed machines with right hand rotation and instant spindle stop

# KEYLESS DRILL CHUCK & STAINLESS STEEL CHUCKS

## HAND-TITE® KEYLESS DRILL CHUCKS

- **Keyless Operation—Permits fast bit changes without lost key delays**
- **Superior Gripping Force—Provides high mechanical advantage to convert hand tightening torque into superior bit gripping force**
- **Versatility—Models available to fit all 10mm (3/8 in.) and 13mm (1/2 in.) variable speed corded and cordless portable drills**
- **Precision Operations—Meet or exceed stringent DIN run-out and dimensional specifications**
- **Ergonomic Design—Material and surface finish result in increased comfort and performance**
- **Rugged Construction—Constructed of high performance materials to maximize durability and performance**

No. 3L888

Patented keyless design, with 10 and 13mm capacities, produces greater bit gripping force than conventional keyed chucks. Hand-Tite keyless operation increases operator productivity by speeding bit changeovers and eliminating loss of key delays. Ergonomic design increases hand tightening efficiency and user comfort.

| Features | Capacity Range (In.) Min. | Max. | Thread Mount | Dimensions (In.) Overall Length | Sleeve Dia. | Boss/Body Clearance | Jacobs Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|---|

▲) Net prices, not subject to discounts.

## HAND-TITE® KEYLESS HAMMER DRILL CHUCKS

- **Hammerlock Mechanism—Automatically engages as chuck is tightened, maintains full gripping pressure to prevent bit slippage**
- **Precision Operation—Meets or exceeds stringent DIN run-out and dimensional specifications**
- **Ergonomic Design—Non-slip gripping surfaces enhance hand tightening capability and user comfort**
- **Hard Nose—Protects chuck from work surface abrasion**
- **Rugged Construction—Provides extended service under the most demanding concrete hole drilling conditions**
- **Keyless Convenience—Offers fast bit changeover, superior gripping force and no lost key delays**
- **Performance—Tested and approved on a wide range of AC powered and cordless hammer drills**

No. 3L978

Patented Hammerlock mechanism expands Hand-Tite keyless chuck performance and convenience to include 1/2 in. (13mm) AC or cordless hammer drills. Hand-Tite chucks are designed specifically for use on professional hammer drills and are equipped with the Hammerlock mechanism. This patented device automatically engages as the chuck is tightened on the drill bit. It maintains full gripping pressure to prevent drill bit slippage. Unlike rigid locking systems which cannot compensate for the effects of impact and vibration, the Hammerlock system absorbs and compensates for these forces.

| Features | Capacity Range (In.) Min. | Max. | Thread Mount | Dimensions (In.) Overall Length | Sleeve Dia. | Boss/Body Clearance | Jacobs Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|---|

## ARBORS

- Precision machined and ground to master gages for maximum performance with Jacobs drill and tap chucks
- Adapt Jacobs taper to: Morse tapers, straight shanks, threaded shanks, and Bridgeport tapers
- Ideal for use with custom tool and work holder designs, and specialized machining applications

Precision CNC machined and ground to ensure high accuracy and close-tolerance fit.

## NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE

**Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.**

# BRIDGEPORT AND MORSE TAPERS AND STRAIGHT SHANK ARBORS

## ARBORS

- Precision machined and ground to master gages for maximum performance with Jacobs drill and tap chucks
- Adapt Jacobs taper to: Morse tapers, straight shanks, threaded shanks, and Bridgeport tapers
- Ideal for use with custom tool and work holder designs, and specialized machining applications

Precision CNC machined and ground to ensure high accuracy and close-tolerance fit.

## SELECT QUALITY PRODUCTS FROM LEADING MANUFACTURERS WITH PROVEN PERFORMANCE

**Grainger features quality products from the brand name manufacturers you know and trust. More than 900 national brands are listed in the Brand Index at the back of this catalog.**

## ZIP/BURR SETS:"B" & "E" SERIES

- Holder telescopes from 1/2 to 5"
- Handle has storage compartment for blades
- "B" series blades can be inserted at 90° for deburring cross holes
- No. 3K189 Set includes: handle, telescoping blades holder, one B-10 blade, and one B-20 blade
- No. 3K203 set includes: handle, telescoping blades holder, one E-100 blade, one E-200 blade, and one E-300 blade

| Description | Series | Royal Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| Complete Zip/Burr "B" Set | B | 22600 | 3K189 | $7.83 | 0.3 |
| Zip/Burr Blade Holder Only | B | 22614 | 3K198 | 3.91 | 0.5 |
| Complete Zip/Burr "E" Set | E | 22620 | 3K203 | 8.81 | 0.5 |
| Zip/Burr Blade Holder Only | E | 22633 | 3K209 | 3.91 | 0.5 |
| Zip/Burr Handle | B, E | 22610 | 3K193 | 2.94 | 0.5 |

## ZIP/BURR KIT

Kit includes Double Burr, Zip/Burr Handle, Zip/Burr "B" Holder, B-10 and B-20 Blade, Zip/Burr "E" Holder, E-100 E-200, E-300 Blades, Storage Case; Zip/Burr "K" Holder, Standard Keyway Blade for slots 1/8 to 1/4" wide; Zip/Burr "C" Holder, C-12½" Countersink, C-20¾" Countersink, Two Zip/Burr "D" Holders, D-50 HSS Mini-Scraper, and D-66 HSS Internal Scraper.

**No. 3K215.** Royal brand (22800). Shpg. wt. 2.4 lbs. List $70.00. Each ..... $68.50

## STARTER ZIP/BURR SET

- Set includes: Zip/Burr Handle, Zip/Burr "B" Holder, B-10, B-20, and B-30 Blades; Zip/Burr "E", E-200, and E-300 blades

**No. 3K220.** Royal Brand (22820). Shpg. wt. 0.4 lbs. List $14.00. Each ..... $13.70

## SLIM GRIP DISPOSABLE BURR

- Low-cost throwaway deburing tool
- Uses one E-100 blade, included
- Pocket clip on handle

**No. 3K179.** Royal brand (22050). Shpg. wt. 0.8 lbs. List $28.00. Each ..... $27.40

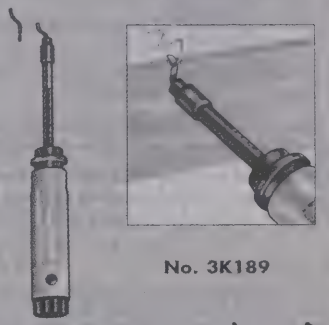
## SLIM GRIP CHANGE-A-BURR "E" BLADE

- Similar to Disposable Burr but blade can be replaced
- Accepts any "E" series blades
- One E-100 blade included
- Royal brand (22172)

**No. 3K187.** Shpg. wt. 2.2 lbs. List $55.00. Each ..... $53.85

## MULTI/BURR 5

- Blades can be stored in lightweight plastic handle
- Accepts any "E" Series blade
- Blades easily changed by depressing locking button
- Includes handle and 1 each of following: E-100, E-200, E-350, E-101, and E-102
- Royal brand



**No. 3K127.** Shpg. wt. 0.2 lbs. List $9.00. Each ..... $8.81

## REPLACEMENT BLADES

- All blades made of high speed steel
- "B" Blades are 0.10 in. dia. for working tight areas
- "E" Blades are 0.12 in. dia. for extra strength
- Sold in packages of 10

# SHIM STOCK

## STEEL SHIM STOCK

- Made from full hard, cold rolled, low carbon 1010 material with a bright finish; Rockwell Hardness: RB90-100
- Use in general shimming applications and tool & die fields
- Used where hardness, flatness and accuracy are required
- Material can be punched or sheared with minimum burring and distortion
- Stiff and springy and has not been annealed after final cold rolling; Meets ASTM A-109 and AISI 1010

### 6 x 100" STEEL SHIM STOCK

PRECISION BRAND

## BRASS SHIM STOCK

- Made from half hard, cold rolled, CDA 260 alloy
- Frequently used in general maintenance fields; used in applications where corrosion problems exist
- Has excellent forming qualities and may be lightly drawn, blanked or stamped
- Low magnetic permeability, non-sparking
- Rockwell Hardness: 30T 56-68; meets SAE CA-260; CDA-260; ASTM B19, B36

## BLUE TEMPERED SHIM STOCK

- Made from high carbon 1095 hardened and tempered spring steel; Rockwell Hardness: RC 48-51
- Used in tool & die fields for templates and shim applications where toughness and high fatigue strength are required
- Meets AMS 5122, SAE 1095 and AISI 1095

## ALUMINUM SHIM STOCK

PRECISION BRAND.

No. 3L923

- Made from 99% commercially pure, 1100 series, H-18 full hard tempered aluminum; Brinell Hardness: 44
- For use in electrical, chemical, and aerospace fields
- Light weight with excellent corrosion resistance, workability and weldability
- High thermal and electrical conductivity
- Meets ASTM B209, FED QQA-250F, AISI 1100

### 6 x 100" ALUMINUM SHIM STOCK ORDERING DATA

## COPPER SHIM STOCK

PRECISION BRAND.

No. 3L913

- Made from 110 annealed copper; for use in metalworking
- Good ductility and malleable attributes
- Excellent conductor of electricity and heat
- Meets ASTM B152, ASTM B451

## STAINLESS STEEL SLOTTED SHIMS

- Made from a 300 series stainless which resists rust and corrosion
- Solve alignment and leveling problems
- Works on motors, pumps, generators and other plant machinery
- Available in four sizes to cover most applications
- Tabs eliminate the need to place hands under machinery during installation or removal
- Each shim marked with thickness in decimal and metric: .001 to .010" sizes are permanently etched; .015 to .125" sizes are permanently stamped
- Eliminates misalignment of expensive machinery
- Shims conform to standard bolt and stud size
- Slot Sizes: Size A=5/8", Size B=3/4", Size C=1¼", Size D=1⅝"
- Hole in tab for easier removal

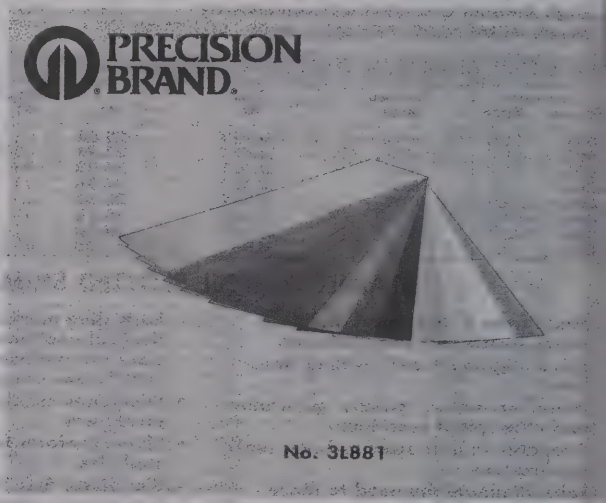
# SLOTTED AND COLOR-CODED SHIMS

## SLOTTED SHIM FULL ASSORTMENT KITS

- Each assortment contains 20 pieces of the following decimal sizes: .001, .002, .003, .004, .005, .010, .015, .020, .025, .050, .075, .100, and .125 in.
- Assortment contains 260 pieces packaged in a durable metal box



### STAINLESS STEEL SLOTTED SHIM FULL ASSORTMENT KITS

| Size (In.) | Precision Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| A - 2 x 2 | 42900 | 3L869 | $570.50 | 12.0 |
| B - 3 x 3 | 42910 | 3L871 | 717.00 | 26.0 |
| C - 4 x 4 | 42920 | 3L873 | 1038.00 | 43.0 |
| D - 5 x 5 | 42930 | 3L875 | 1515.00 | 63.0 |

## COLOR-CODED SHIM ASSORTMENTS (PLASTIC MATERIAL)

- Made of a high quality plastic material; .0005 to .005 is polyester and .0075 to .060 is vinyl
- Used for gaskets, special parts and various manufacturing applications
- Easy to cut; resists oil
- Minimal compression during use
- Thickness tolerances to industry standards
- Consistent performance
- Nonconductive to electricity
- Thickness indicated by shim color
- Eliminates need for micrometer, saves time and reduces error
- Assortments contain 1 each of the following decimal thicknesses: .0005, .001, .0015, .002, .003, .004, .005, .0075, .010, .0125, .015, .020, .025, and .030 in.

### COLOR-CODED SHIM ASSORTMENTS (PLASTIC MATERIAL)

| Size (In.) | Precision Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 5 x 20 | 44905 | 3L881 | $32.05 | 1.4 |
| 10 x 20 | 44910 | 3L883 | 64.10 | 2.8 |
| 20 x 20 | 44915 | 3L885 | 127.10 | 5.6 |

## SOF' SHOE® SLOTTED SHIM

- Solves angular soft foot alignment problems on motors, pumps, generator, turbines and other plant machinery in minutes
- Made of an elastomer which has unique cold-flow and set characteristics to fill irregular gaps
- An inexpensive alternative to more time consuming and expensive options such as milling the base or foot, hand cutting graduated shims, replacing base or rebuilding base with poured epoxy
- Compresses 12% permanently over a 10 to 14 day period, conforming to any irregularity on a foot and/or base
- Yellow shims are .045" thick and compress to .040"
- Blue shims are .020" thick and compress to .0175"
- Each shim has a hole in the tab to facilitate inventory control

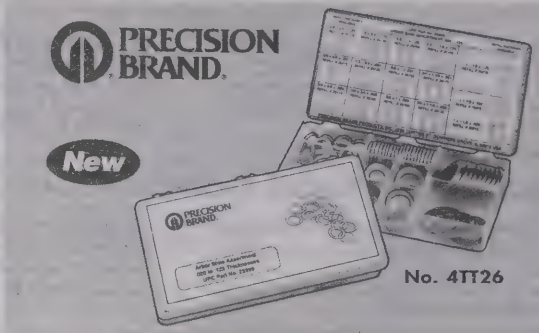
PRECISION BRAND.



No. 3L745

## ARBOR SHIM ASSORTMENTS

- Made of full hard, cold rolled, low carbon 1010 material
- Used for fast, accurate spacing of milling cutters, gang cutters, saws, slitting blades, and grinding tools
- Packaged in air-tight poly bags
- 19-Piece assortment contains one piece of each of the following thicknesses: .001, .0015, .002, .003, .004, .005, .006, .007, .008, .010, .012, .015, .020, .025, .031, .047, .062, .093, and .125 in.
- Rockwell Hardness: RB90-100
- Meets ASTM A109 and AISI 1010

## ARBOR SHIM ASSORTMENT KITS

- These kits include the most popular sizes
- A convenient assortment kit is great to take on-site
- Packaged in a durable plastic box with individual shim compartments

### ARBOR SHIM ASSORTMENT KITS

| Assortment Thicknesses | Assortment Sizes | Precision Model | New! Stock No. | List | Each | Shpg. Wt. |

## MUSIC WIRE

- Made from high carbon steel alloy and is spring tempered
- Has high tensile strength and fatigue resistance
- Applications include springs, wire forms, control linkages, armature binding, ceramic cutting, and a variety of industrial uses
- Meets ASTM A228

PRECISION BRAND.

No. 3L538

# TOOL BLACK® KIT, STRIPPABLE COATING, PUNCH AND DIE SETS, AND TOOL WRAP

## TOOL BLACK KIT

- Includes one quart of Tool Black, one 16 fl. oz. aerosol can of Prevent®, and one quart of Cleaner-Degreaser
- Three-step process that is a fast alternative to black oxide
- No special equipment or ventilating system required
- One quart of Tool Black covers 100 to 150 square feet
- Precision brand (45125)

**No. 3L887.** Shpg. wt. 5.7 lbs. List $90.21. Each.....$77.00

## HOT MELT STRIPPABLE PROTECTIVE COATING — TYPE 1

- Packaged in convenient 5 pound bags
- Poly bag packaging means easy handling and storage
- Easy to use; coating is presliced into manageable pieces
- Set time is less than 60 seconds
- To remove, coating peels right off
- Melting temperature 340-350°F
- Precision brand

**No. 3L877.** Amber Coating (43005). Shpg. wt. 5.0 lbs. List $42.53. Each.....$36.15

**No. 3L879.** Clear Coating (43010). Shpg. wt. 5.0 lbs. List $42.53. Each.....$36.15

## PUNCH & DIE SET

- Traditional style punch & die set
- Economical way to make washers, shims and gaskets
- Cuts steel, brass, copper, aluminum, rubber and plastic up to .025" thick
- Cuts stainless and blue tempered shim up to .010" thick
- The base and punches are made of a hardened and ground A-2 tool steel
- Clear plastic top plate is marked with accurate center lines
- Nine punch sizes: 1/8, 3/16, 1/4, 5/16, 3/8, 7/16, 1/2, 5/8, 3/4"
- Precision brand (40105)

**No. 3L759.** Shpg. wt. 2.2 lbs. List $181.51. Each.....$154.50

## TRU-PUNCH® PUNCH & DIE SET

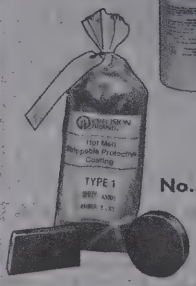
- Self-centering punch & die set
- Make custom washers, shims, gaskets
- Patented punch, pilot and pin system; U.S. Patent #4,949,614
- No guess work to center I.D. or need to scribe center lines
- Cuts steel, brass, copper, aluminum, rubber, and plastic up to .025" thick
- Cuts stainless and blue tempered shim up to .010" thick
- Nine punch sizes: 1/8, 3/16, 1/4, 5/16, 3/8, 7/16, 1/2, 5/8, 3/4"
- Eight I.D. sizes: 1/8, 3/16, 1/4, 5/16, 3/8, 7/16, 1/2 and 5/8"
- Base and punches made of hardened and ground A-2 tool steel
- Precision brand (40110)

**No. 3L761.** Shpg. wt. 2.5 lbs. List $260.33. Each.....$221.50

## "THE BIG" TRU PUNCH™ PUNCH AND DIE SET

- Self-centering punch & die set for larger custom shims, washers and gaskets.
- Patented punch, pilot and pin system; U.S. Patent # 4,949,614
- No guess work to enter I.D. or need to scribe center lines
- 4 punch sizes: 7/8, 1, 1⅛, 1¼"
- 4 ID Pilot sizes: 3/4, 7/8, 1, 1⅛"
- Works in conjunction with Precision Brand's Tru Punch® Stock No. 3L761
- ID pilots are interchangeable to allow for 77 OD and ID shim combinations
- Cuts brass, copper, aluminum, rubber, and plastic up to .020" thick.
- Cuts steel up to .015" thick
- Cuts stainless and blue tempered shim up to .010" thick
- Base, top and punches are made of a hardened and ground A-2 tool steel
- Precision brand (40200)

***New*** **No. 4TT29.** Shpg. wt. 2.4 lbs. List $360.00. Each.....$260.00



## TOOL WRAP

- Made of Type 321, soft annealed, stainless steel
- Helps protect from scale and oxide buildup during heat treating in atmospheric furnaces
- Eliminates decarburization buildup
- Resistant to chromium carbide precipitation during exposure to high temperatures
- Protects surface of air hardening tool steels
- Cut-to-fit stainless steel tool wrap creates airtight envelope around part
- Can use in furnaces up to 1850°F (996°C)
- Packaged in handy reclosable cartons

# LENGTHENING AND SHORTENING SHIM ASSORTMENTS AND INDUSTRIAL MARKERS

## LENGTHENING/SHORTENING SHIM ASSORTMENTS

PRECISION BRAND. **New**

No. 4TT27 No. 4TT28

- Lengthening Shims fit over the stripper screw treads and under the shoulder which, in effect, lengthens the stripper screw
- Shortening Shims are placed around the shoulder screw shank to fit under the screw head, in effect, shortening the stripper screw
- All shims are made of high carbon spring steel
- Each assortment contains three thicknesses: .005", .015" and .032"
- Each assortment is packaged in a durable plastic compartment box

Lengthening & Shortening Shims are for Stripper Bolt/Shoulder Screw adjustments.

***New*** **No. 4TT27.** Shpg. wt. 0.4 lbs. List $93.61. Each ..... $69.00

***New*** **No. 4TT28.** Shpg. wt. 0.6 lbs. List $103.24. Each ..... $75.60

Assortments contain 15 pieces of every size listed above; a total of 270 pieces in each assortment package.

## INDUSTRIAL MARKERS

### B PAINTSTIK®

All purpose, cold surface markers
For layout, color coding, inspection or fabrication
Marks easily on metal, glass, plastic, lumber, cement, cardboard, rubber

### H & HT PAINTSTIK®

Highly visible white marking for hot surfaces

### M PAINTSTIK® FOR HEAT-TREATING & ANNEALING

Mark at room temperature then subject it to temperatures up to 1600°F

### BLEED THROUGH PAINTSTIK®

Marks bleed through primer or painted surface for fabricating structural steel and layout work
To prevent bleeding through finished coat, seal area with water-based two-component epoxy paint.

### BALL PAINT MARKERS™

Produce long lasting, weather, and water-resistant fine line marks with real paint that dries in minutes

### SHARPIE® FINE TIP BLACK MARKER

For identification of parts, layout work, marking cartons and crates
Marks on metal, wood, cardboard, paper, plastic, glass, etc.

### DURA-INK ® #25 MARKER

For identification of equipment, marking, shipping cartons, sign making
Chisel tip makes fine lines or broad marks

### WHITE RAILROAD CHALK

- Ideal for making temporary marks on most surfaces
- Marks on metal, wood, concrete, cardboard, rubber, plastic, and more

### SOAPSTONE MARKER

- For the temporary marking of metal surfaces during fabrication operations
- Made of all natural soapstone for superior marking; flat shape

### LUMBER CRAYONS

- For layout work on rough or smooth surfaces
- Mark concrete blocks, lumber, metal, plastic, rubber, paper, cardboard, and ceramics

### VALVE ACTION PAINT MARKER™

- Ideal for metal, glass, wood, rubber, plastic, cardboard and paper
- Use on metal and plastic pipe, sheet metal, cartons, lumber, signs, tires

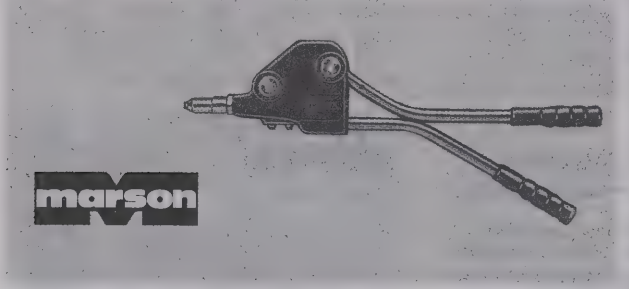
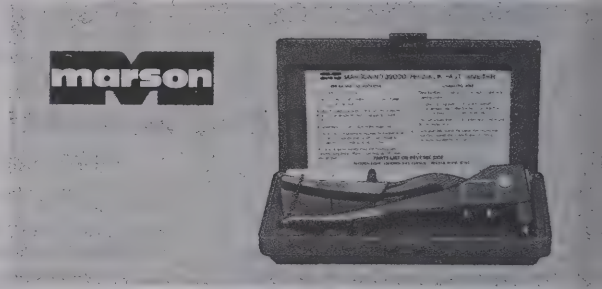
# RIVETING TOOLS



**Marson Kliker II**—A medium-duty riveting tool. Two interchangeable nosepieces set 1/8, 3/32, and 3/16" rivets in sheet metal, plastic, and Masonite. Has precision die-cast body with hardened carbon steel handle. Plastic grips. Marson brand (39040).

**No. 5X719.** Shpg. wt. 1.0 lbs. List $26.40. Each ..... **$17.14**



**Marson HP-2® Deluxe Riveter**—For daily use in riveting meta wood, Masonite, and Formica. Handles work up to 5/8" tot thickness. Interchangeable nosepieces accommodate 3/32, 1/ 5/32, and 3/16" diameters. Sets rivets from one side of wor permits riveting in blind spots on ductwork, metal support pipes, and built-in light fixtures. Die-cast aluminum alloy co struction. Rubber composition grips. Marson brand (39000).

**No. 4X577.** Shpg. wt. 1.2 lbs. List $35.85. Each..... **$22.6**

**Marson Big Daddy®**—High strength alloy construction and long handles provide easy installation of rivets through 1/4" diameter size. Steel insert into aluminum body provides stronger threads for nosepieces. One piece collet case eliminates adjusting tool when changing rivets. Interchangeable nosepieces set 5/32, 3/16, and 1/4" diameter rivets. Marson brand (39031).

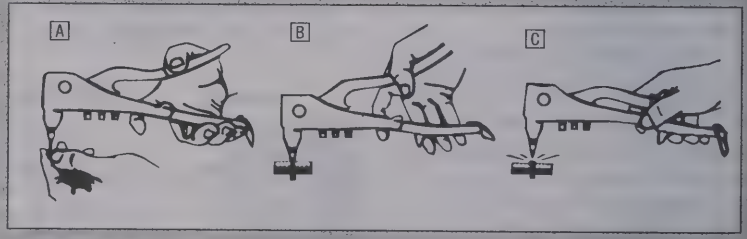
**No. 4Y128.** Shpg. wt. 4.0 lbs. List $150.15. Each ..... **$138.65**

**Marson 200 Kit**—Sturdy plastic, closeable storage case holds HP 2® Deluxe Riveter No. 4X577, 5 boxes of rivets (50 each of Nos 4X578, 4X641, 4X581, and 5X516), and a nosepiece wrench. Fo daily use on riveting metal, wood, Masonry, and Formica Rubber composition grips. Marson brand (39001).

**No. 6A644.** Shpg. wt. 4.0 lbs. List $53.10. Each ..... **$35.5**

## REPLACEMENT JAW KIT

**For Marson Deluxe Riveter and Marson Kliker II.**



Fits riveters 4X577 and 5X719. Matched jaw set is made of hardened steel.

**No. 1R221.** Shpg. wt. 0.1 lbs. List $10.00. Each ..... **$5.24**

### VISIT THE GRAINGER WEB SITE TO PLACE YOUR ORDER!

## HOW TO SET A RIVET

**A Insert rivet mandrel in rivet setting tool.**

**B Using tool as guide, insert rivet into prepared hole.**

**C Squeeze trigger or handles to set rivet. Mandrel ejects after rivet is set.**

A Button head Klik-Fast® Rivets

B Large Flange Klik-Fast® Rivets

C 120° Countersunk Klik-Fast® Rivets

D Closed-end Button head Hollow CoreKlik-Fast® Rivets

ibration resistant, will not back out or loosen. For blind side pplications and where both sides of work are not accessible. ill not mar or scratch painted or other finished materials.

### A Button head Klik-Fast® Rivets

- Popular for industrial applications
- Low profile head diameter is twice rivet body diameter
- Provides adequate bearing for many applications

### B Large Flange Klik-Fast Rivets

- Provide greater bearing surface for fastening soft and brit- ile facing materials such as plywood and plastics, including neoprene and vinyl

### C 120° Countersunk Klik-Fast Rivets

- For applications where flush appearance is required

### D Closed-end Button head Hollow Core Klik-Fast Rivets

- Have 100% mandrel head retention
- Have shear and tensile strength over open-end rivets of similar sizes and materials
- Moisture-resistant

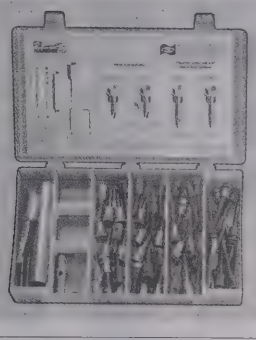
## PLASTIC ANCHORS

Rawl

No. 3X977



This is a lightweight plastic anchor suitable for concrete, block brick, and hollow wallboard applications. The plastic anchor is made of corrosion-resistant plastic and is recommended for ligh duty applications where holding power is not a critical factor For use with either wood screws or sheet metal screws. A pre drilled hole is required, and sizes range from 6-8 x 3/4" to 14-16 x 1/2". (Screws not included).

| Screw Size (In.) | Drill (In.) | Anchors Per Box | Elco Model | Stock No. | Per Box List | Per Box Each | Shpg. Wt. |

## HANGERMATE ANCHORING/FASTENING SYSTEM

ELCO

Made in U.S.A.

No. 5M522

HangerMate is an anchoring/fastening system that allows fas and reliable attachment of 1/4 or 3/8" threaded rod in virtually al types of material found on a construction site including concrete steel, and wood. Eliminates the need to have different anchors fasteners, components and a wide variety of hand or power tools for each material.

| Description | Pkg. | Elco Model | Stock No. | List | Each | Shpg. Wt. |

(*) Starter Kits contain: 10 or 15 each of 1/4-20 and 3/8-16 for steel, 1/4-20 and 3/8-16 for masonry or wood, 1 drive sleeve, 1 drive socket, 1 SDS drill bit, 1 T-angled drill bit. 1 drill bit adapter and 1 (1/8 in.) Hex key.

**DON'T FORGET THE BACK OF THE BOOK! MANY CROSS-REFERENCE GUIDES AND INDEXES HELP MAKE PRODUCT SELECTION EASIER**

**Besides complete National Brand and Product Indexes, the back section of this catalog contains a Terminology and Technical Data Section as well as a handy Stock Number/Page Number Cross-Reference Guide. And don't forget, if you need assistance with product selection, help is as close as a call to your local branch.**

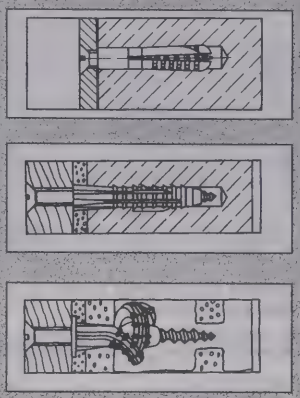
## HAMMER-SET™ ANCHORS

ITW Ramset/Red Head

Nail drive anchor can be used in concrete, block, or brick for applications such as sheet skirting and flashing, gutter and downspouts, electrical accessories, drywall track, HVAC straps (horizontally), frame brackets, and barrier plates

Steel construction

Easy through-the-work installation:



1) Drill hole through material to be fastened and into base material;

2) Insert Hammer-set into hole until head of anchor body is flush with material to be fastened. Tap the nail until flush with head of anchor; Anchor is now set

Meets GSA spec. PF-S-325 Group V, Type 2, Class 3 proof load requirement.

## POLY-SET ANCHOR KITS

ITW Ramset/Red Head

- For fastening in drywall, hollow block, and solid concrete
- Positive holding for paneling, hardboard, and ceiling tile
- Unique twisting action of plug upon expansion provides more positive hold in drywall applications
- Resistant to moisture, chemicals, or atmospheric conditions
- Kit No. 4AL67 includes 100 anchors, 100 screws, and one drill bit; Kit No. 4AL68 includes 50 anchors, 50 screws, and one drill bit
- Nos. 2G494 and 2G496 contain 100 anchors

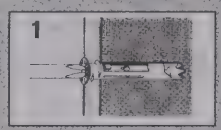
(*) Kit contains one drill bit, anchors and screws.

## E-Z TOGGLES™

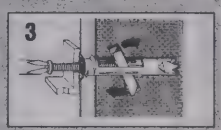
Only self-drilling toggle bolt for heavy-duty anchoring to drywall

Features special rotating clamp (which flips as screw engages) and self-drilling point

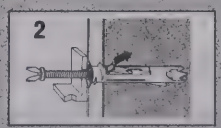
Supports up to 75 pounds in 1/2" drywall



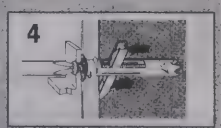
Deep No. 2 Phillips recess



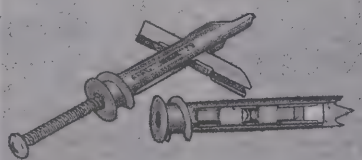
50 Toggles per package



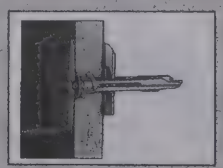
ITW Red Head brand (EZT50)

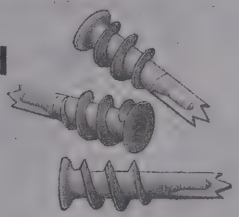


**4E824.** Shpg. wt. 2.0 lbs. List $35.95.
ch.....$32.35



ITW Ramset/Red Head



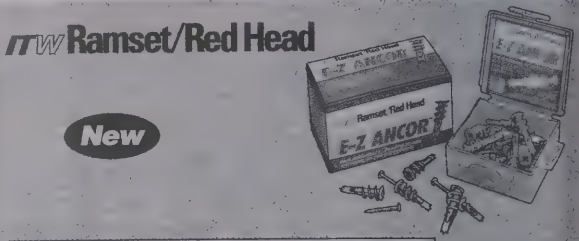


# ANCHORS AND FASTENERS

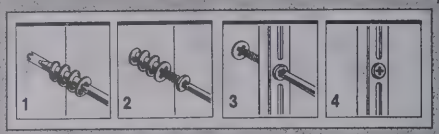
## E-Z ANCOR® PLASTIC ANCHORS

ITW Ramset/Red Head

- Gypsum wallboard anchor installs easily with a No. 2 Phillips screwdriver or cordless screwdriver
- Use No. 4E823 for light-duty applications such as thermostats, control systems, smoke detectors, telecommunications equipment, & signs
- Use No. 4AL66 for medium-duty applications such as electrical fixtures, HVAC and plumbing fixtures, shelving and supports, mirrors and security systems.
- No. 4E823 recommended for use with #6 sheet metal screws, No. 4AL66 for use with #8 sheet metal screws
- No predrilling or hole preparation necessary
- Can be easily backed out
- Deep thread provide strong engagement in 3/8, 1/2, and 5/8" drywall
- 100 Anchors per package



Use with #6 and #8 sheet metal screws (Sold on pages 1753 and 1754)



| Anchor Type | Fasteners per Box | Red Head Model | Stock No. | List | Each | Shpg. Wt. |

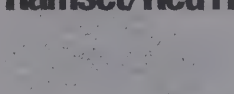
Tapcon hardened steel fasteners meet or exceed industry standards. However, ıy are not recommended for use with aluminum when moisture may be present.

# TAPCON® MASONRY ANCHORS*

Hex Washer Head | Phillips Flat Head



- Excellent for wood to concrete applications
- Fast and easy to install
- Superior pull-out and shear strengths
- No need to prespot holes, no inserts are required, and can be removed and reinstalled
- Accommodates close-to-edge applications
- Neat, finished appearance
- Hi-Lo threads with notches cut into masonry for greater stability and pullout values
- Tapered shank provides a wedging action for a strong reliable hold
- Nail-type point guides the anchor into the predrilled hole

# WEDGE ANCHORS

## TRUBOLT WEDGE ANCHORS

ITW Ramset/Red Head

- Anchor size equals hole size
- One-piece wraparound stainless steel expander clip resists corrosion
- Provides 360° contact with concrete
- Comes complete with nuts and washers
- Versatile fully threaded design
- For low temperature applications use only stainless steel anchors

Zinc-plated carbon steel and stainless steel wedge anchors are available in anchor/drill sizes 1/4, 3/8, 1/2, 5/8, and 3/4" and lengths of 1¾" through 10". Meet U.S. Government G.S.A. Specifications FF-S-325 Group II, Type 4, Class I. For fastening electrical, heating, ventilating, air conditioning, and plumbing systems to concrete, tilt-up construction, pipe hanging, in-plant machinery mountings, and storage racks. ITW Red Head brand.

# MULTI-SET ANCHORS AND HAMMER DRIVE TOOLS

## MULTI-SET II DROP-IN ANCHORS

ITW Ramset/Red Head

No. 3A492 No. 2G476

- **Setting tool included with each box of anchors**
- **Precise hole depth, hole clean-out not necessary**

Carbon steel drop-in anchors for use in heavy-duty concrete materials, or solid concrete base materials. Meet U.S. Government G.S.A. Specifications FF-S-325 Group VIII Type 1. For pipe hanging, mounting valves and pipes, machinery mountings, anchoring shelves, and insulation. ITW Red Head brand.

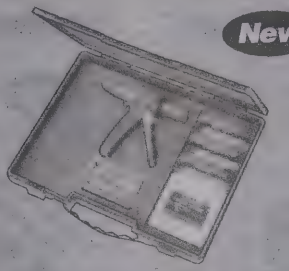
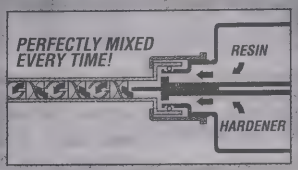
# EPCON EPOXY INJECTION SYSTEM AND ACCESSORIES

## EPOXY INJECTION SYSTEM
### FOR SMALLER APPLICATIONS



Anchors in solid concrete, hollow wall, and brick. For mounting vibratory machinery, hand and impact guard rails; installing signs, electrical boxes and pipe brackets; and filling cracks when you need a hard sealant.*



Features tremendous holding power and excellent vibratory load performance and wetting characteristics. Capable of underwater installation. Includes Derringer dispensing tools, six 1.7 oz. ceramic epoxy cartridges, and 12 high flow nozzles. For additional system accessories see below. ITW Red Head brand.

***New*** **No. 4VM52.** Shpg. wt. 6.0 lbs.
Each ..... $155.25

(*) Epoxy injection is not approved for overhead sprinkler applications.

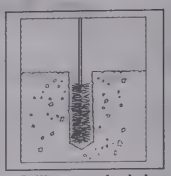
## INJECTION SYSTEM ACCESSORIES



- **For heavy-duty attachments in single or double walls of block**
- **Screens have external tabs for ease of epoxy injection and installation**
- **Screens hold epoxy intact until rod is inserted**

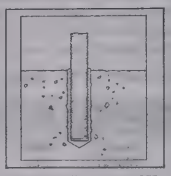
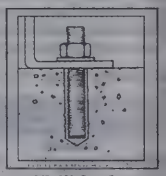
## INSTALLATION PROCEDURES

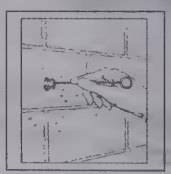


### SOLID CONCRETE



1. Drill proper size hole. Clean out hole. Complete hole preparation with use of a nylon brush (*do not use wire brush*).

2. Prior to injection, discharge approximately one fluid ounce of epoxy. Epoxy must be uniform in color. Insert nozzle into bottom of hole, and fill hole to 1/2 the hole depth.



3. Insert the selected rod slowly by hand into bottom of hole using a slow twisting motion. Hardening will begin in 7 minutes at room temperature.

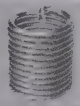
4. After recommended cure time, install and tighten fixture.

### HOLLOW WALL OR BRICK

1. Drill proper sized hole. Clean out hole with blowout bulb. Complete hole preparation with use of a nylon brush (*do not use wire brush*).

2. Prior to injection, discharge approximately one fluid ounce of epoxy. Epoxy must be uniform in color. Insert the Epcon System nozzle to bottom of screen and fill it completely while withdrawing the nozzle.

3. Insert the filled screen completely into the cleaned hole.



4. Hole the tab of the screen against the wall, insert the selected rod with a slow twisting motion. Wait for appropriate cure time before torquing fixture in place.

# THREAD REPAIR INSERTS AND KITS

## THREAD REPAIR INSERTS

RECOIL. QUALITY THREAD INSERT SYSTEMS

No. 2G882

- Manufactured from 18-8 (Type 302-304) stainless steel
- Minimum tensile strength of wire greater than 200,000 PSI
- Creates stronger and more efficient threads in most parent materials
- Thread types — UNC, UNF, Metric
- Registered to ISO 9001 and QS 9000

The Recoil thread repair system is the simplest method for repairing or creating stronger threads. The insert, which is larger in diameter than the tapped hole, is compressed during installation and then allowed to spring back, permanently anchoring the insert in the tapped hole.

| Size | No. Per Pkg. | Recoil Model No. | Stock No. | Each | Shpg. Wt. |

## THREAD REPAIR RANGE KITS

No. 2G942

RECOIL. QUALITY THREAD INSERT SYSTEMS

- A range of thread repair sizes in one convenient carrying case

Kits contain high-speed steel ground thread intermediate (plug) taps with quantity of inserts indicated, installation/tang break tool and easy-to-follow instructions.

| Size | Qty. | Recoil Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| UNC 1/4, 5/16, 3/8, 7/16, 1/2 | 1 | 33004 | 2G942 | $181.50 | 2.7 |
| UNF 1/4, 5/16, 3/8, 7/16, 1/2 | 1 | 34004 | 2G944 | 187.00 | 2.5 |
| Metric Coarse M5, M6, M8, M10, M12 | 1 | 35004 | 2G946 | 181.75 | 2.4 |

## SCREW THREAD INSERT (STI) TAPS

Assortments contain 15 pieces of every size listed above, otal of 270 pieces in each assortment package.

## LENGTHENING & SHORTENING SHIMS

- Lengthening shims fit over stripper screw treads and under the shoulder which lengthens the stripper screw
- Shortening shims are placed around the shoulder screw shank to fit under the screw head shortening the stripper screw
- All shims are made of high carbon spring steel
- Each assortment contains three thickness: .005", .015", and .032"
- Each assortment is packaged in a durable plastic compartment box

***New*** **No. 4TT27.** Shpg. wt. 0.4 lbs. List $93.61. Each.....$69.00

# HEX CAP SCREW - GRADE 2

QUALITY FASTENERS from ... Rockford

No. 4P100
Hex Cap Screw - Grade 2

- Zinc-Chromate plated—Low Carbon Steel
- Proof load; 55,000 PSI
- Minimum tensile strength: 74,000 PSI
- Meets or exceeds ANSI/ASME B18.2.1, SAE J429, SAE J1061 and ASTM 788 Standards
- Use with finished hex nut, sold on page 1742

# HEX CAP SCREWS - GRADE 5
## COARSE THREAD

QUALITY FASTENERS from ... Rockford®

No. 4P175
Hex Cap Screw - Grade 5

- Zinc-Chromate Plated medium carbon steel quenched and tempered
- Proof load: 85,000 PSI
- Minimum tensile strength: 120,000 PSI
- Full traceability as required by Public Law 101-592 "Fastener Quality Act"
- Meets or exceeds ANSI/ASME B18.2.1, SAE J1061, SAE J429/ASTM A449 specifications for tensile strength and hardness
- Use Grade 5 Hex Nut with Grade 5 Bolt, sold on page 1742

### SELECT QUALITY PRODUCTS FROM LEADING MANUFACTURERS WITH PROVEN PERFORMANCE

Grainger features quality products from the brand name manufacturers you know and trust. More than 900 national brands are listed in the Brand Index at the back of this catalog.

## GRADE 5 CARRIAGE BOLTS

QUALITY FASTENERS from ... Rockford

- Medium carbon steel
- Zinc Chromate finish
- Tensile strength: 120,000 PSI
- Lot controlled for full traceability
- For applications where additional strength is required. 60% stronger than regular Carriage bolts

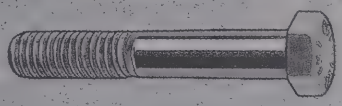
## GRADE 8 FLANGE BOLTS

QUALITY FASTENERS from ... Rockford



- Medium carbon alloy steel quenched and tempered, Phosphate finish
- Proof load: 120,000 PSI; Tensile strength: 150,000 PSI
- Use with flange lock nuts on page 1744
- Full traceability
- Eliminates the use of washers
- Meets or exceeds ASME/ANSI B18.2.1, SAE J429, J1061 and ASTM 788 standards

# GRADE 8 CAP SCREWS

QUALITY FASTENERS
from ...
Rockford®

No. 4P250
Hex Cap Screw - Grade 8

Zinc and gold dichromate plated
Medium carbon alloy steel quenched and tempered
Proof load: 120,000 PSI
Minimum tensile strength: 150,000 PSI
Full traceability as required by Public Law 101-592 "Fastener Quality Act"
Meets or exceeds ANSI/ASME B18.2.1, J429. J1061, and ASTM/788 standards
Use Grade 8 Hex Nuts with Grade 8 bolt. See page 1742
Use Alloy flat washers and lock-washers with Grade 8 bolt; see pages 1746 to 1747

# STAINLESS STEEL HEX CAP SCREWS

QUALITY FASTENERS from ... Rockford

Stainless Steel Hex Cap Screw

- 18-8 Stainless steel for superior corrosion resistance
- Tensile strength: 85,000 PSI
- Rockwell Hardness B87 - B98
- Meets or exceeds ASME/ANSI B18.2.1 and ASTM F788
- Lot controlled for full traceability

# METRIC HEX CAP SCREWS—CLASS 8.8 STANDARD THREAD

QUALITY FASTENERS from ... Rockford®

No. 2N056

## STANDARD THREAD

- Medium carbon steel, quenched and tempered
- Equivalent to SAE Grade 5 in tensile strength
- Zinc Chromate plate with RED DYE for easy identification
- Meets or exceeds SAE J1061, SAE 119 and ASME/ANSI B18.2.3.1
- Lot controlled for full traceability

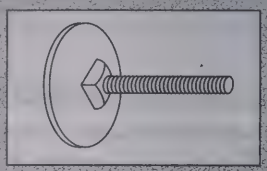
# METRIC HEX CAP SCREWS-FINE THREAD, ELEVATOR AND ANCHOR BOLTS

## METRIC 8.8 HEX CAP SCREWS - FINE/EXTRA FINE THREAD

QUALITY FASTENERS from ... Rockford



- Medium carbon steel, quenched and tempered
- Equivalent to SAE Grade 5 in tensile strength
- Zinc Chromate plate with RED DYE for easy identification
- Meets or exceeds SAE J1061, SAE 119 and ASME/ANSI B18.2.3.1
- Lot controlled for full traceability

# LOCKNUTS, HEAVY HEX NUTS, WING NUTS, AND JAM NUTS

## FLANGE LOCKNUTS

- Heat treated medium carbon steel
- Phosphate finish
- For use with Grade 8 Flange Bolts and Grade 8 Hex Cap Screws
- Full traceability as required by public Law 101-592
- Eliminates the use of flat washers
- For use up to 600°F
- Meets or exceeds IFI 100-107 and IFI 101 standards

QUALITY FASTENERS from ... Rockford

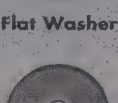
DIMENSIONS FOR HEX AND SQUARE MACHINE NUTS ON THIS PAGE



# FLAT WASHERS AND FENDER WASHERS

QUALITY FASTENERS from ... Rockford

Flat Washer

Fender Washer

## USS — SAE FLAT WASHERS

- Zinc Chromate finish
- Meets or exceeds ASME/ANSI B18.22.1 standards

## USS — SAE ALLOY FLAT WASHER

- Use with Grade 8 Hex cap Screws
- Alloy steel, hardened RC 45-53
- Zinc Gold Chromate finish for additional corrosion protection and easy identification
- Lot controlled for full traceability
- Meets or exceeds ASME/ANSI B 18.22.1 and ASTM F436 standards

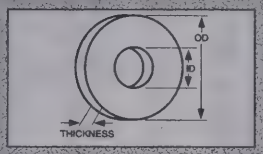
## STAINLESS STEEL FLAT WASHERS

- Use with Stainless Steel Hex Cap Screws and Machine Screws
- Resists many types of corrosive environments that cause pitting, galvanic corrosion and rust

## METRIC FLAT WASHERS

- Zinc Chromate plate with RED DYE for easy identification

## FENDER WASHERS



- Zinc Chromate finish
- Wide surface designed to bridge oversize holes or other wide clearance requirements

(*) These specifications may vary slightly due to min/max tolerances.

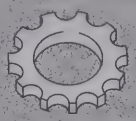
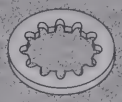
# FINISHING WASHERS, SPLIT LOCK WASHERS AND TOOTH LOCK WASHERS



QUALITY FASTENERS from ... Rockford



Finishing Washer

Bonded Neoprene Washers

External Lock washer

Internal Lock washer

Split Lock washer

## FINISHING WASHERS

Nickel plated finish
For use with flat or oval head screws
Countersunk design for a decorative, more finished look

## TAINLESS STEEL FINISHING WASHER

Stainless steel for superior corrosion resistance
For use with flat or oval head screws
Countersunk design for a decorative, more finished look

## BONDED NEOPRENE WASHERS

Galvanized washer with bonded neoprene surface
Helps to prevent water from seeping in around screw holes

## SPLIT LOCK WASHERS

- Zinc chromate finish
- Spring action holds tension in assembly and helps prevent loosening or movement between parts
- Meets or exceeds ANSI/ASME B18.21.1 Standards

## ALLOY SPLIT LOCK WASHERS

- For use with Grade 8 Hex Cap Screws hardened RC 45-53
- Zinc gold chromate finish
- Meets or exceeds ANSI/ASME B18.21.1 Standards

## STAINLESS STEEL LOCK WASHERS

- Use with Stainless Steel Hex Cap Screws and Machine Screws
- Resists many types of corrosive environments that cause pitting, galvanic corrosion and rust

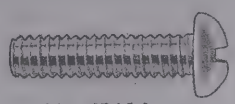
## METRIC LOCK WASHERS

- Use with Class 8.8 and 10.9 Metric Hex Cap Screws
- Zinc chromate finish with red dye for easy Metric identification

## EXTERNAL TOOTH LOCK WASHERS

- Zinc chromate finish
- Provide extra resistance to vibration loosening
- Meets or exceeds ANSI/ASME B18.21.1 Standards

## INTERNAL TOOTH LOCK WASHERS



- Zinc chromate finish
- Provide extra resistance to vibration loosening
- Meets or exceeds ANSI/ASME B18.21.1 Standards

# STAINLESS STEEL MACHINE SCREWS

QUALITY FASTENERS from ... Rockford

No. 4P647

- 18-8 Stainless Steel
- Resists many types of corrosion elements that cause pitting, corrosion, and rust
- Possesses superior strength, toughness, and resistance to elevated temperatures compared to lower alloy carbon steel fasteners
- Length of flat head screws are measured from the top of the head

## WOOD SCREWS

- Zinc Plated carbon steel
- Gimlet point
- Length of flat head screws is measured from the top of the head
- Meets or exceeds ANSI/ASME B18.6.1 standards and specifications
- Square Drive style offers superior driver engagement for less slippage. Helps to avoid stripping of drive head

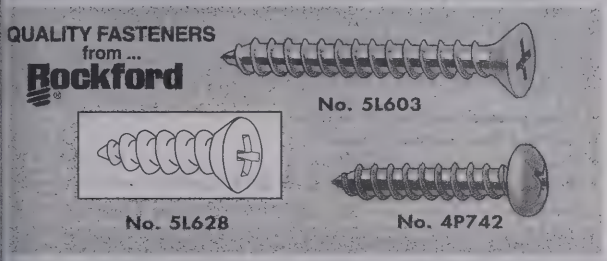
## 18-8 STAINLESS STEEL SLOTTED SHEET METAL SCREWS

QUALITY FASTENERS from ... Rockford

No. 5L582

No. 5L563



- Resists many types of corrosive elements that cause pitting corrosion and rust
- Possesses superior strength, toughness and resistance to elevated temperatures compared to lower alloy carbon steel fasteners

## SELF-DRILLING SCREWS

- Zinc Plated case hardened steel
- Drill, tap and fasten in one operation
- For attaching a variety of materials to metal up to 12-gauge
- Meets or exceeds SAE J78 standards

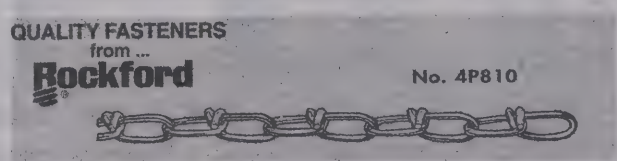
## ZINC PLATED THREADED ROD



- 1010 Low carbon steel
- Tensile 65,000 to 75,000 PSI
- Yield strength 50,000 to 60,000 PSI
- Used for hanging, mounting, bracing, supporting, and fastening in plumbing, heating, electrical, construction, and fabricating fields applications
- Can be used with standard nuts and washers

## JACK & DOUBLE LOOP CHAIN

**Jack Chain** for suspension of fixtures where high strength is not needed. 12-Gauge zinc-plated standard steel. Resists kinking. 100 Ft. length. 29 lbs. workload limit.

**No. 4P810.** Shpg. wt. 8.0 lbs. List $27.26. Each.....$25.85

**Double-Loop Chain** for uses similar to jack chain plus many other applications: 14-Gauge zinc plated low carbon steel. 100 Ft. length. 90 lbs. workload limit.

**No. 4P811.** Shpg. wt. 5.8 lbs. List $25.74. Each.....$24.41

# MACHINERY AND KEY STOCK

Mak-a-Key® machinery keys and key stock provide a positive means for transmitting torque between a shaft and the hubs of pulleys, sprockets, and gears. Key stock and bar stock are used to manufacture machinery keys. Just cut, file, and fit. All bars are 12" long.

## ZINC PLATED, OVERSIZE KEY STOCK

- Made from high quality, C1018 cold drawn carbon steel
- 5/32" and 9/32" sizes are made from 1215 material
- Plated tolerances: 3/4" and smaller = +.003" to -.000"; Over 7/8" - 1 ½" = +.004" to -.000"

| **150** | Open | Flanged | Steel | CL-200-VTC | **5E660** | **$8.29** | 0.2 |

## 200 LBS. HOLDING CAPACITY

Small-yet-powerful clamp. Choose either a solid arm, or a long open arm for spindle adjustment. Arm opens 117°, handle moves 69°. Supplied with 1/4"-20 short flat-cushion spindle. Open-arm version supplied with 2 flanged washers.

| Holding Capacity (Lbs.) | Arm | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **200** | Solid | Flanged | Steel | CL-250-VTC | **5E666** | **$8.49** | 0.4 |
| **200** | Open (Long) | Flanged | Steel | CL-253-VTC | **5E667** | **8.49** | 0.2 |

## 500 LBS. HOLDING CAPACITY

Wide-opening clamp. Solid arm, open armor extra-long arms available. Arm opens 100°, handle moves 60°. Accepts 5/16"-18 short spindle. Solid-arm supplied with bolt retainer. Open-arm supplied with 2 flanged washers.

| Holding Capacity (Lbs.) | Arm | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **500** | Solid | Flanged | Steel | CL-350-VTC | **5E675** | **$10.35** | 0.7 |
| **500** | Open | Flanged | Steel | CL-450-VTC | **5E679** | **10.35** | 0.7 |
| **500** | Open (Long) | Flanged | Steel | CL-453-VTC | **5E680** | **10.35** | 0.7 |

## 750 LBS. HOLDING CAPACITY

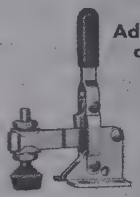
Large wide-opening clamp. Arm opens 106°, handle moves 58°. Accepts 3/8"-16 spindle. Supplied with two flanged washers.

| Holding Capacity (Lbs.) | Arm | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **750** | Open | Flanged | Steel | CL-650-VTC | **5E686** | **14.91** | 1.3 |

## 1000 LBS. HOLDING CAPACITY

Extra-large clamp. Arm opens 120°, handle moves 67°. Accepts any 1/2"-13 spindle. Supplied with 2 flanged washers.

| Holding Capacity (Lbs.) | Arm | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **1000** | Open | Flanged | Steel | CL-850-VTC | **5E687** | **20.97** | 2.5 |



## 750 LBS. HOLDING CAPACITY (AUTOMATIC)

Automatically adjusts for various workpiece thicknesses. Clamp has the same force within 1¼" adjustment range (1¼"). Toggle action ensures workpieces remain clamped under severe vibration. Arm opens 106°, handle moves 58°. Supplied with 3/8"-16 radius spindle, 2 flanged washers.

| Holding Capacity (Lbs.) | Arm | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **750** | Open (Auto) | Flanged | Steel | CL-650-ATC | **5E685** | **$46.15** | 2.2 |

# PUSH/PULL CLAMPS

## 100 LBS. HOLDING CAPACITY

Miniature plunger clamp for electronics fixturing and other light-duty applications. Locks in extended or retracted position. 5/8" plunger travel. Tapped-plunger version supplied with #8-32 nylon hex-head spindle.

| Holding Capacity (Lbs.) | Plunger | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **100** | Tapped | Flanged | Steel | CL-50-SPC | **5E681** | **$7.84** | 0.2 |

## 300 LBS. HOLDING CAPACITY

Medium-size plunger clamp that locks in extended or retracted position. 1¼" plunger travel. Plunger tapped to accept any 5/16"-18 spindle.

| Holding Capacity (Lbs.) | Plunger | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **300** | Tapped | Flanged | Steel | CL-150-SPC | **5E656** | **$12.30** | 0.6 |

## 800 LBS. HOLDING CAPACITY

Heavy clamp with extra plunger height. Locks in extended or retracted position. 1⅝" plunger travel. Plunger tapped to accept any 3/8"-16 spindle.

| Holding Capacity (Lbs.) | Plunger | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **800** | Tapped | Flanged | Steel | CL-250-SPC | **5E665** | **$20.25** | 1.8 |

## 2500 LBS. HOLDING CAPACITY

Compact, low profile, heavy-duty plunger clamp. Rugged forged steel base. Locks in extended or retracted position. 2" plunger travel. Plunger tapped to accept any 3/8"-16 spindle.

| Holding Capacity (Lbs.) | Plunger | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **2500** | Tapped | Flanged | Steel | CL-350-SPC | **5E674** | **$29.30** | 2.0 |

## 500–1500 LBS. HOLDING POWER

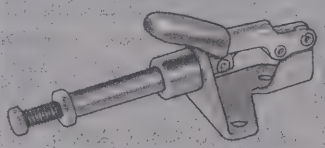
Durable plunger clamp with nodular iron base. Locks in either extended or retracted position. Choice of three sizes.

**No. 5E652**—Small-size clamp with 1$\frac{3}{16}$" plunger travel. Accepts any 5/16"-18 spindle.
**No. 5E659**—Medium-size clamp with 1$\frac{5}{8}$" plunger travel. Accepts any 3/8"-16 spindle.
**No. 5E669**—Large-size clamp with 2$\frac{11}{32}$" plunger travel. Accepts any 1/2"-13 spindle.

| Holding Capacity (Lbs.) | Plunger | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **500** | Tapped | Flanged | Steel | CL-100-SPC | **5E652** | **$16.46** | 0.8 |
| **850** | Tapped | Flanged | Steel | CL-200-SPC | **5E659** | **25.25** | 1.3 |
| **1500** | Tapped | Flanged | Steel | CL-300-SPC | **5E669** | **43.05** | 3.1 |

## 5000 LBS. HOLDING CAPACITY

Extra-heavy-duty clamp features a full 4" plunger travel. Rugged nodular iron base and a 7/8" diameter plunger. Locks in extended or retracted position. Plunger tapped to accept any 1/2"-13 spindle.



| Holding Capacity (Lbs.) | Plunger | Base | Material | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **5000** | Tapped | Flanged | Steel | CL-450-SPC | **5E678** | **$72.75** | 7.0 |

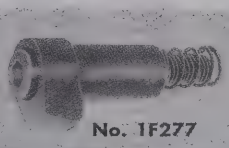
# EDGE, HOOK AND ADJUSTABLE CLAMPS, DETENT AND BALL LOCK PINS, PLUNGERS

## EDGE CLAMPS

Additional sizes available



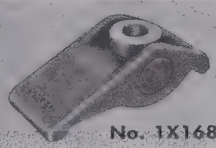
No. 1X164

High-noise adjustable clamp. Grips high on workpiece, close to the machining plane, for maximum clamping rigidity. Removable aluminum nose cover clamps soft or machined parts without damage.

| Mounting Screw Size | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 1/2-13 or M12 | CL-45-SAC | 1X164 | $42.95 | 1.3 |
| 5/8-11 or M16 | CL-75-SAC | 1X186 | 48.10 | 2.8 |

## COMPACT HOOK CLAMPS

Additional sizes available

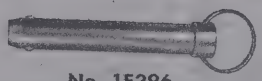


No. 1F277

Very compact socket-head swing clamp mounts in reamed hole. Ideal in tight spaces and where high clamping forces are required. Clamp body: 12L14 steel carburized-hardened, black oxide finish.

| Thread Size | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 5/16-18 | CL-1-CAC | 1F277 | $18.49 | 0.2 |
| 1/2-13 | CL-2-CAC | 1F311 | 19.55 | 0.2 |

## FORGED ADJUSTABLE CLAMPS



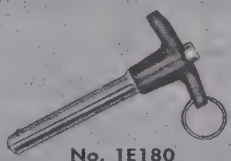
No. 1X168

Rugged forged steel pivot clamp. Instant height adjustment without blocks or shims. One-piece assembly allows quick setups and eliminates lost clamp pieces. Removable brass heel protects machine table. Clamp can swing 90° in either direction for loading clearance. Forged 1045 steel carbon, black oxide finish.

| Clamping Range (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 0 - 1¾ | CL-6-FAC | 1X168 | $13.92 | 0.6 |
| 0 - 2 1/16 | CL-8-FAC | 1X196 | 18.01 | 1.2 |
| 0 - 3 | CL-10-FAC | 1X152 | 26.35 | 2.5 |
| 0 - 4¼ | CL-12-FAC | 1X156 | 38.80 | 3.8 |

## DETENT PINS

Additional sizes available



No. 1E296

Economical solid alignment pin. Locking balls are spring loaded, not positive locking. Simply push pin to insert, pull to remove. Shank: 4130 steel, 160,000 psi min, zinc or cadmium plated. Collar: Carbon steel, zinc or cadmium plated. Balls: 440C stainless. Ring: Carbon steel, zinc or cadmium plated, or 302 stainless steel.

| Shank Dia. (In.) | Stock Grip Length (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1/4 | 1.00 | CL-4-DEP-1.00 | 1E196 | $5.20 | 0.1 |

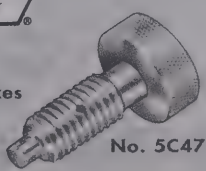
## BALL LOCK PINS

Additional sizes and models available



No. 1E180

Precision alignment pin with a ground shank. This single-acting type is positive locking until released by pushing the button, which moves the center spindle forward to allow the locking balls to retract into a radial groove. Ball lock pins can also be ordered in stainless steel. Shank: 4130 steel, 160,000 psi min., zinc or cadmium plated. Spindle: 4130 steel. Handle: Aluminum alloy. Collar: Carbon steel, zinc or cadmium plated. Button: Carbon steel, zinc or cadmium plated, or aluminum alloy, anodized. Balls: 440C stainless. Spring: 17-7PH, 302 stainless or music wire. Handle ring: Carbon steel, zinc or cadmium plated, or 302 stainless.

## CONSTRUCTION BALLS

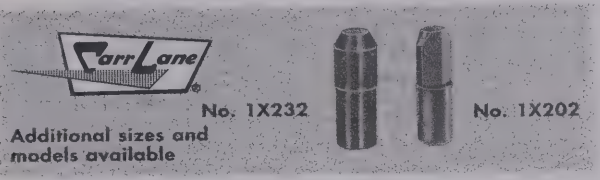
Additional sizes and models available

No. 5C504

No. 5C505

Precision tooling ball rigidly attached to its shank by a proprietary welding technique. Concentricity between ball and shank is .0002 TIR. Height-reference shoulder to locate the ball in three dimensions. Ball: 52100 steel, heat treated HRC 55, black oxide finish. Shank: 1018 steel, black oxide finish.

| Ball Dia. (In.) | Length, Ball Center To Shank Base (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| .5000 | 0.63 | CL-1-SCB | 5C504 | $14.68 | 0.1 |
| .5000 | 0.94 | CL-2-SCB | 5C506 | 14.68 | 0.1 |
| .5000 | 1.50 | CL-3-SCB | 5C669 | 15.91 | 0.1 |
| .5000 | 0.94 | CL-4-SCB | 5C771 | 15.26 | 0.1 |
| .5000 | 1.50 | CL-6-SCB | 5C772 | 20.62 | 0.1 |



## CONSTRUCTION BALL COVER

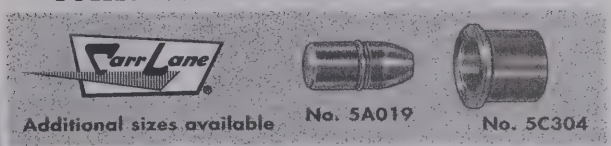
Sturdy cover that protects a construction ball from damage after installation. Zinc die casting.

| Fits Ball Dia. (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| .5000 | CL-2-COVER | 5C505 | $1.48 | 0.1 |

# ROUND AND DIAMOND PINS, BULLET-NOSE PINS, DOWELS AND BUSHINGS

## ROUND AND DIAMOND PINS

Round pins and diamond pins are frequently used together in pairs to locate the workpiece from the hole. Diamond pins are relieved, to locate only radially around the round pin, avoiding redundant location. This prevents binding while loading and unloading the part, yet still maintains high accuracy. Note: Round pins also make excellent edge locators. Head and shank diameters are concentric to within .0005 TIR. 1144 steel, heat treated RC 50-55, black oxide finish.



### ROUND PINS

| Head Dia. (In.) | Length (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1/4 | 3/4 | CL-1-RP | 1X232 | $1.90 | 0.1 |
| 5/16 | 7/8 | CL-2-RP | 1X238 | 1.90 | 0.1 |
| 3/8 | 1 | CL-3-RP | 1X246 | 2.06 | 0.1 |
| 7/16 | 1 1/4 | CL-4-RP | 1X248 | 2.34 | 0.1 |
| 1/2 | 1 3/8 | CL-5-RP | 1X258 | 2.88 | 0.1 |
| 9/16 | 1 1/2 | CL-6-RP | 1X260 | 2.94 | 0.1 |
| 5/8 | 1 3/4 | CL-7-RP | 1X276 | 3.07 | 0.1 |
| 3/4 | 2 1/8 | CL-9-RP | 1X278 | 3.75 | 0.2 |

### DIAMOND PINS

| Head Dia. (In.) | Length (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1/4 | 3/4 | CL-1-DPX | 1X202 | $2.94 | 0.1 |
| 1/4 | 3/4 | CL-1-DPY | 1X228 | 2.94 | 0.1 |
| 1/4 | 3/4 | CL-1-DPZ | 1X230 | 2.94 | 0.1 |

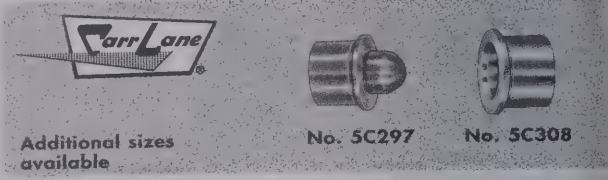
| 1/2 | 1-3/8 | CL-5-DPY | 1X256 | 3.97 | 0.1 |

## BULLET-NOSE DOWELS AND BUSHINGS

Precision locating pin often used with a matching bushing to align two pieces of a fixture. The pin's head and shank diameters are concentric to within .0005 TIR. The bushing's ID and OD are concentric to within .0003 TIR. Dowel: 1144 steel, heat treated RC 50-62, black oxide finish.



### DOWEL PINS

| Head Dia. (In.) | Length (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1/4 | 0.90 | CL-1-BND | 5A019 | $2.51 | 0.1 |
| 5/16 | 0.94 | CL-2-BND | 5A665 | 2.63 | 0.1 |

| 1/4 | 3/8 | CLB-1000 | 5C304 | $4.49 | 0.1 |
| 5/16 | 3/8 | CLB-2000 | 5C305 | 4.72 | 0.1 |
| 3/8 | 1/2 | CLB-3000 | 5C306 | 4.81 | 0.1 |
| 1/2 | 5/8 | CLB-4000 | 5C307 | 5.06 | 0.1 |

## BULLET-NOSE PINS AND BUSHINGS

Bullet-nose round pins and diamond pins are often used together (with matching bushings) to align two pieces of a fixture. The diamond pin is relieved, to locate only radially around the round pin, avoiding redundant location. This prevents binding, yet still maintains high accuracy. The pin's shank diameter and the bushing's OD are the same size to allow boring the installation hole in both fixture pieces at the same time, for greater accuracy. The pin's head and shank diameters are concentric to within .0005 TIR. Bushing's ID and OD are concentric to within .0003 TIR. Pin: 1144 steel, heat treated RC 50-62, black oxide finish.

### ROUND PINS

| Head Dia. (In.) | Shank Dia. (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |

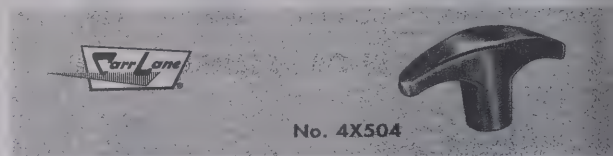
## OVAL TAPERED KNOBS

Suitable for control levers and push/pull rods. Molded-in brass insert provides strength. Black phenolic plastic with brass insert.

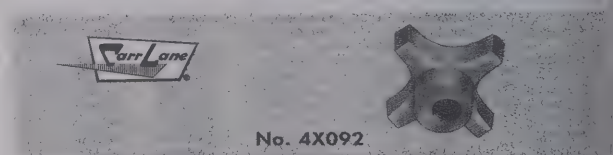
| Dia. (In.) | Thread Size | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 3/4 | #10-32 | CL-23-PTK | 4X498 | $1.24 | 0.1 |



## TAPERED HANDLES

Heavy-duty tapped design used for grasp handle or machine shift lever. Molded-in brass insert provides superior thread strength. Black phenolic plastic with brass insert.

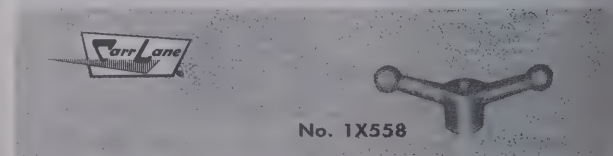
| Dia. (In.) | Thread Size | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1 | 1/4"-20 | CL-1-PH | 4X481 | $1.69 | 0.1 |
| 1⅛ | 3/8-16 | CL-2-PH | 4X484 | 3.07 | 0.2 |
| 1⅜ | 1/2-13 | CL-3-PH | 4X501 | 4.72 | 0.1 |



## T HANDLES

Molded-in brass insert provides superior thread strength. Black phenolic plastic with brass insert.

| Dia. (In.) | Thread Size (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 2¼ | 1/4-20 | CL-432-TH | 4X504 | $1.01 | 0.1 |

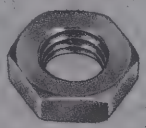


## QUICK-ACTING KNOBS

Heavy-duty, four-pronged quick-acting knob. Sintered iron, black oxide finish.

| Dia. (In.) | Thread Size (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 2 | 3/8-16 | CL-3-QAK | 4X092 | $4.85 | 0.2 |
| 2½ | 1/2-13 | CL-4-QAK | 4X093 | 5.97 | 0.3 |

## SPEED BALL HANDLES



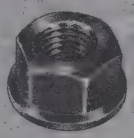
Speed handles that are weighted for quick turning. Long arm extensions provide leverage for hand tightening. Nodular iron per ASTM-A536 Class 65-45-12, zinc-plated clear chromate.

| Dia. (In.) | Thread Size | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 4 7/16 | 1/2-13 | CL-44-SBH | 1X558 | $8.34 | 0.8 |
| 6 | 5/8-11 | CL-64-SBH | 1X560 | 10.21 | 1.0 |
| 8 | 3/4-10 | CL-84-SBH | 1X564 | 12.68 | 2.0 |

# JAM FLANGE AND KNURLED NUTS, FLAT AND SPHERICAL WASHERS

## JAM NUTS

Additional sizes and models available



No. 4X311

igh-quality heavy jam nut. Mild steel, carburized-hardened, lack oxide finish.

| Thread Size | Height (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 3/8"-16 | 15/64 | CL-6-JN | 4X311 | $0.25 | 0.1 |
| 1/2-13 | 19/64 | CL-8-JN | 4X392 | 0.37 | 0.1 |
| 5/8-11 | 23/64 | CL-10-JN | 4X279 | 0.43 | 0.1 |
| 3/4-10 | 27/64 | CL-12-JN | 4X284 | 0.77 | 0.1 |

## FLANGE NUTS

Additional sizes and models available

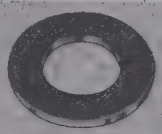
No. 4X273

anged face provides large bearing surface to avoid damaging e part underneath, especially when clamping over a slot. ecision machined from one solid piece of steel for extra rength. 12L14 steel, carburized-hardened, black oxide finish.

| Thread Size | Height (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1/4-20 | 5/16 | CL-1-FN | 4X273 | $1.22 | 0.1 |
| 5/16-18 | 3/8 | CL-9-FN | 4X439 | 1.40 | 0.1 |
| 3/8-16 | 1/2 | CL-2-FN | 4X288 | 1.44 | 0.1 |
| 1/2-13 | 11/16 | CL-3-FN | 4X301 | 1.56 | 0.2 |
| 5/8-11 | 13/16 | CL-4-FN | 4X303 | 2.93 | 0.2 |
| 3/4-10 | 1 | CL-5-FN | 4X307 | 3.25 | 0.3 |
| -8 | 11/8 | CL-7-FN | 4X389 | 6.13 | 0.1 |

## KNURLED NUTS

Additional sizes available



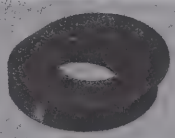
No. 4X263

avy lock nut can be tightened by hand or with extention rod /4" or 6mm diameter). Large contact surface. Also available in tric sixes. 12L14 steel, black oxide finish.

| Thread Size | Height (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1/4-20 | 7/16 | CL-0-KN | 4X263 | $2.22 | 0.1 |
| 3/8-16 | 7/16 | CL-1-KN | 4X277 | 2.31 | 0.1 |
| 1/2-13 | 7/16 | CL-2-KN | 4X297 | 2.68 | 0.1 |

## FLAT WASHERS

Additional sizes available



No. 5E702

Heavy-duty washer that is finished flat and parallel. Steel washer: 1010, carburized-hardened, black oxide finish. Stainless steel washer: 300-series.

| Fits Bolt Sizes | Height (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| #10 or M5 | 5/64 | CL-254 | 5E702 | $0.88 | 0.1 |
| 1/4" or M6 | 5/64 | CL-255 | 5E703 | 0.94 | 0.1 |
| 3/8 or M10 | 3/32 | CL-257 | 5E704 | 1.28 | 0.1 |
| 1/4 or M6 | 1/8 | CL-7-FW | 5E713 | 0.32 | 0.1 |

| 3/8 or M10 | 1/8 | CL-1-FW | 5E690 | 0.37 | 0.1 |
| 3/8 or M10 | 3/16 | CL-8-FW | 5E716 | 1.12 | 0.1 |
| 1/2 or M12 | 1/8 | CL-2-FW | 5E698 | 0.46 | 0.1 |
| 1/2 or M12 | 3/16 | CL-9-FW | 5E717 | 1.22 | 0.1 |
| 5/8 or M16 | 1/8 | CL-3-FW | 5E705 | 0.57 | 0.1 |
| 5/8 or M16 | 3/16 | CL-10-FW | 5E693 | 1.22 | 0.1 |
| 3/4 or M18 | 5/32 | CL-4-FW | 5E708 | 0.82 | 0.1 |
| 3/4 or M18 | 1/4 | CL-11-FW | 5E694 | 1.95 | 0.1 |
| 1 | 9/32 | CL-12-FW | 5E696 | 1.56 | 0.2 |

## SPHERICAL WASHERS

Additional sizes available

No. 5E692

Two-piece washer that compensates whenever a stud and clamp strap are not perpendicular. The top washer has a convex spherical radius, while the bottom washer has a matching concave spherical radius. 12L14 steel, carburized-hardened, black oxide finish.

| Fits Bolt Sizes | Height (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 1/4" & M6 | 3/16 | CL-1-SW | 5E692 | $1.58 | 0.1 |
| 5/16 & M8 | 1/4 | CL-11-SW | 5E695 | 2.06 | 0.1 |
| 3/8 & M10 | 5/16 | CL-2-SW | 5E701 | 1.90 | 0.1 |
| 1/2 & M12 | 5/16 | CL-3-SW | 5E707 | 2.63 | 0.1 |

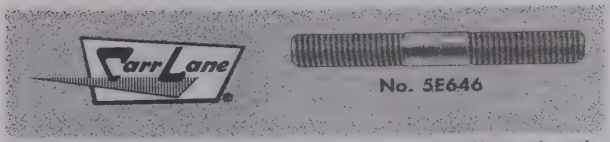
| 3/4 & M18 | 3/8 | CL-5-SW | 5E712 | 3.54 | 0.2 |
| 1 & M24 | 1/2 | CL-7-SW | 5E714 | 5.45 | 0.3 |

## SPHERICAL NUTS AND WASHERS

Additional sizes available

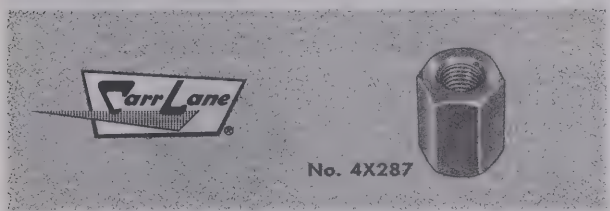


No. 5E700

Combination nut and washer that compensates whenever a stud and clamp strap are not perpendicular. The nut has a convex spherical radius, while the washer has a matching concave spherical radius. 12L14 steel, carburized-hardened, black oxide finish.

| Thread Size | Hex Size (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 3/8"-16 | 11/16 | CL-2-SNW | 5E700 | $2.84 | 0.1 |
| 1/2-13 | 7/8 | CL-3-SNW | 5E706 | 3.46 | 0.2 |
| 5/8-11 | 1 1/16 | CL-4-SNW | 5E709 | 4.03 | 0.3 |
| 3/4-10 | 1 1/4 | CL-5-SNW | 5E711 | 5.72 | 0.4 |

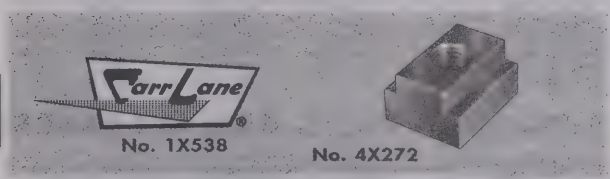
# STUDS, COUPLING NUT, T-NUTS, EYE AND SWING BOLTS, CAMS, HALF-TURN SCREWS



## STUDS

High-strength clamping stud, available in many different lengths (other lengths readily available as specials). 1144 steel, 115,000 psi min. tensile strength, black oxide finish.

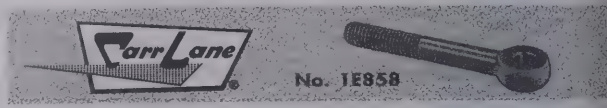
| Thread Size (In.) | Length (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **3/8-16** | 3.00 | CL-3/8-16x3.00 | **5E646** | **$1.25** | 0.1 |
| **3/8-16** | 3.50 | CL-3/8-16x3.50 | **5E647** | **1.29** | 0.1 |
| **1/2-13** | 2.50 | CL-1/2-13x2.50 | **5E639** | **1.29** | 0.1 |
| **1/2-13** | 3.00 | CL-1/2-13x3.00 | **5E640** | **1.37** | 0.2 |
| **1/2-13** | 3.50 | CL-1/2-13x3.50 | **5E641** | **2.45** | 0.2 |
| **1/2-13** | 4.00 | CL-1/2-13x4.00 | **5E642** | **1.42** | 0.2 |
| **1/2-13** | 5.00 | CL-1/2-13x5.00 | **5E643** | **1.53** | 0.2 |
| **1/2-13** | 6.00 | CL-1/2-13x6.00 | **5E644** | **1.58** | 0.3 |
| **5/8-11** | 4.00 | CL-5/8-11x4.00 | **5E648** | **1.29** | 0.3 |
| **5/8-11** | 5.00 | CL-5/8-11x5.00 | **5E649** | **1.32** | 0.4 |
| **5/8-11** | 6.00 | CL-5/8-11x6.00 | **5E645** | **2.18** | 0.4 |



## COUPLING NUT

For joining two or more studs together to create an extra-long stud. 12L14 steel, carburized hardened, black oxide finish.

| Thread Size | Height (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **1/2-13** | 1-1/4 | CL-2-CN | **4X287** | **$2.42** | 0.2 |



## T-NUTS

Sizes for all standard machine tables. Safety-stop feature prevents breaking the machine-table slot. Threads stop one short of going through T-nut to prevent a stud from jacking the nut out of the table. Also available in metric sizes and in T-nut and stud sets. Mild steel, carburized-hardened, black oxide finish.

| Table Slot Size | Thread Size | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **7/16"** | 3/8-16 | CL-00-TN | **4X272** | **$1.80** | 0.1 |
| **12mm** | 3/8-16 | CL-12-TN | **4X285** | **2.22** | 0.1 |
| **1/2"** | 3/8-16 | CL-0-TN | **4X269** | **1.80** | 0.1 |

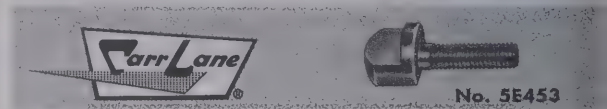
| **5/8-11** | 5/8 | 6 | CL-63-EB | **1E884** | **12.43** | 0.6 |

## SWING BOLTS

Shoulder-type eye bolt that can be used as a stationary hing point. Reamed hole for smooth bearing. 1144 steel, 115,000 ps min. tensile strength, black oxide finish.

| Thread Size (In.) | Ream (In.) | Length From Ream Center (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1/4-20** | 1/4 | 5/16 | CL-00-SB | **1E852** | **$4.01** | 0.1 |
| **3/8-16** | 3/8 | 1/2 | CL-1-SB | **1E854** | **5.70** | 0.1 |
| **1/2-13** | 1/2 | 5/8 | CL-2-SB | **1E856** | **7.78** | 0.1 |
| **1/2-13** | 1/2 | 5/8 | CL-2A-SB | **1E862** | **8.31** | 0.1 |



## DOUBLE CAMS

Straddle-type cam handle that can be used with an eyebolt o custom-made drawbar. Continuous-rise spiral cam locks secure ly in any position. Also available in metric sizes. 1020 steel, ca burized-hardened, black oxide finish.

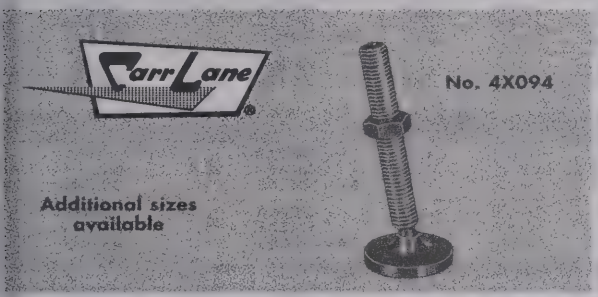
| Matching Eyebolt Size | Hole Dia. (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **1/4-20** | 3/16 | CL-11-CH | **1X538** | **$11.22** | 0.2 |
| **3/8-16** | 5/16 | CL-12-CH | **1X542** | **14.08** | 0.4 |
| **1/2-13** | 3/8 | CL-13-CH | **1X544** | **17.64** | 0.8 |

## HALF-TURN SCREWS

Rotate screw 180° (1/2 turn) to latch. Allows latching swing-awa lids and jig plates without machining a slot. 12L14 steel, carbu ized-hardened, black oxide finish.

| Thread Size (In.) | Length (In.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **1/4-20** | 2 | CL-2-HTS | **5E453** | **$5.82** | 0.1 |

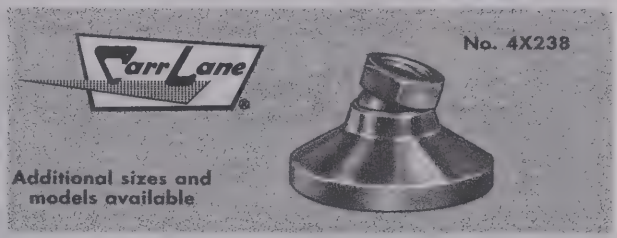
## SAFETY HOIST RINGS



›rged base rotates 360° while solid-loop forged ring pivots to low lifting from any direction. Base: forged 1045 steel, black ide finish. Ring: forged 4130 steel, heat treated, magnafluxed r MIL-STD-1949, black oxide finish.

| Load ating (Lbs.)* | Installation Torque (Ft.-Lbs.) | Replacement Shoulder Screw | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1000** | 7-10 | CL-10-SHRB | CL-10-SHR | **4R966** | **$33.60** | 0.6 |

Safety Factor = 5:1



## JIG FEET LEVELING

›dium-duty leveling foot with removable pad. Lefthand thread pad prevents backout while pad rotates and pivots freely. tent No. 2,531,892. Screw: 12L14 steel, carburized-hardened, ıc plated yellow chromate. Foot: 12L14 steel, zinc plated yel- w chromate.

| Thread Size (In.) | Load Rating (Lbs.) | Carr Lane Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **1/2-13** | 1,400 | CL-1-JFL | **4X094** | **$7.08** | 0.3 |

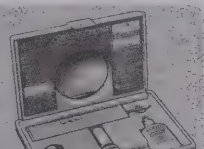
# THREADLOCKERS



- Fills the gaps between threads and mates surfaces to form solid, one-part assembly
- Locks and seals while preventing parts loosening due to vibration
- Protects threads from corrosion
- Provides superior locking security over conventional lockwashers

LOCTITE®

No. 5A234

## O-RING SPLICING KIT

- Make any size O-ring in seconds
- Kit includes 3 ft. each of 3/32, 1/8, 3/16 and 1/4" Buna N cord stock, cutting blade, O-ring fixture, Quick Set™ adhesive, Clean-Up solvent, waterproofing solution
- Loctite brand

**No. 5A234.** Shpg. wt. 2.0 lbs. List $61.06. Each.....**$57.70**

## LUBRI-SIL™ SILICONE LUBRICANT

- O-ring lubricant
- Seals, protects and electrically insulates
- Use waterproof paste as an excellent rubber and plastic lubricant
- Dielectric grease
- Fel-Pro brand (51360G)

**No. 5E201.** 5.3 Oz. Tube. Shpg. wt. 0.4 lbs. List $11.12. Each .....**$10.59**

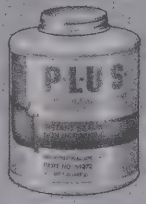
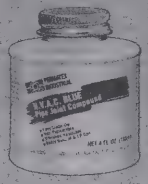
# THREAD SEALANTS FOR PIPE AND FITTINGS

LOCTITE® New FEL-PRO® PERMATEX® INDUSTRIAL



A No. 5A236



B No. 4KM24

C No. 5A237

D No. 4KM76

E No. 5E219

F No. 4KM86

### A PRO LOCK® PIPE SEALANT WITH TEFLON®,

- Instant sealing and chemical resistance for all sizes of threaded pipe
- Higher lubricity for stainless, galvanized, and difficult-to-assemble metal fittings
- Withstands temperatures to 400°F; for high pressure applications

### B THREAD SEALANT PST® 592®

- Controlled curing for difficult-to-assemble metal fittings
- Excellent solvent resistance, withstands high pressures

### C PNEUMATIC/HYDRAULIC SEALANT 545

- Won't foul hydraulic systems
- Used to lock and seal hydraulic and pneumatic fittings
- Disassemble with hand tools
- Withstands temps. of -65 to 300°F

### D PLUS PIPE SEALANT WITH TEFLON®

- Maximum thread engagement
- Provides lubrication to all metals
- UL listed
- Teflon-filled, solvent-free
- Seals, protects metal and plastic threaded joints

### E HVAC BLUE PIPE JOINT COMPOUND

- A tough, pliable sealant is resistant to loosening by thermal expansion; seals oily fittings for heating, air conditioning and refrigeration applications
- Non-flammable, non-corrosive, soap and water clean up
- Withstands temps. of -65 to 400°F

### F PIPE REPAIR KIT

- Easy-to-use kit
- On-site repairs made in minutes
- Use on metal, plastic, and composite pipes

# PIPE, FLANGE, AND VALVE SEALANTS

## TFE™ PIPE SEALANT w/ TEFLON®

**Paste type, non-toxic**

**General purpose pipe sealant**

**Sealing temperatures: -200°F to +500°F**

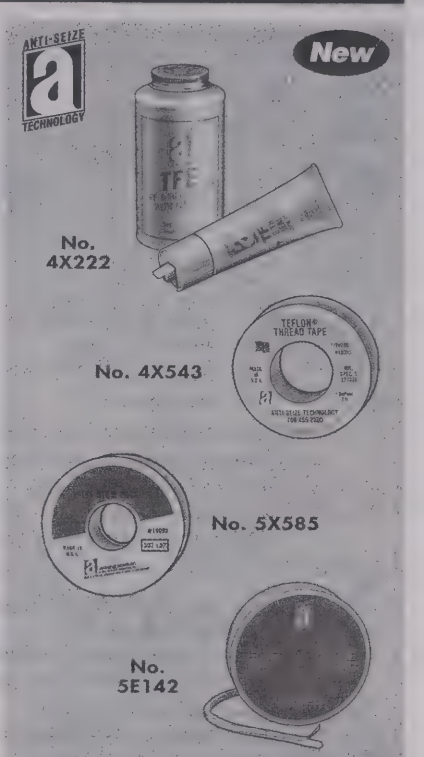
## POLY-TEMP™ TEFLON TAPE

**99.9% pure, high density, DuPont® Teflon**

**Chemically inert for all services**

**Seals to 10,000 PSI liquid; 2000 PSI gas**

**Meets UL standards, MIL SPEC. T-27703A**



## POLY-TEMP™ VSP VALVE STEM PACKING

- **Pure PTFE for long service life**
- **Inert to all common chemicals**
- **Temperatures to +500°F and pressures to 500 PSI**

## POLY-TEMP™ JOINT PTFE JOINT SEALANT

- **Instant flange gasket material**
- **Soft, pliable, tough; will not deteriorate; resists common chemicals**
- **Temperatures from -450° to +600°F**
- **Pressure to 3000 PSI**
- **100% expanded PTFE**

## SOF-SET™ SEALANT

**Dries to a soft set, brushes on easily**
**Pressures to 10,000 PSI liquid, 2600 PSI gas**
**Sealing temperatures to 400°F (204°C)**
**Use on metal, PVC, ABS, and CPVC pipe for water, steam, LP and natural gas, refrigerants, ammonia, fuel oils and hydraulic oil**

## POLY-TEMP® GAS YELLOW GAS LINE TAPE

**Extra heavy-duty Teflon® thread seal tape**
**Meets FDA and USDA requirements**
**UL Listed in USA and Canada**
**Meets the new Mil. Spec.-A-A-58092**
**Certified by A.G.A.,Made in U.S.A.**
**Pressures to 10,000 PSI**
**Temperatures to 500°F (260°C)**

## AST-PUT™ PLUMBERS PUTTY

- **For setting fixtures, faucets, bowls, basin cocks, strainers and other sealing and caulking applications**
- **Meets Federal Spec. TT-P-1536A**
- **Mold and mildew resistant**

## AST-PPD™ PLUMBERS PIPE DOPE

- **For all metal pipe and valves**
- **Non-toxic, safe for all water systems**
- **Temperature: to 400°F (204°C)**
- **Pressure: gases up to 1000 PSI, liquids up to 2000 PSI**
- **Contains no lead or silicone**

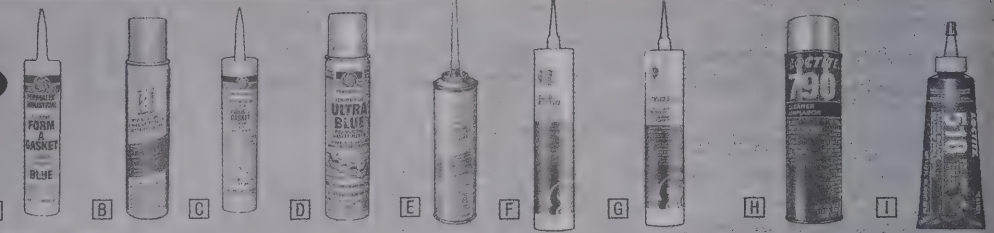
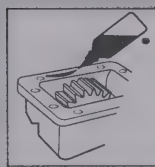
# GASKETS AND FLANGE SEALANTS

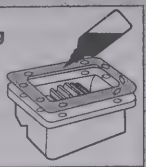


LOCTITE®



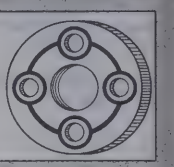
PERMATEX® INDUSTRIAL

ANTI-SEIZE TECHNOLOGY



New

GE Silicones



- Silicone gasketing products are best suited for large gap assemblies where flange flexing occurs

- Anaerobic gasketing products are best suited for small gap applications and rigid metal to metal assemblies

- Solvent based gasketing products serve as a liquid sealant, dressing and coating

## A RIGHT STUFF™ INSTANT GASKET

- Blow-out resistant; outperforms pre-cut gaskets
- Provides low pressure, instant seal in one minute

## B C D RTV SILICONE GASKETS

- Reliable "formed-in-place" gaskets resist cracking, shrinking, migrating
- Makes gaskets, fills gaps to 0.25" between mating parts
- Resists auto and shop fluids
- Coats pre-cut gaskets to increase reliability

## E AST-RTV™ SILICONE SEALANT

- General purpose adhesive/sealant
- Use for sealing, bonding, caulking, waterproofing and insulating
- Cures without shrinkage, seals against oil, water and antifreeze

## F HEAVY-BODIED INDUSTRIAL ADHESIVE SEALANT

- High strength sealing and bonding, excellent oil resistance
- For heavy-duty formed-in-place gasketing applications
- Easy application and quick set-up time

## G HIGH PERFORMANCE INDUSTRIAL ADHESIVE SEALANTS®

- High strength sealing and bonding for high temperature applications
- Room temperature curing for easy application and quick set-up time
- Excellent for in-place gasketing
- Seal out dirt, dust, moisture and environmental contaminants

## H CHISEL® 790 GASKET REMOVER

- Reduces scraping and sanding; prevents damage to flanges
- Prepares metal parts for new gasket and assembly
- Works on all types of gasketing adhesives and sealants

## I MASTER GASKET® KIT

- Anaerobic product ideal for use in place of cut gaskets
- Seals to 300°F (149°C) and fills gaps to 0.050" with primer
- Forms a flexible solvent-resistnat seal
- Includes primer

# GASKET SEALANTS AND EPOXIES

## [A] [B] FORM-A-GASKET® #1 & #2

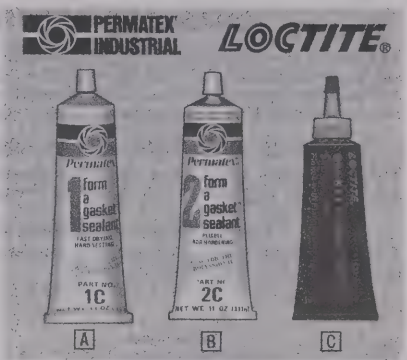
**Sealant/dressing/coating for cut gaskets to improve seal and hold in place**

**#1 for rigid, permanent assemblies**

**#2 for non-rigid vibrating assemblies**

**Resistant to gasoline and other solvents**

## [C] GASKET ELIMINATOR®



**Formulated to be used in place of gaskets for sealing rigid metal assemblies**

**Fills gaps up to .010"**

**Anaerobic cure**

**Applications include fuel and waterpumps, thermostats, split crank cases, gear boxes and transmission housings**

**Recommended for high pressure applications where "blow-out" is a problem**

## 5-MINUTE® EPOXY

**Fast curing, general purpose adhesive**

**Forms a clear, strong, rigid bond in 5 minutes**

**Good adhesive tensile, impact strength and chemical resistance**

**Good for use with metals**

## 5-MINUTE® EPOXY GEL

**High viscosity, thixotropic gel epoxy for all metal bonding requiring fast cure and increased gap-filling capabilities**

**High adhesive tensile shear strength of 2500 psi**

**Use on vertical and rough surfaces**

## 2-TON® CLEAR EPOXY

**Strong, water-resistant, non-shrinking adhesive**

**Forms powerful bond with ferrous and non-ferrous metals, ceramics, wood, concrete or glass in any combination**

**Medium cure time**

## PLASTIC WELDER™

**High viscosity, fast-cure structural adhesive for bonding most common plastics, bare metals and dissimilar substrates**

**Features high shear, peel- and impact-strength over a wide range of temperatures**

**Bonds gaps up to 0.125"**

## MARK V APPLICATOR GUN

**Used with 50ml cartridges**

- **Ergonomically-designed, lightweight hand-held applicator gun**
- **Easy to dispense**
- **Used with mixing nozzle for production applications**

## MARK V MIX NOZZLES

**Used with Mark V Applicator Gun and 50 ml cartridges**

- **Quick, easy, "twist on" nozzle**
- **Thin, control tip for precise applications**
- **Provides thorough, air-free mixing**

## 400ml MIX NOZZLES

**Used with 400ml manual/pneumatic guns and Flexane cartridges**

- **Designed for 4:1 ratio**
- **Provides thorough air-free mixing of Flexanes**

## 400ml MANUAL GUN

**Used for all 400 ml 4:1 cartridges**

- **Lightweight**
- **Easy to use**
- **Ergonomically-designed for good balance**

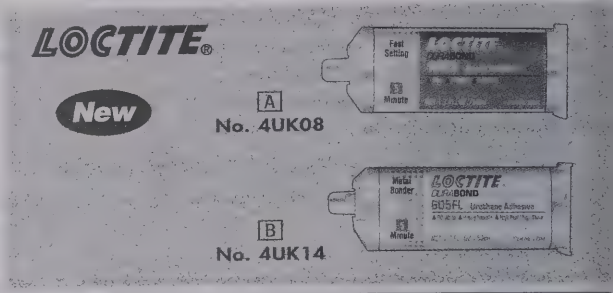
# EPOXY ADHESIVES AND APPLICATORS

## DURABOND ADHESIVES



Adhesives are dispensed through hand held meter-mix dispensing systems which provide a convenient, cost-effective method to accurately apply adhesives with minimal waste. Available in 50 ml. cartridges. Use in structural bonding applications.

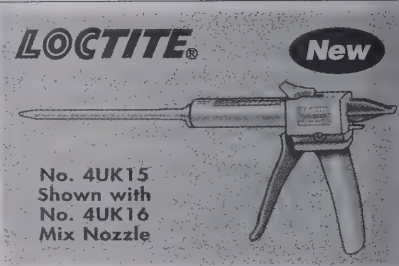
### [A] DURABOND EPOXY ADHESIVES

Two part, room temperature curing adhesives designed to tackle a wide range of structural bonding applications.

### [B] DURABOND URETHANE ADHESIVE

Two-part, room temperature curing urethane designed for impact resistance and highly flexible bonds.

| Key | Description | Substrates | Work Life (min) | Shear Strength (PSI)* | Loctite Model | New! Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| A | Durabond 100CL Fast Setting Flowable, Low Odor Epoxy Adhesive; Clear Color | Metals, thermoplastics, thermoset plastics, glass, ceramic, masonry, paper/hardboard | 5 | 2000-4000 | 28289 | **4UK08** | $8.80 | **$8.00** | 0.2 |
| A | Durabond 420HP Hi Strength Toughened, High Peel/High Shear Epoxy Adhesive; Off-white Color | Metals, thermoplastics, thermoset plastics, glass, ceramic, masonry, paper/hardboard | 20 | 3000-5000 | 29314 | **4UK09** | 8.80 | **8.00** | 0.2 |
| A | Durabond 190FL Flexible, Toughened, Impact-Resistant Epoxy Adhesive; Gray Color | Metals, thermoplastics, thermoset plastics rubber, wood, leather, masonry | 90 | 1000-3000 | 29309 | **4UK10** | 8.80 | **8.00** | 0.2 |
| A | Durabond 100NS Fast Cure, Non-Sag, Controlled Flow, Low Odor Epoxy Adhesive; Translucent | Metals, thermoplastics, thermoset plastics glass, ceramic, masonry, paper/hardboard | 5 | 2000-4000 | 29294 | **4UK11** | 8.80 | **8.00** | 0.2 |
| A | Durabond 7120HP Ultra Strength, Non-Sag Aerospace Grade Epoxy Adhesive; Amber Color | Metals, thermoplastics, thermoset plastics glass, ceramic, masonry, paper/hardboard | 120 | 3000-6000 | 29353 | **4UK12** | 8.80 | **8.00** | 0.2 |
| B | Durabond 650FL Metal Bonder Highly Flexible, High Peel, High Shear, Urethane Adhesive; Off-white Color | Metals, thermoplastics, thermoset plastics glass, ceramic, masonry, paper/hardboard, leather | 5 | 1000-3000 | 29348 | **4UK14** | 9.18 | **8.35** | 0.2 |



## ADHESIVE APPLICATORS

### 50 ML. MANUAL DISPENSING GUN

Designed for use with all Durabond 50 ml double barrel cartridges. Comes with two different plungers allowing it to be used with either 1:1 or 2:1 ratio cartridges.

### STEPPED END MIX NOZZLE

Disposable, plastic nozzles designed to attach to Durabond double barrel cartridges. Adhesive is automatically mixed as it travels through the nozzle. 10 per bag.

| Description | Application | Loctite Model | New! Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **Manual Dispensing Gun** | Use with all 50 ml. Durabond cartridges | 983435 | **4UK15** | $40.15 | **$36.50** | 0.7 |
| **Mix Nozzle** | Use with all Durabond 50 ml. cartridges. Sold separately | 983441 | **4UK16** | 10.98 | **9.99** | 1.3 |

## ADHESIVES AND EPOXY KITS

### [A] DEPEND® 330 KITS

- **General purpose structural adhesive for severe environments and applications with less than optimum cleanliness**
- **Good for use with metal, glass, fiberglass, composites and woods that require flexing and bending**

### [B] 5 MINUTE EPOXY POUCHES

- **Poxy Pouches® contain clear, liquid epoxy adhesive that repairs metal, glass, rubber, plastics, masonry, wood, and ceramic parts**
- **Mix-in-pouch packet for no measuring, no mess, and no waste; just enough for one application**

### [C] 5 MINUTE FAST CURE 445 EPOXY

- **Fast curing two-part epoxy in convenient pre-measured cups eliminates waste and measuring mistakes**
- **Cures in 5 minutes and can be sanded, drilled, machined, and painted in 24 hours**

| | Description | Loctite Model | Stock No. | List | Each | Lots/ Qty. | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| A | Depend® 330 No-Mix Adhesive Kit Contains 25 ml. syringe adhesive, 25 gm. aerosol can activator | 20251 | **4KL14** | $20.57 | **$18.54** | **$16.69/5** | 0.4 |
| A | Depend® 330 No-Mix Industrial Pac Contains 250 ml. tube adhesive, 4.5 oz. aerosol can activator | 20252 | **4KL15** | 53.50 | **48.15** | **43.34/5** | 1.3 |
| B | 5-Minute Poxy Pouches®: Contains 4 @ 4 gm. pouches | 82515 | **4KM64** | 3.78 | **3.40** | **3.06/6** | 0.1 |

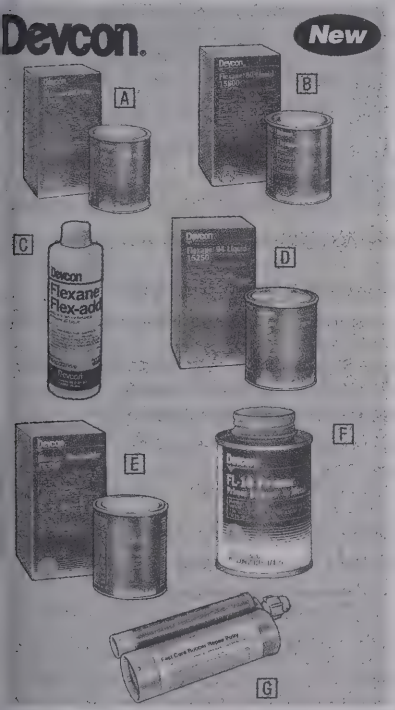
# PUTTIES AND EPOXIES

## A UNDERWATER REPAIR PUTTY

- Repairs and patches
- Use in pulp and paper mills, wastewater treatment plants, and in marine environments
- Penetrates wetness to bond securely to steel, iron, aluminum, brass, bronze, concrete, wood, and some plastics

## B MAGIC BOND EPOXY PUTTY

- Hand kneadable
- Hardens in 20-30 minutes
- Permanent bonding



## C ZIP PATCH™

- Adhesive-impregnated
- Hardens at room temperature
- Fast setting for making permanent waterproof repairs to pipes, tanks, and other equipment
- Excellent adhesion with minimal surface preparation

## D DUCO CEMENT

- Medium strength
- Fast drying
- Bonds china, wood, and metal
- Dries clear

| Key | Description | Container Size | Type | Devcon Model | Stock No. ❸ | List | Each | Lots/ Qty. | Shpg. Wt. |

## A FLEXANE® 80 PUTTY

- Trowelable urethane compound
- Cures to a tough, rubber (Hardness Shore A 80) for broad range of lining and protection applications
- Bonds to metal, concrete, rubber, wood, and fiberglass

## B FLEXANE® 80 LIQUID

- Castable, non-shrinking medium viscosity urethane
- Use to make flexible molds; form dies; cast parts; non-scratching holding fixtures as well as abrasion and noise resistant linings; does not change shape while curing

## C FLEX-ADD™

- Flexibilizer used with Flexane® 80 Liquid to produce a lower durometer castable urethane

## D FLEXANE® 94 LIQUID

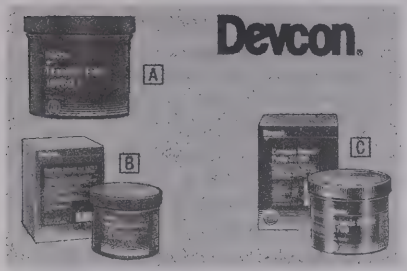
- Castable, non-shrinking urethane compound that cures to a rigid rubber compound
- Short demolding time, faster cure; more rigid than Flexane 80 Liquid
- Use for making flexible molds, cast parts, non-scratching holding fixtures

## E FLEXANE® BRUSHABLE

- Cures to a medium hard rubber (Hardness Shore A 86)
- Protect against wear due to abrasion and impact
- Protects processing equipment such as hoppers, chutes, pump impellers, feeder bowls, and fans

## F FLEXANE® PRIMERS

- FL10 enhances adhesion to metal
- FL20 enhances adhesion to rubber, wood and fiberglass



## G FAST CURE RUBBER REPAIR PUTTY/LIQUID

- Putty is tough urethane compound
- Liquid is castable urethane compound
- Convenient application system
- Cures in 1½ hours
- Tear- and impact-resistant

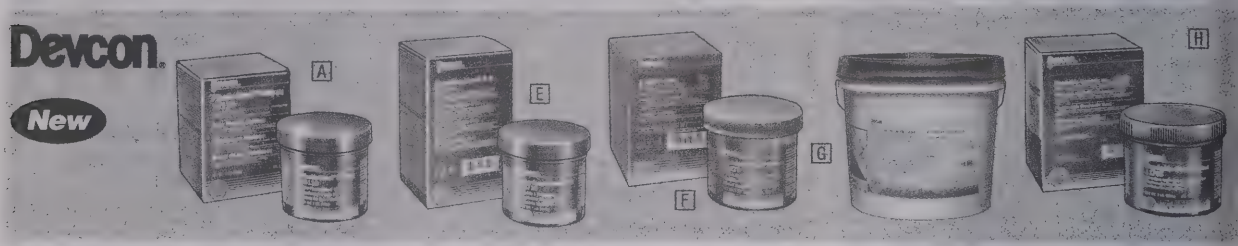
# PUTTIES AND EPOXIES

## A TITANIUM PUTTY

- Titanium reinforced epoxy
- Makes quick repairs to machinery and equipment that can be precision machined
- Resistance to a wide range of chemicals and acids
- Temperature resistant to 350°F



## B BRUSHABLE CERAMIC

- Protects against wear, abrasion, corrosion, erosion, and chemical attack
- Low friction surface reduces wear
- Temperature resistant to 350°F

## C CERAMIC REPAIR PUTTY

- Smooth, trowelable, alumina-filled epoxy compound
- For rebuilding and protecting processing equipment exposed to corrosion, erosion, cavitation, acids and temperatures up to 350°F

| Key | Description | Container Size | Type | Devcon Model | Stock No. ❸ | List | Each | Lots/ Qty. | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| A | Titanium Putty | 1 Lb. | Can | 10760 | **5E147** | $62.66 | **$59.80** | **$53.76/2** | 0.7 |
| B | Brushable Ceramic | 2 Lb. | Can | 11760 | **5E148** | 100.16 | **95.60** | **85.99/6** | 3.2 |

## A PLASTIC STEEL PUTTY (A)

- For maintenance, production and tooling applications
- Bonds to most metal, concrete, and some plastics
- Forms a tough, durable metallic mass that can be drilled, tapped, machined, or painted
- Cures at room temperature

## B PLASTIC STEEL LIQUID (B)

- Can be cast over models for accurate detail reproduction when making holding fixtures, light-gauge forming dies and molds
- Ideal leveling compound for machinery and equipment

## C PLASTIC STEEL 5 MINUTE PUTTY (SF)

- Fast-curing, steel-filled, epoxy for emergency repairs
- Cures to a tough material that can be machined, drilled, tapped, or sanded

## D ALUMINUM PUTTY (F)

- For non-rusting repairs to aluminum castings, machinery and equipment
- Resists chlorofluorocarbons as well as other chemicals

## E ALUMINUM LIQUID (F-2)

- Aluminum-filled pourable epoxy
- Makes molds, patterns, holding fixtures, cosmetic casting repairs
- Low viscosity permits reproduction of delicate or intricate parts

## F STAINLESS STEEL PUTTY (ST)

- Ideal for patching, repairing, and rebuilding stainless steel food processing equipment
- Non-rusting, bonds to ferrous and non-ferrous materials
- Approved for USDA and FDA inspected plants

## G WEAR GUARD FINE/HIGH LOAD

- Ceramic bead-filled abrasion resistant epoxy
- Easy to mix and apply by trowel
- Excellent resistance to sliding abrasion
- Temperature resistance to 300° F
- Designed for particulate size less than 1/8″ in diameter

## H BRUSHABLE CERAMIC BLUE/WHITE

- Ceramic bead-filled abrasion resistant epoxy
- Easy to mix and apply by trowel
- Excellent resistance to sliding abrasion
- Temperature resistance to 300° F
- Designed for particulate size less than 1/8″ in diameter

ADHESIVES

FEL-PRO LOCTITE PERMATEX INDUSTRIAL

A B C D E F G H I J K L

## A GENERAL PURPOSE ADHESIVES

**Adhesive bonds rubber, metal, ceramics, plastics**
**Excellent replacement for two-part epoxies**

## B RUBBER AND PLASTIC ADHESIVE

**Bonds rubber parts such as O-rings, belts, bumpers, and cushions**

## C METAL BONDING ADHESIVE

**Excellent for bonding close fitting metallic parts**
**Fills gaps to 0.005"**

## D PLASTIC AND VINYL ADHESIVE

**High strength adhesive ideal for bonding plastic and vinyl**
**Good humidity and weather resistance with gaps to .006"**

## E GAP FILLING ADHESIVE

**Slow setting high viscosity adhesive ideal for irregular surfaces or large gaps up to .008"**

## F GEL ADHESIVES

**Super Bonder® non-flowing gel fills gaps on irregular or porous surfaces and poorly matched parts; surface insensitive**
**Prism® 454 industrial grade formula for general purpose use on metal, plastic, and rubber**
**Gelmatic® Dispenser precisely applies non-run gel without any mess; keeps fingers glue free**
**Use on steel, plastic, leather, rubber, cork, paper, wood**

## G HIGH IMPACT ADHESIVE

- **General purpose adhesive provides very high impact, thermal shock and moisture resistance**
- **Excellent resistance to peel and impact**

## H FAST CURE INSTANT ADHESIVE

- **Adheres to difficult-to-bond surfaces like rough, porous and acidic**

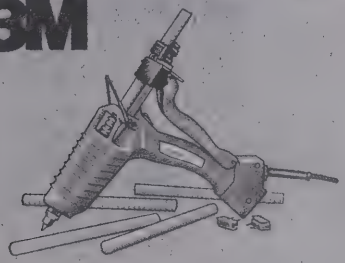
## I PENETRATING ADHESIVE

- **Designed to penetrate pre-assembled components**
- **Capillary action, no disassembly required**
- **For metal and most plastics**

## J LOW ODOR ADHESIVE

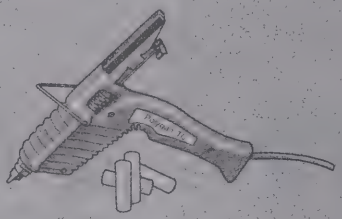
- **Low odor formulation eliminates need for ventilation**
- **Excellent strength**
- **Appearance sensitive assembly**

## K CIRCUIT BOARD ADHESIVE



- **For mounting, reinforcing and repair of wire tacking and printed circuit board assembly and repair**

## L CLEAN-UP SOLVENT



- **Use solvent to quickly and safely dissolve instant adhesives in between parts and/or on surfaces**

# ADHESIVES AND APPLICATORS

A No. 5E123

B No. 5E124

C No. 3XH55

## A POLYGUN™ EC APPLICATOR

For higher volume hot metal adhesive dispensing. Features all electric applicator, provides multiple temperatures with choice of pre-set temperature Module Kits that fit into handle. Use with above adhesive in larger 5/8" quadrack shape.

## B POLYGUN™ TC APPLICATOR

High temperature applicator, delivers up to 3.5 pounds of Jet-Melt adhesive per hour. Features precise, even adhesive delivery, exclusive cartridge holder and non-fatiguing thumb operation. For use with above designated adhesives.

## C POLYGUN™ EC, TC BENCHSTAND

Durable benchtop stand for Polygun EC & TC applicators. Fo use with 5E123 Polygun™ EC and 5E124 Polygun™ TC.

## D BRASS EXTENSION TIP

For application of hot melt adhesive. Use with 5E123 Polygun EC and 5E124 Polygun™ TC.

### APPLICATOR ORDERING DATA

| Key | Item | Application | 3M Model | Stock No. | Each | Lots/ Qty. | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| A | Polygun EC Applicator | For wide variety of jobs. Use with Nos. 5E120 & 5E122 Jet-Melt Adhesive | Polygun™ EC | 5E123 | $324.00 | $291.43/3 | 2.7 |
| B | Polygun TC Applicator | Use with Nos. 5E119 & 5E121 Jet-Melt Adhesive | Polygun™ TC | 5E124 | 102.50 | 92.23/6 | 1.5 |
| C | Polygun™ TC Benchstand | Use with No. 5E123 Polygun™ EC & No. 5E124 Polygun™ TC | Polygun™ TC, EC, Benchstand | 3XH55 | 51.30 | 46.10/3 | 4.5 |
| D | .072" Brass Extension | Use with No. 5E123 Polygun™ EC & No. 5E124 Polygun™ TC | 9946 | 3XH56 | 33.05 | 29.71/3 | 0.1 |

## FIRE STOP CAULK AND ACCESSORIES

### A INTUMESCENT SEALANT

Two-stage expansion offers fast acting protection for combustible penetrants. Stops flame and smoke from spreading through walls and openings. Won't re-emulsify after curing; stays flexible. UL Classified; FM Approved.

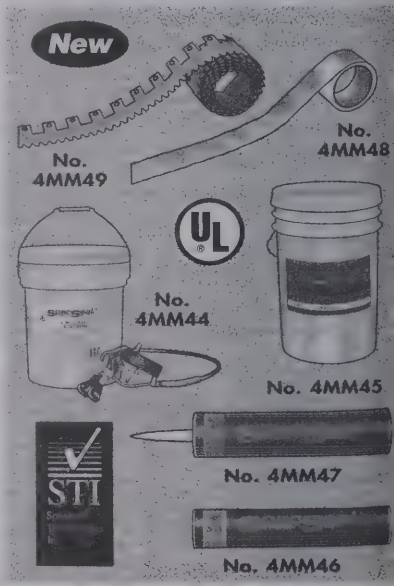
### B INTUMESCENT EXPANSION PUTTY

Easy to install. Mold & roll with your hands and install. Never hardens or cures. for easy retrofits. UL classified; FM Approved.

### C ELASTOMERIC FIRESTOP SPRAY

Non-halogenated, latex-based, non-toxic elastomeric coating. When cured it forms a flexible shield against the propagation of fire. UL classified.

### D MORTAR



Economical, lighweight portland cement-based firestop. Ideal for filling large openings in concrete floors and walls. Yields approx. 1,250-1,425 cu-in. UL classified.

### E INTUMESCENT EXPANSION WRAP STRIP

Used to firestop plastic or insulated pipe. Must be used with 4MM48 when installed in tuck-in fashion or with 4MM49 when externally mounted. UL classified.

| Key | Description | Size | STI Model | *New!* Stock No. | List | Each | Shpg. Wt. |

Excellent for woodworking and cabinet shops. | Polygun™ TC & CC (5E123) | Wood, woodlike products | 40 | 8 | 435 | 300 | 0 to 130 | 3778-LM-Q Tan | **3XH46** | **78.40** | **70.48** | 12.0 |

Includes Polyethylene, Polystyrene, Polypropylene, Powder paints.

# ADHESIVES

## [A] SUPER 77 SPRAY ADHESIVE

High coverage, fast-drying, transparent. Meets MMM-A-10558B specifications.

## [B] 80 CONTACT NEOPRENE ADHESIVE

High strength, plasticizer resistance, low misting, meets MMM-A-130B specifications and MIL-A-24179A.

## [C] SPRAY 90 HI-STRENGTH ADHESIVE

One minute dry time, meets MMM-A-130B specifications.

## [D] INDUSTRIAL SPRAY ADHESIVE

Economical, industrial grade, general purpose.

## [E] 74 FOAM FAST ADHESIVE

Fast tack, foam-tearing strength, soft, non-dimpling glue line, low misting, precise spray control, variable width spray.

## [F] GENERAL PURPOSE SPRAY ADHESIVE 201

Water-based, low VOC which complies with Southern California Aerosol Adhesive VOC limits, non-flammable, provides bonding strength and heat resistance comparable to a solvent-based product.

# GENERAL ADHESIVES

### [A] SCOTCH-GRIP™ 847 RUBBER AND GASKET ADHESIVE

igh strength medium viscosity. Heat and olvent reactivatable.

### [B] SCOTCH-GRIP™ 1300 RUBBER AND GASKET ADHESIVE

eat resistant for rubber and metal, brush, ray, or roll coat, fast drying.

### [C] SCOTCH-GRIP™ 1357 HIGH PERFORMANCE CONTACT ADHESIVE

apid strength build-up, neoprene based, an be brushed or spray coated. Meets IL-A-21366A and MMM-A-121.

### [D] SCOTCH-SEAL™ 2084

luminum color, brush or flow applica- on, hand caulking gun may be used. esists weather, water, oil and gasoline.

### [E] 30NF FASTBOND™ CONTACT ADHESIVE

ater dispersed, high-strength, that anges color from blue to green when y. Also available in a neutral color. High coverage, long bonding range, good heat resistance. Meets requirements of MIL-A-24179-A. Apply with spray, roller, brush. Non-flammable in the wet state. Low VOC content

### [F] 42 PLUS NV FASTBOND™ INSULATION ADHESIVE

Black, fast tacking with resistance to elevated temperature and humidity. No VOC content. Non-flammable in the wet state. Great wet strength, rapid tack build-up. Applied with spray, brush/hand roller.

### [G] 4323 FASTBOND™ CONSTRUCTION MASTIC

High performance, versatile gray adhesive, resists water, heat, and dead load creep. Applied with caulk, flow, or trowel.

### [H] 4475 SCOTCH-GRIP™ PLASTIC ADHESIVE

A clear, fast-tacking general purpose adhesive that dries rapidly to a firm bond. Resists water, plasticizers, detergent, soap solutions, oils, and grease. Application method, flow.

### [I] 1099 SCOTCH-GRIP™ PLASTIC ADHESIVE

Light tan, fast-drying, resists weathering, water, oil, plasticizer migrations, aliphatic fuels. Meets MIL-A-13883B. Bonds made with it exhibit high strength.

COMPLETE INDEX AT BACK OF CATALOG WILL HELP YOU QUICKLY LOCATE YOUR NEEDS

# CAULKS AND SEALANTS

## A DYNAFLEX 230 ADVANCED LATEX SEALANT

- Performs like silicone with latex ease-of-use
- Paintable, odorless, cleans up with water
- Forms long-lasting, permanently flexible, watertight and weatherproof seal; 50 year durability guarantee
- Withstands 50% total joint movement
- Meets Federal Spec. TT-S-002300C, Type II, Class A, and ASTM SOEC-920, Class 25

## B ALEX® PAINTER'S ACRYLIC LATEX CAULK

- Multi-purpose 25 year painter's caulk
- Paintable in 30 minutes with latex-based paints

## C KWIK SEAL TUB & TILE CAULK

- Forms watertight, mold-resistant seal around tubs, sinks, and shower stalls
- Resets loose tile

## D URETHANE SEALANT

- Single component, gun grade urethane
- Caulk cures to a tough, flexible, waterproof material
- Excellent resistance to weather, stress, and movement
- Meets USDA approval

## E KWIK FOAM®

- One component polyurethane expansion foam
- Fills/seals large cavities, stops air filtration; won't shrink
- Contains flame retardant
- Tan color

## F SILGLAZE® II CONSTRUCTION SEALANT

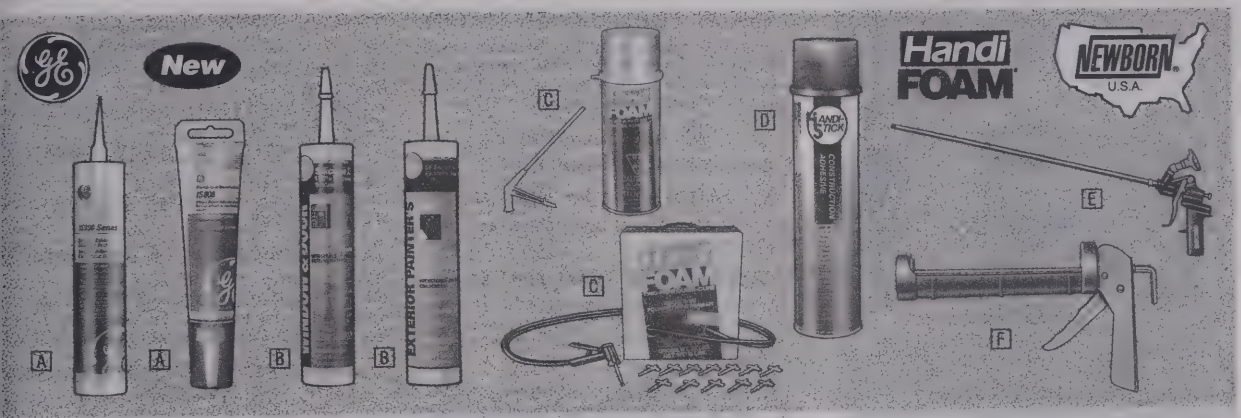
- Professional glazing sealant
- Tested to AAMA and ASTM specifications
- Primerless adhesion to wood, anodized aluminum, glass, PVC, and more
- 6-12 minute tooling time; flexible
- Temperature range: 80-300°F

## G WINDOW/DOOR 100% SILICONE RUBBER SEALANT

- Watertight and weatherproof with minimum shrinkage
- Long-lasting; remains flexible
- Available in handy tubes

## H MILDEW-RESISTANT SILICONE II SEALANT

- Low odor, watertight, and permanently flexible
- Won't shrink or yellow
- Available in handy tubes



## I CONTRACTORS® SCS1000 SEALANT

- Primerless adhesion to glass, metals glazed surfaces, and many plastics
- UV- and weather-resistant
- Tested to ASTM and federal specifications
- Temperature range: -40 to 400°F
- Non-corrosive

(*) For DAPTex Latex Foam Sealant No. 4UK97, see page 1796.

# CAULKS, SEALANTS, AND CAULK GUNS

## A GENERAL PURPOSE INDUSTRIAL ADHESIVE SEALANT

Provides excellent sealing and bonding protection for equipment and building maintenance applications
Paste consistency material with room temperature cure for easy application and quick set-up time
Recommended for application requiring UL recognition
Provides excellent electrical insulation
Certified with FDA compliance and NSF status
Seals out dirt, dust, moisture, and environmental contaminants

## B SILICONE II 100% SILICONE SEALANT

Excellent adhesion for indoor/outdoor use
Watertight, weatherproof and won't shrink or yellow
Tested to federal specifications
Non-corrosive and UV resistant

## C HANDI-FOAM (STRAW FOAM)

- Expanding polyurethane foam ideal for filling holes and insulating
- Self-contained dispensing system

## C GUN FOAM SEALANT

- Controlled dispensing system in conjunction with Dispening Gun and Gun Foam Cleaner

## C DISPENSING GUN

- Reliable reusable performance
- Precise metered flow
- For use with No. 4KK27

## D HANDI-SUBFLOOR ADHESIVE

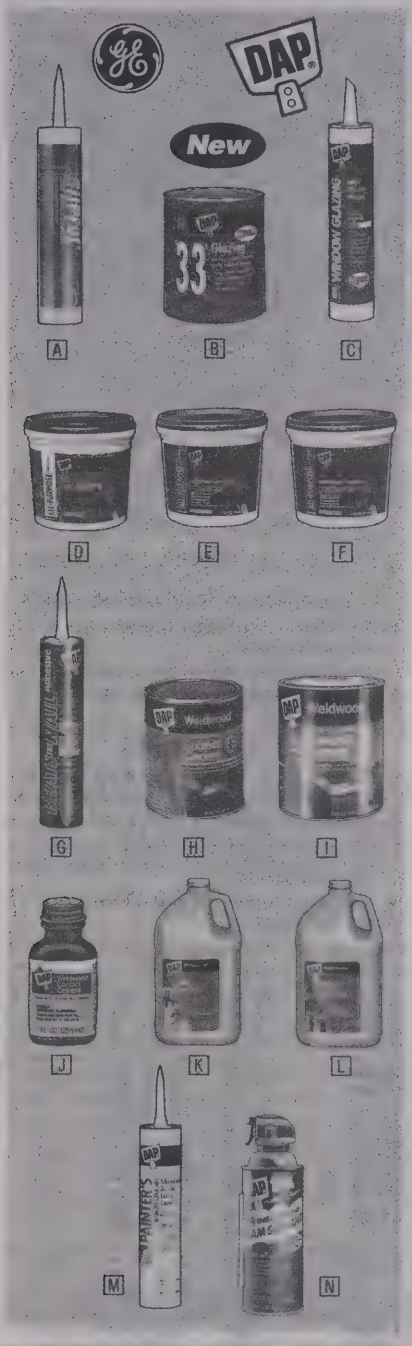
- Specially designed for subfloor construction
- Replaces up to 10 quart tube of adhesive
- Contains no VOCs
- Easy to dispense in cold weather
- Reduces squeeks, nail pops and sound transmissions
- AFG01 and ASTM D-3498 approved

## D HANDI-STICK CONSTRUCTION ADHESIVE

- Multi-purpose polyurethane adhesive
- Adheres frameboards, wall paneling, FRP panels, plywood and construction panels
- C557-93 and CGSB 71.25 approved

## E DISPENSING UNIT/FOAM GUNS

- For dispensing polyurethane foam and adhesives
- Reliable reusable performance
- Provides longer reach, precise metered flow



## F CAULK GUNS

- For use with 10.3 oz. and 29 oz. cartridge caulks, sealants and adhesives
- Durable, welded, all-steel construction
- Smooth rod guns have patented E-Z Thrust mechanism for smooth action, reduced effort
- Industrial guns are zinc-chromate plated for long life

# CAULKS AND SEALANTS

## A SilPruf® CONSTRUCTION SEALANT

Professional grade weather sealant tested to ASTM and Federal Specifications. Up to 30-minute tooling time. Long life. Adheres to Common Building Surfaces.

## B '33'® GLAZING

For glazing wood and metal sash.

## C LATEX WINDOW GLAZING

For wood, metal, and aluminum sash. Self-tooling spout.

## D ALL PURPOSE VINYL SPACKLING

Ready mix patching compound. For use with stucco, concrete, brick, wood, plaster, and drywall surfaces. Interior/exterior use. White color.

## E FAST N' FINAL™ ALL PURPOSE EXTERIOR LIGHTWEIGHT SPACKLING

No sanding or shrinkage. For use with stucco, concrete, brick, wood, plaster, and drywall surfaces. Interior/exterior use. White color.

## F LATEX WOOD DOUGH

Fills in cracks, dents, scratches, nail holes, and chips in wood surfaces. Holds nails and screws without cracking or crumbling. Can be sawed, drilled, painted; accepts stains.

## G BEATS THE NAIL® CONSTRUCTION ADHESIVE

Superior bonding strength. Exceeds ASTM C557-73 specifications.

## H WELDWOOD™ ORIGINAL CONTACT CEMENT

Fast, high strength bonding to a variety of surfaces. No clamping required. Meets MMM-A 130B performance requirements.

## I NON-FLAMMABLE CONTACT CEMENT

Provides superior adhesion. Neoprene rubber technology. Cleans up easily with water. Spreads easily - post formable. Low V.O.C. formula.

## J BOTTLED CONTACT CEMENT

For home, office, or workshop. Bonds on contact, without clamps. High strength, water resistant.

## K WELDWOOD™ PVA GLUE (WHITE)

High Quality PVA glue sets fast, dries clear. Bonds porous and and semi-porous materials; no harmful solvents or fumes. For use in home, shop, school, and office.

## L WELDWOOD CARPENTER'S GLUE (YELLOW)

For cabinetry, furniture making, edging and woodworking projects. Resists oil, grease, gasoline, paint solvents. Sets fast, grips tight, sands easily.

## M SILICONIZED ACRYLIC LATEX CAULK

Fast drying, tools easily, cleans up with water. Contains silicone to promote adhesion, flexibility, and water resistance. Exceeds ASTM Specification C-834-76. Interior/Exterior use. 35 year durability.

## N DAPTEX™ LATEX FOAM SEALANT

Water clean-up foam. Toolable, moldable, flexible, durable. Controlled expansion. Reusable product—non-clogging applicator. Interior/Exterior use. Seal and insulate pipes, heat, and AC ducts, electrical outlets, windows and doors, cables and faucets.

# OUTSIDE MICROMETERS

## STARRETT OUTSIDE MICROMETERS

icrometers feature forged frames, ribbed for extra strength, have black enamel finish nd are tapered for use in narrow slots and tight places. Satin chrome finish on sleeve nd thimble. Staggered lines and distinct figures on sleeve. Quick-reading figures on imble with every thousandth numbered. Micro-lapped finish on anvil and carbide mea-ring faces (except 4F137). One-piece hardened spindle with threads ground from the olid and stabilized one-piece frame. Easy-to-read balanced thimble diameter with con-enient decimal equivalents. 230 series has a full finish frame.

# DIGITAL, BLADE-TYPE, AND INSIDE MICROMETERS

## DIGITAL MICROMETERS

Digital micrometers feature carbide measuring faces for long life. Direct digital readout for fast accurate reading up to 0.0001" graduations. Counter reads to 0.001". Starrett and Fowler models feature a lock nut mechanism to secure the spindle at any reading. Mitutoyo uses a spindle lock. Nos. 5C691 and 3T128 include a standard to monitor instrument setting.

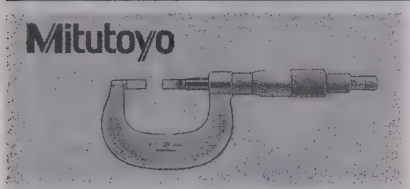
## STARRETT BLADE-TYPE MICROMETER



Blade-type anvil and spindle for measuring circular form tools, diameter and depth of narrow grooves, slots, keyways, recesses, shallow depths, and between lands and fins. Range 0-1" with 0.001" graduations. Nonrotating spindle prevents blade turning. Blades 0.030" thick, measure depths to 5/16". Speeder on end of thimble for faster settings and measurements. Specially forged, black enameled frame with satin chrome finish on sleeve and thimble. Starrett brand (486P-1).

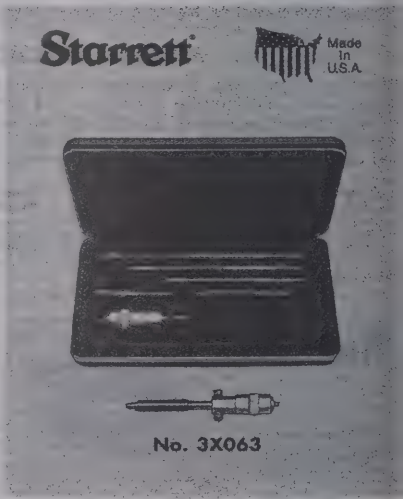
**No. 4F291.** Shpg. wt. 0.6 lbs. Each ..... **$226.50▲**

(▲) Net prices, not subject to discounts.

## MITUTOYO BLADE-TYPE MICROMETERS

For measurements of narrow grooves, keyways, and other hard-to-reach dimensions. Range 0-1" with 0.001" graduations with quick zero adjustment on the sleeve. Features 0.030" blade thickness, decimal equivalents marked on frame, and nonrotating spindle. Mitutoyo brand (122-125).

**No. 5C692.** Shpg. wt. 0.9 lbs. Each..... **$205.00▲**



(▲) Net prices, not subject to discounts.

## SOLID ROD INSIDE MICROMETERS

Available in two sizes with overall range from 2 to 12" and 0.001" graduation. Measuring rods are solid and have thermal insulators. Each rod has individual length adjustment for anvil by means of special wrenches furnished. All contact surfaces on both rod and head anvils are hardened and ground. Quick, easy adjustments for taking up wear in micrometer screw is also provided. Useful for measuring inside diameters of cylinders and ring or measuring parallel surfaces. Case included.

## TUBULAR INSIDE MICROMETERS

Available in two sizes which measure down to 1½" minimum, with extension rods up to 12" maximum, inclusive. Graduation of 0.001". Extension rods made of steel tubing, centerless ground. Rods approx. 3/8" dia., have thermal insulators. Each rod marked with length and may be individually adjusted for wear by hardened and ground anvil at end. Used for internal linear measurements such as measuring cylinders, rings, setting calipers, comparing gages, and measuring parallel surfaces. Case included.

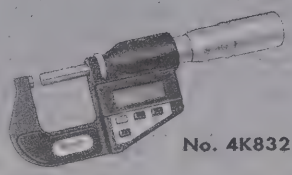
# ELECTRONIC DIGITAL MICROMETERS

## STARRETT ELECTRONIC DIGITAL OUTSIDE MICROMETERS



icrometers feature large, easy-to-read high-contrast LCD digital readout and are grad-ated to thousandths on sleeve and glare-free satin chrome thimble for conventional ading. Black wrinkle finish, ring-type knurled lock nut, hardened one-piece spindle nd microlapped carbide measuring faces. Friction thimble. All models feature zero at ny position, measurement hold button, Inch/mm conversion (except on mm only mod-s), and automatic off after 30 minutes of nonuse. Full function micrometers also fea-ure easy keyboard control with shift button, "Preset" button to install readings and any osition, and ability to install min./max. limits (except on mm only models). Output data or SPC analysis and documentation. Include battery (No. 5M308, over 1 year life with ormal use). All models (except Nos. 4K832 and 4K843) come in protective case.

## MITUTOYO DIGIMATIC SCREW THREAD MICROMETERS

asy and accurate way to measure pitch diameters of threaded parts. Features 0.00005" CD readouts and preset capability. Offers Inch/mm selection, ABS/INC mode for Zero et, and Automatic Off after 20 minutes. SPC output for data recording and analysis; rder connecting cable, No. 5C744 or 5C745, separately. Includes battery (SR44) Anvils ot included, order set of anvils No. 5C760 separately. No. 5C760 anvil attachment set overs ranges of 64-3 inch and 0.4-7.0 metric.

| Range (In.) | SPC Output | Mitutoyo Model | Stock No. | Each | Shpg. Wt. |

## MITUTOYO DIGIMATIC MICROMETERS

igimatic micrometers are an upgrade to the traditional outside micrometer and allow or quicker and more accurate measurements of O.D. (outside diameter) work. ushbutton controls turn the micrometer On and allow operator to set the LCD display o zero at any point along the range. 0.00005" LCD readouts. Preset capability to any esired measurements. Instant In./mm conversions of any displayed reading. Precise ernier scale on the thimble. Carbide tipped measuring faces (anvil and spindle) for reater durability. Automatic power-off after 20 minutes of idle time. Two year battery fe under normal use. Include battery (No. 5U014), key spanner, and fitted carrying ase.

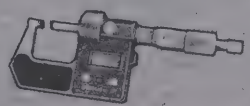
## FOWLER ELECTRONIC "DIGITRIX II" MICROMETER



-1"/25mm Micrometer with large LCD easily read to 0.0001" (0.001mm) and a 0.00005" ndicator. Features true inch/metric conversion and absolute/relative modes to allow easurements of true size or comparison measurements of part to master. Hold feature olds value in the display. Output allows connection to a printer, computer, or data col-ector. Self-contained power of 3000 to 5000 hrs; auto-off after 5 minutes of nonuse. Also eatures carbide-tipped anvils, satin chrome finish, ratchet thimble, and locking knob. ncludes fitted case and two silver oxide button-type, 1.55V high drain batteries. Fowler rand (54-905-251).

# DEPTH, ANVIL, AND DISC-TYPE MICROMETERS

## STARRETT DEPTH MICROMETERS

Depth of holes, slots, shoulders and projections can be measured to .001". Both sleeve and thimble have no-glare satin chrome finish. Screw is precision ground and has a 1" movement. Lock nut holds setting at the precise measurement desired. Bases are hardened, ground and lapped for long-lasting precision. Measuring rods have individual length adjustment and are hardened, ground and lapped on the end measuring faces. Furnished in case with 1/8" diameter measuring rods.

Nos. 4F235 and 4F237 depth gages have a nonrotating, blade-type rod approx. 0.045" thick x 1/8" wide. By holding base in one hand blade can be turned with the fingers and positioned at any angle relative to the base. Blade does not turn, but moves perpendicularly only, permitting depth measurement of narrow shoulders without the blade rolling off.

| Range (In.) | Base Length (In.) | No. of Rods | Ratchet Stop | Starrett Model | Stock No. | Each | Shpg. Wt. |

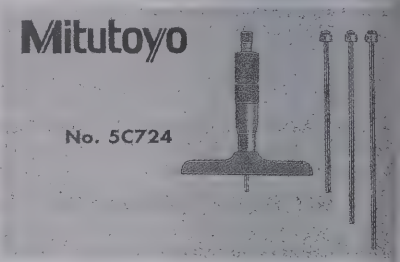
| **0-6** | 2½ | 6 | Yes | 449AZ-6R | **4F237** | **194.00▲** | 1.4 |



Replacement Parts Available 1-800-323-0620

## MITUTOYO DEPTH MICROMETERS

Extra-rigid depth micrometer is one of the basic measuring tools selected by machinists for depth measurements of stepped parts or heights of parts from reference surfaces. Entire bottom surface is micro-lapped to achieve a higher degree of accuracy with a satin-chrome finish throughout. Features 0.001" graduations and ratchet stop for consistent and repetitive measurements. Interchangeable rods have 0.157" diameter with lapped measuring end and are calibrated and tested. Rod length can be adjusted to compensate wear on the measuring tip with two supplied wrenches. Complete with case.

| Range (In.) | Base Length (In.) | No. of Rods | Mitutoyo Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **0-4** | 2½ | 4 | 129-127 | **5C722** | **$127.25▲** | 1.5 |

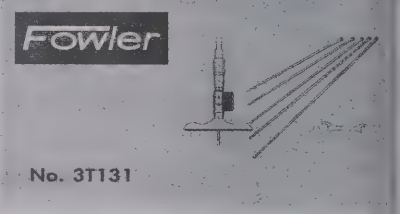
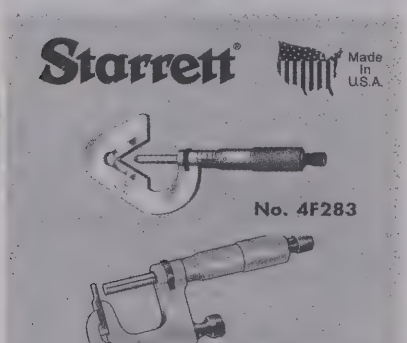
| **0-6** | 4 | 6 | 129-132 | **5C724** | **165.75▲** | 1.6 |





## FOWLER DEPTH MICROMETERS

Constructed of tool steel, hardened, precision ground, and microlapped. Threads are hardened, ground, and lapped for accuracy; screws are precision ground and lapped. Rods have a 0.168" diameter and a 1" measuring range. Feature microfine graduations to 0.001", ratchet stop thimble, and quick, easy zero adjustment. Meet or exceed federal specifications for accuracy. Include spanner wrench and case.

| Range (In.) | Base Length (In.) | No. of Rods | Fowler Model | Stock No. | Each | Shpg. Wt. |

## STARRETT V-ANVIL MICROMETER

For checking out-of-roundness in centerless grinding and other machining operations for measuring odd-fluted taps, end mills, reamers. Carbide facings on spindle and anvils Anvils match index of cutter teeth. Hardened, ground-from-solid spindle threads fo accurate, direct, quick reading. Satin chrome finish. Every thousandth numbered.

## STARRETT MUL-T-ANVIL MICROMETER

Interchangeable anvils permit quick, accurate measurement of tubing, cylindrical walls from a hole or slot to an edge, and in hard-to-reach places. Two anvils furnished: round anvil approx. 0.120" diameter and flat anvil approx. 0.125" and 0.060" thick. Anvils held in vise-type frame and quickly interchanged by single lock screw. Frame accommodates special anvils up to 5/16" thick. Can be used as height gage by removing vise jaw. No glare satin chrome finish resists rust. One-piece, extra-rigid carbide faced spindle and hardened, ground-from-the-solid spindle threads.

## STARRETT DISC-TYPE MICROMETER

Anvil and spindle discs, 1/2" diameter and 1/16" thick at center tapering to 0.015" edge thickness, enter narrow grooves, slots and recesses to measure work sections as ribs lands, fins; cutting edges on forming tools; and chordal thickness of gear teeth. 0-1" size is useful for measuring the thickness of paper, cardboard, rubber and sheet plastic Satin chrome finish on reading surfaces.

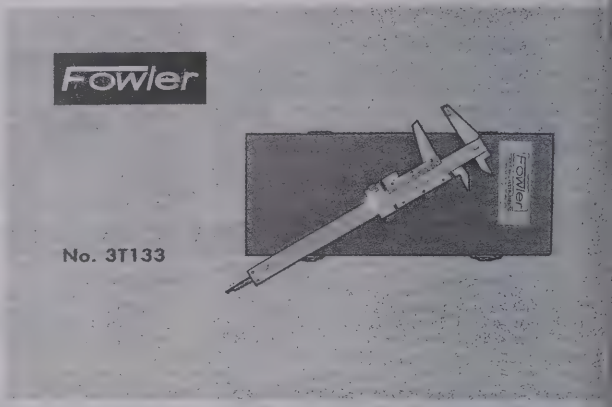
# CALIPERS AND DRIVE PIN PUNCHES



## FOWLER INCH AND METRIC VERNIER CALIPERS

- **Measures in inches or metric with vernier scales of 0.001" and 0.02mm**
- **Meet or exceed U.S. federal specifications for accuracy**

Four-way jaws for outside, inside, depth, and stop measurements. Measuring faces are ground and lapped for accuracy. Calipers are made of hardened stainless steel with microfine back graduations on satin chrome finish for easy, precise readings. Feature fine adjustment and extra-long vernier. All sliding surfaces are raised to prevent marring and wear of graduations. No. 3T133 offers depth feature that can be read directly from verniers. Include fitted case.

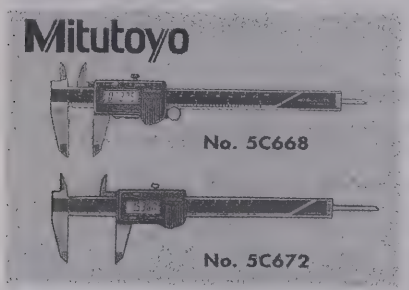
# ELECTRONIC DIGITAL CALIPERS

## STARRETT ELECTRONIC DIGITAL CALIPERS

- **Only electronic calipers made in America**
- **6" (150mm) linear accuracy ±.001" (0.03mm)**
- **Resolution .0005" (0.01mm)**
- **Hardened, stainless steel body**
- **Fine adjust for tighter measurements and slide lock for holding position**

**Electronic calipers** are offered in basic or full function versions with or without data output capability for SPC analysis and documentation. Feature large, easy-to-read LCD digital display, inch/mm conversion (except No. 4K956), both zero and hold readout at any position, and automatic off after 15 minutes of on/off use. Batteries (over one year of life with normal use) and instructions included.



**Full Function Models** feature easy keyboard control by using a shift button, "limits" button to enter high/low dimensional limits (out of limits readings will flash on display), manual on/off, and output capability to Starrett computer hardware and data collection systems for SPC analysis and documentation.

## MITUTOYO DIGIMATIC CALIPERS

**Stainless steel and rugged construction** with rolling thumb wheel. Control switches include Zero, On/Off, and Inch/mm. Nos. 5C668 and 5C670 produce SPC output for data recording and analysis (order connecting cable No. 5C739 or 5C740 separately for No. 5C671). No. 5C672 features enlarged LCD and control buttons on face. The Absolute Digimatic Caliper offers special functions which allow it to always remember its measuring position even after the gauge has been switched off.

## FOWLER ELECTRONIC CALIPERS

- **Include fitted case and battery**
- **True inch/metric conversions**

### "MAX-CAL" ELECTRONIC CALIPERS

Powerful (LSI) microchip allows full size computer functions in a small, portable tool. Three modes: limit, peak, and data output. Outside jaws are 1.57"/40mm; inside jaws 0.670"/17mm. Four-way measurements; inside, outside, depth and step. Holds measurement in the display. Two-stage auto off: displays off after 4.2 minutes, final/memory off after 33.6 minutes. Body is hardened stainless steel; black scale divisions of satin chrome.

### "ULTRA-CAL III" ELECTRONIC CALIPERS

Allow direct input from gage to a computer; output is for SPC applications. Noncontact linear measuring is insensitive to magnetic and electrical interference; also oil, dust, and chip resistant. No. 3T148 has four-way measurement only. Features floating zero and low-drain, high efficiency lithium-wafer battery. Battery offers 5000 hrs. of continuous use. Frame, jaws, and depth rod precision ground of hardened stainless steel. Fast measuring speed: up to 60" (1.5mm) per second. No. 3T149 features heavy-duty style frame.

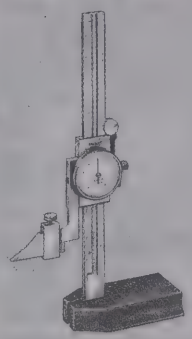
# HEIGHT AND DEPTH GAGES

## STARRETT HEIGHT GAGE

asy-to-read hardened stainless steel 6" dial height gage has 001" graduation. Thumb roll provides rapid travel and fine djustment. Knurled thumb screws lock the movable side and djustable indicator dial at any setting. Special hardened and round base is notched and allows reading from zero baseposi-on up to 6".Comes complete with hardened ground scriber point nd scriber carrier. Starrett brand (250-6).

**o. 4K557.** Shpg. wt. 1.8 lbs. Each.....$300.25▲

## HEIGHT TRANSFER GAGE



or use with test indicators or electronic amplifiers to accurate-transfer height settings from gage blocks, digital height gages r other standards. Extremely rigid, rectangular box-type hollow olumn mounted integrally on heavy base. Bottom of base has ree ground and lapped pads for stability and smooth movement n surface plate. Entire dovetail and slide unit has fine vertical djustment of approx. 3/8" relative to fixed column. Adjusting echanism is located in base, so vertical column and indicator re isolated and not affected by heat or hand pressure.

snug on slide provides two holes: 0.375" and 0.156" diameter or holding gage rods or scribers. 9" rod furnished with gage has ajor diameter of 0.375" and two stepped diameters of 1/4" and /32" at one end and 5/16" at opposite end. Range is 0-14": urnished with 9" rod and gage holding rod in finished case. tarrett brand (252Z-14).

(▲) Net prices, not subject to discounts.

## TELESCOPING GAGE SETS

Gages are used for determining true size of holes, slots and recesses. Plunger or gage expands in hole to be measured, locks in place, then gage is removed from hole; final hole size is obtained by measuring over contacts with a micrometer. Constant spring tension gives uniform contact pressure and both plungers are easily locked at any setting by a slight turn of the knurled screw in end of handle. Ends of both contacts are hardened and precision ground on the measuring radius end.

### STARRETT 4-PC. TELESCOPING GAGE SETS

Four measurement ranges: 5/16-1/2", 1/2-3/4", ¾-1¼", and 1¼"-2⅛" in case. Starrett brand (S579GZ).

**No. 4G733.** Shpg. wt. 0.2 lbs. Each ..... **$86.40▲**

### MITUTOYO 4 AND 6-PC. TELESCOPING GAGE SETS

Satin chrome finished gages come in fitted carrying case.

**No. 5C718.** (155-907) Covers a 5/16 - 2⅛" range. Shpg. wt. 0.7 lbs. Each ..... **$81.30▲**

# DIAL TEST INDICATORS

### UNIVERSAL DIAL TEST INDICATORS

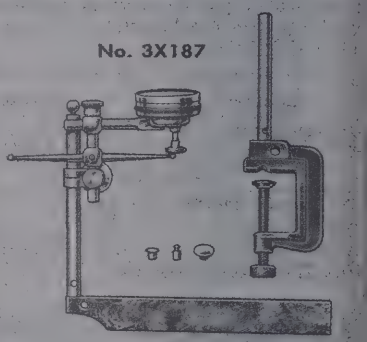
Universal dial test indicator adjusts to any angle. The slightest pressure on contact point produces a movement of hand on dial. Indicator comes with three hardened contact points which allow any outside surface to be checked including cutters, gears, and racks. Attachments included with 3X187. Tool post holder with sleeve is used in lathe work. Sleeve is used on 5/16" diameter surface gage spindles. Clamp attaches the indicator to lathe and planer tools and milling arbors. Hole attachment lets the indicator be used over obstructions and inside holes to a depth of 1⅝".
Dimensions: Tool post holder is 3/8 x 3/4 x 6" with upright spindle 5/16" diameter x 4½"; dial indicator stem is 1/4" diameter x 1½"; clamp is 5/16" diameter post with 1⁵⁄₁₆" capacity flat or round.

### LAST WORD® DIAL TEST INDICATORS

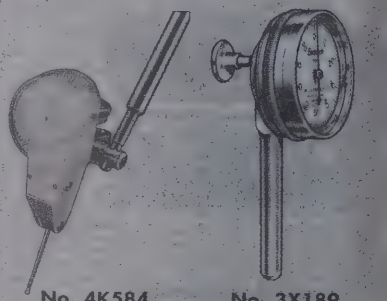
For precise measurements in machining, layout, checking and inspection work. Indicator attachment on end of body adapts indicator to jib borers, milling or boring machines. Ball swivel joint adjusts to sweep any hole or surface within its range. Universal shank attaches to end of indicator attachment adapting indicator to all Starrett Model 254 vernier height gages, as well as to lathe tool posts and milling machine arbors. Features jeweled lever for extra smooth indicator action; a switch lever on body to reverse action; hard chrome-plated 0.120" diameter ball contact point with ratchet joint for instant movement to any position; an adjustable 15/16" diameter dial; and a removable inspection hole cover screw for minor adjustments. Each indicator is furnished with three hardened steel, chrome plated contact points, complete in protective case. 4K168 includes double-jointed attachment, long and short arm, coupling, body snug complete, indicator attachment complete with shank, gooseneck shank, rubber dust guard, surface gage attachment, height gage attachments, and 3 contact points—.035", .062", and .120".

### SWIVEL HEAD DIAL INDICATOR

Indicator with unique swivel head positions at any angle between 0 and 90°. Horizontal, vertical and 45° dial indicator all in one. Contact lever is automatically reversible. Has jewel bearings and is compatible with most dovetail attachments. Contact is frictionally adjustable and reversing. Attachments include swivel clamp, dovetail body clamp, clamp sleeve, and holding bar. Case included.



### DIAL TEST INDICATORS WITH DOVETAIL MOUNTS



Feature large, easy-to-read, angled dial faces (1.35" O.D.) which provide ease of reading. Long 13/16" contact and narrow body provide inreach versatility. Standardized dovetails work with dial test indicator accessories. Has jeweled movement and rotatable bezel. Precision gear driven design and precision machined body. Clockwise hand rotation; contact point reverses automatically. Frictionally adjustable contact. Attachments include swivel post snug, dovetail body clamp, clamp snug, and holding bar.

### DIAL TEST INDICATOR WITH DEEP HOLE ATTACHMENT

Back plunger indicator includes a detachable deep hole attachment interconnecting directly with main spindle for positive action. Attachment is for checking internal dimensions of a workpiece while in fixtures or machines and can be easily removed. 1¹¹⁄₁₆" diameter bezel and 0-100 continuous reading dial. Adjustable dial to set zero at any point opposite the hand. Indicator mounting rod measures 1/4" diameter x 3⅜" long. Back plunger stem is AGD 3/8" diameter x 5/8" long. Indicator is furnished with three different AGD contact points for use in most applications.

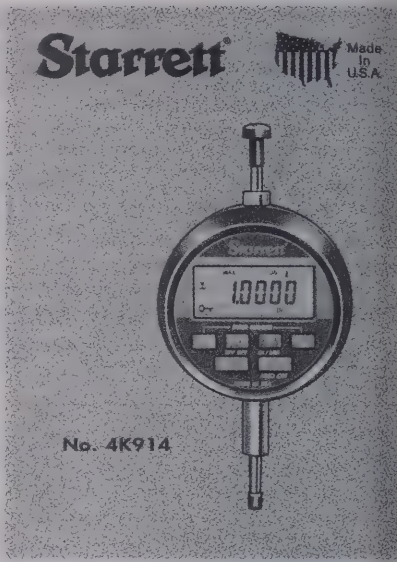
## TEST INDICATOR HOLDER

uickest way for fast, positive indicating. Fits Bridgeport type illing machines. Clamping diameter 1 7/8". Reach from 0-12" iameter. Suitable for all popular indicators with 5/32" shank or ovetail.

**lo. 3X146.** Shpg. wt. 0.8 Each.....$14.03

# ELECTRONIC DIGITAL INDICATORS

## WISDOM™ ELECTRONIC DIGITAL INDICATORS



User-selectable resolution feature: up to 10 resolutions available in one indicator.

**BASIC SERIES:**

- Instant inch/mm conversion
- Maximum reading hold
- Zero tool at any spindle position
- Rotating bezel
- Auto Off after 10 minutes of non use
- Serial number
- Three power sources
- Multiple data output/input choices

**PLUS SERIES-Same features as Basic Series as well as:**

- Minimum reading hold
- Hold button to freeze display
- Preset mode
- Floating reference
- Tolerancing
- T.I.R. display
- Feature lock

# MAGNETIC BASE INDICATOR HOLDERS

## MAGNETIC BASE INDICATOR HOLDERS WITH ATTACHMENTS

hree precision ground magnetic contact surfaces. Grips hori-ontally, vertically or upside down. V-step holds base to arbors, afts, and chucks. Push-button On/Off switch for one hand oper-ion. Magnetic base is 1 15/16H x 1 5/8W x 1 7/8"D. Black wrinkle fin-h on nonworking surfaces.

o. 4H029 **includes** magnetic base with upright base post, snug, eeve, rod, and indicator attachment. Indicator attachment is 4" O.D. one end and 1/4-20NC male threads opposite end with 8" O.D. shoulder between. Threaded end fits lug backs of all GD indicators and miniature indicators. Knurled cap holds indi-tors in desired position. Snug has 3/8 and 1/4" diameter holes. wo 1/4" diameter sleeve holes. Upright base post is 3/8" diame-r x 7 7/16" length overall. 1/4-20NC threaded end screws into mag-etic base. Rod has 1 /4" diameter x 6" long. Starrett brand 57AA).

o. 4H029. Shpg. wt. 2.0 lbs. Each.....$106.05▲

o. 4H077 **includes** magnetic base with post, snug, and rod. Extra 4-20NC tapped hole in one side of base (not shown) for mount-g post. Swivel post snug allows universal indicator adjustment o and down, to any vertical angle, in a complete circle, and any stance from base along gage holding rod. Snug has two 3/8" ameter holes. Features clamping mechanism for gripping lug ack of AGD dial indicators and miniature dial indicators. dicator may be set at any angle by loosening binding screw. od has 3/8" diameter x 9 1/2" long. Starrett brand (657D).

o. 4H077. Shpg. wt. 2.4 lbs. Each.....$123.85▲

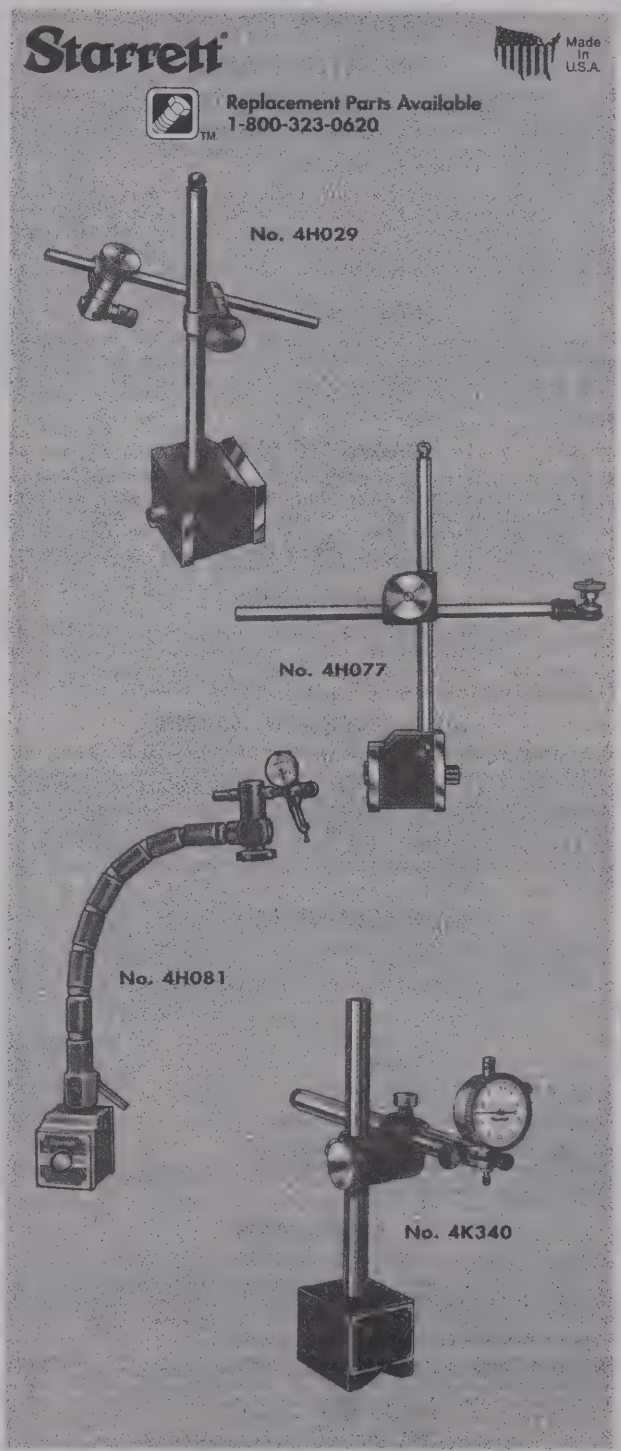
## LEX-O-POST INDICATOR HOLDER WITH MAGNETIC BASE

his assembly of short tubular steel sections and precision ball ints linked by an internal steel cable can be adjusted to any osition and locked by turning a lever near magnetic base. When cked, post becomes rigid, holding its position until locking ver is released. For using an AGD dial indicator or a dial test dicator in awkward or hard-to-reach places. Base has three pre-sion ground magnetic contact surfaces. Grips horizontally, ver-cally or upside down. V-step holds base to arbors, shafts, ucks. Assembled to magnetic base. Flex-O-Post has vertical ach of 14 15/16" and a horizontal reach of 9 3/4". Indicator snug can rotated through 360° and locked in any position by a knurled umb screw. Starrett brand (657T).

o. 4H081. Shpg. wt. 2.8 lbs. Each.....$143.45▲

## HEAVY-DUTY MAGNETIC BASE INDICATOR HOLDER WITH ROTARY ON-OFF SWITCH AND INDICATOR

age has powerful permanent magnet base that attaches to flat round surfaces. Swivel post snug positions dial indicator at y height and at any vertical or horizontal angle and provides r axial travel and rotation of gage rod. Indicator is held by readed stud through standard lug back secured with knurled t. Knurled thumb screw locks each gage adjustment, with final dicator setting accomplished by a fine adjustment at opposite d of gage rod.



second tapped hole in one side of base is for mounting upright st horizontally or adding another post for multiple inspection rk. Both swivel post snug and base have precision ground base ntact surfaces. Comes with (No. 4K340) or without (No. 4K545) D indicator (0.0005" graduation, 0-25-0 dial reading, 0.125" nge) with jewel bearings. Has a rotary On/Off switch and form ound involute V for accurate seating on round work up to 5" ameter.

mensions: Base 2 3/8 x 2 3/8 x 3"; upright post 9 3/8 x 3/4" diameter; ge rod 9 3/8 x 3/4" diameter.

o. 4K545. Includes base with upright post, swivel snug, gage rod, indi-tor clamp, fine adjustment, and threaded adapter (659A). Shpg. wt. lbs. Each.....$312.75▲

o. 4K340. Includes base with upright post, swivel snug, gage rod, indi-tor clamp, fine adjustment, threaded adapter, indicator, and case 59BZ). Shpg. wt. 13.0 lbs. Each.....$463.25▲

# MITUTOYO STANDS

## TRANSFER STAND

Holds indicator for comparative measurements for layout in inspection. Big, sturdy, enameled cast-iron base is precision ground stainless steel, micro-lapped with ground post mounted at perfect right angles to the base. Can be used with any AGD dial test indicator or AGD dial indicator.

Arm is easily rotated to position gage head over surface plate or anvil. Rapid preliminary positioning with coarse adjustment knob. Fine adjustment knob on stand head for zero settings. Universal adjustment in horizontal planes. 17" high column for wide range of work. Supplied with serrated anvil.

## DIAL GAGE STAND

Compact and versatile general-purpose stand for comparison measurements. Feature a wide fine-adjusting range for zero-setting gage heads. Designed for and accommodate all AGD-type dial indicators with 3/8" diameter stems. 5" maximum height capacity.

## MAGNETIC STAND

Accept all AGD-type dial indicators, test indicators and probes having 3/8" dia. shank and/or lug back with 1/4" dia. mounting hole. On/Off switch offers instant mounting and dismounting without any adverse effect to the indicator or work surface. Magnetic pull: 80 lbs. Supplied with 6" adjustable rod and universal clamp.

## FLEXI-STAND

Multi-position capability for measurements. Accepts all AGD 3/8" dia. stems. Dial indicators held by the stem; test indicators held by dovetail mount. Overall length is approximately 15". Permanent magnet with 80 lbs. pull and On/Off switch.

## MINI-MAGNETIC STAND

Very small magnetic stand permits use of dial indicators and test indicators in confined areas. Features fine adjustment. Square base will accept stems of 3/8" diameter and are furnished with sleeve for locking on stems of 8mm diameter. Stand also has fixture for mounting dial indicators with lug-on-center backs. Base dimensions: 1.3 x 1.3"; height 4.7". Stands have ball and socket joint and universal clamp for multi-positioning. Magnetic pull: 30-35 lbs.

## MINI-MAGNETIC STAND

For dial and test indicators with fine adjustment. For all AGD dial indicators with standard lug-on-center back. Supplied with 0.234, 5/16 and 7/32" dia. rods and clamp. Magnetic pull: 30-35 lbs.

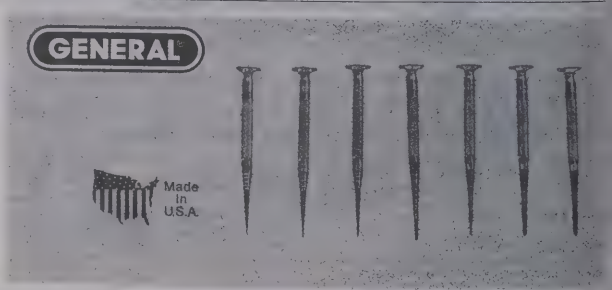
## STARRETT JEWELER'S SCREWDRIVER SET

6-Piece screwdriver set designed for delicate work. Steel bodies are knurled and nickel plated. Swivel knobs are concaved to fit the finger and hexagonal in shape to prevent rolling. High quality, properly tempered steel blades range in widths from 0.025 to 0.100" and can be securely locked with knurled chucks. Chucks are grooved to designate size of blade. Blades can be reversed in body for carrying in pocket. Overall length is 3¾", body diameter 1/4". Includes case. Starrett brand (S555Z-6).

**No. 4F305.** Shpg. wt. 0.3 lbs. Each.....$41.70▲

(▲) Net prices, not subject to discounts.



## GENERAL JEWELER'S SCREWDRIVER SET

**7-Piece set designed** with individual drivers is used by precision craftsmen, instrument makers or repairmen, subminiature parts assemblers, and tradesmen working on small apparatus or mechanisms. Nickel-plated blades, sizes: 0.100", 0.080", 0.070", 0.055", 0.040", 0.025" conform to government specification GGG-S-1808. Also includes No. 0 crosspoint blade (does not conform to GGG-S-1808).

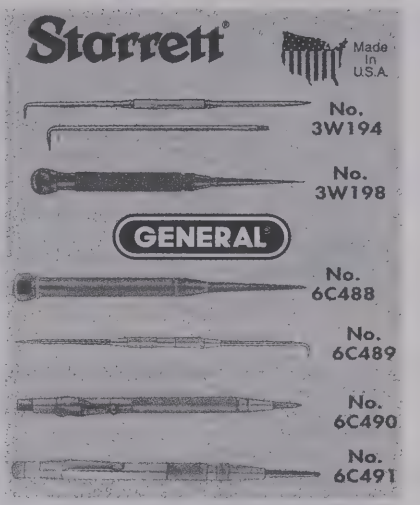
Screw chucks have positive lock for tight and precise blade grip, also each driver marked with identification ring grooves showing blade size. Overall length of each screwdriver is 3⅞". Plastic tube with screw-on cap for convenient storage. General brand.

**No. 1ATF1.** Shpg. wt. 0.4 lbs. List $22.64. Each.....$19.91

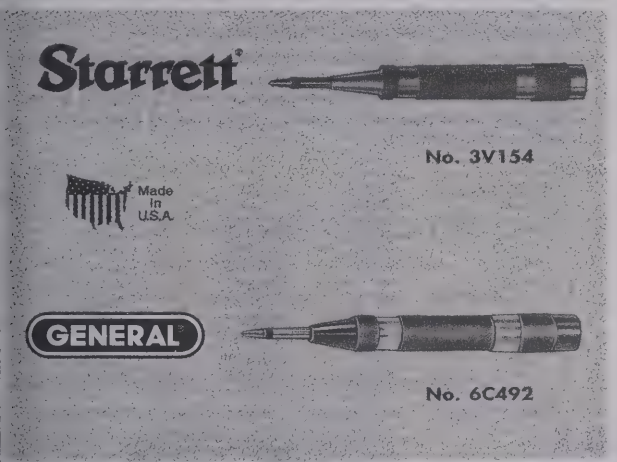
*Take the guesswork out of your precision measuring tools purchase.*

## STARRETT SCRIBERS

Used for layout and marking of metal and plastic parts. Tempered steel points, well finished. Bent point is handy for reaching through holes. 9" long. Points screw into handle and fit either end. Knurled handle is nickel plated.



Pocket scriber has steel tubing handle, knurled and nickel plated. Scriber point held firmly in handle by chuck and, when not in use, can be reversed, telescoped into handle and locked by a slight turn of chuck. Hexagon head prevents rolling.



## GENERAL SCRIBERS

Used for layout and marking of metal and plastic parts. No. 6C488 has a replaceable, hardened and centerless ground reversible tip. No. 6C489 has two machinist's fixed tips: straight and 90°. No. 6C490 has reversible tungsten carbide tip with Alnico magnet. No. 6C491 pocket automatic center punch with adjustable stroke and replaceable alloy steel tip.

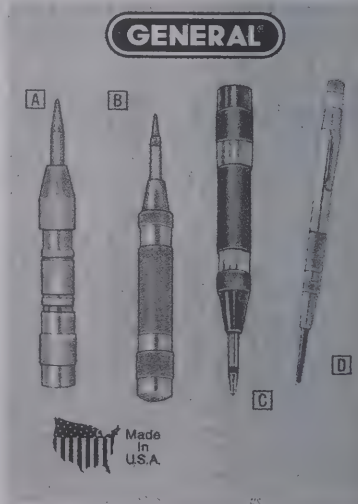
# SCRIBERS, PROBES AND CENTER PUNCHES

## SCRIBERS AND PROBES



- No. 6C489 is a basic tool for scribing, layout work, and tool marking. Hardened and ground steel needle points are fixed to a knurled body which has one straight and one bent point
- No. 3G937 Aluminum knurled body, with three interchangeable threaded points: short straight, short bent, and long bent; handle and short points are 3" long, long bent is 6" long
- Nos. 6C488 and 3G941 Pocket Scribers have replaceable hardened and centerless ground points; point reverses into knurled body for safety, hex head prevents rolling, and conforms to government specifications GGG-S-131E
- No. 3G943 Replaceable needle point scriber marks stainless steel, copper, brass, glass, and ceramics; nork patterned with four extra points in handle
- Nos. 3G947 and 6C490 Tungsten carbide tip marks hard materials including hardened steel, ceramics, and glass; scriber point replaceable and reversible
- No. 6C490 has permanent magnet to pick up small parts, and retrieves steel chips from hard to reach places
- No. 3G939 Scriber scraper used for marking, punching, cutting, and carving plastics, leather, paper, and rubber; combines a needle sharp hardened scriber with a specially designed hardened raked angle chisel scraper
- No. 3G945 3-piece probe set for probing, cleaning, picking, or marking small work surfaces; three heat treated, high carbon steel point configurations: 45°, double bend, and hook all mounted in extra long knurled body. Hex heads prevent rolling

## AUTOMATIC CENTER PUNCHES

- Automatic center punches are a precise means of punching center holes for drilling or marking in layout work, scribing, and starting nail or screw holes.
- Single hand operation. Stored energy design eliminates the need for striking
- Spring tension cap can be adjusted for light or heavy strokes
- Punch depth can be set for repetitive work
- Automatic center punch No. 3G833 has lightweight aluminum body with alloy steel parts
- Steel center punches No. 3G835 and No. 6C492 have lightweight aluminum pencil body with pocket clip, black oxide finish which inhibits rust, and hardened steel points
- Pocket punch No. 6C491 punches, marks, scribes, and starts nail or screw holes
- Pocket punch No. 6C491 has lightweight aluminum pencil slim body

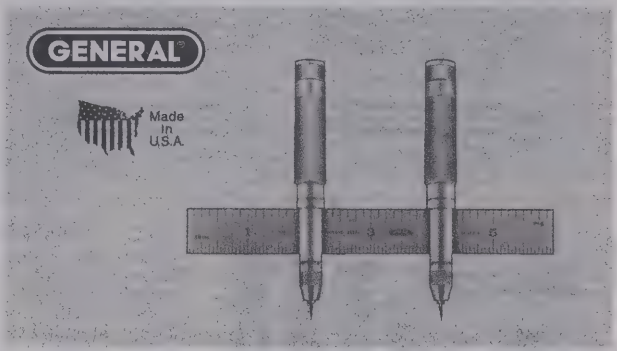
## POCKET TOOL SET

4-pc. pocket tool set designed for the mechanic and machinist



Kit includes: 6" stainless steel rule, telescoping magnetic pickup No. 3G923, automatic center punch No. 6C491, and carbide scriber No. 3G947

All tools fit in vinyl pocket protector, which can be snapped closed

General Tool brand (S008)

**No. 3G917.** Shpg. wt. 0.4 lbs. Each ..... $24.05

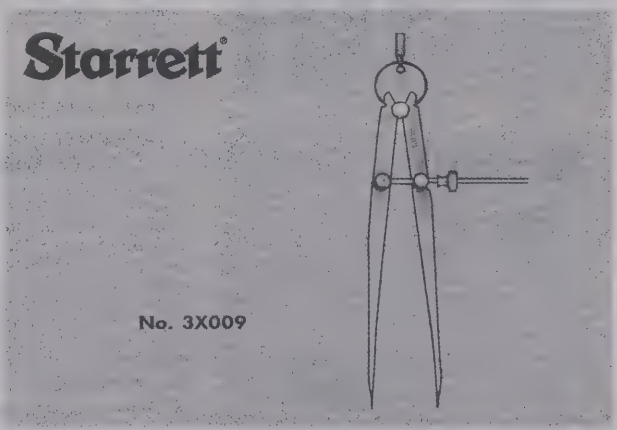
## PRECISION TRAMMEL SET

Designed to accurately transfer measurements, scribe arcs, and lay out circles too large for conventional compass

Will mount on any ruler or scale 1/2 to 1 1/8" wide

Two scriber points and two pencil points included

Aluminum knurled body with free-wheeling thimble



Steel collet holds replacement leads, scriber, and crayons

Points reverse into body for safety

General Tool brand (524)

**No. 3G949.** Shpg. wt. 0.1 lbs. Each ..... $12.69

## 6" SPRING DIVIDERS

Made from high grade steel; well finished

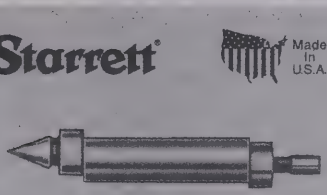
Legs are made of flat stock and are very durable

Fulcrum stud is hardened and has a smooth bearing surface

Flexible bow spring is strong to assure reliability

No. 3X009 furnished with solid nut; No. 3PC82 furnished with quick-spring nut

**No. 3X009.** Starrett brand (83A-6). Shpg. wt. 0.2 lbs. Each..... $20.50▲



**No. 3PC82.** Starrett brand (83B-6). Shpg. wt. 0.2 lbs. Each..... $22.05▲

▲) Net prices, not subject to discounts.

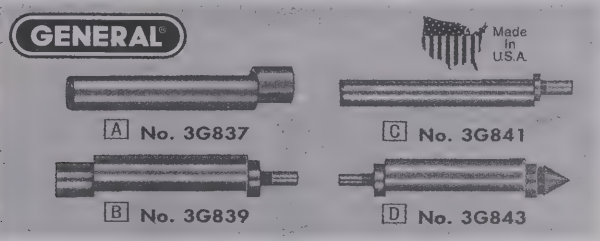
**YOUR PRODUCT SOLUTION RESOURCE...CALL GRAINGER TODAY!**

Grainger will supply you with the dependable, brand name products you need to keep your operation running smoothly-plus the solutions you need to keep your operation running more profitably.

## STARRETT EDGE FINDERS

Work with flat, straight edges, shoulders, grooves, round work, studs, and dowels. Double end model has pointed contact at opposite end for locating center points and scribed lines. Body and contacts made of tool steel, hardened, ground and lapped to close tolerances for diameter and concentricity. Furnished in protective case.

**Single End Edge Finder** has 0.375" body diameter x 0.200" contact diameter. Starrett brand (827A).

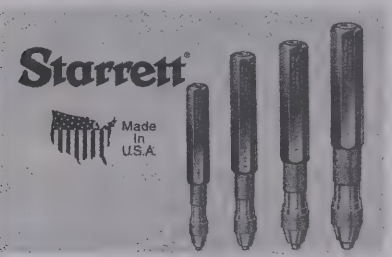


**No. 4K206.** Shpg. wt. 0.1 lbs. Each.....$18.09▲

**Double End Edge Finder** has 0.500" body diameter, 0.200" contact diameter at one end, and pointed contact at the other end. Starrett brand (827B).

**No. 4K208.** Shpg. wt. 0.2 lbs. Each.....$28.90▲

(▲) Net prices, not subject to discounts.



## GENERAL EDGE FINDERS

- **Edge finders accurately locate working edges, shoulders, grooves, center points, and scribed lines**
- **Time-saving positioning tools for jig borers, milling, and other machines**
- **Hardened and centerless ground to precision tolerance**

| Key | End Style | Face Size (in.) | Length (In.) | Shank Dia. (in.) | General Model | Stock No. | Each | Shpg. Wt. |

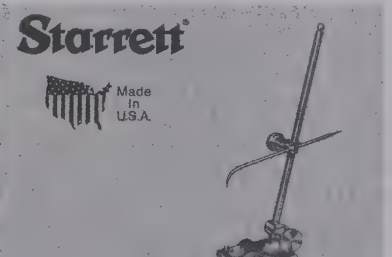
## STARRETT PIN VISE SET WITH DOUBLE BEVEL COLLETS

Special collet design with tapers at both ends for maximum clamping surface and better grip. Smooth section on handles allows vises to be held in machine chucks or collets. Handles have holes through entire length to accommodate stock up to full size capacity so that long rods can be gripped close to end. End of handles are knurled and have a smaller diameter than chuck which allows fast opening and closing and rapid rotation between thumb and finger when filing or forming small work. Heavy nickel-plated finish.

Set includes A, B, C, and D pin vises in protective case. Starrett brand (S240Z).



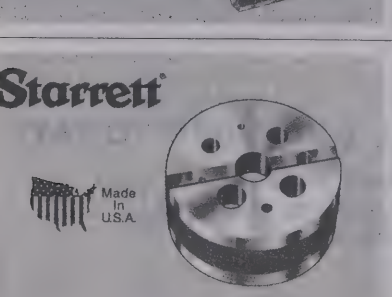
**No. 3X333.** Shpg. wt. 0.3 lbs.
Each.....$62.95▲

(▲) Net prices, not subject to discounts.

### INCLUDED IN SET No. 3X333

| Pin Vise | Range English (In.) | Range Metric (mm) |
|---|---|---|
| A | 0.010 – 0.055 | 0.25 – 1.4 |
| B | 0.025 – 0.075 | 0.64 – 1.9 |
| C | 0.045 – 0.135 | 1.2 – 3.4 |
| D | 0.110 – 0.200 | 2.8 – 5.1 |

## STARRETT UNIVERSAL SURFACE GAGE WITH CAST BASE



Standard size for all-around work. Cast base 3 x 2 9/16" with black wrinkled finish. Ground bottom surface, polished sides, two gage pins for linear work, and V-groove for cylindrical work. 9" spindle adjustable to any angle above or below work. Scriber may be used in small hole of lower sleeve in place of spindle. Fine adjusting screw in base rocker. Starrett brand (57A).

**No. 3V231.** Shpg. wt. 2.3 lbs. Each.....$82.70▲

(▲) Net prices, not subject to discounts.

## STARRETT BENCH BLOCK

Handy for holding work when driving pins or drilling. V groove across face accommodates round and odd shaped stock. Block is made from steel, hardened and ground. Smooth finish on face preserves finish of work being held. Knurled side for easy handling. Base is recessed to make it lighter in weight and yet strong to withstand heavy use. Size is approximately 1½" high and 3" in diameter. Holes vary in size from 1/8 – 5/8". Starrett brand (129).

**No. 3X075.** Shpg. wt. 1.6 lbs. Each.....$56.25▲

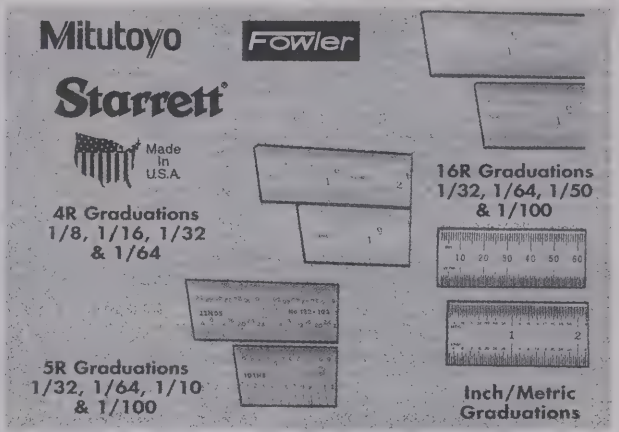
(▲) Net prices, not subject to discounts.

*Take the guesswork out of your precision measuring tools purchase.*

# STEEL RULES

urable, tempered stainless steel and satin chrome finished rules or day-to-day use. Graduations are marked in clear, crisp black onglare satin chrome finish. Rust and wear-resistant for extra-rdinary durability.

## POCKET STEEL RULE



50mm long with inch/metric graduations to 64ths or 1mm. 0.470" ide by 0.021" thick. Mitutoyo brand (950-300).
o. 6C300. Shpg. wt. 0.1 lbs. Each ..... $8.81▲

## 6" STEEL RULE WITH POCKET CLIP

'2 x 1/64" Rule is made of tempered full flexible steel and has ccurate machine-divided graduations in 32nds on one edge and 4ths on the opposite edge. Starrett brand (C310K-6).
o. 4K560. Shpg. wt. 0.1 lbs. Each ..... $13.34▲

▲) Net prices, not subject to discounts.

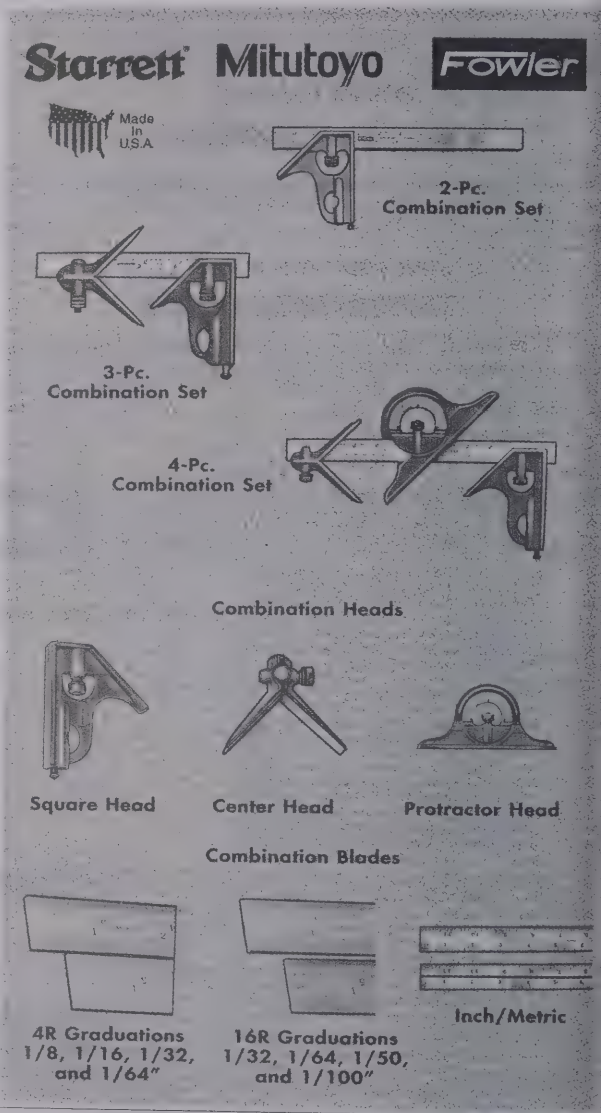
## SQUARE, CENTER, AND PROTRACTOR HEADS



**Square heads** have precision ground 90° square face and 45° miter face and come with hardened scriber and spirit level.

**Center heads** have precision faces and are forged and hardened with smooth black enamel finish.

**Protractor heads** are cast, with spirit level and revolving turrets with direct reading double graduations a full 0-180° in opposite directions. No. 4K896 is reversible with shoulders on both sides of blade and black wrinkle finish with satin chrome finish on turret.

## MASTER PRECISION LEVEL

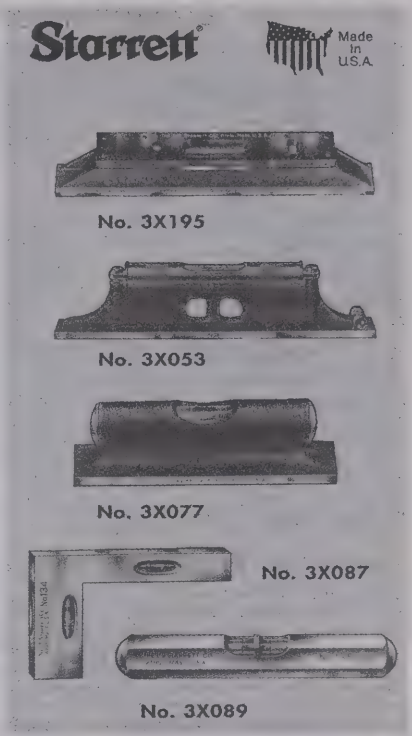
or critical machinery setups of all types. Ground and graduated main vial of 10-second ccuracy – one division equals 0.0005" per foot. Auxiliary level vial shows lateral posi-on as guide to horizontal setting. Insulated from handling by nonconductive top plate. evel vials positioned to reduce breakage. Made of seasoned cast iron. Base carefully recision machined. Black wrinkled finish on nonworking surfaces. Furnished in wood ase.

## MECHANICS' IMPROVED LEVELS

evels have ground and graduated main vials. All levels have cross test vial. 12" size also as a ground plumb vial. Main vials are adjustable for positive setting and housed in atin-chromed brass tube with friction fit closing cover to prevent breakage. Level base made from finest seasoned castings with black wrinkle finish, accurately machined nd finished on bearing surface. Involute longitudinal groove between bearing flats pro-ides accurate seating on round work.

## CROSS TEST LEVEL AND PLUMB

or approximate squaring, leveling, machine setup. Has two vials at right angles for ross test leveling without moving tool and plumb level at top for checking squareness. eliable and compact.



## SMALL BENCH LEVEL

⅛" long with single vial. Sturdy body made of seasoned cast iron with black wrinkle nish and nickel-plated ends. Accurately machined base leveling surface.

## POCKET LEVELS

ade from hexagonal stock with satin nickel-plated finish. Made with convex ends.

## LASER BEAM SPLITTER

Locks over end cap of Starrett laser beam level, permitting one beam to deflect or "split" into two beams 90° apart. Axis of beam splitter can be rotated 360° so that any point or line 90° from axis of level can be identified. Also features level vial to establish true vertical down position. For squaring layout work and corners, for setting tile, walls, partitions, posts and more. Ideal for work inside buildings.

## HEAVY-DUTY ALUMINUM TRIPOD

Strong, rigid tripod for use by surveyors, engineers and contractors. Wide-frame extension leg type. 65" open; 42" closed. Extension legs and side struts are anodized. Includes brass adapter for mounting transit heavy-duty hardware, interchangeable heads, hardened steel replaceable shoe points, and poly-webbed shoulder strap. Bright orange.

## SWIVEL BASE/MOUNT FOR TRIPOD

Fits Starrett tripod, permitting mounting of Starrett laser beam level. Rugged aluminum base design allows for easy calibration to insure accuracy. Rotary base for moving level in circular fashion allows 360° sighting without having to reposition tripod legs. Base tilts by means of an adjust knob, permitting sighting of grades and angles.

# PARALLELS AND PROTRACTORS

## STARRETT ADJUSTABLE PARALLELS

For a wide range of uses in layout, gaging, inspection work and for setups on machine tools. Adjust to exact size. Check size of openings by inserting and expanding parallels to size; then determine size by measuring parallels externally with a micrometer. Parallels consist of two pieces of dovetailed ground steel which slide smoothly and can be easily adjusted. Smaller sizes, 3/8–15/16", are locked by one screw, while larger sizes, 15/16–1 3/4", have two lock screws. All parallels are 9/32" thick.

| Lengths (In.) | Range English (In.) | Range Metric (mm) | Description (In.) | Starrett Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| 1 3/4 – 3 9/16 | 3/8 – 1 5/16 | 9.5 – 33.3 | Set of 4 parallels: 3/8 – 1/2, 1/2 – 11/16, 11/16 – 15/16, 15/16 – 1 5/16 in case | S154SZ | 3X105 | $86.30▲ | 0.6 |
| 1 3/4 – 5 1/16 | 3/8 – 2 1/4 | 9.5 – 57.1 | Set of 6 parallels: 3/8 – 1/2, 1/2 – 11/16, 11/16 – 15/16, 15/16 – 1 5/16, 1 5/16 – 1 3/4", 1 3/4 – 2 1/4" in case | S154LZ | 3X107 | 141.20▲ | 2.1 |

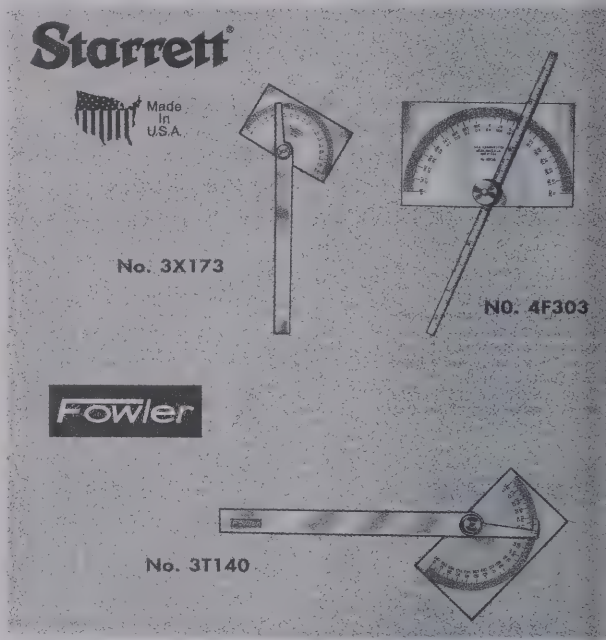
## STARRETT STEEL PROTRACTOR

Used to set bevels, transfer angles, and as a small T-square. Flat back allows use for drafting. Head is rectangular providing four working edges. Double graduations from 0-180° in opposite directions permit reading an angle directly and also supplementary angle. 6" blade can be locked firmly at any angle by patent lock joint and knurled nut. Satin chrome finish. Starrett brand (C183).

**No. 3X173.** Shpg. wt. 0.3 lbs. Each ..... **$48.10▲**

## STARRETT PROTRACTOR AND DEPTH GAGE

Combining protractor head graduated from 0-180° in opposite directions with 6" blade graduated one side in 32nds and on reverse side in 64ths. Blade adjusts to any angle and may be clamped anywhere along its length by knurled thumb nut. Has a rectangular protractor head providing four convenient working edges. Flat surface on back of head permits laying tool flat upon paper or work and knurled thumb nut locks blade in any position. Satin chrome finish. Starrett brand (C493B).



**No. 4F303.** Shpg. wt. 0.2 lbs. Each ..... **$47.70▲**

## FOWLER PROTRACTOR WITH RECTANGULAR HEAD

Used to transfer angles and set bevels. Made of chrome steel with satin finish and has 6" arm with knurled thumb lock nut. Measures angles from 0-180°. Blade secured firmly at any angle by a lock joint and knurled nut. Rectangular head measures 3 5/16 x 2" and provides four working edges. Fowler brand (52-450-010).

**No. 3T140.** Shpg. wt. 0.3 lbs. Each ..... **$39.75▲**

(▲) Net prices, not subject to discounts.

- Includes wooden storage box
- For layout work, standards, and setups
- Constructed of high grade alloy steel, hardened and ground on all six sides
- Parallelism within 0.001"
- Heights within ±0.002"
- Holes for easier handling and setups

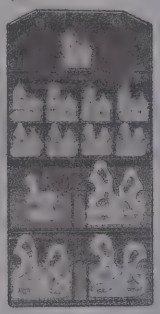
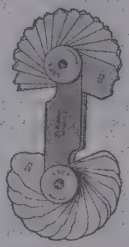
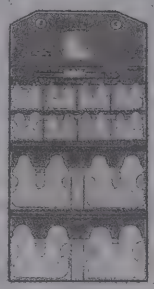
## RADIUS GAGES



Starrett Made In U.S.A. Mitutoyo Fowler



No. 3X153



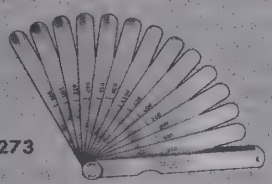
No. 3X165

No. 5C729

No. 5C728

No. 3T165

**adius Gage Sets** have individual gage for ach dimension to verify radius accurately ı machining, layout, inspection and pat- ern-making work. Each gage is identified ith radius dimension and has five differ- nt gaging surfaces for both convex and oncave radii. Measuring surfaces are pre- isely finished with smooth, accurate dge. Gages have satin finish and come in ase.



**adius or Fillet Gages** are for tool and die akers and other mechanics to lay out and heck radii. Each leaf, stamped with adius size, measures both concave and onvex radii. Locking device holds any leaf ecurely in position. Made of finely fin- hed, high quality steel.

| Gages Per Set | Size / Range | Mfr. | Mfr's. Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|

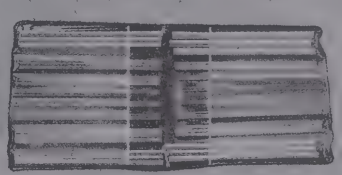
## STARRETT THICKNESS GAGES

Starrett Made In U.S.A.

No. 4F273



sed in many applications from automotive to jig, fixture, and ıge work. Leaves made of finest tempered steel, carefully fin- hed to correct thickness, and individually tested and marked ith thickness. Locking device on most gages secures leaves in ıy position. Leaves easily removed or replaced. Rugged, sub- antial steel case protects leaves. Nos. 4F273 and 3X163 have raight leaves; No. 3X161 has tapered leaves.

| Range (In.) | Size of Leaves (In.) | No. of Leaves | Starrett Model | Stock No. | Each | Shpg. Wt. |

## THREAD MEASURING WIRE SET

ADVANTAGE PLUS

Measure U.S. threads from 3-48 threads per inch and metric threads from .05 to 0.6mm. Wires are 3" long and range from 0.018 to 0.185. Set includes 16 sizes with 3 wires per size. All are 60° threads. Dust proof, non-corrosive plastic case has the wire size stamped above each pocket.

**No. 3X142.** Shpg. wt. 0.3 Each ..... $12.75

## STARRETT TAPER GAGES

Series 269 taper gages are for determining hole size in dies and all kinds of work. Reads in thousandths of an inch. All sizes are made from spring tempered steel approximately 0.012" thick and have locking device which makes it possible to lock any leaf in position for use. Furnished in a red vinyl protective case.

**No. 4F013** is 2½" long and has 8 leaves with a measuring range of 1/2–1" in 0.001". Starrett brand (269A).

**No. 4F013.** Shpg. wt. 0.1 lbs. Each ..... $80.60▲

**No. 4F015** is 2¾" long and has 10 leaves with a measuring range of 1/2–1" in 0.001". Starrett brand (269B).

**No. 4F015.** Shpg. wt. 0.1 lbs. Each ..... $94.15▲

**Series 270 taper gage** is very useful on bearing work and for gaging slots. Gage is made of quality tool steel 7/16" wide by 6¼" long and is accurately tapered throughout entire length for quick, convenient measuring of slot widths. One side is graduated from 0.010 to 0.150" in thousandths and reverse side from 0.3mm to 4mm in one-twentieth of a mm (0.05mm). Starrett brand (270).

**No. 4F017.** Shpg. wt. 0.1 lbs. Each ..... $66.50▲

(▲) Net prices, not subject to discounts.

No. 4F017

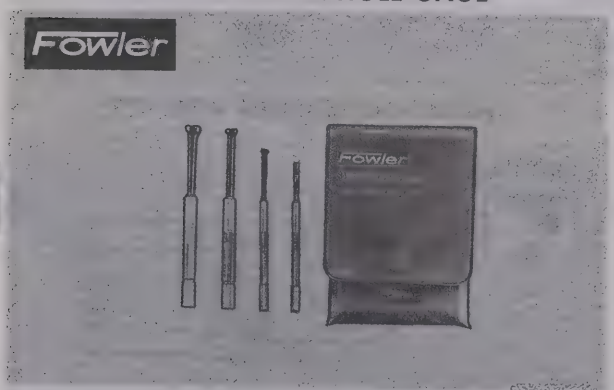
## STARRETT SCREW PITCH GAGES

Quickly determine pitch of various threads. Consist of steel case with folding leaves at both ends, each leaf having teeth corresponding to a definite pitch. By matching teeth with thread, correct pitch can be read directly from leaf. All gages feature locking device at both ends of the case allowing leaves to be securely locked in position for use. Leaves have special narrow design permitting checking internal threads in nuts, etc. and flattened teeth for checking both V and American National or U.S. Standard threads.

No. 4F275 has 51 pitches, range 4 to 84 threads per inch, also 11½ and 27 pipe thread pitches. Starrett brand (472).

**No. 4F275.** Shpg. wt. 0.3 lbs. Each ..... $43.70▲

No. 4F277 has 28 pitches, range 4 to 80 threads per inch, also 11½ and 27 pipe thread pitches. Starrett brand (474).

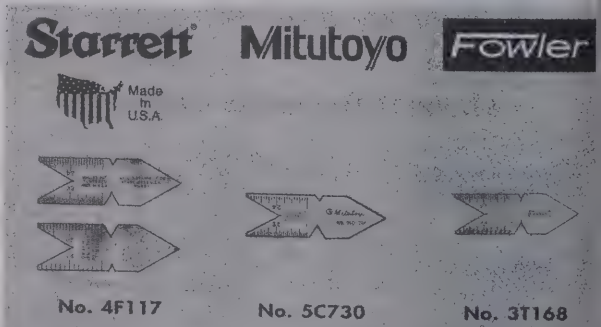


**No. 4F277.** Shpg. wt. 0.1 lbs. Each ..... $23.95▲

(▲) Net prices, not subject to discounts.

No. 4F275

## FOWLER SMALL HOLE GAGE



Extra long design for gaging deep or shallow holes, slots, and similar work. Hole size obtained by measuring over contact points with micrometer. Knurled knob at end of handle used for easy size adjustment. Gaging surface is full-round with flat bottom for use in small shallow holes, slots, and grooves; fully hardened. Four measuring ranges/probe depths: 0.125 to 0.200"/0.880"; 0.200 to 0.300"/1.200"; 0.300 to 0.400"/1.600"; and 0.400 to 0.500"/1.600". Includes fitted case. Fowler brand (52-472-104).

**No. 3T167.** Shpg. wt. 0.3 lbs. Each ..... $56.75▲

(▲) Net prices, not subject to discounts.

## CENTER GAGES

No. 4F117 No. 5C730 No. 3T168

For American National - U.S. 60° Standard. Has scale graduate in 14ths, 20ths, 24ths, and 32nds for finding number of thread per inch. Made of tempered steel with lapped edges and notche and satin chrome finish. No. 4F117 also features table of doubl depths of threads for determining size of tap drills.

| Mfr. | Mfr's. Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| Starrett | C391 | 4F117 | $12.50▲ | 0.1 |
| Mitutoyo | 950-201 | 5C730 | 11.74▲ | 0.4 |
| Fowler | 52-505-001 | 3T168 | 7.94▲ | 0.2 |

(▲) Net prices, not subject to discounts.

Take the guesswork out of your precision measuring tools purchase.

## DRILL POINT GAGE

For determining correct 59° drill point angle and correct length of drill lips. Consists of 6" hook rule with sliding head that can be locked anywhere along rule by knurled thumb nut. Head is beveled to 59° and graduated in 32nds. Also useful as plain rule, hook rule, depth gage, try square, and slide caliper. Sliding head fits all steel rules 3/4" wide by 3/64" thick.

## DRILL GAGES

For quick check of fractional, decimal, and metric drill sizes. Hardened with satin finish.

**Starrett Letter Size Drill Gage** is marked with decimal equivalents and has 5/64" thick by 2 5/16" wide by 6 1/4" long plate size.

**Mitutoyo Drill Gages** have a plate size of 5/64" thick by 2 1/2" wide by 3/8" long. No. 5C732 is graduated in 64ths and marked with both fractional and drill sizes.

## TAP AND DRILL GAGES

Provide a quick check of tap and drill sizes. Show correct tap drill for National Fine or National Coarse thread series. Hardened with satin finish.

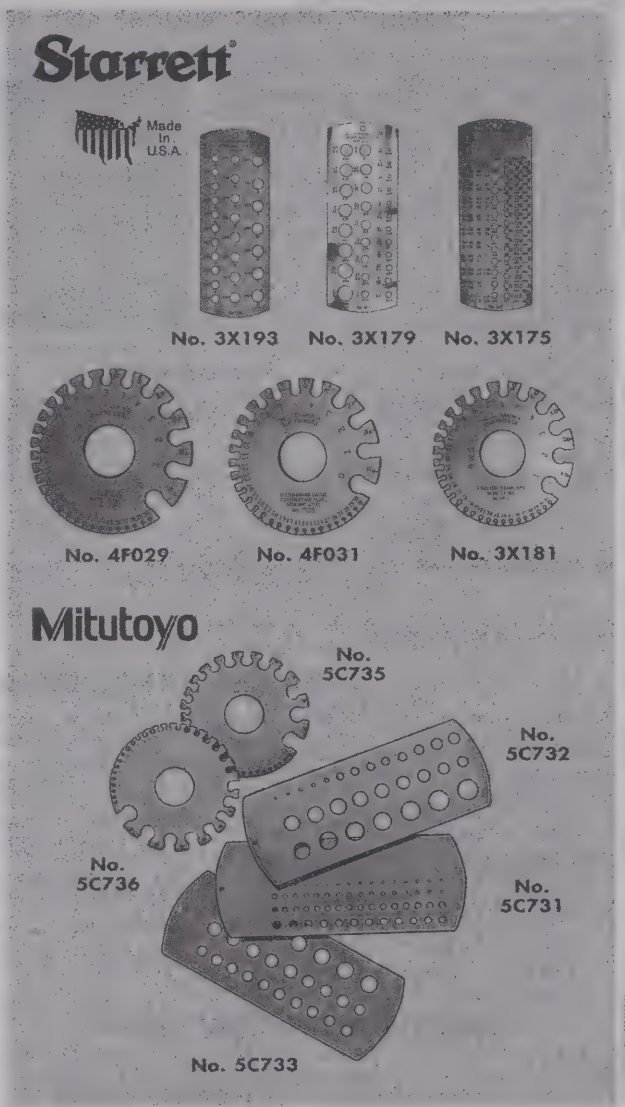
**Starrett Tap and Drill Gage** leaves right amount of stock for approx. 65% full thread. Gage also shows correct body size drill and provides 60 holes marked with number size and decimal equivalent of drills from No. 1 through No. 60. Plate size is 5/64" thick by 2 5/16" wide by 6 1/4" long.

**Mitutoyo Tap and Drill Gage** leaves right amount of stock for approx. 75% full thread. Plate size is 5/64" thick by 2 1/2" wide by 3/8" long.

## JOBBER'S DRILL GAGE

Quickly determine size of any twist drill from 1/16 to 1/2" by 64ths. Gage has 29 holes, each marked with drill size in inches and decimal equivalent. Tested after hardening, ground and polished with satin finish. Approx. 5/64" thick by 2 5/16" wide by 6 1/4" long.

## AMERICAN STANDARD WIRE GAGES



For quick check of wire size of nonferrous metals like copper, brass, and aluminum. Highly useful gage for finding wire, sheet, or plate sizes. Screw slotting cutters are also made to this gage. Hardened with satin finish. Starrett Model: 3 3/16" diameter by 1/10" thick, and decimal equivalents.

## U.S. STANDARD GAGE

For verification of gage thickness of sheet, plate iron, and steel. Time saving tool when a plate size must be quickly determined. Each numbered slot is marked with decimal equivalents.

## ENGLISH STANDARD GAGE

Birmingham or Stubs wire gauge. Made to U.S. specifications for uncoated sheet, plate iron, and steel. Based on weights in ounces per square foot. Hardened with satin finish and marked with decimal equivalents.

# GAGE BLOCK AND BORE GAGE SETS

## STARRETT-WEBBER SQUARE AND RECTANGULAR STEEL GAGE BLOCK SETS

Accurate to within millionths of an inch to provide improved quality of production and lower costs. Grades guaranteed to meet or exceed federal specification GGG-G-15C and others. Grade 2 (A1). All gage blocks include a Standards Certification traceable to the National Institute of Standards and Technology (NIST).

Steel blocks have a Rockwell hardness of 65± 1/2"C scale, and feature an unusually fine hard grain structure for a lifetime of use without wear or abrasion. Standards of surface finish are actually higher than government requirements. Sets furnished in rugged, handsome wood case.

## MITUTOYO 81-PC. RECTANGULAR GAGE BLOCK SET

All gage blocks are made of special steel alloy which possesses excellent stability with thermal expansion coefficiency for most measuring applications. Grade 2 (A+). All gage blocks meet or exceed federal specification GGG-G-15C and are are furnished with a Certificate of Calibration traceable to the National Institute of Standards and Technology (NIST).

| BLOCK COMBINATIONS IN SET | |
|---|---|
| 9 blocks: | 0.1001-0.1009" in 0.0001" steps |
| 49 blocks: | 0.101-0.149" in 0.001" steps |
| 19 blocks: | 0.050-0.950" in 0.050" steps |
| 4 blocks: | 1.000-4.000" in 1.000" steps |

Block edges have blended radius and are burr-proofed. Wringing or stacking block does not cause damage to measuring surface. Come in rugged wooden box with index numbers specially treated to keep moisture away from blocks; underside of case has four soft pads to prevent slippage. Mitutoyo brand (516-902).

**No. 6C323.** Shpg. wt. 8.3 lbs. Each.....**$1402.00▲**

(▲) Net prices not subject to discounts.

## MITUTOYO BORE GAGE SETS

Wide size range for I.D. (inside diameter) measurements in bearings, engine bore, etc. Dial bore gages have interchangeable anvils and necessary accessories to perform close tolerance I.D. (inside diameter) measurements. Range is 0.7-6" covering most ID bore gaging sizes.

Equipped with a unique self-centering guiding device which facilitates accurate measurement of the bore. Reference chart indicates spacer and rod sizes to be selected for specific range. Include AGD Series 2 Dial Indicator with a rugged cover, 2" Extension rod, 26 anvils, and complete indexed, fitted carrying case.

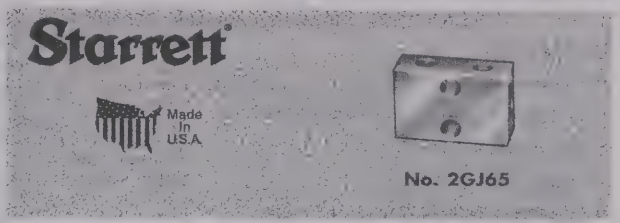
# 1-2-3 BLOCKS, V-BLOCKS AND CLAMPS



## 1-2-3 BLOCKS

Precisely ground blocks for measuring 1, 2, or 3" when setting up workpieces for layout, inspection, and machining.

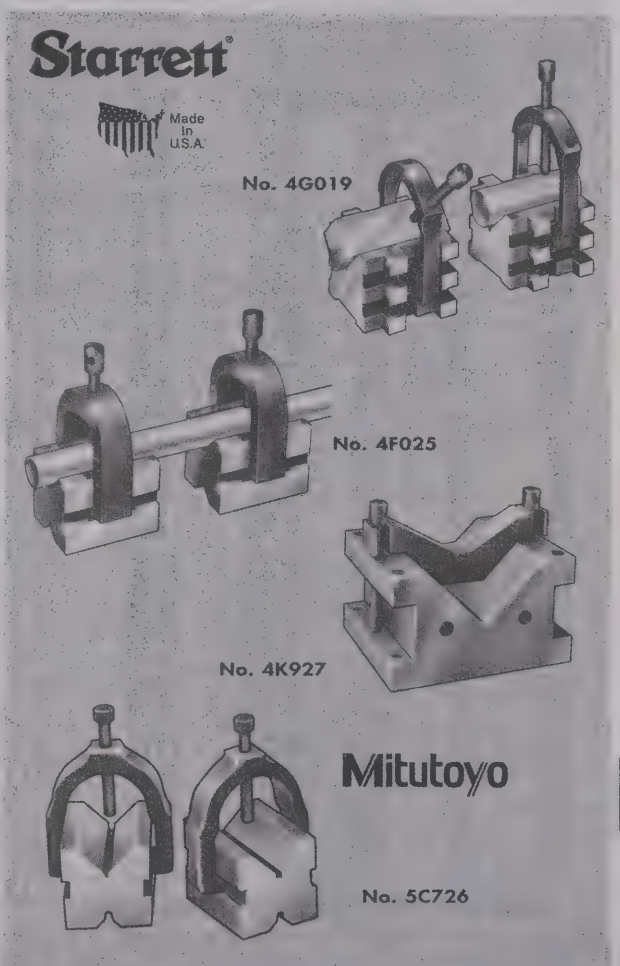
**Starrett model** is manufactured to precision tolerances: 0.0001" parallelism, 63-65 HRC hardness, 0.0001" squareness, and 0.0001" flatness. Hardened ground steel. Supplied with case. Starrett brand (706AZ).

**No. 2GJ65.** Single 1-2-3 Block. Shpg. wt. 2.1 lbs. Each.....**$167.50▲**

▲) Net prices, not subject to discounts.

## V-BLOCKS AND CLAMPS

**V-Blocks and Clamps for Round and Square Work.** Clamps can be mounted on V-block in low or high position for small or large work. Clamps do not project; blocks can be used on base, ends or sides. Blocks hold round work up to 2" diameter and square work up to 1 7/16" (or 1 9/16" square with screw top). Tapped holes for mounting V-blocks on face plates or angle irons. V-blocks are made of hardened steel. All sides are precision ground parallel and square and V-groove ground central and parallel to sides and bases. V-grooves of matched pair have perfect alignment. Come in pairs.



**V-Blocks and Clamps for Round Work.** 90° V's are ground central, parallel and square with ends and sides. Made of special steel, hardened and ground. Tapped hole 1/4-20 through sides. Angle iron and blocks can then be attached to lathe face-plate or held by magnetic chuck. Each block 1¼" square and 1⅝" long. Supplied in matched pairs.

**Precision V-Block and Clamp.** V-block will handle round work up to 1" diameter. Block can be used on side or end for machining or inspection with no interference from reversible, swing-away style clamp. Three tapped hole positions in V-block allows positioning at either end or at center. Two tapped holes in one end of V-block provide for mounting it perpendicular to a face-plate. Clearance holes in bottom provide for mounting V-block to angle plates or other fixturing. Block is 5¼" wide, 3" high, and 3⅜" long and made of hardened steel, precision ground.

**"A" Clamps** combine compact size and shape with cam activation for maximum clamping versatility and ease of use. Cam lock quick-release feature makes changing workpieces fast and easy. Hardened swivel contact pads provide maximum holding power regardless of work orientation or load increase. "A" clamps provide up to 50% more clamping pressure than parallel clamps and are more versatile than conventional "C" or parallel clamps.

## STARRETT PRECISION ANGLE PLATE

Precision ground angle plate is 3 x 3 x 3" and made from hardened steel. 1" wall thickness with a grinding step of 1/4" wide x 1/4" down from top surface allows for grinding, machining, or inspection of small hardware items. Ten 1/4-20 tapped holes, six in face and two on each end, provide for clamping of work to angle plate and/or clamping angle block to a sine fixture or machine. Starrett brand (580).

# FLAT STOCK AND GRINDING VISE

## STARRETT PRECISION GROUND OIL HARDENING FLAT STOCK—18" LENGTHS

**TOLERANCES:**

- **Thickness ± 0.001"**
- **Width: Up to 6" +0.000/0.005"**
- **Squares ± 0.010/0.015"**
- **Length 18" +1/4"**
- **Edge Squareness 0.003 per inch**

Make your own machine parts, jigs, fixtures, shims, stamps, and more. Made of dimensionally stable chromium, tungsten, vandium electric furnace tool steel. Low 1450-1500°F hardening range makes this steel easy to harden. Vandium content assures fine grain and high toughness. Fully spheroidized annealed for uniform carbide size and easy machining. Each piece is individually wrapped and clearly marked with size, analysis, and correct hardening and tempering information.

## STARRETT PRECISION GRINDING VISE

Features one-piece hardened steel construction with a movable jaw. Vise opens to a full 4" size and has a 1¼" jaw depth capacity. Quick-setting locking mechanism clamps at approximately 45° to prevent lifting of movable jaw under loaded conditions, providing maximum holding power. Movable slide is designed slightly narrower than base to allow vise to be used on its side without interference or loss of accuracy. One 1/4-20 tapped hole in each side of base jaw allows use of stop for repetitive operations. Four drilled and counterbored holes for 5/16 bolts at base of vise bolt vise to sine plate or bed of machine tool. T-handle wrench is provided for tightening movable jaw. Starrett brand (581).

## STARRETT GRANITE SURFACE PLATES

### CRYSTAL PINK GRANITE SURFACE PLATES

For general inspection shop work. Uniform distribution of crystals provided. Great surface hardness and wear resistance – highest percent of quartz crystals of any granite plate. Smooth, jewel-like quartz bearing points protect accuracy and finish minimizing tool drag and wear while assuring a smooth sliding action for instruments used in inspection work. Competes directly with black granite plates while outlasting them as much as 5 to 1. Meet or exceed 50 lbs. per square foot load bearing specifications. Meet or exceed federal specifications for flatness – right to each edge.

### BLACK GRANITE SURFACE PLATES

For general inspection shop work and load carrying applications. Properties of black granite surface plates include a high modulus of rigidity, tight porosity, and very fine grain. Contain no crystalline quartz, so wear life is less than that of crystal pink surface plates, but take a fine finish and meet flatness requirements equally well. Rigidity allows black plates to be made thinner. Will take 50 lbs. per square foot concentrated load per federal specification and not deflect more than half the flatness tolerance specified.

## STARRETT SURFACE PLATE CLEANER

For keeping surface plates and other precision granite products in top condition. Prevents abrasion of tools by dirt and other foreign particles. Cleaner, which also acts as a degreaser and rust inhibitor, should be used without water to minimize risk of rusting tools.

**No. 4L716.** Shpg. wt. 1.3 lbs. List $5.25. Each.....**$5.25▲**

## STARRETT TOOL AND INSTRUMENT OIL

Highly refined, colorless, oil for use in extreme temperatures on close-fitting parts.

## STARRETT M1 ALL-PURPOSE LUBRICANT

Protects high quality precision tools. FDA approved for use in or near food-related environments. Works in extreme temperatures. Removes grease, tar and grime from metal parts and painted surfaces. Cleans, polishes, and protects against rust and corrosion damage. Prevents short circuits and halts electrical leakage from wet ignition wires. Contains no fluorocarbons, detergents, or silicone and is not water soluble.

| Description | Container Size | Starrett Model | Stock No. | Each | Shpg. Wt. |

# INSPECTION MIRRORS, MAGNETIC STRIPS, WELDING LINK/CLAMP AND MAGNETS

## INSPECTION MIRRORS

- Facilitate inspection of inaccessible workpieces and machines by toolmakers, assemblers, inspectors, and mechanics
- Fully polished mirrors are enclosed in plated holders attached to knurled handles with ball and socket joints

| Mirror Size | Overall Length (In.) | Telescoping Size (In.) | General Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1.25 Dia.** | 8 | N/A | 555 | **3G845** | **$5.43** | 0.1 |
| **2.25 Dia.** | 8 | 10½ to 15 | 557 | **3G847** | **7.71** | 0.4 |
| **1 x 2 Oval** | 9 | N/A | 558 | **3G849** | **6.05** | 0.2 |
| **3.50 x 2 Oblong** | 9 | 11½ to 16 | 560 | **3G851** | **8.23** | 0.4 |

## MAGNETIC BASE INSPECTION MIRROR

- Adjustable 3.50 x 2" oblong inspection mirror mounted to a permanent magnetic base
- Attaches to any steel or iron surface, machine, tool, appliance, other equipment
- Has wing nut ball joint adjustment
- Magnet with keeper
- General Tool brand (MB560)

**No. 3G853.** Inspection Mirror. Shpg. wt. 0.7 lbs. Each ..... $23.87

## MAGNETIC STRIP

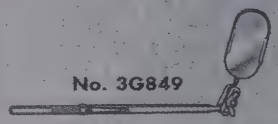
- Flexible magnetic strip with adhesive backing
- Holds small metal objects
- Easily cut to desired length

| Width (In.) | Length (Ft.) | Thickness (In.) | General Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **1.00** | 10 | .060 | 369 | **3G855** | **$9.13** | 1.0 |
| **1.00** | 100 | .060 | 369-100 | **3G857** | **67.20** | 11.0 |

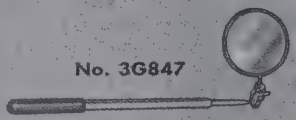
## MAGNETIC WELDING LINK AND CLAMP

- Adjustable welding link No. 3G919 designed to hold steel plates in position for welding, brazing, and soldering
- Eliminates need for clamps or temporary fastening
- Constructed of two heavy duty Alnico 5 magnetic blocks linked together with a steel bar and wing nuts for easy angle adjustment
- Size of blocks 2 x 1 x 1"
- Magnetic holding clamp No. 3G921 for holding ferrous metals at fixed angles for clamping or welding applications
- Permanent ceramic magnetic is sandwiched between two steel plates for strength
- Provided fixed 90, 75, 45, and 30° angles
- General Tool brand

**No. 3G919.** Welding Link (375). Shpg. wt. 1.4 lbs. Each ..... $54.80



**No. 3G921.** Welding Link Protractor (377). Shpg. wt. 0.6 lbs. Each ..... $10.38



## ALNICO BUTTON TYPE MAGNETS

- Button shaped magnet used primarily for attracting applications
- Center hole in top for easy mounting
- Supplied with keeper

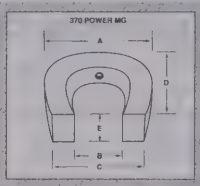
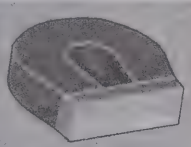
## TWEEZER MAGNIFIER

No. 3G975



- 5 Power lens
- Useful for detailed projects holding sub-miniature parts
- Stainless steel tweezer
- Double hinged adjustable arm
- General Tool brand (425)



**No. 3G975.** Shpg. wt. 0.1 lbs. Each.....$4.40

## PERMANENT ALNICO MAGNETS

**Aluminum, nickel, and cobalt alloy makes these magnets strong and permanent**
**Under normal conditions and temperature Alnico magnets retain their magnetism indefinitely**
**Excellent temperature stability to 1000°F**
**Removable keepers insure permanence**
**Hole in top for easy mounting**

## MAGNETIC PICKUPS

- Telescoping magnetic pickup No. 3G923 is ideal for retrieving steel and iron parts from hard-to-reach places; magnet is fitted in a $5^1/_2$" long nickel-plated steel handle that can extend up to $23^1/_2$"; holder is fitted with pocket clip
- Flex-O-Stiff pickup No. 3G925 is fitted into an 18" nickel-plated holder; can be extended to a 32" flexible retriever
- Pocket magnetic pickup No. 3G927 has knurled body with pocket clip; 6 times more powerful than cobalt magnet of same size
- Locking pivot joint magnetic pickup No. 3G929 allows magnetic head to be turned in order to reach around corners; nickel-plated steel body with cushion grip handle; pocket clip for storage; $8^3/_4$" OAL
- Extra-long magnetic pickup No. 3G931 with locking pivot joint allows user to retrieve parts from around corners; 13" body is chrome plated, with a vinyl cushion grip handle and can be extended to 27"
- Flexible magnetic pickup No. 3G933 has knurled aluminum body with 15" long bendable wire to position magnet, 20" OAL

## HASTINGS TRIPLET MEASURING MAGNIFIER

valuable tool whenever precision work is performed. The 7X Hastings lens, which is djustable for individual focus, provides a flat, distortion-free image. The transparent ody allows illumination to fall on the magnified area. Leather case is included. easuring scales must be ordered separately.

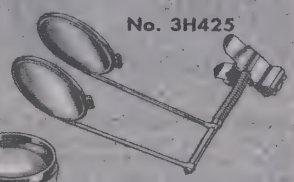
| escription | Diopters | Focal Distance | Lens Dia. (mm) | Bausch & Lomb Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| X Power | 28D | 1.5"/3.9cm | 19.8 | 81-34-35 | **3G995** | **$63.05** | 0.2 |

### MEASURING SCALES

| scription | Bausch & Lomb Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| neral Purpose Scale for measuring radii from 1/16 to 3/8", ngles in single degrees to 90°, 0.005" & 0.1mm scales, line widths f 0.001, 0.002 & 0.003" | 81-34-36 | **3G997** | **$35.35** | 0.1 |
| ch Scale, 3/4" in 0.005" intervals | 81-34-37 | **3G999** | **35.35** | 0.1 |
| etric Scale, 20mm in 0.1mm intervals | 81-34-38 | **3H001** | **35.35** | 0.1 |
| otractor Scale, 360° in single degrees | 81-34-39 | **3H003** | **35.35** | 0.1 |

## HASTINGS TRIPLET MAGNIFIERS

ree separate lenses, bonded together to form a compound lens, provide sharp, very stinct magnified images; with no color distortion even under 20 power magnification. swing-away nickle-plated case protects the lens and serves as a handle.



| wer | Diopters | Focal Distance | Lens Dia. (mm) | Bausch & Lomb Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| 0X | 40D | 1"/2.5cm | 15.8 | 81-61-71 | **3H431** | **$42.00** | 0.1 |
| 0X | 80D | 0.5"/1.3cm | 8.3 | 81-61-81 | **3H433** | **49.50** | 0.1 |

## CODDINGTON MAGNIFIERS

rrection in these magnifiers is achieved through the use of a single thick lens with a ntral groove diaphragm. This provides a sharp, clear image. A swing-away, nickel-plat- case also serves as a handle.

| wer | Diopters | Focal Distance | Lens Dia. (mm) | Bausch & Lomb Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|

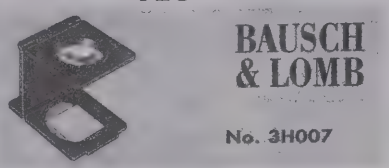
# MAGNIFIERS



## 2X COMPACT LIGHTED MAGNIFIER

Illuminated magnification in a convenient size for tool box, workbench, glove box, pocket, etc. Take it anywhere. Stores in its own protective case. Push buttons first to release the large 2" square lens, again to light the lamp. Ideal for low-light conditions, or where convenience is important. Diopters—8D; focal distance—5"; lens diameter—50.8 x 50.8mm. Uses 2 AAA batteries; included. Bausch & Lomb brand .

**No. 3H435.** Shpg. wt. 0.2 lbs. Each.....**$9.00**

## 5X LINEN TESTER

The Linen Tester has almost limitless uses for countless people—from industrial engineers to stamp collectors. Incorporates a strong 5X double lens of optical quality and a fold-out stand with an inch (in 32nds) and a 20mm (in 1.0mm) scale in the base. Supplied with a rigid plastic case for storage and protection. Diopters—20D; focal distance—2"/5.1cm; lens diameter—24.5mm. Bausch & Lomb brand (81-34-49).

**No. 3H007.** Shpg. wt. 0.1 lbs. Each.....**$8.67**

## 7X LENSCOPE MAGNIFIER

The Lenscope magnifier is a precision examination and inspection tool that fits in the palm of your hand. It provides a clear, distortion-free image and can be used for virtually any kind of close inspection or measurement. This versatile magnifier features a 7X Hastings triplet lens with an ergonomic plastic body. Two angled illumination lamps (45 or 90° from viewing angle). Usable with 4 different precision measurement scales; must be ordered separately. Hinged-top storage case included. Diopters—28D; focal distance—3.9cm; lens diameter—19.8cm. Uses 2 AA batteries; not included. Bausch & Lomb brand (81-34-43).

**No. 3H005.** Shpg. wt. 0.1 lbs. Each.....**$59.25**

## ILLUMINATING CODDINGTON MAGNIFIER

The Illuminating Coddington eliminates the problem of lack of sufficient light on objects when using a high power magnifier. A flashlight bulb inserted into the groove of the Coddington lens illuminates the object being examined. Uses two AA batteries; not included. 10X power; diopters—40D; focal distance—1"/2.5cm; lens diameter—19.8mm. Bausch & Lomb brand (81-34-34).

**No. 3G993.** Shpg. wt. 0.1 lbs. Each.....**$28.90**

## PACKETTE MAGNIFIER

A smart contemporary design, just slightly larger than a book of matches. The hard plastic cover snaps open, clicks shut. Incorporates a 5X , optical quality aspheric lens for greater magnification with edge-to-edge sharpness. Large lens for excellent field of view. Diopters—20D; focal distance—2"/5.1cm; lens diameter—36.0mm. Bausch & Lomb brand (81-31-33).

**No. 3G985.** Shpg. wt. 0.1 lbs. Each.....**$8.45**

## FOLDING POCKET MAGNIFIERS

A swing-away case of tough durable plastic serves both as a handle and as a protective case. Lenses are of optical quality glass. Models are available with 1, 2 or 3 lenses in a wide range of powers from 3X to 20X. These are especially versatile since the lenses can be used alone or in combination to produce different powers. By combining lenses, three powers are available with the two lens models; seven different powers with the three lens model.

| Power | Diopters | Focal Distance (In.) | Lens Diameter | Bausch & Lomb Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **4X** | 16D | 2.5 | 36.0mm | 81-23-54 | **3G977** | **$15.03** | 0.1 |
| **3X to 7X** | 12D to 28D | 3.3 to 1.4 | 37.0 (2) | 81-23-63 | **3G979** | **21.13** | 0.1 |
| **4X to 9X** | 16D to 36D | 2.5 to 1.1 | 23.0 (2) | 81-23-64 | **3G981** | **21.13** | 0.1 |
| **5X to 20X** | 20D to 80D | 2.0 to 0.5 | 20.3 (2) & 15.2 | 81-23-67 | **3G983** | **25.80** | 0.1 |

## ROUND AND RECTANGULAR ASPHERIC MAGNIFIERS

Bausch & Lomb has improved the traditional round and rectangular magnifier by use of a scientifically designed aspheric lens. Aspheric lenses assure edge-to-edge clarity. The single piece design assures product durability. An ergonomically designed handle conforms to the natural shape of the hand and assures hours of comfortable use.

| Description | Power | Focal Distance (In.) | Lens Diameter | Bausch & Lomb Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **Round** | with 4X/16D Inset | 5 | 3"/87.7mm | 81-33-03 | **3G987** | **$15.02** | 0.3 |
| **Round** | with 4X/16D Inset | 5 | 5"/133.0mm | 81-33-05 | **3G989** | **27.35** | 0.6 |
| **Rectangular** | 2X/8D | 5 | 2 x 4"/50.8mm | 81-33-76 | **3G991** | **15.13** | 0.3 |

# HARD FLOOR CARE SYSTEMS

RAMSEY®

No. 3UT21

No. 3UR90

No. 3UR85

No. 3UT24

No. 3UR93

Ramsey® offers simple and cost effective solutions to ultra high speed, spray buff, and low maintenance floor care systems. Choose the floor finish that matches your maintenance system, along with a gloss maintainer, floor cleaner, and floor stripper. Some floors may require a floor sealer for added protection.

## FLOOR FINISHES

**BOARDWALK®**

**The Low Maintenance, High Durability Floor Finish/Seal**

- **Stands up to the heaviest traffic conditions, with little or no maintenance. Put it down and walk away. Looks great day after day. Great initial gloss and extended durability**
- **Resistance to scuff, scratches, and heel marks. Can be spray buffed and burnished**

**GRANDSTAND®**

**Spray Buff Floor Finish**

- **A durable, long lasting, high gloss finish for spray buffing programs**
- **Excellent response to spray buffing with a 175 to 1500 RPM machine. Use No. 3UT32 Sure Pass™ Spray Buff for optimum results**
- **Easy to apply and dries quickly**

**TRADEMARK®**

**Premier Ultra High Speed Floor Finish**

- **Super tough UHS finish that stands up to the heaviest traffic conditions and daily cleaning with an auto scrubber. Best resistance to scuffs, scratches, and heel marks**
- **Delivers a high gloss that continues to build into a brilliant gloss with burnishing**
- **Use an aggressive natural fiber UHS pad**

**ALTITUDE®**

**Specialty Ultra High Speed Floor Finish**

- **Provides a brilliant wet-look gloss and quick response to UHS machines**
- **The best choice when burnishing daily or when using a propane burnishing machine**
- **Use medium aggressive synthetic fiber UHS pad**

## FLOOR SEALER

**PILLAR™**

**Floor Sealer**

- **The long-lasting, durable, high gloss undercoat for all resilient and stone floors**
- **Use alone as a seal and finish for terrazzo, quarry tile, brick, slate, concrete, and unglazed ceramic and Mexican tile**
- **Enhances the gloss of all floor finishes**

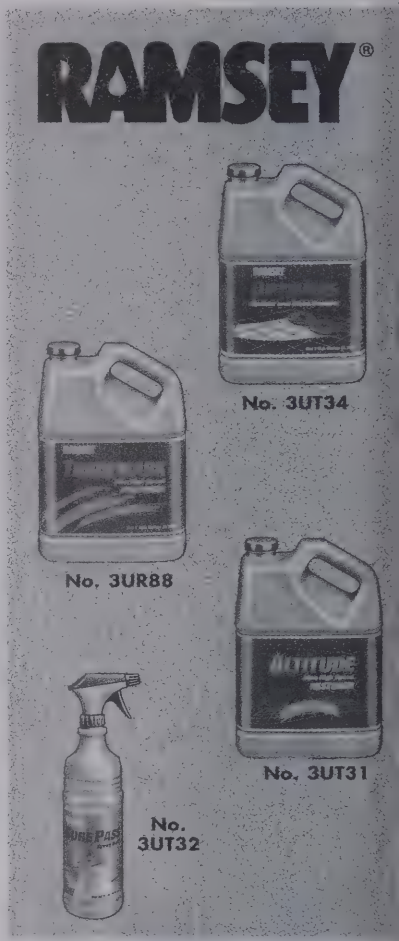
# HARD FLOOR CARE SYSTEM

## HIGH SPEED FLOOR RESTORERS



**OPTIMIZE®**
**One Step Neutral Cleaner and Gloss Restorer**
- Cleans and restores the gloss in one easy step when used through an automatic scrubber or when applied with a mop
- Fills in surface scratches and scuffs for a uniform wet-look gloss after burnishing
- Use over any Ramsey high speed floor finish
- Dilution: automatic scrubber 4 oz./gallon; mop and bucket 2 oz./gallon

**TRADEMARK® RESTORER**
**Mop On Ultra High Speed Restorer**
- Mop On UHS Restorer is matched to Trademark UHS Floor Finish
- Extends finish durability by filling in scratches and worn areas, and optimizes the brilliant gloss
- Dilution: 1:4

**ALTITUDE® RESTORER**
**Mop On Ultra High Speed Restorer**
- Mop On UHS Restorer is matched to Altitude UHS Floor Finish
- Extends finish durability by filling in scratches and worn areas, and optimizes the wet-look gloss
- Dilution: 1:4

## SPRAY BUFF

**SURE PASS®**
**Ready-to-Use Spray Buff**
- Quickly cleans and removes deep scuffs, scratches, and dirt penetration, and returns the finish to the highest possible gloss
- For 175 to 1500 RPM machines
- Citrus fragrance

## FLOOR STRIPPERS

**BREAK AWAY®**
**Extra Heavy-Duty No Scrub/No Rinse Stripper**
- Ramsey's most powerful fast-acting stripper that dissolves heavy floor finish and seal build-up
- The ultra low residue, no rinse formula makes stripping jobs faster, saving rinsing steps, effort, and floor down time. Non-ammoniated, low foaming
- Dilution: machine scrub stripping, 1:4; no scrub stripping, 1:1

**QUICK LIFT®**
**Heavy-Duty No Rinse Floor Stripper**
- This powerful fast-acting stripper will easily strip off normal to heavy floor finish and seal build-up
- The ultra low residue, no rinse formula makes stripping jobs faster, saving rinsing steps, effort, and floor down time. Non-ammoniated, low foaming
- Dilution: machine scrub stripping, 1:4

**BORDER PATROL®**
**Aerosol Baseboard Stripper**
- Unique gel formula clings onto the baseboard, and delivers maximum dwell time to remove finish/seal build-up
- Easy-to-use spray nozzle allows efficient and precise application
- Also use in hard-to-scrub areas where build-up is difficult to reach
- Lemon fragrance

## FLOOR CLEANERS

**REFLECTA®**
**Neutral Floor Cleaner**
- Concentrate, cleans without dulling the gloss, leaves no residue and requires no rinsing
- Strong neutral detergents clean dirty and discolored traffic lanes
- Deodorizes with a great citrus fragrance, and is low foaming
- Dilution: mop and bucket, 3 oz./gallon; auto scrubber, 2 oz./gallon

**FREEFALL®**
**High Performance General Purpose Cleaner**
- Concentrate, versatile all purpose cleaner and light degreaser when daily floor cleaning is more demanding
- Also use to clean the floor before applying a new coat of floor finish
- Deodorizes with a great citrus fragrance
- Made with all biodegradable detergents, contains no butyl and is phosphate-free. USDA rating C1
- Dilution: mop and bucket, 2 oz./gallon; auto scrubber, 2 oz./gallon

## CARPET PRESPRAYS

**TRAIL BREAKER™**

**Heavy Duty Prespray with Enzyme**

- Highly concentrated, heavy-duty liquid prespray with Prozyme-natural odor and soil digesting enzymes, with a great Country Morning fragrance.
- Prozyme's natural odor digesting enzymes permanently eliminate tough odors and soils on carpet. Dilution: 1:12.

**PREMULSION**

**NEUTRAL PH PRESPRAY**

- Concentrated, pH7 neutral prespray fortified with d-limonene, easily cuts through heavy traffic lane soils. Great natural Citrus deoderizing fragrance.
- Safe for commercial, residential and 100% wool carpets. Dilution: 1:8.

**SOIL RELEASE**

**Economical Prespray**

- Concentrated, alkaline prespray for heavy soils. Use when you are on a regular extraction program, fragrance free. Dilution 1:8.

**BALLISTIC**

**Powder Prespray with Enzyme**

- Concentrated, high alkaline prespray with Prozyme-natural odor and soil digesting enzymes.
- Excellent at removing heavy food grease on carpets. Deoderizing Citrus fragrance. Dilution: 1:64.

## CARPET EXTRACTION CLEANERS

**STEAMETTE®**

**Liquid Extraction Cleaner (Regular or Phosphate Free)**

- Ultra Concentrate, powerful combination of detergents, solvents and deoderizing fragrance quickly remove tough soils and odors on the carpet. Carpets are left soft and residue free after cleaning.
- Outstanding economy, one gallon makes 321 gallons of ready to use extraction cleaner.
- Safe for commercial and residential carpets. Great country Morning fragrance. Contains corrosion inhibitors to protect equipment. pH of 8.5 in dilution.

**RINSOFT®**

**Mild Acidic Extraction Rinse**

- Concentrate, use as a final rinse step after prespraying the carpet. Leaves carpet soft and totally residue free.
- Also use to rinse out and neutralize residues caused by detergent build-up.
- Safe for commercial, residential and 100% wool carpets. Dilution: 1:128.

**STEAMETTE®**

**Power Extraction Cleaner**

- Powder Concentrate, a powerful combination of powdered detergents, solvents and Country Morning deoderizing fragrance, quickly remove tough soils and odors. Carpets are left soft and residue free.
- Idea for Truck Mount and portable extractors, pH of 9.8 in dilution.

# BONNET CLEANERS, SANITIZERS AND SHAMPOOS

## HARD CHARGER
### Heavy Duty Spin Bonnet Cleaner With Enzyme

Highly concentrated, heavy-duty, low residue spin bonnet cleaner and deodorizer with Prozyme soil and odor digesting enzymes.

Prozyme's natural odor digesting enzymes permanently eliminate tough odors while spin cleaning. Prozyme's enzyme action continues to clean and deodorize even after the bonnet has left the carpet. Dilution: 1:12.

## TOP SPIN®
### Spin Bonnet Cleaner

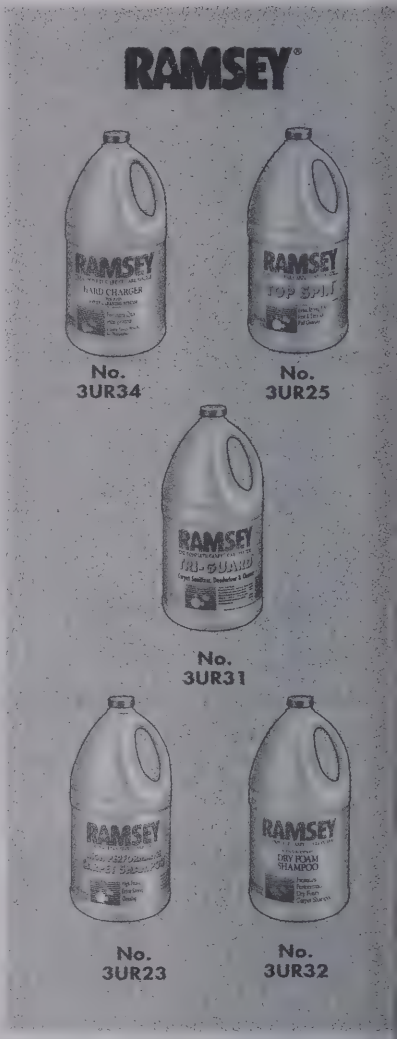
Concentrate, for regular spin bonnet program, this ultra-low residue spin bonnet cleaner will penetrate, loosen, and lift away your carpet soils.

Ultra-low residue formula prevents re-soiling and helps the carpet dry faster. Dilution 1:8.

## TRI-GUARD
### Spin Bonnet and Extraction Cleaner

Concentrated EPA-registered cleaner, sanitizer and deodorizer kills odor causing bacteria on synthetic carpets. Dilution: 1:32 for spin cleaning or 1:64 for extraction cleaning.

## HIGH PERFORMANCE
### Carpet Shampoo



- **Highly concentrated rotary shampoo for extra-strength cleaning and brightening.**
- **High foaming cleaners lift away heavy carpet traffic lane soils quickly and easily. Dilution: 1:32.**

## DRY FOAM SHAMPOO

- **Highly concentrated super-dry foam allows for ultra-low moisture and exceptional cleaning in dry foam equipment.**
- **Foam dries to a powder after cleaning for easy vacuuming. Contains a built-in soil retardant to protect against re-soiling. Dilution: 1:32.**

## SIMPLE GREEN® LIME SCALE REMOVER

**Dissolves soap scum and mineral deposits**
**Deodorizes with fresh wintergreen scent**
**Non-abrasive and non-flammable**
**Contains no bleach, ammonia or phosphorous**

**nple Green® Lime Scale Remover** utilizes a mild buffered acid commonly used in the cos-etic industry. Strong enough to remove hard water deposits but mild enough to protect rfaces from damage that harsher removers can cause. It will not strip protective fin-ıes from porcelain, tile, or plumbing and will not harm drains or pipes, including PVC. eps fixtures bright and shiny. Specially formulated to dissolve and remove mineral posits, hard water stains, and soap scum. Safer to use on porcelain fixtures, ceramic e and fixtures, glass shower doors, aluminum, chrome, and stainless steel. The 32 oz. ttle has a durable spray head with a special "pull-out" foaming tip for effective appli-tion on vertical surfaces. Simple Green® brand.

# DEODORANTS

## KIL-ODER™ CONCENTRATED WATER-SOLUBLE LIQUID DEODORIZER WITH PROZYME

Use Kil-Oder anywhere odors are a problem. Deodorize the air and surface, or mix into your cleaning solution to give them great deodorizing power. Kil-Oder is a Three-In-One deodorizer with powerful fresh fragrances, odor counteractants, and prozyme--enzyme action.

- **Choose from Five powerful fragrances—Original Cherry Almond, Country Morning, Lemon Burst, Fresh Apple, and Spring Floral.**
- **Built-in Odor Counteractants—prevent odor molecules from entering your sense of smell**
- **Prozyme—natural odor digesting enzymes permanently eliminate tough odors: urine, cigarette smoke, cooking odors, pet odors, vomit, mildew, trash odors and more**
- **Can also be used in daily drain and grease trap maintenance to prevent clogging and reduce odors**

# INDUSTRIAL SKIN CARE SYSTEM

## GOJO® PRO DISPENSER SYSTEMS

GOJO® skin conditioning hand cleaners, skin lotions, and barrier lotions all work together to remove irritants, help reduce risk of dermatitis, and protect against cracked, dry and irritated skin.

GOJO® PRO 2000 and PRO 5000 SYSTEMS. GOJO® PRO systems provide dependable, maintenance-free operation in industrial, service, repair, maintenance or commercial environments. Both systems provide metered portion controlled dispensing. Push, one hand operation. Easy to install with supplied adhesive mounting system. Choose the PRO 2000 with over 2000 uses per refill cartridge for small and medium sized shops. Use the PRO 5000 with over 5000 uses per refill for high volume wash up areas.

GOJO® PRO 2000 and PRO 5000 REFILL CARTRIDGES. GOJO® professional skin care formulas quickly, effectively, and safely remove irritants. Each refill has a new dispensing valve for dependable operation. Refills are sanitary sealed. Messy soap reservoirs are eliminated.

# PRE-MEASURED CHEMICALS AND DILUTION CONTROL SYSTEM

## PRE-MEASURED CHEMICALS

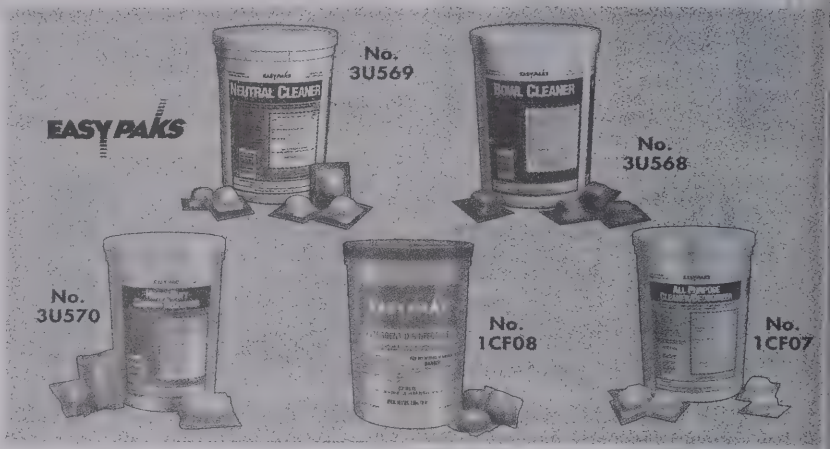
Water soluble packets dissolve completely in water, reducing solid waste. Pre-measured for no-mess, no-waste consistent cleaning. Packets contain powdered compound that goes into solution quickly. Packed in compact, recycleable plastic container. Product and package are color-coded for added convenience and safety. Easy Paks brand.

### NEUTRAL CLEANER

Cleans and protects high-gloss, high solids finishes. Ideal for high-traffic areas. Leaves no dulling film, even without rinsing. Leaves a fresh, forest-pine scent. Case qty.: 180 1/2-oz. packets. (90653).

**No. 3U569.** Shpg. wt. 8.0 lbs. List.....$58.44.
Each.....**$45.20**

### BOWL CLEANER



A blend of enzymes and detergents that attacks organic waste, scale, and urinary salts. Effective even in cool bowl water. Easy to use, simply toss packet in toilet bowl. Lavendar fragrance. Case qty.: 180 1/2-oz. packets. (90652).

**No. 3U568.** Shpg. wt. 8.0 lbs. List.....$30.53.
Each.....**$23.59**

### CLEANER/DEGREASER

Heavy-duty cleaner-degreaser quickly cuts through stubborn grease and oil buildups commonly found in food service establishments. Alkaline cleaner helps remove the grease on quarry tile floors. Use on floors and other hard surfaces, and for spray-and-wipe cleaning. Case qty.: 72 1½-oz. packets. (90682).

**No. 3U570.** Shpg. wt. 6.8 lbs. List.....$48.68.
Each.....**$37.65**

### SANI-SURE DISINFECTANT

Formulated for cleaning, disinfecting, and deodorizing surfaces in institutional settings. Case qty: 180 1/2-oz packets. (90650).

**No. 1CF08.** Shpg. wt. 8.0 lbs. List.....$41.64.
Each.....**$32.20**

### ALL-PURPOSE CLEANER

Cleans a wide variety of surfaces from stainless steel, chrome, and porcelain to ceramic, terrazzo, and vinyl. Case qty: 180 1/2 oz. packets. (90651).

**No. 1CF07.** Shpg. wt. 8.0 lbs. List.....$43.74.
Each.....**$33.85**

## DILUTION CONTROL SYSTEM

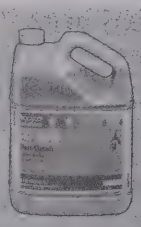
Practical Solutions Dilution Center delivers accurate, ready-to-use dilutions at the touch of a button, with no measuring. System combines push-button proportioning with high performance ultra-concentrated products. Reduce waste from mixing errors and improper dilutions, increase employee safety, and provide time and labor savings.

### FOUR PRODUCT SYSTEM

Dispensing system prepares and dispenses up to four ready-to-use cleaning products. Standard four product system comes with three spray bottle fill stations and one bucket fill station.

- Durable, molded cabinet is chemical-, stain-, and scratch-resistant. Secure locking design prevents theft and tampering. Convenient viewing ports display product levels. Lockable button for continuous product delivery. Changing ultra-concentrates is easy with the drop-down front panel door. Adjustable dilution rates for your desired cleaning performance and economy.
- Air Gap design prevents concentrate backflow. Considered safest and most effective form of backflow prevention; meets ANSI A112.1 standard.
- No Chemical Contact System reduces employee contact with concentrated chemicals. Protects against accidental spills and eye/skin contact.
- Complies with Federal, State, and Local regulatory requirements for unit hardware, material safety data sheets, labels and silk screened spray bottles.

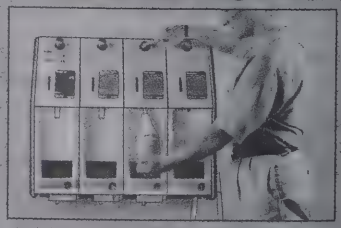
### ONE PRODUCT SYSTEMS



- **Small size can be placed anywhere there is a water source**
- **Contains same features as Four Product System**

Small, secured cabinet design prepares and dispenses one ready-to-use cleaning product. Available in two convenient dispensing systems: OPTION 1: Single dispensing unit fills mop bucket at a high flow rate. OPTION 2: Dual flow dispensing unit offers both high and low flow rates to fill mop buckets and spray bottles.

### QUALITY PRODUCTS



- **Ultra-concentrated formulations deliver multiple gallons of ready-to-use products; provides economy, lower freight costs, reduced storage requirements and less packaging waste**
- **Products and labeling system are color-coded, tri-lingual (English, Spanish, and French) and feature use icons for safety, training, and easy identification**

Broad line of high quality ultra-concentrated products include cleaners and degreasers, EPA-registered hospital grade disinfectants, deodorizers, floor care, washroom care and carpet care.

No. 3UT52

RAMSEY®

**No. 3UT64**
**Dispenses up to 16 cleaning products at the touch of a button**

# TWIST 'N FILL PORTION CONTROL SYSTEM

## TWIST 'N FILL CHEMICAL MANAGEMENT SYSTEM

Compact 3M Twist n' Fill dispenser fits even the smallest closet.

3M brand Twist 'N Fill system features a single, compact dispenser that accurately mixes and dispenses a wide range of cleaning chemicals. Easy to use: simply choose the cleaning chemicals needed, insert the bottle, and twist. Chemicals are automatically mixed and dispensed all through the same dispenser. No additional backflow protection is needed.

System lowers operating costs. Automated mixing means consistent, effective chemicals every time. Employee contact with hazardous chemicals is limited, increasing safety. Storage is reduced to a fraction of that needed with traditional systems. Worker productivity is increased.

Wire shelves for storing chemical bottles are available. Each shelf holds four 2-liter bottles. Also available in locking style. Provide neat storage and easy accessibility of chemicals.

Convenient spout cap and sprayer bottles are also available for use with mixed cleaning chemicals. Come preprinted with chemical labels for bathroom cleaner, quat disinfectant, food service degreaser, general purpose cleaner, heavy-duty multi-surface cleaner, deodorizer, sanitizer and glass cleaner. 12 per pack.

# FLOOR MACHINES

## 175 RPM, 1- AND 2-SPEED FLOOR MACHINES

**Dayton Floor Machines** are designed for scrubbing, stripping, bonnet cleaning, shampooing, or any hard floor maintenance of commercial and industrial facilities.

**The Dayton Dual Speed Machine No. 3Z984** has the ability to scrub and strip at a low speed and spray buff at 350 RPM. This one machine handles the entire maintenance of your tile floors.

All machines are made with a 1-piece cast aluminum housing and switch box, and a chrome-plated handle tube and axle. This provides unsurpassed quality throughout the life of the machine. Maneuvers easily on 5" wheels. Non-marking bumper.

A safety switch lever is standard, and easily activated. All wires are enclosed within the motor shroud for added operator protection.

The 175 RPM floor machines have a 1 HP motor with double planetary gearbox. The dual speed unit (No. 3Z984) has a 1.5 HP motor with triple planetary gearbox. Motors are heavy-duty NEMA 66 frame.

**DAYTON 2-YEAR LIMITED WARRANTY**
Text of motor and gearbox warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover.

## 175 RPM FLOOR MACHINES

**CLARKE® FM SERIES HEAVY-DUTY FLOOR MACHINES** are designed for the toughest industrial applications including scrubbing and stripping.

Constructed with a heavy one-piece cast aluminum housing and dual long life micro switches for durability. Wide transport wheels provide easy maneuverability. Also features orthopedically designed operating handle, safety-interlock switch, and vinyl bumpers.

These 175 RPM heavy-duty floor machines have a 1 HP motor with sealed double planetary gear system.

**CLARKE® C-LINE SERIES FLOOR MACHINES** are ideal for industrial stripping, scrubbing, and shampooing operations.

Polyurethane enamel painted motor shroud and brush housing are virtually indestructible. Also feature big nonmarking transport wheels and vinyl bumpers.

C-Line 175 RPM floor machines Nos. 2U436 and 2U437 have a 1 HP motor, No. 3KH84 has a 1/3 HP motor and all run on 115V, 60 Hz.

**CLARKE® LIMITED WARRANTY**
Clarke warrants motors and gearboxes on FM Series for 7 years and C-Line Series, Nos. 2U436 and 2U437 for 5 years, No.3KH84 for 1 year. Text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover.

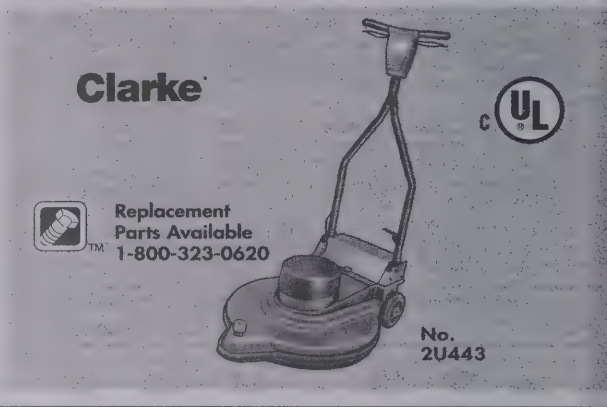
**No. 3U974.** Shpg. wt. 6.0 lbs. List.....$126.50. Each.....$124.00

**OUR PRODUCT SELECTION IS BIGGER AND BETTER THAN EVER!**

**In addition to our new product listings from the leading brand names, Grainger now offers you more than 78,000 products to meet your maintenance, repair, or operation supply needs.**



# HIGH SPEED BURNISHERS

## 1500 TO 2500 RPM HIGH SPEED BURNISHERS

**Clarke® high speed burnishers** feature a fold-up handle, cast aluminum switchbox, and integrated dust control system. 20" pad size.

**Positive safety interlock switch** prevents accidental start-up. Handle folds up for easy storage. 75 ft., 3-wire grounded power cord. 2000 hour carbon brushes. Brush wear indicator lights when carbon brushes need replacing. Rolls on 6" wheels so machine is easy to transport. Spring loaded front caster adds manuverability. Do not use these machines for floor stripping.

**1½ HP permanent magnet rectified direct-drive motor** has no belts to break or tighten. Balanced pad driver reduces wobble and operator fatigue. Pad leveler maintains proper pad contact for increased efficiency. Overload indicator tells when pad needs cleaning or changing.

| RPM | Pad Size (In.) | 60 Hz / Volts | Clarke Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **1500** | 20 | 115 | 1500 | **2U443** | $1740.00 | **$1653.00** | 112.0 |

| **2500** | 20 | 115 | 2500 | **2U445** | 1940.00 | **1843.00** | 112.0 |

## 1500 AND 2000 RPM HIGH SPEED BURNISHERS

**Dayton 1500 and 2000 RPM Burnishers** are designed to provide the "wet" look on all types of hard floor surfaces. **Do not use these machines for stripping floors.**

**Both burnishers** feature a 1-piece cast aluminum housing and switch box, and a chrome-plated handle tube and axle. This provides unsurpassed quality throughout the life of the machine. Includes flexible pad drivers, 20" burnishing pad. 6" wheels make the machine easy to transport. Non-marking bumper. 75 ft. cord for wide coverage.

**Easily activated safety interlock switch lever** prevents accidental start-up. All wires are enclosed within the motor shroud for added operator protection.

**1½ HP, DC rectified direct-drive motor** has no belts to break or tighten. A spring loaded front caster lets you adjust the pad pressure to customize the machine to suit your specific application. Pad leveler maintains proper pad contact for increased efficiency.

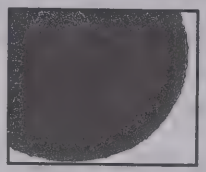
# FLOOR PADS



## 3M STRIPPING

### 7300 HIGH PRODUCTIVITY STRIPPING PAD

Unique, open web construction. Quickly and thoroughly removes old finish, dirt, and buildup. Stripping solution flows easily through pad to rinse out dirt and reduce loading. Reduced loading allows increased pad-to-floor contact, for more efficient stripping. Use to strip floors when finish buildup is heavy or when stripping must be done quickly. Use on standard and automatic floor machines.

| Size (In.) | Color | Stock No. | Case Qty | Case List | Case Each | Shpg. Wt. |

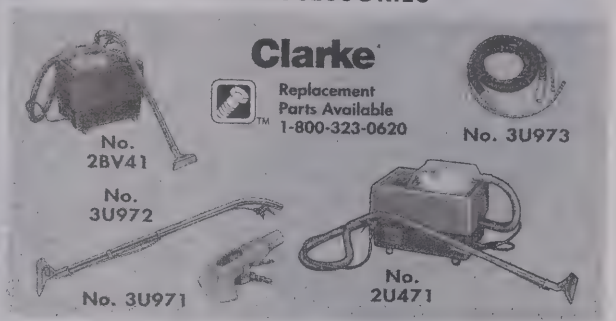
# CARPET EXTRACTORS AND CARPET DRYER

## IMAGE™ SELF-CONTAINED EXTRACTORS



**Clarke® self-contained extractors** provide deep penetrating power to scrub and clean carpets. 100 PSI pump and double diamond brush provides three directional cleaning. The three stage vacuum motor provides 137" of waterlift pressure. Extractors have rotomolded seven gallon solution and recovery tanks. An automatic float shut-off system stops all operations to prevent recovery tank overflow.

**Nos. 2U469 and 3UW09** feature a compact design for convenient storage and transporting. 100 PSI maximum demand solution pump for deep penetration into carpet fibers. Height adjustable 3" scrubbing brush.

**No. 2BV39 and 3UW10** feature Interex, an alternative to bonnet cleaning. Include two brushes and adjustable pump pressure. High pressure and stiff brush provide restorative cleaning; low pressure and a soft double diamond brush provide quick dry time for interim cleaning. Quick change spray nozzles.

# PORTABLE VACS AND WORKSHOP DUST COLLECTOR

## PORTABLE VACS

### [A] No. 1D457 PORTABLE ONE GALLON WET/DRY VAC

Lightweight portable vac with compact wet/dry cleaning power. Tough 1.5 HP, 120V, 6.0 Amp by-pass motor. 6 ft. x 1¼" hose, round brush, utility nozzle, crevice tool, wall bracket/tool holder, 18 ft. power cord, No. 5X879 foam filter sleeve, and No. 6H008 dry disc filter. UL (E40197) and CSA Listed (16331). Dayton brand.

### [B] No. 4Z906 PORTABLE HAND VAC

Lightweight dry pick-up only vac picks up dirt, dust, and litter from office, workshop, car, work station and garage. Well-suited for cleaning hard-to-reach places. 120V, 60 Hz, 6.8 amp AC motor delivers 1.5 HP. Includes adjustable shoulder strap, removable soft-snout with wide mouth for direct cleaning, 3-ft. hose, utility nozzle and crevice tool. 18-ft., 3-conductor cord. 8H x 9¾ x 16½"D. Uses replacement bag No. 6H020 on page 1890. UL (E40197) and CSA Listed (16331). Dayton brand.

### [C] No. 2Z988 HANG-UP VACUUM

2½-gallon dry pick-up only vacuum for use in machine shops, workshops, garages, and computer rooms. Two-stage, thru-flow, 120V, 50/60 Hz, 7.5 Amp motor develops 84" static vacuum pressure and 95 CFM at 2½" tank orifice. Motor is equipped with permanently lubricated ball/ball bearings and On-Off switch. Hangs on wall. Reaches up to 18 ft. in any direction using 1½" dia. x 18-ft. crushproof hose and 6" master nozzle. Seamless tank dimensions are 8" dia., 24" high. Replacement hose No. 6X077 available. Replacement cartridge No. 6H021 on page 1890. UL (E40197) and CSA Listed (16331). Dayton brand.

### [D] No. 6X077 REPLACEMENT HOSE

1½" x 18-ft. crushproof hose for use with No. 2Z988 Hang-Up Vac.

### [E] No. 4TR22 QUIET PORTABLE CANISTER WET/DRY VACUUM

Features 1.5 gallon poly tank and 7.25 Amp permanently lubricated by-pass motor. Quiet operation design. Features 18' power cord and 4 - caster dolly system. Accessories include 6' x 1¼" hose, 2 extension wands, 12" deluxe swivel nozzle w/brush and squeege inserts, utility nozzle, crevice tool. round brush, foam filter (5X879), dry disc filter (6H008), and collection filter bag (4TR16). UL Listed. CSA Certified.

## WORKSHOP DUST COLLECTOR

- **Effective means to collect wood shavings and chips from woodworking equipment**
- **Sawdust and shavings are collected in 25-gallon plastic tank. Lighter airborne particles pass through blower and are captured in permanent filter bag.**
- **1.25 Peak HP universal motor is 120 volt, 60 Hz, and 6.0 amps to deliver 10" static vacuum pressure and 300 CFM airflow**
- **Two-part static ground system: Motor ground; Tank ground**
- **25-Gallon tank capacity**
- **Two-stage filter system: first stage cyclonic action separator, second stage cloth filter bag**
- **12 ft. x 4" flexible hose with clamps**
- **18 ft., 3-wire, 18-gauge power cord**
- **UL(E40197) and CSA Listed**

Not intended for use as a utility type dust collector. Specified for collection of woodworking debris only.

**No. 6H004.** Shpg. wt. 32.0 lbs. List $388.12. Each ..... **$310.50**

# VACUUMS

## DAYTON VACUUM SELECTION GUIDE

### STEP 1: DETERMINE THE PRIMARY APPLICATION

- Dayton offers vacuums for wet/dry, dry only and special applications
- How frequently will the vacuum be used?
- What type(s) of substance will the vacuum be picking up?

### STEP 2: CONSIDER MOTOR TYPE

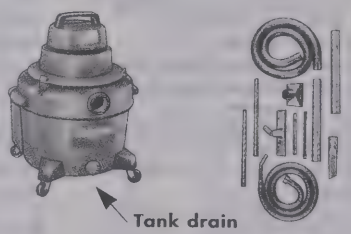
(By-pass motors are required for wet pick-up)

1. SINGLE STAGE MOTOR (ONE VACUUM FAN):
- Typically develops a high air flow which moves a large volume of small/fine particles
- Sufficient suction for wet pick-up
- Designed for moderate frequency use in workshop, light industrial and general purpose applications
- Economical

2. TWO STAGE MOTOR (TWO VACUUM FANS):
- Greater suction for liquids and heavier particles
- Ability to pick up small/fine particles
- Designed for relatively high frequency use in heavy industrial applications
- Longer motor brush life, replacement motor brushes available

### Step 3: VACUUM PERFORMANCE

- PEAK HORSE POWER (HP) - The maximum output horsepower of a motor determined from a labortory dynamometer test
- CUBIC FEET PER MINUTE (CFM) - The volume of air moved by the vacuum cleaner motor. The higher the rating, the greater the ability to move large volumes of small/fine particles
- STATIC PRESSURE (SP) - Indicates the suction pressure of the vacuum. Suction is measured by how far up a glass tube a vacuum motor will lift a column of water, measured in inches of water. The higher the rating, the greater the suction ability of heavier materials and liquids
- FILTRATION - Proper filtration is essential to the performance and life of the vacuum. All units include standard filtration. Optional filtration, including multi-stage filtration for fine particles is also available for most Dayton Vacuums.



## DAYTON WET/DRY VACUUMS New

Best in class level of performance and features for multi-purpose cleaning applications. High airflow single-stage bypass 6.0 HP (peak) motor with quiet power operation, top-handle and 18 ft. power cord. Tough poly tanks are rustproof, dent resistant and include drain. High performance dependability for medium-duty usage. Avg. brush life of 500 hours, CFM @ 2½" is 175. 10.0 amps @120V, static pressure is 60.

Accessories include: 6' x 2½" hose, two extension wands, 6" utility nozzle, 2½" crevice tool, 7' x 1¼" hose, two 1¼" extension wands, 12" swivel floor nozzle with brush and squeegee, tool caddy and cartridge filter. UL Listed, CSA Approved. Dayton brand.

| Tank Size (Gal.) | Capacity (Gal.) Wet | Capacity (Gal.) Dry | Dimensions (In.) | | | New! Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| 14 | 11 | 13 | 21 | 20 | 26 | 4TR19 | $151.27 | $116.65 | 25.0 |
| 18 | 15½ | 17 | 21 | 20 | 30 | 4TR20 | 170.80 | 135.00 | 31.0 |

- Deluxe 2 1/2" and 1 1/4" tool package
- Low profile, anti-tip design
- Easy roll, heavy-duty caster

## DAYTON WET/DRY "PUMP VAC"

- 11.5 Amp single-stage by-pass motor
- Self priming in most circumstances, primer position for adverse conditions
- Uses conventional garden hose (not included)
- Empties up to 5 gallons per minute
- Pumps up to heights of 50 feet
- 10 gal. stainless steel tank

Quickly and easily pumps non-hazardous liquids from 10 gallon vacuum tank, eliminating transportation and emptying of liquid tank. Pump system allows easy conversion from wet/dry vac to pump operation and heavy-duty vac cart. NOTE: Not intended for use as a continuous running pump—electronically shuts off when liquid capacity is reached (no overflow), manual switch restart will lower liquid level so vacuuming can continue. Use in pump mode for flooded basements or sinks, clogged drains, aquariums or back yard ponds.

Accessories include: 10" x 1¼" hose, two extension wands, 12" deluxe floor nozzle w/brush and squeegee inserts, 3-wheel dolly system, foam filter (5X879) and cartridge filter (2W435). Avg. motor brush life is 500 hours. 11.5 amps @ 120V. 140 CFM @ 2½" orifice. Static pressure is 60, 20½ x 17 x 35¼". UL Listed, CSA certified. Dayton brand.

**New No. 4TR21.** Shpg. wt. 33.0 List.....$288.42.
Each.....**$229.00**

## DAYTON "ON DEMAND" VAC

- Power Tool Activated vacuum for clean work environment
- Built-in outlet for power tool
- 3-position switch On/Off/Auto
- Auto power adjusts to maintain maximum available vacuum power
- Auto start/delay stop (to clear debris) when tool is turned On/Off
- 4.0 HP single-stage, by-pass motor
- 9.5 amp, 120V, 50/60 Hz motor delivers 60" static vacuum pressure and 190 CFM at 2½" tank orifice

7 ft. x1½" crush-proof hose, 6" utility nozzle, brush insert, out board caster feet with on board tool caddy. Cartridge type filter and collection filter bag for fine dust. 18 ft. 3-cond. cord. Average motor brush life: 500 hours*. UL Listed, CSA Certified. Dayton brand.

**No. 3UP78.** Shpg. wt. 20.0 lbs. List.....$281.56.
Each.....**$225.25**

* designed for intermittent duty application. (•) Replacement motor brushes available through Grainger Parts Operation.

## WET/DRY VACS WITH PORTABLE BLOWER

Two powerful cleaners in one. Combines the versatility of a wet/dry vacuum with the convenience of a hand-held portable blower. For vacuuming dry dust, wood and metal chips, small nails, glass, and plastic as well as wet pickup. Detachable blower with wand attachment can be used to power sweep leaves, litter and clippings.

120V, 50/60 HZ single-stage bypass motor, safety edge lid, automatic float shut-off to stop wet pickup when full and prevent overflow, dent and rust-resistent plastic tank, and inlet that accepts 1¼" or 2½" hoses without adapter.

Portable blower features impact resistant plastic housing, two handles for greater control, and lightweight design.

Accessories included: 6ft. x 2½" hose, two 2½" extension wands, 2½" utility nozzle, 14" floor nozzle with brush and squeegee insert, 2½" crevice tool, blower nozzle, diffuser, dry and foam filter, snap-on caster system on board tool storage, high quality cartridge filter.

## VAC FILTER BAGS

### DUAL-PLY COLLECTION FILTER BAG

- Constructed with a high efficiency inner liner which improves filtration, strength and dust capacity.
- Electrostatically charged
- Traps most microscopic indoor irritants and pollutants
- Convenient to use

### MICRO COLLECTION FILTER BAG

- Superior airflow capabilities
- Microfibers of polypropylene media provide superior filter strength and allows maximum cleaning suction
- Resists moisture and degradation
- Combination of mechanical capture mechanisms and electrostatic charged fibers provide superior particle capture
- Large filtration area

Dayton®

No. 3UP64

Collection filter bags are designed for maximum air quality and are not intended for hazardous materials

## WET/DRY AND WET ONLY AIR-POWERED VACS

**A No. 1N160 18-Gallon Portable Air Vacuum**

- **Only 19" wide—Air power through tight spaces**
- **50 CFM air at 80 PSI**
- **Compressed air powered vacuum, single venturi, packaged with three jet sizes**
- **External filter resists clogging and handles simultaneous wet/dry pickup**

Portable; two rear wheels, two front swivel casters. Hinged stainless steel tank—just tilt to empty. Comes with 15 ft. x 1½" static conductive urethane hose with sleeve, double curved wand, 14" floor squeegee tool, 14" hard floor tool, 18 x 1½" hand nozzle.

**B No. 1N161 55-Gallon Dual-Venturi Air-Vacuum Head**

- **Reach deeper and farther to recover heavier water, dirt, and sludge**
- **Three jet sizes**
- **External filters resist clogging**
- **Simultaneous wet and dry pickup**

Jumbo air vac with drum mount and attachments, fits 55-gallon roll top drum, No. 1N159. Includes dual liquid shut-off (installed), 2" hose adapter, 15 ft. x 2" static conductive neoprene hose, double curve wand, 22 x 2" floor squeegee, floor gulper tool, and 18" hand nozzle.

**B No. 1N162 55-Gallon Quad Air-Vacuum Head**

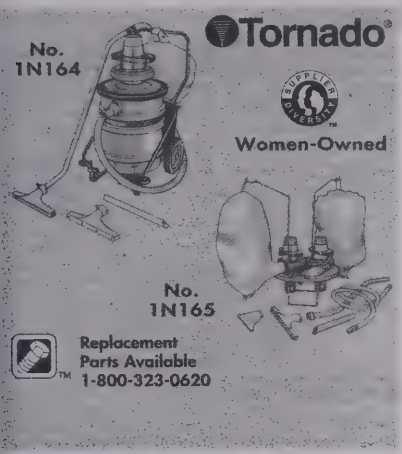
- **In less than a minute recovers 55 gallons of viscous liquids from 100 ft. away. Also picks up shot, blasting sand, and ultrafine dust**
- **External filters resist clogging**
- **Simultaneous wet and dry pickup**
- **Liquid shut-off installed**

Fits 55-gallon roll top drum, No. 1N159. Includes 2" hose adapter 15 ft. x 2" static conductive neoprene hose, double curve wand 22" floor squeegee tool, floor gulper tool, and 18" hand nozzle.

**C No. 1N163 55-Gallon Dual-Head Internal Air Vacuum**

- **For wet recovery only**
- **For flood control, sludge pick up, and cleaning of sumps and coolant tanks**
- **Mufflers provide quiet operation**

Fits 55-gallon roll top drum, No. 1N159. Incl. dual liquid shut offs, 2" hose adapter, 15 ft. x 2" static conductive neoprene hose two-piece double curve wand, 22" floor squeegee tool, and 18' hand nozzle.



### ACCESSORIES FOR WET/DRY VACS

**D No. 1N159 55-Gallon Jumbo Drum (Not Shown).** 18-gauge stee roll-top drum. 2" Positive-seal drain valve for easy emptying.

**E No. 1N152 Powerhead Silencer (Not Shown).** This flow-through muffler fits between power unit and filter. Reduces the sound level of electric and air powerheads. One required for each powe unit.

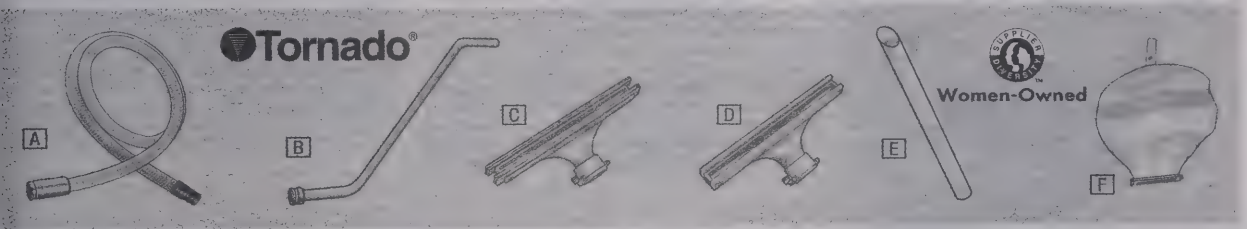
## WET/DRY ELECTRIC VACS

### No. 1N164 16 GALLON T-LITE ELECTRIC VACUUM

- **Crack-proof, corrosion-proof, thermo-plastic tank has 5-year warranty**
- **2.25 HP, 15 amp blower style motor**
- **115V portable vacuum with two rear wheels, two front swivel casters**
- **51" static waterlift—184 CFM air**
- **Hinged tank for easy emptying**
- **External filter resists clogging**

Detachable powerhead and large poly external filter. Includes liquid shut-off, 15 ft. x 1½" static conductive urethane hose with sleeve, two-piece double curve wand, 14" squeegee floor tool, 14" hard floor tool and 18" hand nozzle. Breuer/Tornado brand (98954).

**No. 1N164.** Shpg. wt. 110.0 lbs. List....$1721.78.
Each.....**$1549.00**



### No. 1N165 55 GALLON DUAL JUMBO ELECTRIC VACUUM HEADS

- **Dual 2.25 HP, 15 amp blower motors—removable motors for use as blowers**
- **Fits 55-gallon roll-top drum No. 1N159**
- **External filters resist clogging**
- **51" static waterlift—243 CFM air**
- **Installed liquid shut-off**

Simultaneously picks up wet and dry dirt. Includes liquid shut-off, 2" hose adapter, 15 ft. x 2" static conductive urethane hose, 2" two-piece double curve wand, 22" floor squeegee tool, floor gulper tool, 18" hand nozzle. Breuer/ Tornado brand (98958).

**No. 1N165.** Shpg. wt. 142.0 lbs. List....$2956.10.
Each.....**$2660.00**

TELL US WHAT YOU NEED—WE'LL DO OUR BEST TO HELP YOU!

# INDOOR/OUTDOOR VACUUM AND SWEEPERS

## INDOOR/OUTDOOR VACUUM

Use for quick and easy cleaning of small areas indoors or outdoors to clean litter, dirt, and debris from any hard surface area or low nap commercial carpeting.

**Typical Applications:** lobbies, sidewalks, and entryways; areas around equipment where light debris pick-up is required, and in hallways. Also use for touch-ups of local areas in malls, theaters, and auditoriums.

**Features:** 19" wide nozzle has 2 height settings. Safety operating switch. 8-gallon filter/collector bag has zipper for easy emptying. 120 Volt, 60 Hz. 6.0 Amp. 1.25 Peak HP. Single-stage motor. UL Listed (E40197) and CSA Certified (16331). Double insulated. Dayton brand.

**No. 6H003.** Shpg. wt. 18.0 lbs. List.....$167.25.
Each.....**$133.80**

## ELECTRIC & GASOLINE POWERED SWEEPERS

**Self-propelled Forward Electric or Gasoline Powered Walk-behind Sweepers increase productivity** and lower labor cost by providing efficient cleaning of large and small hard surface areas. Use in factories, warehouses, malls, auditoriums, parking lots, docks and walkways. Thoroughly cleans any relatively smooth, even floor including linoleum, concrete and asphalt. Unique design engages brushes smoothly and provides main drive speed control with a single control lever conveniently located on handle. Brushes rotate only when unit is activated which conserves power. No tools needed. Split shaft design for easy drive belt replacement. Durable one-piece unitized steel frame. UL Listed. Dayton brand. **Features include** 36" wide sweeping path, 14" dia. side broom (standard equipment). Vacuum filter system has a 49.2 sq.-ft. pleated filter panel, 2.7 cu.-ft. hopper, single control lever on handle, hour meter, 22,500 sq.-ft. average sweeping area per hour. Overall dimensions 60L x 38W x 39"H.

| Power Supply | Standard Equipment | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **Electric (battery)** | 14" side broom, two 12-volt batteries, charger, charger timer, ammeter | **6H001** | $6345.00 | **$5076.00** | 451.0 |
| **Gasoline** | 14" side broom, 5 HP Briggs & Stratton engine | **6H002** | 5443.75 | **4355.00** | 312.0 |

## INDOOR/OUTDOOR PUSH SWEEPERS

Increase maintenance productivity with cleaner, more efficient results. Designed for quick cleaning of warehouses, manufacturing floors, machine shops, shopping malls, parking areas, sidewalks and lobbies. Cleans dirt, dust and litter from any hard surface such as asphalt, wood, cement, etc.

Cleans a 27" wide path. Side broom sweeps debris away from walls, curbs and obstacles into path of the main broom. The reverse rotation of the 8 x 19" main broom sweeps the debris into the large 1.4 cu-ft hopper. Carrying handle on dirt hopper makes removal and emptying easy.

**Features:** Two large 10" main wheels and 3" caster combined with lightweight, durable construction make the sweeper easy to push and maneuver. Handle is 7/8" dia. steel tubing. Adjustable side and main brooms. Dent and rust-resistant.

## PARKER PUSH VACS

Parker®

No. 3Z804

**The Parker VAC-35®** is a powerful, easy to operate walk-behind vacuum, well suited for cleaning up litter, debris, waste, and leaf covered grounds.

Aerodynamic design for maximum airflow of 2,000 CFM which exceeds 70 MPH at the 30" wide intake housing. Nonsparking aluminum/magnesium impeller in steel lined housing complete with anti-wrap protection. High-tech plastic technology reduces vibration, noise levels, and weight. Spin-Pak® safety deflector and debris packer protects operator while packing up to 19% more bulk material in to 7.2 bushel mildew-resistant felt collector bag. Heavy gauge steel handles, chassis and axles for maximum durability. Fully pneumatic 5 x 14" cleated tires and 3" dual swivel casters for easy maneuverability.

**No. 3Z803, 5 HP.** Briggs & Stratton 5 HP, 4-cycle engine with recoil starter, float type carburetor, easy access oil drain, handle mounted throttle control and shut-off. 3 quart fuel tank.

**No. 3Z804, 8 HP.** Kohler Magnum® cast-iron, 8 HP, 4-cycle engine. Added horsepower ensures big-job efficiency, longer life and maintenance-free service. Equipped with recoil starter, engine throttle control and shut-off in easy reach of operator. 1¼ gallon fuel tank.

**Replacement Collector Bags.** Mildew protected synthetic felt collector bag with 54" brass zipper.

**PARKER 2 YEARS PARTS AND 1 YEAR LABOR LIMITED WARRANTY**

Text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover.
